(c) In registering a vehicle or special mobile machinery, filing or releasing liens, or issuing any type of certificate of title, the third-party provider is acting as an agent of the department. The third-party provider shall collect and remit to the department all taxes and fees imposed by law to issue any type of certificate of title, file or release a lien, or to register the vehicle or special mobile machinery.

(d) A third-party provider may charge its clients a fee for each electronic registration transaction, lien transaction, or titling transaction. (e) The department shall ensure that the addresses of program participants under part 21 of article 30 of title 24 are not released to third-party providers or the clients of third-party providers.

(2) (a) The department is authorized to seek and accept gifts, grants, or donations from private or public sources, including from third-party providers, for the purposes of this section; except that the department may not accept a gift, grant, or donation that is subject to conditions that are inconsistent with this section or any other law of the state. (III) The department shall set the fee imposed in subsection (2)(b)(I) of this section to:

(A) Offset the direct and indirect costs of administering the electronic transmission of registration, lien, and titling information in accordance with this section; and

(B) Collect one million six hundred thirty-one thousand seven hundred ninety-two dollars by June 30, 2023. If the amount is not collected by June 30, 2023, the department shall set the fee to collect the remaining amount by December 31, 2023.

(IV) The department shall remit all fees collected under this subsection (2)(b) to the state treasurer, who shall credit:

The department shall, upon having adequate money in the fund, phase in implementation of this section as reasonable. The general assembly may appropriate money from the general fund or the highway users tax fund created in section 43-4-201 to implement this section.

(b) This subsection (3) does not affect any rules promulgated, or appropriations made, before July 1, 2019.

(4) (a) The electronic transactions fund, referred to in this subsection (4) as the "fund", is hereby created in the state treasury. The fund consists of money that the general assembly may appropriate or transfer to the fund and money credited to the fund under this section.

(b) The state treasurer shall credit all interest and income derived from the deposit and investment of money in the fund to the fund.

(c) Subject to annual appropriation by the general assembly, the department may expend state money from the fund to implement and administer electronic transmission of registration, lien, and titling information in accordance with this section.

(5) (a) Subsections (2)(a) and (3) of this section and this subsection (5) will be repealed if the department fully implements this section. 42-2-101. Licenses for drivers required - penalty - definition. (1) Except as otherwise provided in part 4 of this article for commercial drivers, no person shall drive any motor vehicle upon a highway in this state unless such person has been issued a currently valid driver's or minor driver's license or an instruction permit by the department under this article.

(2) No person shall drive any motor vehicle upon a highway in this state if such person's driver's or minor driver's license has been expired for one year or less and such person has not been issued another such license by the department or by another state or country subsequent to such expiration.

(3) No person shall drive any motor vehicle upon a highway in this state unless such person has in his or her immediate possession a current driver's or minor driver's license or an instruction permit issued by the department under this article.

(4) No person who has been issued a currently valid driver's or minor driver's license or an instruction permit shall drive a type or general class of motor vehicle upon a highway in this state for which such person has not been issued the correct type or general class of license or permit.

(5) No person who has been issued a currently valid driver's or minor driver's license or an instruction permit shall operate a motor vehicle upon a highway in this state without having such license or permit in such person's immediate possession.

(7) A charge of a violation of subsection (5) of this section shall be dismissed by the court if the defendant elects not to pay the penalty assessment and, at or before the defendant's scheduled court appearance, exhibits to the court a currently valid license or permit issued to such person or an officially issued duplicate thereof if the original is lost, stolen, or destroyed.

(8) The conduct of a driver of a motor vehicle which would otherwise constitute a violation of this section is justifiable and not unlawful when:

(a) It is necessary as an emergency measure to avoid an imminent public or private injury which is about to occur by reason of a situation occasioned or developed through no conduct of said driver and which is of sufficient gravity that, according to ordinary standards of intelligence and morality, the desirability and urgency of avoiding the injury clearly outweigh the desirability of avoiding the injury sought to be prevented by this section; or

(9) The issue of justification or exemption is an affirmative defense. As used in this subsection (9), "affirmative defense" means that, unless the state's evidence raises the issue involving the particular defense, the defendant, to raise the issue, shall present some credible evidence on that issue. If the issue involved in an affirmative defense is raised, then the liability of the defendant must be established beyond a reasonable doubt as to that issue as well as all other elements of the traffic infraction.

(11) Notwithstanding any law to the contrary, a second or subsequent conviction under subsection (1) or (4) of this section, when a person receiving such conviction has not subsequently obtained a valid Colorado driver's license or the correct type or general class of license, shall result in the assessment by the department of six points against the driving privilege of the person receiving such second or subsequent conviction.

42-2-105.5. Restrictions on minor drivers under eighteen years of age - penalties - legislative declaration. (1) The general assembly finds, determines, and declares that:

(a) Teenage drivers, in order to become safe and responsible drivers, need behind-the-wheel driving experience before they can begin to drive without restrictions;

(b) Providing additional behind-the-wheel training with a parent, guardian, or other responsible adult before obtaining a minor driver's license is the beginning of the young driver's accumulation of experience;

(c) Once a teenage driver begins to drive without a parent, guardian, or other responsible adult in the vehicle, it is necessary to place restrictions on a teenage driver who holds a minor driver's license until such driver turns eighteen years of age in order to give that driver time to exercise good judgment in the operation of a vehicle while keeping that driver, his or her passengers, and the public safe;

(d) Penalties for the violation of these restrictions on minor drivers under eighteen years of age, including the assessment of points where they may not otherwise be assessed, should be sufficient to ensure that chronic violations would result in swift and severe repercussions to reinforce the importance of obeying the driving laws in order to keep the minor driver, his or her passengers, and the public safe.

(2) Repealed.

(3) Occupants in motor vehicles driven by persons under eighteen years of age shall be properly restrained or wear seat belts as required in sections 42-4-236 and 42-4-237.

(4) No more than one passenger shall occupy the front seat of the motor vehicle driven by a person under eighteen years of age, and the number of passengers in the back seat of such vehicle shall not exceed the number of seat belts.

(5) (a) Except as otherwise provided in paragraph (b) of this subsection (5), any person who violates this section commits a class A traffic infraction.

(b) A violation of subsection (3) of this section is a traffic infraction, and, notwithstanding the provisions of section 42-4-1701 (4)(a)(I)(D), a person convicted of violating subsection (3) of this section shall be punished as follows:

(I) By the imposition of not less than eight hours nor more than twenty-four hours of community service for a first offense and not less than sixteen hours nor more than forty hours of community service for a subsequent offense;

(II) By the levying of a fine of not more than sixty-five dollars for a first offense, a fine of not more than one hundred thirty dollars for a second offense, and a fine of one hundred ninety-five dollars for a subsequent offense; and

(III) By an assessment of two license suspension points pursuant to section 42-2-127 (5)(hh).

42-2-106. Instruction permits and temporary licenses. (1) (a) (I) A person who is sixteen years of age or older and who, except for the person's lack of instruction in operating a motor vehicle or motorcycle, would otherwise be qualified to obtain a license under this article may apply for a temporary instruction permit in accordance with sections 42-2-107 and 42-2-108. The department shall issue a permit entitling an applicant, who is sixteen years of age or older but under eighteen years of age, while having the permit in the applicant's immediate possession, to drive a motor vehicle or motorcycle upon the highways when accompanied by the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who signed the affidavit of liability pursuant to section 42-2-108 (1)(a), who holds a valid Colorado driver's license, and who occupies the front seat in close proximity to the driver or, in the case of a motorcycle, under the immediate proximate supervision of a licensed driver, who holds a valid Colorado driver's license and is twenty-one years of age or older, authorized under this article to drive a motorcycle. In addition, the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who is authorized pursuant to this section to supervise the minor driver while the minor is driving, may allow the minor, while having the permit in the applicant's immediate possession, to drive with an individual who holds a valid driver's license and is twenty-one years of age or older for additional driving experience, but such additional driving experience shall not count toward the requirement established in section 42-2-104. The permit shall expire three years after issuance. The department shall issue a permit entitling the applicant, who is eighteen years of age or older, while having the permit in the applicant's immediate possession, to drive a motor vehicle or motorcycle upon the highways when

accompanied by a driver, who holds a valid Colorado driver's license and is twenty-one years of age or older, who occupies the front seat of the motor vehicle, or if the vehicle is a motorcycle under the immediate proximate supervision of a driver, who is authorized under this article to drive a motorcycle. The permit shall expire three years after issuance.

(II) If the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who signed the affidavit of liability pursuant to section 42-2-108 (1)(a), does not hold a valid Colorado driver's license, the parent, stepparent, grandparent with power of attorney, or guardian or foster parent may appoint an alternate permit supervisor. An alternate permit supervisor shall hold a valid Colorado driver's license and be twenty-one years of age or older or, if the vehicle is a motorcycle, is authorized under this article to drive a motorcycle. A minor who is issued a permit under this paragraph (a) may drive a motor vehicle, including a motorcycle, under the supervision of the alternate permit supervisor if the minor has the permit in the minor's immediate possession and the alternate permit supervisor occupies the front seat of the motor vehicle or, if the vehicle is a motorcycle, is in close proximity to the driver.

(III) If the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who signed the affidavit of liability pursuant to section 42-2-108 (1)(a), does not hold a valid Colorado driver's license but holds a valid driver's license from another state and is authorized to drive a motor vehicle or motorcycle and has proper military identification, then the applicant, while having the permit in the applicant's immediate possession, shall be authorized to drive a motor vehicle, including a motorcycle, under the supervision of the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who cosigned the application for the minor's instruction permit, if the parent, stepparent, grandparent with power of attorney, or guardian or foster parent occupies the front seat of the motor vehicle or, if the vehicle is a motorcycle, is in close proximity to the driver while the minor is driving.

(b) (I) A minor who is fifteen years of age or older and has completed a department-approved driver education course within the last six months may apply for a minor's instruction permit, pursuant to sections 42-2-107 and 42-2-108. Nothing in this subparagraph (I) shall require a minor who is fifteen years of age or older and in the foster care system to complete and present an affidavit of liability to register for a department-approved driver education course prior to applying for a minor's instruction permit. Upon presentation of a written or printed statement signed by the parent, stepparent, grandparent with power of attorney, or guardian or foster parent and the instructor of the driver education course that the minor has passed an approved driver education course, and a signed affidavit of liability pursuant to section 42-2-108, the department shall issue the permit entitling the applicant, while having the permit in the applicant's immediate possession, to drive a motor vehicle, including a motorcycle, under the supervision of the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who cosigned the application for the minor's instruction permit, if the parent, stepparent, grandparent with power of attorney, or guardian or foster parent holds a valid Colorado driver's license and occupies the front seat of the motor vehicle or, if the vehicle is a motorcycle, is authorized under this article to drive a motorcycle and is in close proximity to the driver while the minor is driving. In addition, the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who is authorized pursuant to this section to supervise the minor driver while the minor is driving, may allow the minor, while having the permit in the applicant's immediate possession, to drive with an individual who holds a valid driver's license and is twenty-one years of age or older for additional driving experience, but such additional driving

experience shall not count toward the requirement established in section 42-2-104. The permit shall also entitle the applicant to drive a motor vehicle, including a motorcycle, that is marked to indicate that it is a motor vehicle used for instruction and that is properly equipped for instruction, upon the highways when accompanied by or under the supervision of an approved driver education instructor who holds a valid Colorado driver's license. Driver education instructors giving instruction in motorcycle safety shall have a valid motorcycle driver's license from Colorado and shall have successfully completed an instruction program in motorcycle safety approved by the department. The permit shall expire three years after issuance.

(II) If the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who signed the affidavit of liability pursuant to section 42-2-108 (1)(a), does not hold a valid Colorado driver's license, the parent, stepparent, grandparent with power of attorney, or guardian or foster parent may appoint an alternate permit supervisor. An alternate permit supervisor shall hold a valid Colorado driver's license and be twenty-one years of age or older or, if the vehicle is a motorcycle, is authorized under this article to drive a motorcycle. A minor who is issued a permit under this paragraph (b) may drive a motor vehicle, including a motorcycle, under the supervision of the alternate permit supervisor if the minor has the permit in the minor's immediate possession and the alternate permit supervisor occupies the front seat of the motor vehicle or, if the vehicle is a motorcycle, is in close proximity to the driver.

(III) If the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who signed the affidavit of liability pursuant to section 42-2-108 (1)(a), does not hold a valid Colorado driver's license but holds a valid driver's license from another state and is authorized to drive a motor vehicle or motorcycle and has proper military identification, then the applicant, while having the permit in the applicant's immediate possession, shall be authorized to drive a motor vehicle, including a motorcycle, under the supervision of the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who cosigned the application for the minor's instruction permit, if the parent, stepparent, grandparent with power of attorney, or guardian or foster parent occupies the front seat of the motor vehicle or, if the vehicle is a motorcycle, is in close proximity to the driver while the minor is driving.

(c) A person sixteen years of age or older who, except for his or her lack of instruction in operating a motorcycle would otherwise be qualified to obtain a driver's license under this article to drive a motorcycle may apply for a temporary instruction permit, pursuant to sections 42-2-107 and 42-2-108. The department shall issue the permit entitling the applicant, while having the permit in the applicant's immediate possession, to drive a motorcycle upon the highways while under the immediate supervision of a licensed driver, who holds a valid Colorado driver's license and is twenty-one years of age or older, authorized under this article to drive a motorcycle. The permit shall expire three years after issuance.

(d) (I) A minor fifteen and one-half years of age but less than sixteen years of age who has completed a four-hour prequalification driver awareness program approved by the department may apply for a minor's instruction permit pursuant to sections 42-2-107 and 42-2-108. Upon presenting a written or printed statement signed by the parent, stepparent, grandparent with power of attorney, or guardian or foster parent of the applicant and documentation that the minor completed the driver awareness program, the department shall issue a permit entitling the applicant, while having the permit in the applicant's immediate possession, to drive a motor vehicle, including a motorcycle, under the supervision of the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who cosigned the application for the minor's

instruction permit, if the parent, stepparent, grandparent with power of attorney, or guardian or foster parent holds a valid Colorado driver's license and occupies the front seat of the motor vehicle or, if the vehicle is a motorcycle, is authorized under this article to drive a motorcycle and is in close proximity to the driver while he or she is driving. In addition, the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who is authorized pursuant to this section to supervise the minor driver while the minor is driving, may allow the minor, while having the permit in the applicant's immediate possession, to drive with an individual who holds a valid driver's license and is twenty-one years of age or older for additional driving experience, but such additional driving experience shall not count toward the requirement established in section 42-2-104. The permit shall expire three years after issuance.

(II) If the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who signed the affidavit of liability pursuant to section 42-2-108 (1)(a), does not hold a valid Colorado driver's license, the parent, stepparent, grandparent with power of attorney, or guardian or foster parent may appoint an alternate permit supervisor. An alternate permit supervisor shall hold a valid Colorado driver's license and be twenty-one years of age or older or, if the vehicle is a motorcycle, is authorized under this article to drive a motorcycle. A minor who is issued a permit under this paragraph (d) may drive a motor vehicle, including a motorcycle, under the supervision of the alternate permit supervisor if the minor has the permit in the minor's immediate possession and the alternate permit supervisor occupies the front seat of the motor vehicle or, if the vehicle is a motorcycle, is in close proximity to the driver.

(III) If the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who signed the affidavit of liability pursuant to section 42-2-108 (1)(a), does not hold a valid Colorado driver's license but holds a valid driver's license from another state and is authorized to drive a motor vehicle or motorcycle and has proper military identification, then the applicant, while having the permit in the applicant's immediate possession, shall be authorized to drive a motor vehicle, including a motorcycle, under the supervision of the parent, stepparent, grandparent with power of attorney, or guardian or foster parent, who cosigned the application for the minor's instruction permit, if the parent, stepparent, grandparent with power of attorney, or guardian or foster parent occupies the front seat of the motor vehicle or, if the vehicle is a motorcycle, is in close proximity to the driver while the minor is driving.

(e) Repealed.

(f) Notwithstanding paragraphs (a) to (d) of this subsection (1), a temporary instruction permit to operate a commercial motor vehicle as defined in section 42-2-402 shall expire one year after issuance.

(g) A person who qualifies for a permit under subsection (1)(a), (1)(b), (1)(c), or (1)(d) of this section and who has a disability that requires the person to use a special vehicle or qualifies the person for parking privileges under section 42-3-204 may apply for an instruction permit in accordance with the subsection under which the person qualifies for a permit. Upon determining that a person is qualified for the permit, the department shall issue a permit entitling an applicant to drive a motor vehicle or motorcycle upon the highways in accordance with the requirements of the subsection under which the person qualifies for the permit and any further requirements the department may reasonably require due to the person's disability. The permit expires three years after issuance.

(h) Notwithstanding subsections (1)(b) to (1)(d) of this section, a foster child, to obtain an instruction permit under subsections (1)(b) to (1)(d) of this section, may drive with any person who:

- (I) Holds a valid driver's license;
- (II) Is at least twenty-one years of age; and
- (III) Occupies the front passenger seat, in close proximity to the foster child, for the purposes of instruction.

(2) (a) The department, in its discretion, may issue a temporary driver's license to an applicant, who is not a first time applicant in Colorado or who is under eighteen years of age and is accompanied by a responsible party meeting the requirements of section 42-2-108 (1), for a minor driver's or driver's license which will permit such applicant to operate a motor vehicle while the department completes its verification of all facts relative to such applicant's right to receive a minor driver's or driver's license.

(b) The department shall issue a temporary driver's license to a first time applicant in Colorado for a minor driver's or driver's license that will permit such applicant to operate a motor vehicle while the department completes its verification of all facts relative to such applicant's right to receive a minor driver's or driver's license including the age, identity, and residency of the applicant, unless such applicant is under eighteen years of age and is accompanied by a responsible adult meeting the requirements of section 42-2-108 (1). Such verification shall include a comparison of existing driver's license and identification card images in department files with the applicant's images to ensure such applicant has only one identity.

(c) A temporary license is valid for up to one year as determined by the department, unless extended by the department, and must be in such applicant's immediate possession while operating a motor vehicle. It shall be invalid when the permanent license has been issued or has been refused for good cause.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

The department shall set the fee in accordance with section 42-2-114.5 (2). The department shall transfer the fee to the state treasurer, who shall credit it to the licensing services cash fund created in section 42-2-114.5 (1). Every applicant shall submit with the application proof of age or proof of identity, or both, as the department may require.

(II) If an applicant is applying for an instruction permit or driver's or minor driver's license for the first time in Colorado and the applicant otherwise meets the requirements for such license or permit, the applicant shall receive a temporary license or instruction permit pursuant to section 42-2-106 (2) until the department verifies all facts relative to such applicant's right to receive an instruction permit or minor driver's or driver's license including the age, identity, and residency of the applicant.

(b) (I) An applicant who submits proof of age or proof of identity issued by an entity other than a state or the United States shall also submit such proof as the department may require that the applicant is lawfully present in the United States.

(II) An applicant who submits, as proof of age or proof of identity, a driver's license or identification card issued by a state that issues drivers' licenses or identification cards to persons who are not lawfully present in the United States shall also submit such proof as the department may require that the applicant is lawfully present in the United States.

(c) The department shall not issue a driver's or minor driver's license to a person who is not lawfully present in the United States.

therefor, and the date thereof. These statements shall be verified by the applicant's signature thereon.

(II) The department shall issue a new driver's license to a person who has a gender different from the sex denoted on that person's driver's license when the department receives a new birth certificate issued pursuant to section 25-2-113.8 or when the department receives:

(A) A statement, in a form or format designated by the department, from the person, or from the person's parent if the person is a minor, or from the person's guardian or legal representative, signed under penalty of law, confirming the sex designation on the person's driver's license does not align with the person's gender identity; and

(B) If the person is a minor under the age of eighteen, a statement, in a form or format designated by the department, signed under penalty of law, from a professional medical or mental health-care provider licensed in good standing in Colorado or with an equivalent license in good standing from another jurisdiction, stating that the sex designation on the driver's license does not align with the minor's gender identity. This subsection (2)(a)(II)(B) does not require a minor to undergo any specific surgery, treatment, clinical care, or behavioral health care.

(III) The department may only amend a sex designation for an individual's driver's license one time upon the individual's request. Any further requests from the individual for additional sex designation changes require the submission of a court order indicating that the sex designation change is required.

(IV) In addition to the information required by subsection (2)(a)(I) of this section, every application shall include the opportunity for the applicant to self-identify his or her race or ethnicity. The race or ethnicity information that may be identified on the application shall not be printed on the driver's license but shall be maintained in the stored information as defined by section 42-2-114 (1)(b). That information must be accessible to a law enforcement officer through magnetic or electronic readers.

App. sec. 453, as amended.

(b) The department shall forward in an electronic format the necessary personal information of the applicants identified in paragraph (a) of this subsection (2.5) to the selective service system. The applicant's submission of an application shall serve as an indication that the applicant either has already registered with the selective service system or that he is authorizing the department to forward to the selective service system the necessary information for such registration. The department shall notify the applicant that his submission of an application constitutes consent to registration with the selective service system, if so required by federal law.

If the applicant does not have a social security number, the applicant shall submit a sworn statement made under penalty of law, together with the application, stating that the applicant does not have a social security number.

(b) If federal law is changed to prohibit the collection of social security numbers on driver's license applications, the department shall automatically stop its practice of including applicants' social security numbers on applications for driver's and minor driver's licenses as specified in paragraph (a) of this subsection (3).

(c) A sworn statement that is made under penalty of perjury shall be sufficient evidence of the applicant's social security number required by this subsection (3) and shall authorize the department to issue a driver's or minor driver's license to the applicant. Nothing in this paragraph (c) shall be construed to prevent the department from canceling, denying, recalling, or updating a driver's or minor driver's license if the department learns that the applicant has provided a false social security number.

(B) The general assembly further finds, determines, and declares that state government should play a role in increasing the availability of human organs and tissue to procurement organizations, as defined in section 15-19-202, by acting as a conduit to make money available for promoting organ and tissue donation and that this role constitutes a public purpose.

(II) There is hereby created in the state treasury the Emily Keyes - John W. Buckner organ and tissue donation awareness fund, which shall consist of all moneys credited thereto

from all sources including but not limited to moneys collected from voluntary contributions for organ and tissue donation pursuant to subparagraph (V) of this paragraph (b) and section 42-2-118 (1)(a)(II). All interest derived from the deposit and investment of this fund shall be credited to the fund. At least quarterly, the state treasurer shall transfer all available moneys in the Emily Keyes - John W. Buckner organ and tissue donation awareness fund to Donor Alliance, Inc., or its successor organization, as directed by sub-subparagraph (A) of subparagraph (III) of this paragraph (b).

42-2-108. Application of minors - rules. (1) (a) (I) The application of any person under eighteen years of age for an instruction permit or minor driver's license must be accompanied by either:

(A) An affidavit of liability signed and verified by the parent, stepparent, foster parent, grandparent with power of attorney, guardian, spouse of the applicant if the spouse is eighteen years of age or older, or any other responsible adult who assumes the obligation imposed under this article 2 by signing the affidavit of liability for a minor; or

(B) Proof of financial responsibility for the future, as defined in section 42-7-103 (14), held in the name of the minor if the minor is a foster child.

(II) When an applicant has been made a ward of any court in the state for any reason and has been placed in foster care, the foster parents or parent may sign the affidavit of liability for the minor. If the parent or foster parent is unwilling or unable to sign the affidavit of liability, a guardian ad litem, an official of the county department of human or social services having custody of the applicant, or an official of the division of youth services in the state department of human services having custody of the applicant may sign the application for an instruction permit without signing the affidavit of liability for the minor if the requirements of subsection (1)(b) of this section are met; except that, prior to signing the application for an instruction permit, the guardian ad litem or other official shall notify the court of his or her intent to sign the application, and except that the guardian ad litem or official shall not sign the application for an instruction permit for a minor who is placed in foster care and is under seventeen years of age without first obtaining the consent of the foster parent. If the minor is seventeen years of age or older and is in the care of a foster parent, in order to prepare the minor for emancipation from foster care and to assist the minor in obtaining important life skills, the guardian ad litem or official shall consult with the foster parent of the minor about the opportunity for the minor to learn driving skills under the restrictions provided in subsection (1)(b) of this section prior to signing an application for an instruction permit. The guardian ad litem or official shall solicit the opinion of the minor's foster parent concerning the minor's ability to exercise good judgment and make decisions as well as the minor's overall capacity to drive.

(III) When a minor to whom an instruction permit or minor driver's license has been issued is required to appear before the department for a hearing in accordance with this article 2, the person who signed the affidavit of liability for the minor or the guardian ad litem or official who signed the application for an instruction permit for the minor shall accompany the minor. If the person who signed the minor's affidavit of liability or application for an instruction permit is unable to attend the hearing, he or she shall submit to the department a verified signed statement certifying under oath that he or she is aware of the purpose of the hearing but cannot attend.

(b) The department shall issue an instruction permit to an applicant under eighteen years of age who is otherwise eligible to obtain an instruction permit and who has been made a ward of the court and who is in out-of-home placement without the requirement of a person signing an affidavit of liability if the following requirements are met:

(I) The guardian ad litem, an official of the county department of human or social services having custody of the applicant, or an official of the division of youth services in the

state department of human services having custody of the applicant signs the application for an instruction permit; and

(II) (A) If the minor is in the care of a foster parent and is under seventeen years of age, the foster parent consents to the minor learning driving skills under the restrictions provided in this subsection (1); or

(B) If the minor is in the care of a foster parent and is at least seventeen years of age, the guardian ad litem or the official has consulted with the foster parent prior to signing the application for an instruction permit.

(III) and (IV) Repealed.

(1.5) (a) The application of any person under the age of eighteen years for an instruction permit or minor driver's license shall include the option for a minor to be an organ or tissue donor.

(b) Repealed.

(c) Any person under the age of eighteen years who volunteers to donate anatomical gifts by designation on an instructional permit or minor driver's license shall include a notice of consent signed and verified by the father or the mother of the applicant, or, in the event neither parent is living, by the person or guardian having proof of legal custody of such minor, or by the spouse of the applicant if the spouse of the applicant is eighteen years of age or older.

(d) If the person under the age of eighteen years who volunteers to donate anatomical gifts by designation on an instructional permit or minor driver's license is an emancipated minor, a notice of consent is not necessary for an anatomical gift to be valid.

(e) Each county department of human or social services having custody of a foster child or ward of the court may implement a program that provides the services authorized under subsection (1)(b) of this section. The county department of human or social services may:

(I) Assess the child's or ward's mental, emotional, and physical ability to safely drive a motor vehicle and, based on that assessment, approve or deny the provision of services under subsection (1)(b) of this section; and

(II) Seek, accept, and expend gifts, grants, or donations from private or public sources for the purposes of this subsection (1.5).

(2) (a) Any negligence or willful misconduct of a minor under eighteen years of age who drives a motor vehicle upon a highway is imputed to the person who signed the affidavit of liability that accompanied the minor's application for an instruction permit or a minor driver's license. The person is jointly and severally liable with the minor for any damages caused by the minor's negligence or willful misconduct, except as provided in subsection (3) of this section.

(b) A guardian ad litem, an official of a county or district department of human or social services, or an official of the division of youth services in the state department of human services who signs a minor's application for an instruction permit or a minor driver's license but does not sign an affidavit of liability does not impute liability on themselves, on the county, or on the state for any damages caused by the negligence or willful misconduct of the applicant.

(c) Nothing in this section waives or limits the governmental immunity of a county or district department of human or social services, as described in article 10 of title 24.

(3) (a) The department shall accept the application of a qualified minor if:

(I) A minor under eighteen years of age has deposited, or there is deposited on the minor's behalf, proof of financial responsibility covering the operation of a motor vehicle owned

by the minor or, if the minor is not the owner of a motor vehicle, covering the operation of another motor vehicle; and

(II) The application is accompanied by an affidavit of liability signed by one parent or the guardian of the minor unless, under subsection (1) or (1.5) of this section, the minor need not have a responsible adult sign the affidavit of liability.

(b) While proof of financial responsibility is maintained, the parent, foster parent, or guardian is not subject to the liability imposed under subsection (2) of this section. Nothing in this section requires a foster parent to sign an affidavit of liability for a foster child and nothing in this section precludes a foster parent from obtaining a named driver's exclusion on the foster parent's insurance policy.

(4) Repealed.

(5) An individual who is in the custody of the state department of human services or a county or district department of human or social services who does not possess all of the required documents to apply for an instruction permit or a minor driver's license pursuant to this section may be eligible for exception processing pursuant to rules of the executive director of the department of revenue.

(6) On or before November 1, 2021, the executive director of the department of revenue shall promulgate rules establishing, to the extent permissible under federal law, forms of documentation that are acceptable for the purpose of allowing individuals who are in the custody of the state department of human services or a county or district department of human or social services to verify their legal residence in the United States, establish identity, and satisfy any other prerequisites for the acquisition of an instruction permit or a minor driver's license.

(II) The department, after payment of the required fee and the surrender or cancellation of any previously issued Colorado identification card, shall issue an instruction permit or minor driver's or driver's license to a first time applicant in Colorado only after the department completes its verification of all facts relative to such applicant's right to receive an instruction permit or minor driver's or driver's license including the age, identity, and residency of the applicant, unless such applicant is under eighteen years of age and is accompanied by a responsible adult meeting the requirements of section 42-2-108 (1). (B) To aid the department to ascertain a person's correct identity when there is reasonable suspicion that the person has used a driver's license or identification card to create a false identity. (8) Repealed.

(9) Notwithstanding the amount specified for any fee in this section, the executive director of the department by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the executive director of the department by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

(c) The department shall not charge a fee for placing a disability identifier symbol on a driver's license.

42-2-119. Notices - change of address or name. (1) (a) Whenever any person, after applying for or receiving a driver's license or identification card, moves from the address named in such application or in the license or identification card issued to such person or when the name of the licensee is changed, such person shall, within thirty days, provide notice to the department of such person's old and new address and the number of any license or identification card held by such person. Such notice shall be provided to the department in writing or in electronic form on the department's official website. A licensee who changes his or her name shall, within thirty days, apply in person to renew such license pursuant to section 42-2-118 and in compliance with sections 42-2-107 and 42-2-305.

(2) All notices and orders required to be given to any licensee or registered owner under the provisions of the motor vehicle laws shall be in writing; and, if mailed, postpaid by first-class mail, to him or her at the last-known address shown by the records kept by the department pursuant to this article. Such mailing shall be sufficient notice in accord with the motor vehicle laws. Any notice or order of the department mailed first-class under the provisions of this title creates a presumption for administrative purposes that such notice or order was received if the department maintains a copy of the notice or order and maintains a certification that the notice or order was deposited in the United States mail by an employee of the department. Evidence of a copy of the notice mailed to the last-known address of the licensee as shown by the records kept by the department pursuant to this article and a certification of mailing by a department employee, or evidence of delivery of notice in person to the last-known address of the licensee as shown by the records kept by the department pursuant to this article, or evidence of personal service upon the licensee or upon any attorney appearing on the licensee's behalf of the order of denial, cancellation, suspension, or revocation of the license by the executive director of the department, or by the executive director's duly authorized representative, is prima facie proof that the licensee received personal notice of said denial, cancellation, suspension, or revocation.

42-2-120. Methods of service. (1) Any notice or order required to be served under the provisions of the motor vehicle laws may be served in any manner reasonably designed to notify the person to be served of the material provisions of such notice or order. A person has been served with a notice or order when such person has knowledge of the material provisions of such notice or order, regardless of the manner in which such knowledge was acquired. Any irregularity in the form or manner of service or documentation of the proof of service or the means by which knowledge of the material provisions of a notice or order is acquired shall not affect the validity of such notice or order.

(2) For purposes of notices or orders relating to driving restraints only, "material provisions" means those provisions which identify the affected person, and those provisions which state that a restraint against the person's license or privilege to drive in this state has been, or will be, entered on the records of the department, or those provisions which advise the person that he or she has a right to request a hearing regarding the imposition of a restraint against such person's license or privilege to drive.

- (b) The date and time of service;
- (c) The identification number of the notice or order served, if any, or, in the event the notice or order is not available, a description of the information relayed to the person served;
- (d) The name, title, signature, and employing agency of the person making service;
- (e) The signature of the person served; and
- (f) The right index fingerprint of the person served.

(4) In addition to service by mail or any other means, service of notices or orders may be personally made by any employee of the department, any peace officer, any municipal, county, or state prosecutor, or any municipal, county or district court judge, magistrate, or judicial officer. If service is personally made under this subsection (4), proof of such service of any notice or order may be made by sending a written notification of service in any form to the department. Such notification shall be an official record of the department under section 42-2-121. It shall not be necessary that the written notification is on a form supplied by the department, but the department may refuse to accept as an official record a written notification

which does not provide substantially the same information as specified in subsection (3) of this section.

(5) Peace officers and employees of the department shall serve notices and orders relating to driving restraints upon the affected person anytime the affected person is contacted by a peace officer or employee of the department, when such peace officer or employee believes that the affected person may not have been previously personally served with any notice or order affecting such person's license or privilege to drive a motor vehicle in this state.

- (b) All applications granted; and
- (c) The name of every licensee whose license has been suspended or revoked by the department and after each such name note the reasons for such action in each case.

(2) (a) The department shall also file all accident reports, abstracts of court records of convictions received by it under the laws of this state, departmental actions, suspensions, restrictions, revocations, denials, cancellations, reinstatements, and other permanent records and, in connection therewith, maintain a driver's history by making suitable notations in order that an individual record of each licensee showing the convictions of such licensee, the departmental actions, and the traffic accidents in which the licensee has been involved, except those accidents not resulting in a conviction and those traffic violations which occur outside of the boundaries of this state, shall be readily ascertainable and available for the consideration of the department upon any application for renewal of license and at other suitable times.

(b) The department shall also keep a separate file of all abstracts of court records of dismissals of DUI, DUI per se, DWAI, and UDD charges and all abstracts of records in cases where the original charges were for DUI, DUI per se, DWAI, and UDD and the convictions were for nonalcohol- or nondrug-related traffic offenses. This file shall be made available only to criminal justice agencies, as defined in section 24-72-302 (3), C.R.S.

- (I) Written summaries and data compilations, if prepared by the department from records and documents filed with, maintained by, or prepared by the department, as defined in subparagraphs (A) to (H) of this subparagraph (I);
- (J) Written guidelines, procedures, policies, and rules and regulations of the department.
- (II) In any trial or hearing, all official records and documents of the state of Colorado, as defined in subparagraph (I) of this paragraph (c), shall be admissible in all municipal, county, and district courts within the state of Colorado without further foundation, shall be statutory exceptions to rule 802 of the Colorado rules of evidence, and shall constitute prima facie proof of the information contained therein, if such record or document is accompanied by a certificate stating that the executive director of the department or the executive director's appointee has custody of such record or document and is accompanied by and attached to a cover page which:
 - (A) Specifies the number of pages, exclusive of such cover page, which constitutes the record or document being submitted; and
 - (B) Bears the signature of the executive director of the department or the executive director's appointee attesting to the genuineness of such record or document; and

The department may also permit the electronic transmission of information for direct recording in the department's records and systems. Information transmitted by an electronic means that is approved by the department constitutes an official record for the purposes of this section whether or not an original source document for such information exists or ever existed.
- (III.5) The certificate and cover page and its contents required by subparagraph (II) of this paragraph (c) may be electronically produced and transmitted. An electronic reproduction of the certificate and cover page, including an electronic signature of the executive director of the department or of the executive director's appointee and an electronic reproduction of the official seal of the department, shall be admissible in court as provided in subparagraph (II) of this paragraph (c).
- (IV) For purposes of subparagraph (II) of this paragraph (c), a record or document shall not be required to include every page of a record or document filed with, maintained by, or prepared by the department pursuant to this paragraph (c) to be an official record or document, if such official record or document includes all of those portions of such record or document relevant to the trial or hearing for which it is prepared. There shall be a presumption that such official record or document contains all that is relevant to such trial or hearing.

(d) Notwithstanding the provisions of paragraph (a) of this subsection (2), the department shall not maintain records of convictions of traffic offenses defined in this title for which no points are assessed pursuant to section 42-2-127 (5) other than convictions pursuant to sections 42-2-134, 42-2-138, 42-2-206, and 42-7-422.

(3) The department seal required under subsection (2) of this section and under section 42-1-205 may also consist of a rubber stamp producing a facsimile of the seal stamped upon the document.

The department shall indicate in such notice that, unless the person waives his or her confidentiality, the information contained in the person's motor vehicle or driver record shall not be used for any purpose other than a purpose authorized by law.

(b) The department shall prepare a confidentiality waiver form and shall provide the form to the designated agents of the department. The department and the designated agents shall make such form available to any person on request. The department and the designated agents shall be the sole distributors of such form. 42-2-123. Suspending privileges of nonresidents and reporting convictions. (1) The privilege of driving a motor vehicle on the highways of this state given to a nonresident is subject to suspension or revocation by the department in like manner and for like cause as a driver's license may be suspended or revoked.

(2) The department is further authorized, upon receiving a record of the conviction in this state of a nonresident driver of a motor vehicle of any offense under the motor vehicle laws of this state, to forward a certified copy of such record to the motor vehicle administrator in the state wherein the person so convicted is a resident.

42-2-124. When court to report convictions. (1) (a) Except as otherwise provided, whenever any person is convicted of any offense for which this article makes mandatory the revocation or suspension of the driver's or minor driver's license of such person by the department, the court in which such conviction is had shall require the offender to immediately surrender such driver's or minor driver's license or any instruction permit to the court at the time of conviction, and the court shall, not later than ten days after such conviction, forward the license to the department, together with a record of such conviction on the form prescribed by the department. Any person who does not immediately surrender such person's license or permit to the court commits a class 2 misdemeanor traffic offense, unless such person swears or affirms under oath administered by the court and subject to the penalties of perjury that the license or permit has been lost, destroyed, or is not in said person's immediate possession. Any person who swears or affirms that the license or permit is not in the immediate possession of said person shall surrender said license or permit to the court within five days of the sworn or affirmed

statement, and if not surrendered within such time, said person commits a class 2 misdemeanor traffic offense.

(b) Whenever the driver's history of any person shows that such driver is required to maintain financial responsibility for the future and is unable to show to the court that the driver is maintaining the required financial responsibility for the future, the court shall require the immediate surrender to it of the driver's, minor driver's, or temporary driver's license or any instruction permit held by such person, and the court, within forty-eight hours after receiving the license, shall forward the license to the department with the form prescribed by the department.

(2) Every court having jurisdiction over offenses committed under this article or any other law of this state regulating the operation of motor vehicles on highways and every military authority having jurisdiction over offenses substantially the same as those set forth in section 42-2-127 (5) which occur on a federal military installation in this state shall forward to the department a record of the conviction of any person in said court or by said authority for a violation of any said laws not later than ten days after the day of sentencing for such conviction and may recommend the suspension or retention of the driver's, minor driver's, or temporary driver's license or any instruction permit of the person so convicted.

(3) For the purposes of this section, the term "convicted" or "conviction" means a sentence imposed following a plea of guilty or nolo contendere, a verdict of guilty by the court or a jury, or an adjudication of a delinquency under title 19, C.R.S. The payment of a penalty assessment under the provisions of section 42-4-1701 shall also be considered a conviction if the summons states clearly the points to be assessed for that offense. Whenever suspension or revocation of a license is authorized or required for conviction of any offense under state law, a final finding of guilty of a violation of a municipal ordinance governing a substantially equivalent offense in a city, town, or city and county shall, for purposes of such suspension or revocation, be deemed and treated as a conviction of the corresponding offense under state law. A stay of sentence, pending appeal, shall not deprive the department of the authority to suspend, revoke, or deny a driver's or minor driver's license pending any final determination of a conviction on appeal.

(4) An expungement of an adjudication of delinquency shall not result in a rescission of the revocation or suspension of the driving privilege unless said expungement is a result of a reversal of the adjudication on appeal.

(II) (Deleted by amendment, L. 2008, p. 833, § 3, effective January 1, 2009.)

(b) **Excess BAC underage.** (I) The department shall revoke the license of a person for excess BAC underage for three months for a first violation, for six months for a second violation, and for one year for a third or subsequent violation.

(II) (A) Notwithstanding the provisions of subparagraph (I) of this paragraph (b), a person whose license is revoked for a first offense under subparagraph (I) of this paragraph (b) and whose BAC was not more than 0.05 may request that, in lieu of the three-month revocation, the person's license be revoked for a period of not less than thirty days, to be followed by a suspension period of such length that the total period of revocation and suspension equals three months. If the hearing officer approves the request, the hearing officer may grant the person a probationary license that may be used only for the reasons provided in section 42-2-127 (14)(a).

(B) The hearing to consider a request under this subparagraph (II) may be held at the same time as the hearing held under subsection (8) of this section; except that a probationary license may not become effective until at least thirty days have elapsed since the beginning of the revocation period.

(c) **Refusal.** (I) Except as provided in section 42-2-132.5 (4), the department shall revoke the license of a person for refusal for one year for a first violation, two years for a second violation, and three years for a third or subsequent violation; except that the period of revocation shall be at least three years if the person was driving a commercial motor vehicle that was transporting hazardous materials as defined in section 42-2-402 (7).

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (c), such a person whose license has been revoked for two years for a second violation or for three years for a third or subsequent violation may apply for a restricted license pursuant to the provisions of section 42-2-132.5.

(d) **Excess BAC CDL.** The department shall revoke for the disqualification period provided in 49 CFR 383.51 the commercial driving privilege of a person who was the holder of a commercial driver's license or was driving a commercial motor vehicle for a violation of excess BAC 0.08, excess BAC CDL, or refusal.

(e) **Excess BAC underage CDL.** The department shall revoke the commercial driving privilege of a person for excess BAC underage CDL for three months for a first violation, six months for a second violation, and one year for a third or subsequent violation.

(4) **Multiple restraints and conditions on driving privileges.** (a) (I) Except as otherwise provided in this paragraph (a), a revocation imposed pursuant to this section for an offense committed before January 1, 2014, shall run consecutively and not concurrently with any other revocation imposed pursuant to this section.

(II) If a license is revoked for excess BAC and the person is also convicted on criminal charges arising out of the same occurrence for DUI, DUI per se, DWAI, or UDD, both the revocation under this section and any suspension, revocation, cancellation, or denial that results from the conviction shall be imposed, but the periods shall run concurrently, and the total period of revocation, suspension, cancellation, or denial shall not exceed the longer of the two periods.

(III) (A) If a license is revoked for refusal for an offense committed before January 1, 2014, the revocation shall not run concurrently, in whole or in part, with any previous or subsequent suspensions, revocations, or denials that may be provided for by law, including but not limited to any suspension, revocation, or denial that results from a conviction of criminal charges arising out of the same occurrence for a violation of section 42-4-1301.

(B) If a license is revoked for refusal for an offense committed on or after January 1, 2014, and the person is also convicted on criminal charges arising out of the same occurrence for DUI, DUI per se, DWAI, or UDD, both the revocation under this section and any suspension, revocation, cancellation, or denial that results from the conviction shall be imposed, but the periods shall run concurrently. The total period of revocation, suspension, cancellation, or denial shall not exceed the longer of the two periods.

(IV) The revocation of the commercial driving privilege under excess BAC CDL may run concurrently with another revocation pursuant to this section arising out of the same incident.

(V) Any revocation for refusal shall not preclude other action that the department is required to take in the administration of this title.

(b) (I) The periods of revocation specified in subsection (3) of this section are intended to be minimum periods of revocation for the described conduct. Except as described in section 42-2-132.5, a license shall not be restored under any circumstances, and a probationary license shall not be issued, during the revocation period.

(II) Notwithstanding the provisions of subparagraph (I) of this paragraph (b), a person whose privilege to drive a commercial motor vehicle has been revoked because of excess BAC CDL and who was twenty-one years of age or older at the time of the offense may apply for a driver's license of another class or type as long as there is no other statutory reason to deny the person a license. The department may not issue the person a probationary license that would authorize the person to operate a commercial motor vehicle.

(c) Upon the expiration of the period of revocation under this section, if a person's license is still suspended on other grounds, the person may seek a probationary license as

authorized by section 42-2-127 (14) subject to the requirements of paragraph (d) of this subsection (4).

(d) (I) Following a license revocation, the department shall not issue a new license or otherwise restore the driving privilege unless the department is satisfied, after an investigation of the character, habits, and driving ability of the person, that it will be safe to grant the privilege of driving a motor vehicle on the highways to the person; except that the department may not require a person to undergo skills or knowledge testing prior to issuance of a new license or restoration of the person's driving privilege if the person's license was revoked for a first violation of excess BAC 0.08 or excess BAC underage.

(II) (A) If a person was driving with excess BAC and the person had a BAC that was 0.15 or more or if the person's driving record otherwise indicates a designation as a persistent drunk driver as defined in section 42-1-102 (68.5), the department shall require the person to complete a level II alcohol and drug education and treatment program certified by the office of behavioral health in the department of human services pursuant to section 42-4-1301.3 as a condition to restoring driving privileges to the person and, upon the restoration of driving privileges, shall require the person to hold a restricted license requiring the use of an ignition interlock device pursuant to section 42-2-132.5 (1)(a)(II).

(B) If a person seeking reinstatement is required to complete, but has not yet completed, a level II alcohol and drug education and treatment program, the person shall file with the department proof of current enrollment in a level II alcohol and drug education and treatment program certified by the office of behavioral health in the department of human services pursuant to section 42-4-1301.3, on a form approved by the department.

(5) **Actions of law enforcement officer.** (a) If a law enforcement officer has probable cause to believe that a person should be subject to license revocation for excess BAC or refusal, the law enforcement officer shall forward to the department an affidavit containing information relevant to the legal issues and facts that shall be considered by the department to determine whether the person's license should be revoked as provided in subsection (3) of this section. The executive director of the department shall specify to law enforcement agencies the form of the affidavit to be used under this paragraph (a) and the types of information needed in the affidavit and may specify any additional documents or copies of documents needed by the department to make its determination in addition to the affidavit. The affidavit shall be dated, signed, and sworn to by the law enforcement officer under penalty of perjury, but need not be notarized or sworn to before any other person.

(b) (I) A law enforcement officer, on behalf of the department, shall personally serve a notice of revocation on a person who is still available to the law enforcement officer if the law enforcement officer determines that, based on a refusal or on test results available to the law enforcement officer, the person's license is subject to revocation for excess BAC or refusal.

(II) When a law enforcement officer serves a notice of revocation, the law enforcement officer shall take possession of any driver's license issued by this state or any other state that the person holds. When the law enforcement officer takes possession of a valid driver's license issued by this state or any other state, the law enforcement officer, acting on behalf of the department, shall issue a temporary permit that is valid for seven days after the date of issuance.

(III) A copy of the completed notice of revocation form, a copy of any completed temporary permit form, and any driver's, minor driver's, or temporary driver's license or any instruction permit taken into possession under this section shall be forwarded to the department

by the law enforcement officer along with an affidavit as described in paragraph (a) of this subsection (5) and any additional documents or copies of documents as described in said paragraph (a).

(IV) The department shall provide to law enforcement agencies forms for notice of revocation and for temporary permits. The law enforcement agencies shall use the forms for the notice of revocation and for temporary permits and shall follow the form and provide the information for affidavits as provided by the department pursuant to paragraph (a) of this subsection (5).

(V) A law enforcement officer shall not issue a temporary permit to a person who is already driving with a temporary permit issued pursuant to subparagraph (II) of this paragraph (b).

(6) Initial determination and notice of revocation. (a) Upon receipt of an affidavit of a law enforcement officer and the relevant documents required by paragraph (a) of subsection (5) of this section, the department shall determine whether the person's license should be revoked under subsection (3) of this section. The determination shall be based upon the information contained in the affidavit and the relevant documents submitted to the department, and the determination shall be final unless a hearing is requested and held as provided in subsection (8) of this section. The determination of these facts by the department is independent of the determination of a court of the same or similar facts in the adjudication of any criminal charges arising out of the same occurrence. The disposition of the criminal charges shall not affect any revocation under this section.

(b) (I) If the department determines that the person is subject to license revocation, the department shall issue a notice of revocation if a notice has not already been served upon the person by the law enforcement officer as provided in paragraph (b) of subsection (5) of this section. A notice of revocation shall clearly specify the reason and statutory grounds for the revocation, the effective date of the revocation, the right of the person to request a hearing, the procedure for requesting a hearing, and the date by which a request for a hearing must be made.

(II) In sending a notice of revocation, the department shall mail the notice in accordance with the provisions of section 42-2-119 (2) to the person at the last-known address shown on the department's records, if any, and to any address provided in the law enforcement officer's affidavit if that address differs from the address of record. The notice shall be deemed received three days after mailing.

(c) If the department determines that the person is not subject to license revocation, the department shall notify the person of its determination and shall rescind any order of revocation served upon the person by the law enforcement officer.

(d) A license revocation shall become effective seven days after the person has received the notice of revocation as provided in subsection (5) of this section or is deemed to have received the notice of revocation by mail as provided in paragraph (b) of this subsection (6). If the department receives a written request for a hearing pursuant to subsection (7) of this section within that same seven-day period and the department issues a temporary permit pursuant to paragraph (d) of subsection (7) of this section, the effective date of the revocation shall be stayed until a final order is issued following the hearing; except that any delay in the hearing that is caused or requested by the person or counsel representing the person shall not result in a stay of the revocation during the period of delay.

(7) **Request for hearing.** (a) A person who has received a notice of revocation may make a written request for a review of the department's determination at a hearing. The request may be made on a form available at each office of the department.

(b) A person must request a hearing in writing within seven days after the day the person receives the notice of revocation as provided in subsection (5) of this section or is deemed to have received the notice by mail as provided in paragraph (b) of subsection (6) of this section. If the department does not receive the written request for a hearing within the seven-day period, the right to a hearing is waived, and the determination of the department that is based on the documents and affidavit required by subsection (5) of this section becomes final.

(c) If a person submits a written request for a hearing after expiration of the seven-day period and if the request is accompanied by the person's verified statement explaining the failure to make a timely request for a hearing, the department shall receive and consider the request. If the department finds that the person was unable to make a timely request due to lack of actual notice of the revocation or due to factors of physical incapacity such as hospitalization or incarceration, the department shall waive the period of limitation, reopen the matter, and grant the hearing request. In such a case, the department shall not grant a stay of the revocation pending issuance of the final order following the hearing.

(d) At the time a person requests a hearing pursuant to this subsection (7), if it appears from the record that the person is the holder of a valid driver's or minor driver's license or of an instruction permit or of a temporary permit issued pursuant to paragraph (b) of subsection (5) of this section and that the license or permit has been surrendered, the department shall stay the effective date of the revocation and issue a temporary permit that shall be valid until the scheduled date for the hearing. If necessary, the department may later extend the temporary permit or issue an additional temporary permit in order to stay the effective date of the revocation until the final order is issued following the hearing, as required by subsection (8) of this section. If the person notifies the department in writing at the time that the hearing is requested that the person desires the law enforcement officer's presence at the hearing, the department shall issue a written notice for the law enforcement officer to appear at the hearing. A law enforcement officer who is required to appear at a hearing may, at the discretion of the hearing officer, appear in real time by telephone or other electronic means in accordance with section 42-1-218.5.

(e) At the time that a person requests a hearing, the department shall provide to the person written notice advising the person:

(I) Of the right to subpoena the law enforcement officer for the hearing and that the subpoena must be served upon the law enforcement officer at least five calendar days prior to the hearing;

(II) Of the person's right at that time to notify the department in writing that the person desires the law enforcement officer's presence at the hearing and that, upon receiving the notification, the department shall issue a written notice for the law enforcement officer to appear at the hearing;

(III) That, if the law enforcement officer is not required to appear at the hearing, documents and an affidavit prepared and submitted by the law enforcement officer will be used at the hearing; and

(IV) That the affidavit and documents submitted by the law enforcement officer may be reviewed by the person prior to the hearing.

(f) Any subpoena served upon a law enforcement officer for attendance at a hearing conducted pursuant to this section shall be served at least five calendar days before the day of the hearing.

(8) **Hearing.** (a) (I) The hearing shall be scheduled to be held as quickly as practicable but not more than sixty days after the date the department receives the request for a hearing; except that, if a hearing is rescheduled because of the unavailability of a law enforcement officer or the hearing officer in accordance with subsection (8)(a)(III) or (8)(a)(IV) of this section, the hearing may be rescheduled more than sixty days after the date the department receives the request for the hearing, and the department shall continue any temporary driving privileges held by the person until the date to which the hearing is rescheduled. At least ten days prior to the scheduled or rescheduled hearing, the department shall provide in the manner specified in section 42-2-119 (2) a written notice of the time and place of the hearing to the respondent unless the parties agree to waive this requirement. Notwithstanding the provisions of sections 42-1-102 and 42-2-119, the last-known address of the respondent for purposes of notice for any hearing pursuant to this section is the address stated on the hearing request form.

(II) A law enforcement officer who submits the documents and affidavit required by subsection (5) of this section need not be present at the hearing unless the hearing officer requires that the law enforcement officer be present and the hearing officer issues a written notice for the law enforcement officer's appearance or unless the respondent or the respondent's attorney determines that the law enforcement officer should be present and serves a timely subpoena upon the law enforcement officer in accordance with paragraph (f) of subsection (7) of this section.

(III) If a law enforcement officer, after receiving a notice or subpoena to appear from either the department or the respondent, is unable to appear at the original or rescheduled hearing date due to a reasonable conflict, including but not limited to training, vacation, or personal leave time, the law enforcement officer or the law enforcement officer's supervisor shall contact the department not less than forty-eight hours prior to the hearing and reschedule the hearing to a time when the law enforcement officer will be available. If the law enforcement officer cannot appear at the original or rescheduled hearing because of medical reasons, a law enforcement emergency, another court or administrative hearing, or any other legitimate, just cause as determined by the department, and the law enforcement officer or the law enforcement officer's supervisor gives notice of the law enforcement officer's inability to appear to the department prior to the dismissal of the revocation proceeding, the department shall reschedule the hearing following consultation with the law enforcement officer or the law enforcement officer's supervisor at the earliest possible time when the law enforcement officer and the hearing officer will be available.

(IV) If a hearing officer cannot appear at an original or rescheduled hearing because of medical reasons, a law enforcement emergency, another court or administrative hearing, or any other legitimate, just cause, the hearing officer or the department may reschedule the hearing at the earliest possible time when the law enforcement officer and the hearing officer will be available.

(b) The hearing shall be held in the district office nearest to where the violation occurred, unless the parties agree to a different location; except that, at the discretion of the department, all or part of the hearing may be conducted in real time, by telephone or other electronic means in accordance with section 42-1-218.5.

(c) The department shall consider all relevant evidence at the hearing, including the testimony of any law enforcement officer and the reports of any law enforcement officer that are submitted to the department. The report of a law enforcement officer shall not be required to be made under oath, but the report shall identify the law enforcement officer making the report. The department may consider evidence contained in affidavits from persons other than the respondent, so long as the affidavits include the affiant's home or work address and phone number and are dated, signed, and sworn to by the affiant under penalty of perjury. The affidavit need not be notarized or sworn to before any other person.

(d) The hearing officer shall have authority to:

(I) Administer oaths and affirmations;

(II) Compel witnesses to testify or produce books, records, or other evidence;

(III) Examine witnesses and take testimony;

(IV) Receive and consider any relevant evidence necessary to properly perform the hearing officer's duties as required by this section;

(V) Take judicial notice as defined by rule 201 of article II of the Colorado rules of evidence, subject to the provisions of section 24-4-105 (8), C.R.S., which shall include:

(A) Judicial notice of general, technical, or scientific facts within the hearing officer's knowledge;

(B) Judicial notice of appropriate and reliable scientific and medical information contained in studies, articles, books, and treatises; and

(C) Judicial notice of charts prepared by the department of public health and environment pertaining to the maximum BAC levels that people can obtain through the consumption of alcohol when the charts are based upon the maximum absorption levels possible of determined amounts of alcohol consumed in relationship to the weight and gender of the person consuming the alcohol;

(VI) Issue subpoenas duces tecum to produce books, documents, records, or other evidence;

(VII) Issue subpoenas for the attendance of witnesses;

(VIII) Take depositions or cause depositions or interrogatories to be taken;

(IX) Regulate the course and conduct of the hearing; and

(X) Make a final ruling on the issues.

(e) When an analysis of the respondent's BAC is considered at a hearing:

(I) If the respondent establishes, by a preponderance of the evidence, that the respondent consumed alcohol between the time that the respondent stopped driving and the time of testing, the preponderance of the evidence must also establish that the minimum required BAC was reached as a result of alcohol consumed before the respondent stopped driving; and

(II) If the evidence offered by the respondent shows a disparity between the results of the analysis done on behalf of the law enforcement agency and the results of an analysis done on behalf of the respondent, and a preponderance of the evidence establishes that the blood analysis conducted on behalf of the law enforcement agency was properly conducted by a qualified person associated with a laboratory certified by the department of public health and environment using properly working testing devices, there shall be a presumption favoring the accuracy of the analysis done on behalf of the law enforcement agency if the analysis showed the BAC to be 0.096 or more. If the respondent offers evidence of blood analysis, the respondent shall be required to state under oath the number of analyses done in addition to the one offered as

evidence and the names of the laboratories that performed the analyses and the results of all analyses.

(f) The hearing shall be recorded. The hearing officer shall render a decision in writing, and the department shall provide a copy of the decision to the respondent.

(g) If the respondent fails to appear without just cause, the right to a hearing shall be waived, and the determination of the department which is based upon the documents and affidavit required in subsection (5) of this section shall become final.

(h) Pursuant to section 42-1-228, a driver may challenge the validity of the law enforcement officer's initial contact with the driver and the driver's subsequent arrest for DUI, DUI per se, or DWAI. If a driver so challenges the validity of the law enforcement officer's initial contact, and the evidence does not establish that the initial contact or arrest was constitutionally and statutorily valid, the driver is not subject to license revocation.

(9) **Appeal.** (a) Within thirty-five days after the department issues its final determination under this section, a person aggrieved by the determination has the right to file a petition for judicial review in the district court in the county of the person's residence.

(b) Judicial review of the department's determination shall be on the record without taking additional testimony. If the court finds that the department exceeded its constitutional or statutory authority, made an erroneous interpretation of the law, acted in an arbitrary and capricious manner, or made a determination that is unsupported by the evidence in the record, the court may reverse the department's determination.

(c) A filing of a petition for judicial review shall not result in an automatic stay of the revocation order. The court may grant a stay of the order only upon a motion and hearing and upon a finding that there is a reasonable probability that the person will prevail upon the merits.

(10) **Notice to vehicle owner.** If the department revokes a person's license pursuant to paragraph (a), (c), or (d) of subsection (3) of this section, the department shall mail a notice to the owner of the motor vehicle used in the violation informing the owner that:

(a) The motor vehicle was driven in an alcohol-related driving violation; and

(b) Additional alcohol-related violations involving the motor vehicle by the same driver may result in a requirement that the owner file proof of financial responsibility under the provisions of section 42-7-406 (1.5).

(11) **Applicability of "State Administrative Procedure Act".** The "State Administrative Procedure Act", article 4 of title 24, C.R.S., shall apply to this section to the extent it is consistent with subsections (7), (8), and (9) of this section relating to administrative hearings and judicial review.

42-2-126.5. Revocation of license based on administrative actions taken under tribal law - repeal. (1) As used in this section:

(a) "Indian" means a person who is a member of a federally recognized Indian tribe.
(b) "Reservation" means the Southern Ute Indian reservation, the exterior boundaries of which were confirmed in the Act of May 21, 1984, Pub.L. 98-290, 98 Stat. 201, 202 (found at "Other Provisions" note to 25 U.S.C. sec. 668).

(c) "Reservation driving privilege" means the driving privilege of an Indian that arises under and is governed by the tribal code when the Indian is operating a motor vehicle within the boundaries of the reservation.

(d) "Tribal code" means the laws adopted by the tribe pursuant to the tribe's constitution.

(e) "Tribe" means the Southern Ute Indian tribe.

(2) **Legislative declaration.** (a) The general assembly finds that:

(I) The tribal code, including traffic provisions, governs the conduct of Indians within the reservation;

(II) The tribal code grants reservation driving privileges to Indians based on possession of a state-issued driver's license but does not authorize application of state driver's license revocation laws based on the conduct of Indians within the reservation; and

(III) When Indians drive outside of the reservation, state and municipal traffic laws apply to their state driving privileges.

(b) In enacting this section, the general assembly intends to provide safety for all persons using the highways of the state by authorizing a process whereby the state shall revoke the Colorado driving privileges of a person after the tribe has entered a final order under the tribal code revoking the reservation driving privileges of that person, in a manner similar to how the state revokes the state driving privileges of a Colorado licensee whose driving privileges are revoked for an action occurring and adjudicated in a foreign jurisdiction.

(3) When the tribe initially revokes the reservation driving privilege of an Indian pursuant to the tribal code pending a tribal hearing, the tribe shall take possession of the person's Colorado driver's license. The tribe is authorized to issue a temporary permit which shall provide temporary Colorado driving privileges to the person until the tribe enters a final order of revocation of the person's reservation driving privileges.

(4) If the tribe enters a final order of revocation of the person's reservation driving privileges, the tribe shall send notice of such revocation to the department via fax, mail, or electronic means.

(5) The state shall give full faith and credit to a tribal administrative or judicial determination related to the tribe's revocation of the reservation driving privileges of an Indian.

(6) Upon receiving notice of revocation from the tribe pertaining to any Indian, the department shall immediately revoke the Colorado driving privileges of that person. The period of the state revocation shall run concurrently with the revocation action taken by the tribe. The state's driver record for the revoked individual shall indicate concurrent dates for the revocation period. The department shall send notice of revocation by first-class mail to the person at the address last shown on the department's records.

(7) The department's revocation of the person's Colorado driving privileges shall be a final agency action of the department. Any appeal of the state's final revocation action may be taken in accordance with section 42-2-135 and section 24-4-106, C.R.S. Because the state is giving full faith and credit to the tribal determination, the department's revocation action shall be affirmed if, upon review, the reviewing court determines that the tribe's revocation of tribal driving privileges met both of the following conditions:

(a) The revocation occurred after providing the person whose driving privilege was revoked reasonable notice and an opportunity to be heard sufficient to protect due process rights; and

(b) The tribal administrative or judicial tribunal that made the determination had jurisdiction over the parties and over the subject matter.

(8) When a person whose license is revoked under this section has completed the terms and conditions of the tribal revocation order, the tribe shall provide the person with written notification of the completion and shall also send written notice to the department. When the department receives the tribe's written notification of the completion, the person may seek reinstatement of his or her Colorado driving privileges. The person must comply with sections 42-2-126 (4)(d), 42-2-132, and 42-7-406 to obtain a new license or otherwise restore his or her Colorado driving privileges.

(9) The provisions of this section do not apply to the department's revocation, suspension, cancellation, or denial of a Colorado driver's license of an Indian for any driving offense that occurs while operating a motor vehicle outside the boundaries of the reservation.

(10) This section shall automatically repeal on the occurrence of any one or more of the following events:

(a) The tribe repeals the express consent law of the tribal code;

(b) Either the tribe or the state terminates any intergovernmental agreement between the parties pertaining to driver's license revocations of Indians; or

(c) A repeal of this section by the general assembly acting by separate bill.

42-2-127. Authority to suspend license - to deny license - type of conviction - points.

(1) (a) Except as provided in paragraph (b) of subsection (8) of this section, the department has the authority to suspend the license of any driver who, in accordance with the schedule of points

set forth in this section, has been convicted of traffic violations resulting in the accumulation of twelve points or more within any twelve consecutive months or eighteen points or more within any twenty-four consecutive months, or, in the case of a minor driver eighteen years of age or older, who has accumulated nine points or more within any twelve consecutive months, or twelve points or more within any twenty-four consecutive months, or fourteen points or more for violations occurring after reaching the age of eighteen years, or, in the case of a minor driver under the age of eighteen years, who has accumulated more than five points within any twelve consecutive months or more than six points for violations occurring prior to reaching the age of eighteen years; except that the accumulation of points causing the subjection to suspension of the license of a chauffeur who, in the course of employment, has as a principal duty the operation of a motor vehicle shall be sixteen points in one year, twenty-four points in two years, or twenty-eight points in four years, if all the points are accumulated while said chauffeur is in the course of employment. Any provision of this section to the contrary notwithstanding, the license of a chauffeur who is convicted of DUI, DUI per se, DWAI, UDD, or leaving the scene of an accident shall be suspended in the same manner as if the offense occurred outside the course of employment. Whenever a minor driver under the age of eighteen years receives a summons for a traffic violation, the minor's parent or legal guardian or, if the minor is without parents or guardian, the person who signed the minor driver's application for a license shall immediately be notified by the court from which the summons was issued.

(b) If any applicant for a license to operate a motor vehicle has illegally operated a motor vehicle in this state prior to the issuance of a valid driver's or minor driver's license or instruction permit or in violation of the terms of any instruction permit within thirty-six months prior to said application, the department has the authority to deny the issuance of said license for not more than twelve months.

(c) For the purpose of this section, any points accumulated by a minor under an instruction permit shall apply to the minor driver's license subsequently issued to or applied for by such minor.

(d) No suspension or denial shall be made until a hearing has been held or the driver has failed to appear for a hearing scheduled in accordance with this section. This section shall not be construed to prevent the issuance of a restricted license pursuant to section 42-2-116.

(2) (a) The time periods provided in subsection (1) of this section for the accumulation of points shall be based on the date of violation, but points shall not be assessed until after conviction for any such traffic violation.

(b) The accumulation of points within the time periods provided in subsection (1) of this section shall not be affected by the issuance or renewal of any driver's or minor driver's license issued under the provisions of this article or the anniversary date thereof.

(3) Nothing in subsections (1) and (2) of this section shall affect or prevent any proceedings to suspend any license under the provisions of law existing prior to July 1, 1974.

(4) Statutory provisions for cancellation and mandatory revocation of drivers' licenses shall take precedence over this section.

(mm) Driving under restraint in violation of section 42-2-138 (1.5) 3

(5.5) If a person receives a penalty assessment notice for a violation under section 42-4-1701 (5) and such person pays the fine and surcharge for the violation on or before the date the payment is due, the points assessed for the violation are reduced as follows:

(a) For a violation having an assessment of three or more points under subsection (5) of this section, the points are reduced by two points;

(b) For a violation having an assessment of two points under subsection (5) of this section, the points are reduced by one point.

(5.6) (a) Any municipality may elect to have the provisions of subsection (5.5) of this section apply to penalty assessment notices issued by the municipality pursuant to counterpart municipal ordinances. Whenever a municipality reduces a traffic offense, the reduced offense and the points assessed for such reduced offense shall conform to the point assessment schedule under subsection (5) of this section.

(b) Any county may elect to have the provisions of subsection (5.5) of this section apply to penalty assessment notices issued by the county pursuant to counterpart county ordinances. Whenever a county reduces a traffic offense, the reduced offense and the points assessed for such reduced offense shall conform to the point assessment schedule under subsection (5) of this section.

(5.7) Notwithstanding any other provision of the statutes to the contrary, if a penalty assessment for a traffic infraction is not personally served on the defendant or the defendant has not accepted the jurisdiction of the court for such penalty assessment, then the traffic infraction is a class B traffic infraction and the department has no authority to assess any points under this section upon entry of judgment for such traffic infraction.

(5.8) Notwithstanding any other provision of this section, the department may not assess any points for a violation if such assessment of points is prohibited under section 42-4-110.5 (3).

(6) (a) "Convicted" and "conviction", as used in this section, include conviction in any court of record or municipal court, or by the Southern Ute Indian tribal court, or by any military authority for offenses substantially the same as those set forth in subsection (5) of this section which occur on a military installation in this state and also include the acceptance and payment of a penalty assessment under the provisions of section 42-4-1701 or under the similar provisions of any town or city ordinance and the entry of a judgment or default judgment for a traffic infraction under the provisions of section 42-4-1701 or 42-4-1710 or under the similar provisions of any municipal ordinance.

(b) For the purposes of this article, a plea of no contest accepted by the court or the forfeiture of any bail or collateral deposited to secure a defendant's appearance in court or the failure to appear in court by a defendant charged with DUI, DUI per se, or UDD who has been issued a summons and notice to appear pursuant to section 42-4-1707 as evidenced by records forwarded to the department in accordance with the provisions of section 42-2-124 shall be considered as a conviction.

(c) The provisions of paragraph (r) of subsection (5) of this section shall not be applicable to violations of sections 42-2-115, 42-3-121, and 42-4-314.

(7) Upon the accumulation by a licensee of half as many points as are required for suspension, the department may send such licensee a warning letter in accordance with section 42-2-119 (2) or order a preliminary hearing, but the failure of the department to send such warning letter or hold such preliminary hearing shall not be grounds for invalidating the

licensee's subsequent suspension as a result of accumulating additional points as long as the suspension is carried out under the provisions of this section. Should a preliminary hearing be ordered by the department and should the licensee fail to attend or show good cause for failure to attend, the department may suspend such license in the same way as if the licensee had accumulated sufficient points for suspension and had failed to attend such suspension hearing.

(8) (a) Whenever the department's records show that a licensee has accumulated a sufficient number of points to be subject to license suspension, the department shall notify the licensee that a hearing will be held not less than twenty days after the date of the notice to determine whether the licensee's driver's license should be suspended. The notification shall be given to the licensee in writing by regular mail, addressed to the address of the licensee as shown by the records of the department.

(b) (I) If the department's records indicate that a driver has accumulated a sufficient number of points to cause a suspension under subsection (1) of this section and the driver is subject to a current or previous license restraint with a determined reinstatement date for the same offense or conviction that caused the driver to accumulate sufficient points to warrant suspension, the department may not order a point suspension of the license of the driver unless the license or driving privilege of the driver was revoked pursuant to section 42-2-126 (3)(c).

(II) If the department does not order a point suspension against the license of a driver because of the existence of a current or previous license restraint with a determined reinstatement date under the provisions of subparagraph (I) of this paragraph (b), the department shall utilize the points that were assessed against the driver in determining whether to impose any future license suspension if the driver accumulates any more points against the driver's license.

(9) Repealed.

(10) Suspension hearings when ordered by the department shall be held at the district office of the department closest to the residence of the licensee; except that all or part of the hearing may, at the discretion of the department, be conducted in real time, by telephone or other electronic means in accordance with section 42-1-218.5. A hearing delay shall be granted by the department only if the licensee presents the department with good cause for such delay. Good cause shall include absence from the state or county of residence, personal illness, or any other circumstance which, in the department's discretion, constitutes sufficient reason for delay. In the event that a suspension hearing is delayed, the department shall set a new date for such hearing no later than sixty days after the date of the original hearing.

(11) Upon such hearing, the department or its authorized agent may administer oaths, issue subpoenas for the attendance of witnesses and the production of books and papers, apply to the district court for the enforcement thereof by contempt proceedings, and require a reexamination of the licensee.

(12) If at the hearing held pursuant to subsection (8) of this section it appears that the record of the driver sustains suspension as provided in this section, the department shall immediately suspend such driver's license, and such license shall then be surrendered to the department. If at such hearing it appears that the record of the driver does not sustain suspension, the department shall not suspend such license and shall adjust the accumulated-point total accordingly. In the event that the driver's license is suspended, the department may issue a probationary license for a period not to exceed the period of suspension, which license may contain such restrictions as the department deems reasonable and necessary and which may

thereafter be subject to cancellation as a result of any violation of the restrictions imposed therein. The department may also order any driver whose license is suspended to take a complete driving reexamination. After such hearing, the licensee may appeal the decision to the district court as provided in section 42-2-135.

(13) If the driver fails to appear at such hearing after proper notification as provided in subsections (7) and (8) of this section and a delay or continuance has not been requested and granted as provided in subsection (10) of this section, the department shall immediately suspend the license of the driver. A driver who failed to appear may request a subsequent hearing, but the request shall not postpone the effectiveness of the restraint.

(14) (a) (I) If there is no other statutory reason for denial of a probationary license, any individual who has had a license suspended by the department because of, at least in part, a conviction of an offense specified in subsection (5)(b) of this section may be entitled to a probationary license pursuant to subsection (12) of this section for the purpose of driving for reasons of employment, education, health, or alcohol and drug education or treatment, but:

(A) If ordered by the court that convicted the individual, the individual shall enroll in a program of driving education or alcohol and drug education and treatment certified by the office of behavioral health in the department of human services; and

(B) If the individual is an interlock-restricted driver or is a persistent drunk driver, as defined in section 42-1-102 (68.5), any probationary license shall require the use of an approved ignition interlock device, as defined in section 42-2-132.5 (9)(a), and the time that the individual holds a probationary license under this section shall be credited against the time that the individual may be required to hold an interlock-restricted license pursuant to section 42-2-132.5.

(II) A probationary license issued pursuant to this subsection (14) shall contain any other restrictions as the department deems reasonable and necessary, shall be subject to cancellation for violation of any such restrictions, including but not limited to absences from alcohol and drug education or treatment sessions or failure to complete alcohol and drug education or treatment programs, and shall be issued for the entire period of suspension.

(b) The department may refuse to issue a probationary license if the department finds that the driving record of the individual is such that the individual has sufficient points, in addition to those resulting from the conviction referred to in this subsection (14), to require the suspension or revocation of a license to drive on the highways of this state, or if the department finds from the record after a hearing conducted in accordance with subsection (12) of this section that aggravating circumstances exist to indicate the individual is unsafe for driving for any purpose. In refusing to issue a probationary license, the department shall make specific findings of fact to support such refusal.

(c) No district attorney shall enter into, nor shall any judge approve, a plea bargaining agreement entered into solely for the purpose of permitting the defendant to qualify for a probationary license under this subsection (14).

(15) Repealed.

(2) (a) Upon suspension of a person's license as required by this section, the department shall immediately notify the person as provided in section 42-2-119 (2).

(b) Upon receipt of the notice of suspension, the person or the person's attorney may request a hearing in writing. The department shall hold a hearing not less than thirty days after receiving the request through a hearing commissioner appointed by the executive director of the department, which hearing shall be conducted in accordance with the provisions of section 24-4-105, C.R.S. After the hearing, the person may appeal the decision of the department to the district court as provided in section 42-2-135. If a person who has had a license suspended under this section is subsequently acquitted of the conviction that required the suspension by a court of record, the department shall immediately, in any event not later than ten days after the receipt of the notice of acquittal, reinstate said license to the person affected, unless the license is under other restraint.

(3) (a) If there is no other statutory reason for denial of a probationary license, a person who has had a license suspended by the department because of, in whole or in part, a conviction of an offense specified in subsection (1) of this section shall be entitled to a probationary license for the purpose of driving for reasons of employment, education, health, or compliance with the requirements of probation. In refusing to issue a probationary license, the department shall make specific findings of fact to support the refusal.

42-2-127.7. Authority to suspend driver's license - uninsured motorists - legislative declaration. (1) The general assembly hereby finds, determines, and declares that the purpose of this section is to induce and encourage all motorists to provide for their financial responsibility for the protection of others and to assure the widespread availability to the insuring public of insurance protection against financial loss caused by negligent, financially irresponsible, motorists.

(2) (a) The department may suspend the driver's license of any person upon its determination that the person drove a vehicle in this state without having in full force and effect a complying policy or certificate of self-insurance as required by sections 10-4-619 and 10-4-624, C.R.S., as follows:

(I) Upon the first determination that a person operated a motor vehicle in this state without having in full force and effect a complying policy or certificate of self-insurance as required pursuant to section 10-4-619 or 10-4-624, C.R.S., the department shall suspend the driver's license of a person until the person furnishes proof of financial responsibility, as defined in section 42-7-103 (14), in the manner contemplated by section 42-7-301 (1), in the amount specified in section 10-4-620, C.R.S.

(II) Upon the second determination that the person operated a motor vehicle in this state without having in full force and effect a complying policy or certificate of self-insurance as required by sections 10-4-619 and 10-4-624, C.R.S., within five years, the department shall suspend the person's driver's license for a period of four months.

(III) Upon the third or subsequent determination that the person operated a motor vehicle in this state without having in full force and effect a complying policy or certificate of self-insurance as required by sections 10-4-619 and 10-4-624, C.R.S., the department shall suspend the person's driver's license for a period of eight months.

(b) The department shall make a determination of such facts on the basis of the documents and affidavit of a law enforcement officer as specified in subsection (3) of this section, and this determination shall be final unless a hearing is requested and held as provided in subsection (7) of this section.

(c) The determination of the facts specified in this subsection (2) by the department is independent of the suspension taken under article 7 of this title.

(d) For purposes of this section, "license" includes any driving privilege.

(3) Whenever a law enforcement officer determines, by checking the motorist insurance identification database created in section 42-7-604, and by any other means authorized by law, that a driver violates section 42-4-1409 by not having a complying policy or certificate of self-

insurance in full force and effect as required by sections 10-4-619 and 10-4-624, C.R.S., the law enforcement officer making such determination shall forward to the department an affidavit that includes a statement of the officer's probable cause that the person committed such violation, and a copy of the citation and complaint, if any, filed with the court. The affidavit shall be dated, signed, and sworn to by the law enforcement officer under penalty of perjury, but need not be notarized or sworn to before any other person.

(4) (a) Upon receipt by the department of the affidavit of the law enforcement officer and the relevant documents required by subsection (3) of this section, the department shall make the determination described in subsection (2) of this section. The determination shall be based upon the information contained in the affidavit and the relevant documents. If the department determines that the person is subject to license suspension, the department may issue a notice of suspension if such notice has not already been served upon the person by the law enforcement officer as required in subsection (5) of this section.

(b) The notice of suspension sent by the department shall be mailed in accordance with the provisions of section 42-2-119 (2) to the person at the last-known address shown on the department's records, if any, and to any address provided in the law enforcement officer's affidavit if that address differs from the address of record. The notice shall be deemed received three days after mailing.

(c) The notice of suspension shall clearly specify the reason and statutory grounds for the suspension, the effective date of the suspension, the right of the person to request a hearing, the procedure for requesting a hearing, and the date by which that request for a hearing must be made. The notice shall also state that the person may avoid suspension by filing with the department proof of financial responsibility for the future, or by compliance with section 42-7-302 on the first determination. For subsequent offenses, a person's driver's license shall be suspended in accordance with the provisions of subsection (2) of this section. If the person files proof of financial responsibility for the future, such proof of financial responsibility for the future shall be maintained for three years from the date such proof of financial responsibility for the future is received by the department and after any applicable suspension period.

(d) If the department determines that the person is not subject to license suspension:

(I) The department shall notify the person of its determination and shall rescind any order of suspension served upon the person by the law enforcement officer;

(II) The person whose driver's license was taken possession of by a law enforcement officer under this section may obtain the license by the payment of a fee to the department. The department shall determine the fee in accordance with section 42-2-114.5.

(5) (a) Whenever a law enforcement officer determines, by checking the motorist insurance identification database created in section 42-7-604, and by any other means authorized by law, that a driver violates section 42-4-1409 by not having a complying policy or certificate of self-insurance as required by sections 10-4-619 and 10-4-624, C.R.S., the officer, acting on behalf of the department, may serve the notice of suspension personally on such driver. If the law enforcement officer serves the notice of suspension, the officer shall take possession of any driver's license issued by this state or any other state that is held by the person. When the officer takes possession of a valid license, the officer, acting on behalf of the department, shall issue a temporary permit that is valid for seven days after its date of issuance.

(b) A copy of the completed notice of suspension form, a copy of any completed temporary permit form, and any driver's, minor driver's, or temporary driver's license or any

instruction permit taken into possession under this section shall be forwarded to the department by the law enforcement officer along with the affidavit and documents required in subsections (2) and (3) of this section.

(c) The department shall provide forms for notice of suspension and for temporary permits to law enforcement agencies. The department shall establish a format for the affidavits required by this section and shall give notice of such format to all law enforcement agencies which submit affidavits to the department. Such law enforcement agencies shall follow the format determined by the department.

(d) A temporary permit may not be issued to any person who is already driving with a temporary permit issued pursuant to paragraph (a) of this subsection (5).

(6) (a) The license suspension shall become effective seven days after the subject person has received the notice of suspension as provided in subsection (5) of this section or is deemed to have received the notice of suspension by mail as provided in subsection (4) of this section unless the person files with the department proof of financial responsibility for the future or complies with section 42-7-302 prior to the effective date of the suspension. If the person files proof of financial responsibility for the future, such proof of financial responsibility for the future must be maintained for three years from the date such proof of financial responsibility for the future is received by the department. If a written request for a hearing and evidence of current liability insurance in the respondent's name is received by the department within that same seven-day period, the effective date of the suspension shall be stayed until a final order is issued following the hearing; except that any delay in the hearing that is caused or requested by the subject person or counsel representing that person shall not result in a stay of the suspension during the period of delay.

(b) The period of license suspension under paragraph (a) of subsection (2) of this section shall be for an indefinite period. The person may reinstate at any time by complying with section 42-7-302 or by filing with the department proof of financial responsibility for the future and paying the required reinstatement fee pursuant to section 42-2-132. If the person files proof of financial responsibility for the future, such proof of financial responsibility for the future must be maintained for three years from the date such proof of financial responsibility for the future is received by the department.

(7) (a) Any person who has received a notice of suspension may make a written request for a review of the department's determination at a hearing. The request may be made on a form available at each office of the department. Evidence of current liability insurance in the respondent's name and the person's driver's license, if the license has not been previously surrendered, shall be submitted at the time the request for a hearing is made.

(b) The request for a hearing shall be made in writing within seven days after the day the person received the notice of suspension as provided in subsection (5) of this section or is deemed to have received the notice by mail as provided in subsection (4) of this section. If written request for a hearing and evidence of current liability insurance in the respondent's name is not received within the seven-day period, the right to a hearing is waived, and the determination of the department that is based upon the documents and affidavit required by subsections (2) and (3) of this section becomes final.

(c) If a written request for a hearing is made after expiration of the seven-day period and if it is accompanied by the applicant's verified statement explaining the failure to make a timely request for a hearing, the department shall receive and consider the request. If the department

finds that the person was unable to make a timely request due to lack of actual notice of the suspension or due to factors of physical incapacity such as hospitalization or incarceration, the department shall waive the period of limitation, reopen the matter, and grant the hearing request upon receipt of evidence of current liability insurance in the respondent's name. In such a case, a stay of the suspension pending issuance of the final order following the hearing shall not be granted.

(d) At the time the request for a hearing is made, if it appears from the record that the person is the holder of a valid driver's or minor driver's license or any instruction permit issued by this state or temporary permit issued pursuant to subsection (5) of this section and that the license has been surrendered as required pursuant to subsection (5) of this section, the department shall issue a temporary permit upon the receipt of evidence of current liability insurance in the respondent's name. The temporary permit will be valid until the scheduled date for the hearing. If necessary, the department may later issue an additional temporary permit or permits in order to stay the effective date of the suspension until the final order is issued following the hearing, as required by subsection (6) of this section.

(e) (I) The hearing shall be scheduled to be held as quickly as practicable but not more than sixty days after the day that the request for a hearing is received by the department; except that, if a hearing is rescheduled because of the unavailability of the hearing officer in accordance with subparagraph (II) of this paragraph (e), the hearing may be rescheduled more than sixty days after the day that the request for the hearing is received by the department, and the department shall continue any temporary driving privileges held by the respondent until the date that such hearing is rescheduled. The department shall provide a written notice of the time and place of the hearing to the respondent in the manner provided in section 42-2-119 (2) at least ten days prior to the scheduled or rescheduled hearing, unless the parties agree to waive this requirement. Notwithstanding the provisions of section 42-2-119, the last-known address of the respondent for purposes of notice for any hearing pursuant to this section shall be the address stated on the hearing request form.

(II) If a hearing officer cannot appear at any original or rescheduled hearing because of medical reasons, another administrative hearing, or any other legitimate just cause, such hearing officer or the department may reschedule the hearing at the earliest possible time when the hearing officer will be available.

(f) If a hearing is held pursuant to this subsection (7), the department shall review the matter and make a final determination on the basis of the documents and affidavit submitted to the department pursuant to subsections (2) and (3) of this section. The law enforcement officer who submitted the affidavit need not be present at the hearing. The department shall consider all other relevant evidence at the hearing, including the reports of law enforcement officers that are submitted to the department. The reports of law enforcement officers shall not be required to be made under oath, but such reports shall identify the officers making the reports. The department may consider evidence contained in affidavits from persons other than the respondent, so long as such affidavits include the affiant's home or work address and telephone number and are dated, signed, and sworn to by the affiant under penalty of perjury. The affidavit need not be notarized or sworn to before any other person. The respondent must present evidence in person.

(8) (a) The hearing shall be held in the district office of the department closest to the residence of the driver; except that all or part of the hearing may, at the discretion of the

department, be conducted in real time, by telephone or other electronic means in accordance with section 42-1-218.5. The person requesting the hearing may be referred to as the respondent.

(b) The presiding hearing officer shall be the executive director of the department or an authorized representative designated by the executive director. The presiding hearing officer shall have authority to administer oaths and affirmations; to consider the affidavit of the law enforcement officer filing such affidavit as specified in subsection (3) of this section; to consider other law enforcement officers' reports that are submitted to the department, which reports need not be under oath but shall identify the officers making the reports; to examine and consider documents and copies of documents containing relevant evidence; to consider other affidavits that are dated, signed, and sworn to by the affiant under penalty of perjury, which affidavits need not be notarized or sworn to before any other person but shall contain the affiant's home or work address and telephone number; to take judicial notice as defined by rule 201 of article II of the Colorado rules of evidence, subject to the provisions of section 24-4-105 (8), C.R.S., which shall include judicial notice of general, technical, or scientific facts within the hearing officer's knowledge; to compel witnesses to testify or produce books, records, or other evidence; to examine witnesses and take testimony; to receive and consider any relevant evidence necessary to properly perform the hearing officer's duties as required by this section; to issue subpoenas duces tecum to produce books, documents, records, or other evidence; to issue subpoenas for the attendance of witnesses; to take depositions, or cause depositions or interrogatories to be taken; to regulate the course and conduct of the hearing; and to make a final ruling on the issues.

(c) (I) When a license is suspended under paragraph (a) of subsection (2) of this section, the sole issue at the hearing shall be whether by a preponderance of the evidence the person drove a vehicle in this state without having in force a complying policy or certificate of self-insurance as required by sections 10-4-619 and 10-4-624, C.R.S. If the presiding hearing officer finds the affirmative of the issue, the suspension order shall be sustained. If the presiding hearing officer finds the negative of the issue, the suspension order shall be rescinded.

(II) Under no circumstances shall the presiding hearing officer consider any issue not specified in this paragraph (c).

(d) The hearing shall be recorded. The decision of the presiding hearing officer shall be rendered in writing, and a copy shall be provided to the person who requested the hearing.

(e) If the person who requested the hearing fails to appear without just cause, the right to a hearing shall be waived, and the determination of the department which is based upon the documents and affidavit required in subsections (2) and (3) of this section shall become final.

(9) (a) Within thirty-five days of the issuance of the final determination of the department under this section, a person aggrieved by the determination has the right to file a petition for judicial review in the district court in the county of the person's residence.

(b) The review shall be on the record without taking additional testimony. If the court finds that the department exceeded its constitutional or statutory authority, made an erroneous interpretation of the law, acted in an arbitrary and capricious manner, or made a determination which is unsupported by the evidence in the record, the court may reverse the department's determination.

(c) The filing of a petition for judicial review shall not result in an automatic stay of the suspension order. The court may grant a stay of the order only upon motion and hearing and upon a finding that there is a reasonable probability that the petitioner will prevail upon the merits and that the petitioner will suffer irreparable harm if the order is not stayed.

(10) The "State Administrative Procedure Act", article 4 of title 24, C.R.S., shall apply to this section to the extent it is consistent with subsections (7), (8), and (9) of this section relating to administrative hearings and judicial review.

(11) This section shall take effect when the motorist insurance identification database, created in section 42-7-604, has been developed and is operational, but not later than January 1, 1999.

42-2-127.9. Authority to suspend driver's license - leaving the scene of an accident.

(1) (a) The department may suspend the driver's license of any person upon the department's determination that there is proof by a preponderance of the evidence that the person was the driver of a vehicle directly involved in an accident resulting in serious bodily injury to or death of any person and failed to immediately stop the vehicle at the scene of the accident, or as close to the scene as possible, or immediately return to the scene of the accident, as required by section 42-4-1601.

(b) The department shall make a determination of the facts on the basis of the documents and affidavit of an officer as specified in subsection (2) of this section, and this determination shall be final unless a hearing is requested and held as provided in subsections (6) and (7) of this section.

(c) For purposes of this section:

(I) "License" includes any driving privilege.

(II) "Officer" means a law enforcement officer.

(2) Whenever an officer determines that a person has violated section 42-4-1601, the officer making the determination shall forward to the department an affidavit that includes a statement of the officer's probable cause that the person committed the violation and a copy of the citation and complaint, if any, filed with the court. The affidavit shall be dated, signed, and sworn to by the officer under penalty of perjury, but need not be notarized or sworn to before any other person.

(3) (a) Upon receipt by the department of the affidavit of the officer and the relevant documents required by subsection (2) of this section, the department shall make the determination described in subsection (1) of this section based upon the information contained in the affidavit and the relevant documents. If the department determines that the person is subject to license suspension, the department may issue a notice of suspension if such notice has not already been served upon the person by the officer in accordance with subsection (4) of this section.

(b) The department shall mail the notice of suspension in accordance with section 42-2-119 (2) to the person at the last-known address shown on the department's records, if any, and to any address provided in the officer's affidavit if that address differs from the address of record. The notice is deemed received three days after mailing.

(c) The notice of suspension must clearly specify the reason and statutory grounds for the suspension, the effective date of the suspension, the right of the person to request a hearing, the procedure for requesting a hearing, and the date by which that request for a hearing must be made.

(d) If the department determines that the person is not subject to license suspension:

(I) The department shall notify the person of its determination and shall rescind any order of suspension served upon the person by the officer;

(II) If the person's license was confiscated by an officer under subsection (4) of this section, the person may obtain the license by the payment of a fee to the department pursuant to subsection (5)(b) of this section. The department shall determine the fee in accordance with section 42-2-114.5.

(4) (a) If an officer determines that a person has violated section 42-4-1601, the officer, acting on behalf of the department, may serve the notice of suspension personally on the person. If the law enforcement officer serves the notice of suspension, the officer shall confiscate any driver's license issued by this state or any other state that is held by the person. When the officer takes possession of a valid license, the officer, acting on behalf of the department, shall issue a temporary permit that is valid for seven days after its date of issuance.

(b) The officer shall forward a copy of the completed notice of suspension form, a copy of any completed temporary permit form, and any driver's, minor driver's, or temporary driver's license or any instruction permit taken into possession under this section along with the affidavit and documents required in subsections (1) and (2) of this section.

(c) The department shall provide forms for notice of suspension and for temporary permits to law enforcement agencies. The department shall establish a format for the affidavits required by this section and shall give notice of such format to all law enforcement agencies that submit affidavits to the department. Law enforcement agencies shall follow the format determined by the department.

(d) A temporary permit shall not be issued to any person who is already driving with a temporary permit issued pursuant to subsection (4)(a) of this section.

(5) (a) A license suspension is effective seven days after the subject person has received the notice of suspension as provided in subsection (4) of this section or is deemed to have received the notice of suspension by mail as provided in subsection (3) of this section. If a written request for a hearing is received by the department within that same seven-day period, the effective date of the suspension is stayed until a final order is issued following the hearing; except that any delay in the hearing that is caused or requested by the subject person or counsel representing that person shall not result in a stay of the suspension during the period of delay.

(b) The period of license suspension under subsection (1)(a) of this section is one year. After the suspension period is complete, the person may have his or her driver's license restored by paying the required restoration fee pursuant to section 42-2-132 (4).

(6) (a) Any person who has received a notice of suspension may make a written request for a review of the department's determination at a hearing. The request may be made on a form available at each office of the department. A person who has received a notice of suspension

may also request a hearing for a probationary license issued in accordance with subsection (9) of this section.

(b) The request for a hearing must be made in writing within seven days after the day the person received the notice of suspension as provided in subsection (4) of this section or is deemed to have received the notice by mail as provided in subsection (3) of this section. If written request for a hearing is not received within the seven-day period, the right to a hearing is waived, and the determination of the department that is based upon the documents and affidavit required by subsections (1) and (2) of this section becomes final.

(c) At the time that a person requests a hearing, the department shall provide to the person written notice advising the person:

(I) Of the right to subpoena the law enforcement officer for the hearing and that the subpoena must be served upon the law enforcement officer at least five calendar days prior to the hearing;

(II) Of the person's right to notify the department in writing that the person desires the law enforcement officer's presence at the hearing and that, upon receiving the notification, the department shall issue a written notice for the law enforcement officer to appear at the hearing;

(III) That, if the law enforcement officer is not required to appear at the hearing, documents and an affidavit prepared and submitted by the law enforcement officer will be used at the hearing; and

(IV) That the affidavit and documents submitted by the law enforcement officer may be reviewed by the person prior to the hearing.

(d) If a written request for a hearing is made after expiration of the seven-day period and is accompanied by the person's verified statement explaining the failure to make a timely request for a hearing, the department shall receive and consider the request. If the department finds that the person was unable to make a timely request due to lack of actual notice of the suspension, factors of physical incapacity such as hospitalization, or incarceration, the department shall waive the period of limitation, reopen the matter, and grant the hearing request. In such case, a stay of the suspension pending issuance of the final order following the hearing shall not be granted.

(e) (I) The hearing shall be scheduled to be held as soon as practicable but not more than sixty days after the day that the request for a hearing is received by the department; except that, if a hearing is rescheduled because of the unavailability of a hearing officer in accordance with subsection (6)(e)(II) of this section, the hearing may be rescheduled more than sixty days after the day that the request for the hearing is received by the department, and the department shall continue any temporary driving privileges held by the person who requested the hearing until the date that such hearing is rescheduled. The department shall provide a written notice of the time and place of the hearing to the person who requested the hearing in the manner provided in section 42-2-119 (2) at least ten days before the scheduled or rescheduled hearing unless the parties agree to waive this requirement. Notwithstanding section 42-2-119, the last-known address of the person who requested the hearing for purposes of notice for any hearing pursuant to this section is the address stated on the hearing request form.

(II) If a hearing officer cannot appear at any original or rescheduled hearing because of medical reasons, a conflicting obligation to conduct another administrative hearing, or any other legitimate just cause, the hearing officer or the department may reschedule the hearing at the earliest possible time when the hearing officer will be available.

(f) If a hearing is held pursuant to this subsection (6), the department shall review the matter and make a final determination on the basis of the documents and affidavit submitted to the department pursuant to subsections (1) and (2) of this section. The officer who submitted the affidavit need not be present at the hearing unless requested in accordance with subsection (6)(c) of this section. The department shall consider all other relevant evidence at the hearing, including the reports of other officers that are submitted to the department. The reports of other officers are not required to be made under oath, but each such report must identify the officer making the report. The department may consider evidence contained in affidavits from persons other than the person requesting the hearing, so long as each such affidavit includes the affiant's home or work address and telephone number and is dated, signed, and sworn to by the affiant under penalty of perjury. The affidavit need not be notarized or sworn to before any other person. The person requesting the hearing must present evidence in person.

(7) (a) The hearing shall be held in the district office of the department closest to the residence of the person; except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means, in real time, in accordance with section 42-1-218.5.

(b) The presiding hearing officer shall be the executive director of the department or an authorized representative designated by the executive director. The presiding hearing officer may administer oaths and affirmations; consider the affidavit of the officer filing such affidavit as specified in subsection (2) of this section; consider other officers' reports submitted to the department pursuant to subsection (6)(f) of this section; examine and consider documents and copies of documents containing relevant evidence; consider other affidavits submitted pursuant to subsection (6)(f) of this section; take judicial notice as defined by rule 201 of article II of the Colorado rules of evidence, subject to section 24-4-105 (8), including judicial notice of general, technical, or scientific facts within the hearing officer's knowledge; compel witnesses to testify or produce books, records, or other evidence; examine witnesses and take testimony; receive and consider any relevant evidence necessary to properly perform the hearing officer's duties as required by this section; issue subpoenas duces tecum to produce books, documents, records, or other evidence; issue subpoenas for the attendance of witnesses; take depositions, or cause depositions or interrogatories to be taken; regulate the course and conduct of the hearing; and make a final ruling on the issues.

(c) (I) When a license is suspended under subsection (1)(a) of this section, the sole issue at the hearing shall be whether, based on a preponderance of the evidence, the person was the driver of a vehicle directly involved in an accident resulting in serious bodily injury to or death of any person and failed to immediately stop the vehicle at the scene of the accident, or as close to the scene as possible, or immediately return to the scene of the accident as required by section 42-4-1601. If the presiding hearing officer finds in the affirmative on that issue, the suspension order shall be sustained and the presiding hearing officer shall then consider whether or not to issue a probationary license in accordance with subsection (9) of this section. If the presiding hearing officer finds in the negative on that issue, the suspension order shall be rescinded.

(II) The presiding hearing officer shall not consider any issue not specified in this subsection (7)(c).

(d) The hearing shall be recorded. The presiding hearing officer shall render an opinion in writing, and a copy shall be provided to the person who requested the hearing.

(e) If the person who requested the hearing fails to appear without just cause, the right to a hearing is waived, and the determination of the department based upon the documents and affidavit required in subsections (1) and (2) of this section is final.

(8) (a) Within thirty-five days after the issuance of the final determination of the department under this section, a person aggrieved by the determination has the right to file a petition for judicial review in the district court in the county of the person's residence.

(b) Judicial review shall be based on the record without taking additional testimony. If the court finds that the department exceeded its constitutional or statutory authority, made an erroneous interpretation of the law, acted in an arbitrary and capricious manner, or made a determination that is unsupported by the evidence in the record, the court may reverse the department's determination.

(c) The filing of a petition for judicial review does not result in an automatic stay of the suspension order. The court may grant a stay of the order only upon motion and hearing and upon a finding that there is a reasonable probability that the person will prevail on the merits and that the person will suffer irreparable harm if the order is not stayed.

(9) A presiding hearing officer may issue a probationary license for a period not to exceed the period of suspension for the purpose of driving for reasons of employment, education, health, or other necessities as determined by the presiding hearing officer, which license may contain such restrictions as the department deems reasonable and necessary and which may thereafter be subject to cancellation as a result of any violation of the restrictions imposed therein. The presiding hearing officer may refuse to issue a probationary license if the department finds that aggravating circumstances exist to indicate the individual is unsafe for driving for any purpose. In refusing to issue a probationary license, the department shall make specific findings of fact to support such refusal. Such aggravating circumstances must be matters other than the facts and circumstances of the case giving rise to suspension under this section.

(10) The "State Administrative Procedure Act", article 4 of title 24, applies to this section to the extent it is consistent with subsections (6), (7), and (8) of this section relating to administrative hearings and judicial review.

42-2-132. Period of suspension or revocation. (1) The department shall not suspend a driver's or minor driver's license to drive a motor vehicle on the public highways for a period of more than one year, except as permitted under section 42-2-138 and except for noncompliance with the provisions of subsection (4) of this section or section 42-7-406, or both.

(2) (a) (I) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked is not entitled to apply for a probationary license, and, except as provided in sections 42-2-125, 42-2-126, 42-2-132.5, 42-2-138, 42-2-205, and 42-7-406, the person is not entitled to make application for a new license until the expiration of one year from the effective date of the revocation; then the person may make application for a new license as provided by law.

(II) (A) Following the period of revocation set forth in this subsection (2), the department shall not issue a new license unless and until it is satisfied that the person has demonstrated knowledge of the laws and driving ability through the appropriate motor vehicle testing process, and that the person whose license was revoked pursuant to section 42-2-125 for a second or subsequent alcohol- or drug-related driving offense has completed not less than a level II alcohol and drug education and treatment program certified by the office of behavioral health in the department of human services pursuant to section 42-4-1301.3.

(B) If the person was in violation of section 42-2-126 (3)(a) and the person had a BAC that was 0.15 or more at the time of driving or within two hours after driving, or if the person's driving record otherwise indicates a designation as a persistent drunk driver as defined in section 42-1-102 (68.5), the department shall require the person to complete a level II alcohol and drug education and treatment program certified by the office of behavioral health in the department of human services pursuant to section 42-4-1301.3, and, upon the restoration of driving privileges, shall require the person to hold a restricted license requiring the use of an ignition interlock device pursuant to section 42-2-132.5 (1)(a)(II).

(C) If a person seeking reinstatement has not completed the required level II alcohol and drug education and treatment program, the person shall file with the department proof of current enrollment in a level II alcohol and drug education and treatment program certified by the office of behavioral health in the department of human services pursuant to section 42-4-1301.3, on a form approved by the department.

(III) In the case of a minor driver whose license has been revoked as a result of one conviction for DUI, DUI per se, DWAI, or UDD, the minor driver, unless otherwise required after an evaluation made pursuant to section 42-4-1301.3, must complete a level I alcohol and drug education program certified by the office of behavioral health in the department of human services.

(IV) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked under section 42-2-125 (1)(g)(I) or (1)(i) or 42-2-203 where the revocation was due in part to a DUI, DUI per se, or DWAI conviction shall be required to present an affidavit stating that the person has obtained at the person's own expense a signed lease agreement for the installation and use of an approved ignition interlock device, as defined in section 42-2-132.5 (9)(a), in each motor vehicle on which the person's name appears on the registration and any other vehicle that the person may drive during the period of the interlock-restricted license.

(V) The department shall take into consideration any probationary terms imposed on such person by any court in determining whether any revocation shall be continued.

(b) Repealed.

(c) A person whose driving privilege is restored prior to a hearing on the merits of any driving restraint waives the person's right to a hearing on the merits of the driving restraint.

(3) Any person making false application for a new license before the expiration of the period of suspension or revocation commits a class 2 misdemeanor traffic offense. The department shall notify the district attorney's office in the county where such violation occurred, in writing, of all violations of this section.

(4) (a) (I) Any person whose license or other privilege to operate a motor vehicle in this state has been suspended, canceled, or revoked, pursuant to either this article or article 4 or 7 of this title, shall pay a restoration fee of ninety-five dollars to the executive director of the department prior to the issuance to the person of a new license or the restoration of the license or privilege.

(II) Notwithstanding the amount specified for the fee in subparagraph (I) of this paragraph (a), the executive director of the department by rule or as otherwise provided by law may reduce the amount of the fee if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of the fee is credited. After the uncommitted reserves of the fund are sufficiently reduced, the executive director of the

department by rule or as otherwise provided by law may increase the amount of the fee as provided in section 24-75-402 (4), C.R.S.

(b) The department shall transmit the restoration fees collected under this subsection (4) to the state treasurer, who shall credit:

(I) (A) Seventy-three dollars to the driver's license administrative revocation account in the highway users tax fund, which account is hereby created and referred to in this subparagraph (I) as the "account".

(B) The moneys in the account shall be subject to annual appropriation by the general assembly for the direct and indirect costs incurred by the department in the administration of driver's license restraints pursuant to either this article or article 4 or article 7 of this title, including, but not limited to, the direct and indirect costs of providing administrative hearings under this title, without the use of moneys from the general fund. At the end of each fiscal year, any unexpended and unencumbered moneys remaining in the account shall be transferred out of the account, credited to the highway users tax fund, and allocated and expended as specified in section 43-4-205 (5.5)(c), C.R.S.; and

(II) (A) Twenty-two dollars to the first time drunk driving offender account in the highway users tax fund, which account is hereby created and referred to in this subparagraph (II) as the "account".

(B) The moneys in the account shall be subject to annual appropriation by the general assembly on and after January 1, 2009, first to the department of revenue to pay its costs associated with the implementation of House Bill 08-1194, as enacted in 2008, and to pay its costs associated with the implementation of House Bill 13-1240, enacted in 2013; second, to the department of revenue to pay a portion of the costs for an ignition interlock device as described by section 42-2-132.5 (4)(a)(II)(C) for a first time drunk driving offender who is unable to pay the costs of the device; third, to the department of revenue to pay a portion of the costs for an ignition interlock device for a persistent drunk driver who is unable to pay the costs of the device and who installs the ignition interlock device on his or her vehicle on or after January 1, 2014; and then to provide two million dollars to the department of transportation for high visibility drunk driving enforcement pursuant to section 43-4-901, C.R.S. Any moneys in the account not expended for these purposes may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of moneys in the account shall be credited to the account. At the end of each fiscal year, any unexpended and unencumbered moneys remaining in the account shall remain in the account and shall not be credited or transferred to the general fund, the highway users tax fund, or another fund.

(5) ***[Editor's note: This subsection (5) is effective January 1, 2022.]*** (a) In addition to any other fee imposed pursuant to this section, a person whose license or privilege to drive a motor vehicle on the public highways has been revoked because of a DUI, DUI per se, DWAI, or UDD conviction shall pay a fee of twenty-five dollars to the department prior to the issuance to the person of a new license or the restoration of the license or privilege. The department may waive the fee upon a satisfactory showing that the person subject to the fee is indigent.

(b) The department shall transmit the fee collected pursuant to this subsection (5) to the state treasurer, who shall credit the same to the first time drunk driving offender account in the highway users tax fund.

42-2-132.5. Mandatory and voluntary restricted licenses following alcohol convictions - rules. (1) **Persons required to hold an interlock-restricted license.** (a) The following persons shall hold an interlock-restricted license pursuant to this section for at least

one year following reinstatement prior to being eligible to obtain any other driver's license issued under this article:

(I) A person whose license has been revoked for excess BAC pursuant to the provisions of section 42-2-126 when the person's BAC was 0.15 or more at the time of driving or within two hours after driving or whose driving record otherwise indicates a designation of persistent drunk driver as defined in section 42-1-102 (68.5);

(II) A person whose privilege to drive was revoked as an habitual offender under section 42-2-203 in which the revocation was due in part to a DUI, DUI per se, or DWAI conviction; or

(III) A person whose privilege to drive was revoked for interlock circumvention pursuant to paragraph (a) or (b) of subsection (7) of this section.

(b) A person whose privilege to drive was revoked for multiple convictions for any combination of a DUI, DUI per se, or DWAI pursuant to section 42-2-125 (1)(g)(I) or (1)(i) shall hold an interlock-restricted license pursuant to this section for at least two years, but not more than five years, following reinstatement prior to being eligible to obtain any other driver's license issued under this article.

(2) Posting the interlock restriction to driving record prior to reinstatement of driving privileges. As soon as a person meets the conditions of subsection (1) of this section, the department shall note on the driving record of a person required to hold an interlock-restricted license under this section that the person is required to have an approved ignition interlock device. A person whose driving record contains the notation required by this subsection (2) shall not operate a motor vehicle without an approved ignition interlock device until the restriction is removed pursuant to this section.

(3) Minimum interlock restriction requirement for persistent drunk drivers. A person required to hold an interlock-restricted license pursuant to this section who is a persistent drunk driver as defined in section 42-1-102 (68.5), based on an offense that occurred on or after July 1, 2004, shall be required to hold the interlock-restricted license for at least two years following reinstatement before being eligible to obtain any other driver's license issued under this article.

(4) Persons who may acquire an interlock-restricted license prior to serving a full-term revocation. (a) (I) A person whose privilege to drive has been revoked for one year or more because of a DUI, DUI per se, or DWAI conviction or has been revoked for one year or more for excess BAC under any provision of section 42-2-126 may apply for an early reinstatement with an interlock-restricted license under the provisions of this section after the person's privilege to drive has been revoked for one month; except that a person who is less than twenty-one years of age at the time of the offense may not apply for early reinstatement until his or her license has been revoked for one year. A person whose privilege to drive has been revoked for one year or more because of a refusal may apply for an early reinstatement with an interlock-restricted license under the provisions of this section after the person's privilege to drive has been revoked for two months; except that a person who is less than twenty-one years of age at the time of the offense may not apply for early reinstatement until his or her license has been revoked for one year. Except for first-time offenders as provided in subparagraph (II) of this paragraph (a) or for persistent drunk drivers as provided in subsection (3) of this section, the restrictions imposed pursuant to this section shall remain in effect for the longer of one year or the total time period remaining on the license restraint prior to early reinstatement.

(II) (A) **First-time offender eligibility.** For revocations for convictions for DUI or DUI per se under section 42-2-125 (1)(b.5) or for excess BAC 0.08 under section 42-2-126 (3)(a)(I) for a first violation that requires only a nine-month revocation, a person twenty-one years of age or older at the time of the offense may apply for an early reinstatement with an interlock-restricted license under the provisions of this section after the person's privilege to drive has been revoked for at least one month. Except as provided in subsection (3) of this section and sub-subparagraph (B) of this subparagraph (II), the restrictions imposed pursuant to this subparagraph (II) shall remain in effect for at least eight months.

(B) **First-time offender interlock removal.** A person with an interlock-restricted license issued pursuant to sub-subparagraph (A) of this subparagraph (II) shall be eligible for a license without the restriction required by this section if the department's monthly monitoring reports required in subsection (6) of this section show that, for four consecutive monthly reporting periods, the approved ignition interlock device did not interrupt or prevent the normal operation of the motor vehicle due to an excessive breath alcohol content or did not detect that there has been tampering with the device, there have been no other reports of circumvention or tampering, and there are no grounds to extend the restriction pursuant to paragraph (d) of subsection (7) of this section. If the department determines that a person is eligible for a license without the restriction required by this section pursuant to this sub-subparagraph (B), the department shall serve upon the person a notice of such eligibility. A person who has not been served but who believes he or she is eligible for a license without the restriction required by this section pursuant to this sub-subparagraph (B) may request a hearing on his or her eligibility. The provisions of this sub-subparagraph (B) do not apply to a person covered by subsection (3) of this section.

(C) **Financial assistance for first-time offenders and persistent drunk drivers.** The department shall establish a program to assist persons who apply for an interlock-restricted license pursuant to this subparagraph (II) or pursuant to subparagraph (I) of paragraph (a) of this subsection (4) and who are unable to pay the full cost of an approved ignition interlock device. The program shall be funded from the first time drunk driving offender account in the highway users tax fund established pursuant to section 42-2-132 (4)(b)(II).

(b) **Early reinstatement eligibility requirement.** (I) To be eligible for early reinstatement with an interlock-restricted license pursuant to this subsection (4), a person shall have satisfied all conditions for reinstatement imposed by law including time periods for non-alcohol-related restraints; except that a person whose license was also restrained for driving under restraint pursuant to section 42-2-138 may be eligible for early reinstatement under this section so long as the restraint was caused in part by driving activity occurring after an alcohol-related offense and the length of any license restriction under this section includes the period of restraint under section 42-2-138.

(II) Before being eligible for early reinstatement with an interlock-restricted license under this section, a person shall provide proof of financial responsibility to the department pursuant to the requirements of the "Motor Vehicle Financial Responsibility Act", article 7 of this title. The person shall maintain such proof of financial responsibility with the department for the longer of three years or the period that the person's license is restricted under this section; except that, for an offender subject to section 42-7-408 (1)(c)(I), the period of time that the person must maintain such proof of financial responsibility is the period of time that the person's license is restricted under this section.

(c) In order to be eligible for early reinstatement pursuant to this subsection (4), a person who has been designated an habitual offender under the provisions of section 42-2-202 must have at least one conviction for DUI, DUI per se, or DWAI under section 42-4-1301 and no contributing violations other than violations for driving under restraint under section 42-2-138 or reckless driving under section 42-4-1401.

(5) **Requirements for issuing the interlock-restricted license.** (a) The department may issue an interlock-restricted license under this section if the department receives from a person described in this section an affidavit stating that the person has obtained:

(I) A signed lease agreement for the installation and use of an approved ignition interlock device in each motor vehicle on which the person's name appears on the registration and any other vehicle that the person may drive during the period of the interlock-restricted license; and

(II) The written consent of all other owners, if any, of each motor vehicle in which the approved ignition interlock device is installed.

(b) (I) Notwithstanding the requirements of paragraph (a) of this subsection (5), the department may issue an interlock-restricted license to any person not seeking early reinstatement but who is required to hold an interlock-restricted license pursuant to subsection (1) of this section who is not the registered owner or co-owner of a motor vehicle if the person submits an affidavit stating that the person is not the owner or co-owner of a motor vehicle and has no access to a motor vehicle in which to install an approved ignition interlock device.

(II) If a person holding an interlock-restricted license issued pursuant to this paragraph (b) becomes an owner or co-owner of a motor vehicle or otherwise has access to a motor vehicle in which an approved ignition interlock device may be installed, he or she shall enter into a lease agreement for the installation and use of an approved ignition interlock device on the vehicle for a period equal to the remaining period of the interlock-restricted license and submit the affidavit described in paragraph (a) of this subsection (5).

(c) The terms of the interlock-restricted license shall prohibit the person from driving a motor vehicle other than a vehicle in which an approved ignition interlock device is installed.

(d) The department shall not issue a license under this section that authorizes the operation of a commercial motor vehicle as defined in section 42-2-402 (4) during the restriction required by this section.

(6) **Interlock monitoring device - reports.** The leasing agency for any approved ignition interlock device shall provide monthly monitoring reports for the device to the department to monitor compliance with the provisions of this section. The leasing agency shall check the device at least once every sixty days to ensure that the device is operating and that there has been no tampering with the device. If the leasing agency detects that there has been tampering with the device, the leasing agency shall notify the department of that fact within five days of the detection.

(7) **Licensing sanctions for violating the interlock restrictions.** (a) **Due to circumvention - conviction.** Upon receipt of notice of a conviction under subsection (10) of this section, the department shall revoke any interlock-restricted license issued to the convicted person pursuant to this section. The department shall not reinstate the interlock-restricted license for a period of one year or the remaining period of license restraint imposed prior to the issuance of an interlock-restricted license pursuant to this section, whichever is longer. A person is

entitled to a hearing on the question of whether the revocation is sustained and the calculation of the length of the ineligibility.

(b) **Due to circumvention - administrative record.** Upon receipt of an administrative record other than a notice of a conviction described in paragraph (a) of this subsection (7) establishing that a person who is subject to the restrictions of this section has operated a motor vehicle without an approved ignition interlock device or has circumvented or attempted to circumvent the proper use of an approved ignition interlock device, the department may revoke any license issued to the person pursuant to this section and not reinstate the license for a period of one year or the remaining period of license restraint imposed prior to the issuance of an interlock-restricted license pursuant to this section, whichever is longer. A person is entitled to a hearing on the question of whether the license should be revoked and the calculation of the length of the ineligibility.

(c) **Due to a lease violation.** If a lease for an approved ignition interlock device is terminated for any reason before the period of the interlock restriction expires and the licensee provides no other such lease, the department shall notify the licensee that the department shall suspend the license until the licensee enters into a new signed lease agreement for the remaining period of the interlock restriction.

(d) **Extending the interlock license restriction.** If the monthly monitoring reports required by subsection (6) of this section show that the approved ignition interlock device interrupted or prevented the normal operation of the vehicle due to excessive breath alcohol content in three of any twelve consecutive reporting periods, the department shall extend the interlock restriction on the person's license for an additional twelve months after the expiration of the existing interlock restriction. The department shall notify the person that the ignition interlock restriction is being extended and that his or her license shall be suspended unless the person enters into a new signed lease agreement for the use of an approved ignition interlock device for the extended period. The person is entitled to a hearing on the extension of the restriction. Based upon findings at the hearing, including aggravating and mitigating factors, the hearing officer may sustain the extension, rescind the extension, or reduce the period of extension.

(8) **Rules.** The department may promulgate rules to implement the provisions of this section.

(9) **Approved ignition interlock device definition - rules.** (a) For the purposes of this section, "approved ignition interlock device" means a device approved by the department of public health and environment that is installed in a motor vehicle and that measures the breath alcohol content of the driver before a vehicle is started and that periodically requires additional breath samples during vehicle operation. The device may not allow a motor vehicle to be started or to continue normal operation if the device measures an alcohol level above the level established by the department of public health and environment.

(b) The state board of health may promulgate rules to implement the provisions of this subsection (9) concerning approved ignition interlock devices.

(10) **Operating vehicle after circumventing interlock device.** (a) A person whose privilege to drive is restricted to the operation of a motor vehicle equipped with an approved ignition interlock device and who operates a motor vehicle other than a motor vehicle equipped with an approved ignition interlock device or who circumvents or attempts to circumvent the proper use of an approved ignition interlock device commits a class 1 traffic misdemeanor.

(b) If a peace officer issues a citation pursuant to paragraph (a) of this subsection (10), the peace officer shall immediately confiscate the offending driver's license, shall file an incident report on a form provided by the department, and shall not permit the driver to continue to operate the motor vehicle.

(c) A court shall not accept a plea of guilty to another offense from a person charged with a violation of paragraph (a) of this subsection (10); except that the court may accept a plea of guilty to another offense upon a good-faith representation by the prosecuting attorney that the attorney could not establish a prima facie case if the defendant were brought to trial on the offense.

(11) Tampering with an approved ignition interlock device. (a) A person shall not intercept, bypass, or interfere with or aid any other person in intercepting, bypassing, or interfering with an approved ignition interlock device for the purpose of preventing or hindering the lawful operation or purpose of the approved ignition interlock device required under this section.

(b) A person whose privilege to drive is restricted to the operation of a motor vehicle equipped with an approved ignition interlock device shall not drive a motor vehicle in which an approved ignition interlock device is installed pursuant to this section if the person knows that any person has intercepted, bypassed, or interfered with the approved ignition interlock device.

(c) A sworn statement that is made under penalty of perjury shall be sufficient evidence of the applicant's social security number required by this subsection (1) and shall authorize the department to issue an identification card to the applicant. Nothing in this paragraph (c) shall be construed to prevent the department from canceling, denying, recalling, or updating an identification card if the department learns that the applicant has provided a false social security number.

(2) (a) The department shall issue an identification card only upon the furnishing of a birth certificate or other documentary evidence of identity that the department may require. An applicant who submits a birth certificate or other documentary evidence issued by an entity other than a state or the United States shall also submit such proof as the department may require that the applicant is lawfully present in the United States. An applicant who submits as proof of identity a driver's license or identification card issued by a state that issues drivers' licenses or identification cards to persons who are not lawfully present in the United States shall also submit such proof as the department may require that the applicant is lawfully present in the United States. The department may assess a fee under section 42-2-306 (1)(b) if the department is required to undertake additional efforts to verify the identity of the applicant.

(b) The department may not issue an identification card to any person who is not lawfully present in the United States.

(c) The department may not issue an identification card to any person who is not a resident of the state of Colorado. The department shall issue an identification card only upon the furnishing of such evidence of residency that the department may require.

(2.5) (a) The department shall issue a new identification card to a person who has a gender different from the sex denoted on that person's identification card when the department receives a new birth certificate issued pursuant to section 25-2-113.8 or when the department receives:

(I) A statement, in a form or format designated by the department, from the person, or from the person's parent if the person is a minor, or from the person's guardian or legal representative, signed under penalty of law, confirming the sex designation on the person's identification card does not align with the person's gender identity; and

(II) If the person is a minor under the age of eighteen, a statement, in a form or format designated by the department, signed under penalty of law, from a professional medical or mental health-care provider licensed in good standing in Colorado or with an equivalent license in good standing from another jurisdiction, stating that the sex designation on the identification card does not align with the minor's gender identity. This subsection (2.5)(a)(II) does not require a minor to undergo any specific surgery, treatment, clinical care, or behavioral health care.

(b) The department may only amend a sex designation for an individual's identification card one time upon the individual's request. Any further requests from the individual for additional sex designation changes require the submission of a court order indicating that the sex designation change is required.

(3) (a) The department has the authority to cancel, deny, or deny the reissuance of the identification card of a person upon determining that the person is not entitled to issuance of the identification card for the following reasons:

(I) Failure to give the required or correct information in an application or commission of any fraud in making such application;

(II) Permission of an unlawful or fraudulent use or conviction of misuse of an identification card;

(III) The person is not lawfully present in the United States; or

(IV) The person is not a resident of the state of Colorado.

App. sec. 453, as amended.

(b) The department shall forward in an electronic format the necessary personal information of the applicants identified in paragraph (a) of this subsection (4) to the selective service system. The applicant's submission of an application shall serve as an indication that the applicant either has already registered with the selective service system or that he is authorizing the department to forward to the selective service system the necessary information for such registration. The department shall notify the applicant that his submission of an application constitutes consent to registration with the selective service system, if so required by federal law.

(5) The department shall not issue an identification card to a first time applicant in Colorado until the department completes its verification of all facts relative to such applicant's right to receive an identification card including the residency, identity, age, and current licensing status of the applicant. Such verification shall utilize appropriate and accurate technology and techniques. Such verification shall include a comparison of existing driver's license and identification card images in department files with the applicant's images to ensure such applicant has only one identity.

(6) The department shall not issue an identification card to a person who holds a valid minor driver's or driver's license.

(7) The department shall not issue an identification card to an individual whose authorization to be present in the United States is temporary unless the individual applies under and complies with part 5 of this article.

(b) Once the department issues an identification card under this subsection (9), the department shall cancel any valid driver's license held by the applicant.

(c) Repealed.

42-2-405.5. Violations of out-of-service order. (1) A person who operates a commercial motor vehicle in violation of an out-of-service order commits a class 1 traffic misdemeanor.

(2) No court shall accept a plea of guilty to another offense from a person charged with a violation of subsection (1) of this section; except that the court may accept such a plea upon a good faith representation by the prosecuting attorney that there is not a prima facie case for the original offense.

(3) Upon receipt of notice of a conviction or deferred sentence under subsection (1) of this section, the department shall immediately suspend the commercial driver's license for the maximum period set forth in the United States federal regulations governing violations of out-of-service orders for commercial drivers and section 42-2-403 (1).

(4) Notice of suspension under subsection (3) of this section shall be mailed to the person by the department in compliance with section 42-2-119 (2).

(5) (a) Upon receipt of the notice of suspension, the person may request a hearing in writing if the person has surrendered to the department a commercial driver's license issued by any state. The department, upon notice to the person, shall hold a hearing as soon as practicable at the district office of the department closest to the residence of the person; except that, at the discretion of the department, all or part of the hearing may be conducted in real time by telephone or other electronic means in accordance with section 42-1-218.5.

(b) The only issues at such hearing are whether the driver was convicted of or received a deferred sentence for a violation of subsection (1) of this section and the appropriate length of suspension. If the driver was convicted, the license shall be suspended. The hearing officer may reduce the period of suspension based on findings at the hearing, including without limitation the circumstances of the violation, the prior driving record, and aggravating and mitigating factors. A hearing officer shall not reduce the suspension period below the minimum disqualification period imposed by 49 CFR 383.51.

(c) (I) The order of the hearing officer is the final agency action and may be appealed under section 42-2-135. A petition for judicial review must be filed within thirty-five days after the date of the order.

(II) Judicial review shall be on the record of the hearing without taking additional testimony. If the court finds that the department exceeded its constitutional or statutory authority, made an erroneous interpretation of the law, acted in an arbitrary and capricious manner, or made a determination that is unsupported by the evidence in the record, the court may reverse the department's determination.

(III) The court may grant a stay of the order only upon motion, after a hearing, and upon a finding that there is a reasonable probability that the petitioner will prevail upon the merits and that the petitioner will suffer irreparable harm if the order is not stayed.

(I) The name, date of birth, driver's license number, and address of the motor vehicle's owner;

(II) The make, year, and vehicle identification number of the motor vehicle;

(III) The time period during which such vehicle will not be operated and a statement that the owner is neither operating such vehicle nor permitting any other person to operate such vehicle during the time period stated; and

(IV) Proof that the owner currently has insurance coverage under subparagraph (I) of paragraph (d) of this subsection (1).

(2) Upon applying for registration, the owner of a motor vehicle or low-power scooter shall receive a written notice printed on the application for registration in type that is larger than the other information contained on the application for registration. The department shall advise the applicant in the notice that motor vehicle insurance or operator's coverage is compulsory in Colorado, that noncompliance is a misdemeanor traffic offense, that the minimum penalty is a

five-hundred-dollar fine, that the maximum penalty is one year's imprisonment and a one-thousand-dollar fine, and that the owner is required as a condition of registering the vehicle to either:

- (a) Sign a statement of nonuse under paragraph (f) of subsection (1) of this section; or
- (b) Provide proof of insurance under paragraph (d) of subsection (1) of this section.

(3) The owner of such vehicle or the owner's agent shall, upon filing the application for registration, pay such fees as are prescribed by sections 42-3-304 to 42-3-306, together with the annual specific ownership tax on the motor vehicle, trailer, semitrailer, or trailer coach for which the license is to be issued.

(3.5) (a) A person registering a motor vehicle that is not a commercial vehicle and is a passenger motor vehicle, light-weight truck, motorcycle, or recreational vehicle may decline to pay the keep Colorado wild pass fee assessed pursuant to section 33-12-108 (4)(b). Nonpayment of the pass fee does not affect a person's ability to register a motor vehicle.

(b) As used in this subsection (3.5), unless the context otherwise requires:

- (I) "Keep Colorado wild pass" has the meaning set forth in section 33-12-108 (3)(d).
- (II) "Light-weight truck" has the meaning set forth in section 33-12-108 (3)(e).
- (III) "Pass fee" has the meaning set forth in section 33-12-108 (3)(i).

(4) (a) A motor vehicle dealer or used motor vehicle dealer licensed under article 6 of this title may act as an authorized agent of the department for the purposes of compliance with this section and collection of fees required for the registration of low-power scooters required by this article. When the owner of the low-power scooter complies with this section, the dealer shall forward to the department an affidavit swearing that the owner has insurance, the statement required by subsection (2) of this section, and the fees required by part 3 of this article for the registration of a low-power scooter.

(b) Notwithstanding any provision of law to the contrary, in a civil action for damages or indemnification resulting from the operation of a motor vehicle, a motor vehicle dealer, used motor vehicle dealer, or employee thereof shall not be liable for an act or omission arising as a result of the dealer or employee performing the functions of an agent pursuant to this subsection (4).

(c) Upon finding a pattern of failure to comply with the requirements of paragraph (a) of this subsection (4), the department may withdraw a motor vehicle dealer's or used motor vehicle dealer's authorization to act as an agent of the department.

42-3-106. Tax imposed - classification - taxable value. (1) The owner of each item of classified personal property shall pay an annual specific ownership tax unless exempted by this article. Such specific ownership tax shall be annually computed in accordance with section 42-3-107 in lieu of all annual ad valorem taxes.

(2) For the purpose of imposing graduated annual specific ownership taxes, the personal property specified in section 6 of article X of the state constitution is classified as follows:

(a) Every motor vehicle, truck, laden or unladen truck tractor, trailer, and semitrailer used in the business of transporting persons or property over any public highway in this state as an interstate commercial carrier for which an application is made for apportioned registration, regardless of base jurisdiction, shall be Class A personal property.

(b) Every truck, laden or unladen truck tractor, trailer, and semitrailer used for the purpose of transporting property over any public highway in this state and not included in Class A shall be Class B personal property; except that multipurpose trailers shall be Class D personal property.

(c) Every motor vehicle not included in Class A or Class B shall be Class C personal property.

(d) Every utility trailer, camper trailer, multipurpose trailer, and trailer coach shall be Class D personal property.

(e) **[Editor's note: This version of subsection (2)(e) is effective until July 1, 2022.]** Every item of special mobile machinery, except power takeoff equipment, that is required to be registered under this article 3 is Class F personal property. If a farm tractor, meeting the definition of special mobile machinery, is used for any purpose other than agricultural production for more than a seventy-two-hour period at the site where it is used for nonagricultural purposes, it is Class F personal property, but it is granted a prorated registration under section 42-3-107 to cover the use. The authorized agent shall notify the owner of the farm tractor of the prorated registration. Storing a farm tractor at a site does not give rise to a presumption that the tractor was used for the same purposes that other equipment is used for at the site.

(e) **[Editor's note: This version of subsection (2)(e) is effective July 1, 2022.]** Every item of special mobile machinery, except power takeoff equipment, that is required to be

registered under this article 3 or that is covered by a registration exempt certificate issued by the department in accordance with section 42-3-107 (16)(g) is Class F personal property. If a farm tractor, meeting the definition of special mobile machinery, is used for any purpose other than agricultural production for more than a seventy-two-hour period at the site where it is used for nonagricultural purposes, it is Class F personal property, but it is granted a prorated registration under section 42-3-107 to cover the use. The authorized agent shall notify the owner of the farm tractor of the prorated registration. Storing a farm tractor at a site does not give rise to a presumption that the tractor was used for the same purposes that other equipment is used for at the site.

(3) (a) An owner of a vehicle shall not permanently attach to the vehicle mounted equipment unless:

(I) The owner applies for registration of the mounted equipment to the authorized agent in the county where the equipment is required to be registered within twenty days after the equipment is mounted to the vehicle; or

(II) The mounted equipment is power takeoff equipment.

(b) The application shall be on forms prescribed by the department and shall describe the equipment to be mounted, including serial number, make, model, year of manufacture, weight, and cost.

(4) The taxable value of every item of classified personal property shall be the value determined for the year of its manufacture or the year it is designated by the manufacturer as a current model, and such determined taxable value shall not change. Regardless of the date of acquisition by an owner, the year of manufacture or the year for which designated by the manufacturer as a current model shall be considered as the first year of service. The maximum rate of specific ownership taxation shall apply to the taxable value in the first year of service, and annual downward graduations from such maximum rate shall apply to such taxable value for the number of later years of service specified for each class of personal property.

(5) Manufactured homes shall not be classified for purposes of imposing specific ownership taxes but shall be subject to the imposition of ad valorem taxes in the manner provided in part 2 of article 5 of title 39, C.R.S.

(6) (a) If a vehicle and the equipment mounted on the vehicle are the same model year:

(I) The owner of the vehicle and the mounted equipment may register both as Class F personal property; or

(II) The owner of the vehicle may register the vehicle as Class A, Class B, Class C, or Class D personal property and the mounted equipment may be registered as Class F personal property.

(b) If a vehicle and the equipment mounted on the vehicle are different model years:

(I) The owner of the vehicle shall register the vehicle as Class A, Class B, Class C, or Class D personal property; and

(II) The owner of the vehicle shall register the mounted equipment as Class F personal property.

42-3-107. Taxable value of classes of property - rate of tax - when and where payable - department duties - apportionment of tax collections - definitions - rules - repeal.

(1) (a) (I) Except as provided in subparagraph (I.5) of this paragraph (a), the taxable value of every item of Class A or Class B personal property greater than sixteen thousand pounds declared empty vehicle weight shall be the actual purchase price of such property. Such price shall not include any applicable federal excise tax, including the excise tax on the first retail sale of a heavy truck, trailer, or tractor for which the seller is liable, transportation or shipping costs, or preparation and delivery costs. The taxable value of every item of Class A or Class B personal property less than or equal to sixteen thousand pounds declared empty vehicle weight shall be seventy-five percent of the manufacturer's suggested retail price.

(I.5) (A) The taxable value of every item of Class A or Class B personal property greater than sixteen thousand pounds declared empty vehicle weight that meets the definition of category 4, category 4 A, category 4 B, category 4 C, category 7, category 7 A, and category 9 trucks as defined in section 39-22-516.8, C.R.S., is seventy-five percent of the actual purchase price of such property.

(B) This subparagraph (I.5) is repealed, effective December 31, 2026.

(II) For the purposes of this section, the actual purchase price used to set taxable value shall be the price of the vehicle when the vehicle is initially purchased at the retail level by a person who intends to put the vehicle into initial use. The taxable value shall not change for the life of the vehicle.

(III) For the purposes of this section, "actual purchase price" means the gross selling price, including all property traded to the seller in exchange for credit toward the purchase of a vehicle.

(b) Every licensed motor vehicle dealer in Colorado shall furnish on the application for title the manufacturer's suggested retail price and the actual purchase price on each new motor vehicle sold and delivered in Colorado.

(c) If a motor vehicle purchased outside Colorado is registered for the first time in Colorado and neither the manufacturer's suggested retail price nor the actual purchase price is available, the agent of the department shall establish the taxable value of such vehicle through the use of a compilation of values furnished by the department.

(2) The annual specific ownership tax payable on every item of Class A personal property shall be computed in accordance with the following schedule:

Year of service	Rate of tax
First year	2.10% of taxable value
Second year	1.50% of taxable value
Third year	1.20% of taxable value
Fourth year	.90% of taxable value

Fifth, sixth, seventh, eighth,
and ninth years

.45% of taxable value or \$10,
whichever is greater

Tenth and each later year

\$ 3

(3) The owner of any Class A personal property shall file a list with the department describing each item owned, reciting the year of manufacture or model designation, and stating the original sale price of any mounted equipment mounted on or attached to such item after its manufacture or first retail sale. As soon thereafter as practicable, the department shall compute the annual specific ownership tax payable on each item shown on such list and shall send to the owner a statement showing the aggregate amount of specific ownership tax payable by such owner.

(4) In computing the amount of annual specific ownership tax payable on an item of Class A or Class B personal property, the department may take into account the length of time such item may be operated in intrastate or interstate commerce within Colorado, giving due consideration to any reciprocal agreements concerning general property taxation of such item as may exist between Colorado and other states, and also to the number of miles traveled by such item in each state.

(5) The annual specific ownership tax on Class A personal property shall become due and payable to the department on the last day of the month at the end of each twelve-month registration period and shall be renewed, upon application by the owner and payment of required fees, no later than one month after the date of expiration.

(6) The aggregate amount of specific ownership taxes to be collected by the department on Class A personal property during a registration period shall be apportioned to each county of the state in the proportion that the mileage of the state highway system located within the boundaries of each county bears to the total mileage of the state highway system.

(7) The department shall transmit all specific ownership taxes collected on items of Class A and Class F personal property to the state treasurer and shall advise the treasurer on the last day of each month of the amounts apportioned to each county from the preceding month's collections. The state treasurer shall pay such amounts to the respective treasurers of each county.

(8) (a) Except as provided in paragraph (b) of this subsection (8), the annual specific ownership tax payable on every item of Class B personal property is:

Year of service

Rate of tax

First year

2.10% of taxable value

and ninth years

(b) (I) In lieu of paying the specific ownership tax required in paragraph (a) of this subsection (8), an owner who qualifies may pay ownership tax under this paragraph (b). The

specific ownership tax payable on Class B personal property under sixteen thousand pounds empty weight is one dollar for each full year while the owner is a member of the United States armed forces and has orders to serve outside the United States. If the owner serves less than a full year outside the United States, the tax is the amount established by paragraph (a) of this subsection (8), prorated according to the number of months the owner was in the United States.

(II) In order to qualify for the tax rate imposed by this paragraph (b), the owner must:

(A) Show the department military orders to serve outside the United States or any evidence acceptable to the department that the owner served outside the United States; and

(B) File a signed affidavit that the motor vehicle will not be operated on a highway when the tax rate applies.

(III) If a person has already paid taxes at the rate required in paragraph (a) of this subsection (8) but is eligible to pay taxes under this paragraph (b), the department shall credit the person the difference between the rate in paragraph (a) of this subsection (8) and the prorated rate imposed in this paragraph (b) towards the person's specific ownership taxes for succeeding years.

(IV) This paragraph (b) only applies to a motor vehicle that is less than ten model-years old and less than sixteen thousand pounds empty weight.

(9) (a) The taxable value of every item of Class C or Class D personal property shall be eighty-five percent of the manufacturer's suggested retail price, not including applicable federal excise tax, transportation or shipping costs, or preparation and delivery costs.

(b) Every licensed motor vehicle dealer in Colorado shall furnish on the application for title the manufacturer's suggested retail price of each new motor vehicle sold and delivered in Colorado.

(c) If a motor vehicle purchased outside of Colorado is registered for the first time in Colorado and the manufacturer's suggested retail price is not available, the agent of the department shall establish the taxable value of such vehicle through the use of a compilation of values furnished by the department.

(d) The computation of taxable values as set forth in this subsection (9) shall apply to each motor vehicle sold on or after September 1, 1981, and shall not apply to a motor vehicle sold or registered prior to that date.

(10) (a) Except as provided in paragraph (b) of this subsection (10), the annual specific ownership tax payable on every item of Class C personal property is:

Year of service	Rate of tax
First year	2.10% of taxable value
Second year	1.50% of taxable value
Third year	1.20% of taxable value
Fourth year	.90% of taxable value
Fifth, sixth, seventh, eighth, and ninth years	.45% of taxable value
Tenth and each later year	\$ 3

(b) (I) In lieu of paying the specific ownership tax required in paragraph (a) of this subsection (10), an owner who qualifies may pay ownership tax under this paragraph (b). The specific ownership tax payable on Class C personal property is one dollar for each full year

while the owner is a member of the United States armed forces and has orders to serve outside the United States. If the owner serves less than a full year outside the United States, the tax is the amount established by paragraph (a) of this subsection (10), prorated according to the number of months the owner was in the United States.

(II) In order to qualify for the tax rate imposed by this paragraph (b), the owner must:

(A) Show the department military orders to serve outside the United States or any evidence acceptable to the department that the owner served outside the United States; and

(B) File a signed affidavit that the motor vehicle will not be operated on a highway when the tax rate applies.

(III) If a person has already paid taxes at the rate required in paragraph (a) of this subsection (10) but is eligible to pay taxes under this paragraph (b), the department shall credit the person the difference between the rate in paragraph (a) of this subsection (10) and the prorated rate imposed in this paragraph (b) towards the person's specific ownership taxes for succeeding years.

(IV) This paragraph (b) only applies to a motor vehicle that is less than ten model-years old.

(11) (a) In lieu of payment of the annual specific ownership tax in the manner specified in subsections (2), (8), and (10) of this section, a person who owns vehicles that are based in Colorado for rental purposes and whose primary business is the rental of such vehicles for periods of less than forty-five days, including renewals, to another person may elect to pay specific ownership tax as authorized in this subsection (11).

(b) To obtain authorization to pay specific ownership tax pursuant to this subsection (11), an owner shall apply to the authorized agent in the county in which the principal place of business of the owner of such rental vehicles in Colorado is located. Such authorization shall apply to all rental vehicles of the owner that satisfy the requirements set forth in this section.

(c) Upon receiving authorization as provided in paragraph (b) of this subsection (11), the owner shall collect from the user of a rental vehicle the specific ownership tax in an amount equivalent to two percent of the amount of the rental payment, or portion thereof, that is subject to the imposition of sales tax pursuant to part 1 of article 26 of title 39, C.R.S. Such specific ownership tax shall be collected on vehicles that are based in Colorado for rental purposes and rented from a place of business in Colorado. No later than the twentieth day of each month, the owner shall submit a report, using forms furnished by the department, to the authorized agent in the county where the vehicles are rented and the remittance for all specific ownership taxes collected for the preceding month. A copy of the report shall be submitted simultaneously by the owner to the department. The department may also require, by rule, the owner to submit a copy of the owner's monthly sales tax collection form to the authorized agent when the owner's monthly report is submitted.

(d) Failure to submit the report or to remit the specific ownership tax collected for the preceding month by the last day of each month shall be grounds for the termination of the right of an owner to pay specific ownership tax under this subsection (11). If an owner fails to remit specific ownership tax received pursuant to this subsection (11), the authorized agent may collect such delinquent taxes in the manner authorized in subsection (21) of this section.

(e) A person who owns vehicles and whose primary business is the rental of such vehicles as specified in paragraph (a) of this subsection (11) shall be exempt from payment of the specific ownership tax at the time of registration if such tax is collected and remitted

pursuant to this subsection (11). Such owner shall pay a fee of one dollar per rental vehicle registered at the time of registration. Such fee shall be in addition to other registration fees and shall be distributed pursuant to subsection (22) of this section.

(f) Every person who owns vehicles and whose primary business is the rental of such vehicles as specified in paragraph (a) of this subsection (11) shall register and pay all applicable taxes and fees for all vehicles rented from a place of business located in Colorado. If the owner of such vehicles fails to register or to pay such taxes and fees, the owner shall, upon conviction, be punished by a fine equal to two percent of the annual gross dollar volume of the primary business of such person that is attributable to the rental of vehicles from a place of business in Colorado.

(12) (a) In lieu of payment of the annual specific ownership tax in the manner specified in subsections (2), (8), and (10) of this section, any person who owns vehicles that are based in a state other than Colorado for rental purposes and whose primary business is the rental of such vehicles for periods of less than forty-five days, including renewals, to another person shall pay specific ownership tax as prescribed in this subsection (12).

(b) The owner shall collect from the user of a rental vehicle the specific ownership tax in an amount equivalent to two percent of the amount of the rental payment, or portion thereof, that is subject to the imposition of sales tax pursuant to part 1 of article 26 of title 39, C.R.S. Such specific ownership tax shall be collected on all vehicles based in a state other than Colorado for rental purposes that are rented from a place of business in Colorado. By the twentieth day of each month, the owner shall submit a report, using forms furnished by the department, to the authorized agent in the county where the vehicles are rented, together with the remittance for all specific ownership taxes collected for the preceding month. A copy of the report shall be submitted simultaneously by the owner to the department. The department may also require, by rule, the owner to submit a copy of the owner's monthly sales tax collection form to the authorized agent when the owner's monthly report is submitted.

(c) If any owner fails to remit specific ownership tax received pursuant to this subsection (12), the authorized agent may proceed to collect such delinquent taxes in the manner authorized in subsection (21) of this section.

(d) Every person who owns vehicles and whose primary business is the rental of such vehicles as specified in paragraph (a) of this subsection (12) shall pay all applicable taxes for all vehicles based in a state other than Colorado and rented from a place of business located in Colorado. If the owner of such vehicles fails to pay such taxes, the owner shall, upon conviction, be punished by a fine in an amount equal to two percent of the annual gross dollar volume of the primary business of such person that is attributable to the rental of vehicles from a place of business in Colorado.

(13) The annual specific ownership tax payable on every item of Class D personal property shall be computed in accordance with the following schedule:

Year of service	Rate of tax
First year	2.10% of taxable value
Second year	1.50% of taxable value
Third year	1.20% of taxable value
Fourth year	.90% of taxable value

Fifth, sixth, seventh, eighth, and ninth years	.45% of taxable value
Tenth and each later year	.45% of taxable value or \$ 3, whichever is greater

(14) The department shall designate suitable compilations of the manufacturer's suggested retail price or actual purchase price of all items of Class A, Class B, Class C, and Class D personal property and shall provide each authorized agent with copies. Unless the actual purchase price is used as the taxable value, such compilation shall be uniformly used to compute the annual specific ownership tax payable on any item of such classified personal property purchased outside Colorado and registered for the first time in Colorado. Such actual purchase price shall not be used unless the department receives or has received a manufacturer's statement or certificate of origin for such vehicle. The department shall provide continuing supplements of such compilation to each authorized agent in order that the agent may have available current information relative to the manufacturer's suggested retail price of newly manufactured items.

(15) (a) The property tax administrator shall compile and have printed a comprehensive schedule of all vehicles defined and designated as Class F personal property, wherein all such vehicles shall be listed according to make, model, year of manufacture, capacity, weight, and any other terms that serve to describe such vehicles.

(b) Except as provided in paragraph (c) of this subsection (15) for property acquired prior to January 1, 1997, the taxable value of Class F personal property shall be determined by the property tax administrator and shall be either:

(I) The factory list price and, in case any equipment has been mounted on or attached to such vehicle subsequent to its manufacture, the factory list price plus seventy-five percent of the original price of such mounted equipment, exclusive of any state and local sales taxes; or

(II) When the factory list price of such vehicle is not available, then seventy-five percent of its original retail delivered price, exclusive of any state and local taxes, and, in case any equipment has been mounted on or attached to such vehicle subsequent to its first retail sale, then seventy-five percent of such original retail delivered price plus seventy-five percent of the original retail delivered price of such mounted equipment, exclusive of any state and local sales taxes; or

(III) When neither the factory list price of such vehicle nor the original retail delivered price of the vehicle or any equipment subsequently mounted thereon is ascertainable, then such value as the property tax administrator shall establish based on the best information available to the property tax administrator.

(c) The taxable value of Class F personal property acquired on or after January 1, 1997, shall be determined by the property tax administrator and shall be either:

(I) Eighty-five percent of the manufacturer's suggested retail price and, in case any equipment has been mounted on or attached to such vehicle subsequent to its manufacture, eighty-five percent of the manufacturer's suggested retail price plus eighty-five percent of the manufacturer's suggested retail price of such mounted equipment, exclusive of any state and local sales taxes; or

(II) When the manufacturer's suggested retail price of such vehicle is not available, then one hundred percent of its original retail delivered price to the customer, exclusive of any state and local taxes, and, in case any equipment has been mounted on or attached to such vehicle subsequent to its first retail sale, then one hundred percent of such original retail delivered price

to the customer plus one hundred percent of the original retail delivered price to the customer of such mounted equipment, exclusive of any state and local taxes; or

(III) When neither the manufacturer's suggested retail price of such vehicle nor the original retail delivered price of either the vehicle or any equipment subsequently mounted thereon is ascertainable, then such value as the property tax administrator shall establish based on eighty-five percent of the value set forth in a nationally recognized standard or reference for such figures or, if such a standard or reference for the figures is not available, then on the best information available to the property tax administrator.

(d) By whichever of the above three methods determined, the taxable value of each item of Class F personal property shall be listed opposite its description in the schedule required by this subsection (15) to be compiled by the property tax administrator.

(e) The annual specific ownership tax payable on each item of Class F personal property shall be computed in accordance with the following schedule:

Year of service	Rate of tax
First year	2.10% of taxable value
Second year	1.50% of taxable value
Third year	1.25% of taxable value
Fourth year	1.00% of taxable value
Fifth year	.75% of taxable value
Sixth and each later year	.50% of taxable value, but not less than \$ 5

(f) The authorized agent shall include the value of all equipment that has been mounted on or attached to Class F personal property in the calculation of the annual specific ownership tax. The registrations for such personal property and equipment shall be made available to the county assessor.

(16) (a) In lieu of payment of the annual specific ownership tax in the manner provided in subsection (15) of this section, the owner of special mobile machinery who is an equipment dealer regularly engaged in the sale or rental of special mobile machinery and who rents or leases such equipment to another person in which the owner has not held an interest for at least thirty days may elect to pay specific ownership tax as prescribed in this subsection (16).

(b) ***[Editor's note: This version of the introductory portion to subsection (16)(b) is effective until July 1, 2022.]*** Authorization for payment of specific ownership tax under this subsection (16) shall be obtained from the authorized agent in the county in which the owner's principal place of business is located. The owner shall also apply for an identifying decal for each item of equipment to be rented or leased that shall be affixed to the item when it is rented or leased. The owner shall keep records of each identifying decal issued and a description of the item of equipment to which it is affixed. The fee for each identifying decal shall be five dollars, paid upon application to the authorized agent. An identifying decal shall expire when the registration of the special mobile machinery to which it is affixed expires pursuant to section 42-3-114. An identifying decal shall not be issued to special mobile machinery unless the machinery is registered, but a decal may be issued concurrently with the registration and shall expire pursuant to section 42-3-114. The owner shall be required to remove an identifying decal upon

the sale or change of ownership of such item of equipment. The fee of five dollars for each identifying decal as required by this section shall be distributed as follows:

(b) *[Editor's note: This version of the introductory portion to subsection (16)(b) is effective July 1, 2022.]* Authorization for payment of specific ownership tax under this subsection (16) shall be obtained from the authorized agent in the county in which the owner's principal place of business is located; except that, for an item of equipment that is covered by a registration exempt certificate issued by the department in accordance with subsection (16)(g) of this section, authorization for the payment of specific ownership tax under this subsection (16) shall be obtained directly from the department. Except in the case of an item of equipment that is covered by a registration exempt certificate issued by the department in accordance with subsection (16)(g) of this section, the owner shall also apply for an identifying decal for each item of equipment to be rented or leased that shall be affixed to the item when it is rented or leased. The owner shall keep records of each identifying decal issued and a description of the item of equipment to which it is affixed. The fee for each identifying decal shall be five dollars, paid upon application to the authorized agent. An identifying decal shall expire when the registration of the special mobile machinery to which it is affixed expires pursuant to section 42-3-114. An identifying decal shall not be issued to special mobile machinery unless the machinery is registered, but a decal may be issued concurrently with the registration and shall expire pursuant to section 42-3-114. The owner shall be required to remove an identifying decal upon the sale or change of ownership of such item of equipment. The fee of five dollars for each identifying decal as required by this section shall be distributed as follows:

(I) Two dollars shall be retained by the authorized agent issuing such decal; and

(II) Three dollars shall be available upon appropriation by the general assembly to fund the administration and enforcement of this section.

(c) (I) Upon receiving authorization under paragraph (b) of this subsection (16), the owner shall collect from the user the specific ownership tax in the amount equivalent to two percent of the amount of the rental or lease payment.

(II) No later than the twentieth day of each month, the owner shall submit a report, using forms furnished by the department, to the authorized agent in each county where the equipment is used, together with the remittance of the taxes collected for the use in the county for the preceding month. The owner shall simultaneously submit a copy of each report to the department. This subparagraph (II) does not apply when modified by subparagraph (III) of paragraph (d) of this subsection (16).

(d) (I) Except as modified by subparagraph (III) of this paragraph (d), the owner shall make the report monthly to the department and to the authorized agent in the county where the equipment is located with a user, even if no specific ownership taxes were collected by the owner in the previous month.

(II) Failure to make such report in a period of sixty days is grounds for the termination of the owner's right to pay the specific ownership taxes on the owner's Class F personal property in the manner provided under this subsection (16). If the owner fails to remit specific ownership taxes received from a renter or lessee during such sixty-day period, the authorized agent may proceed to collect the delinquent taxes in the manner authorized in subsection (21) of this section.

(III) The department shall allow the owner to file the report electronically with the department of revenue either by electronic transmission or by electronically readable media as

determined by rule. If the filing is made under this subparagraph (III), the owner need not file with the authorized agent. The department shall make the information in the report available to the authorized agents in the counties where the equipment is rented or used. This subparagraph (III) does not relieve the owner of the requirement to remit payment of the tax to the county in accordance with subparagraph (II) of paragraph (c) of this subsection (16).

(e) The owner of an item of special mobile machinery that is required to be registered for highway use under section 42-3-304 (14) shall be exempt from payment of the specific ownership tax at the time of registration if such tax is collected and remitted under this subsection (16).

(f) (I) **[Editor's note: This version of subsection (16)(f)(I) is effective until July 1, 2022.]** If the owner of special mobile machinery who is paying specific ownership tax under this subsection (16) regularly has more than ten pieces of special mobile machinery in the state, the department may issue to the owner a registration period certificate. The owner must present the registration period certificate to the appropriate authorized agent no later than the tenth day after the month when registration of any motor vehicle is required by this article. When so presented, the twelve-month period stated in the registration period certificate governs the date when registration is required for each fleet vehicle or leased by the owner.

(f) (I) **[Editor's note: This version of subsection (16)(f)(I) is effective July 1, 2022.]** If the owner of special mobile machinery who is paying specific ownership tax under this subsection (16) regularly has more than ten pieces of special mobile machinery that are not exempt from registration pursuant to section 42-3-104 (3) in the state, the department may issue to the owner a registration period certificate. The owner must present the registration period certificate to the appropriate authorized agent no later than the tenth day after the month when registration of any motor vehicle is required by this article 3. When so presented, the twelve-month period stated in the registration period certificate governs the date when registration is required for each fleet vehicle not exempted from registration pursuant to section 42-3-104 (3) that is owned or leased by the owner.

(II) Notwithstanding any provision of this title, the department may promulgate rules to establish requirements for an owner to register a special mobile machinery fleet that is identified by special license plates or an identifying decal. The department shall not require the plates to have an annual validating tab or sticker. Registration fees payable on the machinery under a multi-year agreement are not discounted below the otherwise applicable annual registration fees.

(III) Special mobile machinery registered under this paragraph (f) or after the issuance of a registration period certificate or the execution of a multi-year agreement are subject to section 42-3-109.

(IV) (A) The owner shall pay the annual registration fees required by sections 42-3-304 to 42-3-306 for special mobile machinery, reduced by twenty-five percent for each elapsed quarter, before applying for the balance of the registration period.

(B) The fees and taxes for special mobile machinery registered under this paragraph (f) prior to the effective date of the registration period certificate or multi-year agreement must be apportioned in the manner required by subparagraph (III) of this paragraph (f).

(C) An authorized agent may issue individual registration number plates, an identifying decal, or certificates upon application by an owner of special mobile machinery or the owner's agent and the payment of a registration fee of seven dollars. Of the seven-dollar fee, three dollars and sixty cents is to be retained by the authorized agent or department issuing the plates,

identifying decal, or certificates; forty cents is to be remitted monthly to the department, which shall then transmit it to the state treasurer for credit to the highway users tax fund; and three dollars is available upon appropriation by the general assembly to fund the administration and enforcement of this paragraph (f). The owner or the owner's agent may then affix the plate, identifying decal, or certificate to special mobile machinery purchased or brought into the state pending registration.

(V) An owner issued a registration period certificate under subparagraph (I) of this paragraph (f) may register and pay registration fees and other license fees due for the special mobile machinery no later than the twentieth day of each quarter for all new special mobile machinery delivered into the state during the preceding quarter. The owner shall submit a report identifying new equipment, using forms furnished by the department, to the authorized agent in the county where the machinery was first delivered into the state, together with the remittance for all fees due for the preceding quarter. The owner shall simultaneously submit a copy of each report to the department. The machinery is deemed registered pending the timely filing of the report so long as the machinery displays the numbered plate, identifying decal, or certificate required by the department.

(g) ***[Editor's note: Subsection (16)(g) is effective July 1, 2022.]*** (I) An owner of special mobile machinery who pays specific ownership taxes in accordance with this subsection (16) may apply to the department for a registration exempt certificate, which the department shall issue to the owner if:

(A) The department verifies that the owner regularly has one thousand or more items of such special mobile machinery in the state;

(B) Each item of such special mobile machinery is clearly marked or painted in a manner that identifies it as being owned by the owner;

(C) Each item of such special mobile machinery bears a visible and readily identifiable unique identification number assigned by the owner; and

(D) Each item of such special mobile machinery bears a visible toll-free telephone number for the owner that can be used for verification of ownership.

(II) A person to whom the department has issued a registration exempt certificate shall pay all specific ownership tax for an item of special mobile machinery that is covered by the registration exempt certificate directly to the department.

(III) An item of special mobile machinery that is owned by a person to whom the department has issued a registration exempt certificate is not required to be registered, and the department shall not require the owner of any such item of special mobile machinery to obtain license plates, annual validating tabs, or identifying decals for the item of special mobile machinery. Notwithstanding the exemptions from registration and licensing requirements for any such item of special mobile machinery, at the time during each calendar year in which specific ownership tax is first paid for the item as required by subsection (16)(c)(II) of this section, the owner of the item shall also pay directly to the department all fees and surcharges that would otherwise be paid at the time of registration; except that the owner shall not pay any fee imposed pursuant to section 42-3-301 for the purpose of covering the direct costs of license plates, decals, or validating tabs or any fee that would otherwise be retained by an authorized agent for the purpose of defraying the direct costs incurred by the authorized agent in registering or issuing license plates, decals, or validating tabs for the item. The department shall transmit all additional registration fees imposed pursuant to section 42-3-310 that it receives from owners of special

mobile machinery to whom the department has issued a registration exempt certificate to the county treasurer of each county of the state in proportion to the total amount of vehicle registrations statewide represented by vehicle registrations within the county, and each county treasurer shall apportion the fees within the county in the manner specified in section 42-3-310.

(IV) The department may promulgate rules to establish the process by which an owner applies for a registration exempt certificate, allow the department to verify that the owner satisfies the requirements set forth in subsection (16)(g)(I) of this section, and otherwise implement this subsection (16)(g).

(17) (a) For purposes of this subsection (17), unless the context otherwise requires:

(I) "Owner" means an owner, as defined in section 42-1-102 (66), that owns an item of special mobile machinery. The term includes any person authorized to act on the owner's behalf.

(II) "Prorated specific ownership tax" means the prorated special mobile machinery specific ownership tax assessed pursuant to this subsection (17).

(III) "Special mobile machinery" means every item of Class F personal property described in section 42-3-106 (2)(e) that is required to be registered under section 42-3-103.

(b) In lieu of payment of the annual specific ownership tax in the manner provided in subsection (15) of this section, an owner may apply for and pay prorated specific ownership tax in accordance with this subsection (17).

(c) To be eligible for prorated specific ownership tax, an owner shall have entered into a written contract to perform a service requiring use of the special mobile machinery for which specific ownership tax under this section is required.

(d) (I) An owner who desires prorated specific ownership tax shall submit an application to the department. The application shall include the terms of the owner's service, which shall be evidenced by a copy of the written contract specified in paragraph (c) of this subsection (17) and signed by the owner. The validity of the contract shall be evidenced either by sufficient documentation to substantiate its validity or by the fact that such owner is an established business in Colorado, as shown by registration with the Colorado secretary of state or department of revenue as required by law.

(II) An owner of special mobile machinery that is not registered in Colorado shall submit the application upon the arrival in Colorado of the special mobile machinery for which specific ownership tax under this section is required.

(III) An owner of special mobile machinery that is registered in Colorado shall submit the application when the owner renews the registration of the special mobile machinery for which specific ownership tax under this section is required.

(IV) When satisfied as to the genuineness and regularity of the application submitted, the department shall assess, and the owner shall pay, the prorated specific ownership tax in an amount equal to the annual specific ownership tax that would otherwise be imposed pursuant to subsection (15) of this section, prorated by the number of months during which the owner is expected to use the special mobile machinery in Colorado.

(V) (A) Prorated specific ownership taxes shall be assessed for a period of not less than two months nor more than eleven months in a twelve-month period.

(B) After a prorated specific ownership tax has been assessed and paid, an owner may have the prorated specific ownership tax assessment period adjusted for between two and eleven months upon the owner's request to the department that the owner requires additional time to

complete the contract referred to in paragraph (c) of this subsection (17) and upon payment of any additional prorated specific ownership tax pursuant to this subsection (17).

(e) (I) A person who, in an application made under this subsection (17), uses a false or fictitious name or address, knowingly makes a false statement, knowingly conceals a material fact, or otherwise perpetrates a fraud commits a class 2 misdemeanor traffic offense. Such person continues to be liable for any unpaid specific ownership taxes.

(II) A person shall not operate special mobile machinery in Colorado unless the owner has paid the specific ownership tax assessed pursuant to this article, and a person shall not operate special mobile machinery in Colorado after the expiration of the period for which the specific ownership tax was paid. A person who violates this subparagraph (II) is subject to, in addition to any other penalty, an administrative penalty of the lesser of five hundred dollars or double the amount of the specific ownership tax. The penalty may be levied by an authorized agent or a peace officer under the authority granted by section 42-8-104 (2). The violation is to be determined by, paid to, and retained by the municipality or county where the motor vehicle is or should have been registered, subject to judicial review pursuant to rule 106 (a)(4) of the Colorado rules of civil procedure.

(18) (a) The annual specific ownership tax provided in subsection (15) of this section for Class F personal property registered in Colorado shall be determined and collected by the authorized agent in the county in which the owner of such Class F personal property resides.

(b) (I) The owner of any Class F personal property shall, within sixty days after the purchase of new or used Class F personal property, apply for registration with the authorized agent.

(II) No person shall operate Class F personal property unless the property is registered with the authorized agent or exempt from registration pursuant to section 42-3-104 (3).

(c) The property tax administrator shall furnish each authorized agent with a printed copy of the schedule of taxable values of Class F personal property compiled as provided in subsection (15) of this section, and such schedule shall be uniformly used by every authorized agent in computing the amount of annual specific ownership tax payable on any Class F personal property. The property tax administrator shall also furnish continuing supplements of such schedule to each authorized agent in order that the agent may have available current information relative to the taxable value of newly manufactured Class F personal property.

(19) The annual specific ownership tax on each item of Class B, Class C, Class D, and Class F personal property shall become due and payable to the authorized agent in the county where such item is to be registered, shall be paid at the time of registration of such item, and if not paid within one month after the date a registration expires, shall become delinquent.

(20) Except as provided in subsection (27) of this section, it is the duty of each authorized agent to collect the registration fee on every item of classified personal property located in the agent's county when registered and to collect the specific ownership taxes payable on each such item registered, except those items classified as Class A upon which the specific ownership tax is collected by the department and except those items classified as Class F when such tax is collected under subsection (16) of this section, at the time of registration. The failure of any authorized agent to collect the registration fee and specific ownership tax on any item of classified personal property shall not release the owner thereof from liability for the registration of such vehicle.

(21) Each authorized agent shall advise the owner of any item of Class F personal property upon which the annual specific ownership tax is due, by notice mailed to such owner indicating the amount of tax due. If payment is not made, the authorized agent shall report such fact to the county treasurer, who shall thereupon proceed to collect the amount of delinquent tax by distraint, seizure, and sale of the item upon which the tax is payable, in the same manner as is provided in section 39-10-113, C.R.S., for the collection of ad valorem taxes on personal property.

(22) Each authorized agent shall retain, out of the amount of annual specific ownership tax collected on each item of classified personal property, the sum of fifty cents, which sum shall constitute remuneration for the collection of such tax. The sums so retained shall be transmitted to the county treasurer and credited in the manner provided by law. In addition, each authorized agent shall retain, out of the amount of annual specific ownership tax collected on each item of classified personal property, the sum of fifty cents, which sum shall be transmitted to the state treasurer, who shall credit the same to the special purpose account established under section 42-1-211.

(23) Each authorized agent shall transmit to the county treasurer, at least once each week, all specific ownership taxes collected on items of classified personal property, reporting the aggregate amount collected for each class.

(24) (a) Each January, the treasurer of each county shall calculate the percentages that the dollar amount of ad valorem taxes levied in the treasurer's county during the preceding calendar year for county purposes and for the purposes of each political and governmental subdivision located within the boundaries of the treasurer's county were of the aggregate dollar amount of ad valorem taxes levied in such county during the preceding calendar year for said purposes. The percentages so calculated shall be used for the apportionment between the county itself and each political and governmental subdivision located within its boundaries of the aggregate amount of specific ownership tax revenue to be paid over to the treasurer during the current calendar year.

(b) On the tenth day of each month, the aggregate amount of specific ownership taxes on Class A, B, C, D, and F personal property received or collected by the county treasurer during the preceding calendar month shall be apportioned between the county and each political and governmental subdivision located within the boundaries of the county according to the percentages calculated in the manner prescribed in paragraph (a) of this subsection (24), and the respective amounts so determined shall be credited or paid over to the county and each such subdivision.

(c) The fee for the collection of specific ownership taxes having been charged when collected by the authorized agent, the treasurer shall make no further charge against the amount of specific ownership taxes credited or paid over to any political or governmental subdivision located in the treasurer's county.

(d) An insolvent taxing district, as defined in section 32-1-1402 (2), C.R.S., that has increased its mill levy for the purpose of paying for maturing bonds of the district, interest on bonds of the district, or prior deficiencies of the district shall not be entitled to receive any larger proportion of the specific ownership taxes collected in the county in which such district is located as the result of such increase in the district's mill levy. For the purpose of apportioning specific ownership tax revenues in a county, dollar amounts from the levying of ad valorem taxes by an insolvent taxing district located in the county for the purpose of paying for maturing

bonds of the district, interest on bonds of the district, or prior deficiencies of the district shall be excluded from the calculation of the percentages required by paragraph (a) of this subsection (24).

(25) (a) (I) ***[Editor's note: This version of subsection (25)(a)(I) is effective until July 1, 2022.]*** Except as provided in subsection (25)(b) of this section, the department shall allow a credit for taxes, surcharges, and registration fees paid on any item of Class A, Class B, Class C, Class D, or Class F personal property if the owner disposes of the vehicle during the registration period or if the owner converts the vehicle from any class of personal property to Class F property. The credit may apply to payments of taxes, surcharges, and registration fees on a subsequent application by the owner for registration of an item of Class A, Class B, Class C, Class D, or Class F personal property made during the registration period, or the credit may be assigned by the owner to the transferee of the property for which taxes, surcharges, or registration fees were paid; except that, when the transferee is a dealer in new or used vehicles, the transferee shall account to the owner for any assignment of the credit.

(25) (a) (I) ***[Editor's note: This version of subsection (25)(a)(I) is effective July 1, 2022.]*** Except as provided in subsection (25)(b) of this section, the department shall allow a credit for taxes, surcharges, and registration fees paid on any item of Class A, Class B, Class C, Class D, or Class F personal property, other than Class F personal property for which the department has issued a registration exempt certificate in accordance with subsection (16)(g) of this section, if the owner disposes of the vehicle during the registration period or if the owner converts the vehicle from any class of personal property to Class F property. The credit may apply to payments of taxes, surcharges, and registration fees on a subsequent application by the owner for registration of an item of Class A, Class B, Class C, Class D, or Class F personal property made during the registration period, or the credit may be assigned by the owner to the transferee of the property for which taxes, surcharges, or registration fees were paid; except that, when the transferee is a dealer in new or used vehicles, the transferee shall account to the owner for any assignment of the credit.

(II) The credit authorized by this subsection (25)(a) is prorated based on the number of months remaining in the registration period after the transfer, conversion to Class F personal property, or disposal of the vehicle. The proration calculation for the credit begins with the first day of the month after the transfer, conversion to Class F personal property, or disposal and ends the last day of the month for which the vehicle was registered.

(III) The credit is allowed only if the total ownership tax, surcharge, and registration fee credit due exceeds ten dollars.

(b) The credit authorized in subsection (25)(a) of this section does not apply to fees imposed in sections 42-3-301; 42-3-304 (5), (6), (7), (19), and (22); 42-3-312; and 42-3-313.

(26) Notwithstanding the amount specified for the fees in paragraph (e) of subsection (11) and paragraph (b) of subsection (16) of this section, the executive director of the department by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the executive director of the department by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

(27) (a) Notwithstanding any provision in this article to the contrary, a fleet owner may process the registration renewal for any fleet vehicle, with the exception of Class A personal property, in the county in which the fleet owner's principal office or principal fleet management facility is located instead of in the county in which the fleet vehicle is located at the time of registration. A fleet vehicle for which the registration renewal is processed pursuant to this subsection (27) shall continue to be registered in the county in which it is located at the time of registration. This subsection (27) shall not apply to a fleet vehicle that was not previously registered in Colorado at the time of registration.

(b) If a fleet owner chooses to process the registration renewal of a fleet vehicle in the county in which the owner's principal office or principal fleet management facility is located instead of in the county in which the vehicle is located, the authorized agent in the county where the owner's principal office or principal fleet management facility is located shall collect the registration fee and specific ownership tax payable on each fleet vehicle for which the registration renewal is processed by the fleet owner in such county.

(c) The authorized agent in a county in which a fleet vehicle registration renewal is processed pursuant to this section shall retain and not disburse the sum authorized pursuant to section 42-1-210 (1)(a) to defray the costs associated with vehicle registration. The authorized agent in the county in which a fleet vehicle registration renewal is processed pursuant to this section shall transmit to the department all fees and moneys collected by the agent pursuant to section 42-1-214.

(d) The authorized agent in the county in which a fleet vehicle registration renewal is processed pursuant to this section shall transmit the registration fees collected pursuant to section 42-3-310 to the department. The department shall then transmit such fees to the authorized agent in the county in which the fleet vehicle is located at the time of registration, and the authorized agent shall transmit such fees to the county treasurer pursuant to section 42-3-310.

(e) The annual specific ownership tax on each fleet vehicle for which the registration renewal is processed in the county in which the fleet owner's principal office or principal fleet management facility is located shall become due and payable to the authorized agent in such county pursuant to this article. The authorized agent in such county shall apportion the specific ownership taxes collected for all fleet vehicles for which the registration renewal is processed in such county pursuant to this subsection (27) to the counties in which the fleet vehicles are located at the time of registration in proportion to the number of fleet vehicles located in each county.

(f) (I) This subsection (27) applies to registration renewal for fleet vehicles.

(II) Repealed.

(g) Nothing in this section shall be construed to affect the allocation of highway users tax fund moneys to counties or municipalities pursuant to sections 43-4-207 and 43-4-208, C.R.S.

(28) The prepaid annual specific ownership tax for a registration issued under section 42-3-102 (4) is ninety-five dollars and fifty cents.

42-3-110. Payment of motor vehicle registration fees and specific ownership taxes in installments. (1) An owner of a motor vehicle, other than a trailer or semitrailer, classified as Class A or Class B personal property under section 42-3-106 (2)(b) may apply to the department to pay the twelve-month registration fee and specific ownership tax for the owner's fleet of such vehicles in installments. The department shall approve an application from a fleet owner to make payments for a fleet in installments if all the following requirements are met:

(a) The total of the twelve-month registration fee and the twelve-month specific ownership tax for the fleet equals one thousand dollars or more;

(b) The applicant pays one-third of the total amount due for registration and specific ownership tax with the application;

(c) The fleet owner does not owe past due motor vehicle registration fees or specific ownership taxes or outstanding penalties imposed for nonpayment of such fees or taxes;

(d) The owner is not denied the privilege of paying in installments pursuant to paragraph (b) of subsection (3) of this section; and

(e) The fleet owner has a performance bond issued by a surety company authorized to do business in Colorado, a bank letter of credit, or a certificate of deposit in an amount equal to no less than the remaining amount of the annual registration fee and specific ownership tax that will be paid in installments. The performance bond, letter of credit, or certificate of deposit shall be payable to the department if the owner fails to pay the required installments.

(2) If an application to pay in installments is approved pursuant to subsection (1) of this section, the applicant shall pay the remainder of the registration fee and specific ownership tax in two equal installments as follows:

(a) The first installment on or before the first day of the fifth month of the registration period; and

(b) The second installment on or before the first day of the ninth month of the registration period.

(3) (a) If a fleet owner fails to pay an installment under this section on or before the date the installment was due, the remaining amount of the unpaid registration fee and specific ownership tax for the fleet is due in full immediately. Such owner shall not operate the vehicles in such fleet on the highways of the state until the owner has paid such amount.

42-3-112. Failure to pay tax - penalty - rules. (1) If a vehicle subject to taxation under this article is not registered when required by law, the vehicle owner shall pay a late fee of twenty-five dollars for each month or portion of a month following the expiration of the registration period, or, if applicable, the expiration of the grace period described in section 42-3-114 for which the vehicle is unregistered; except that the amount of the late fee shall not exceed one hundred dollars. The late fee shall be due when the vehicle is registered.

(1.5) (a) Notwithstanding the provisions of subsection (1) of this section, the executive director of the department shall promulgate rules in accordance with article 4 of title 24, C.R.S., that establish circumstances in addition to the circumstances described in subsection (3) of this section in which a vehicle owner shall be exempted from paying the late fee described in said subsection (1). The rules shall apply uniformly throughout the state and shall include, but shall not be limited to, exemptions for:

- (I) Acts of God and weather-related delays;
- (II) Office closures and furloughs;
- (III) Temporary registration number plates, tags, or certificates that have expired;
- (IV) Medical hardships; and
- (V) Information technology failures.

(b) The executive director of the department shall also promulgate rules in accordance with article 4 of title 24, C.R.S., that allow the department or an authorized agent to reduce or waive the late fee that would otherwise be due upon the registration of a trailer that is a commercial or farm vehicle, as part of the normal operation, if the owner can establish, in accordance with criteria specified in the rules, that the trailer was idled so that it was not operated on any public highway in this state for at least a full registration period. Nothing in this paragraph (b) shall be construed to exempt the owner of an idled trailer from paying any fees imposed pursuant to this article other than the late fee before again operating the trailer on a public highway in this state or from paying any taxes imposed pursuant to this article. The owner shall provide to the department or authorized agent a sworn affidavit that states that the trailer has not been operated on the public highways during the period for which it was not registered as required and describes the nature of the business conditions that resulted in the removal of the trailer from service.

(c) The executive director of the department shall consult with the authorized agents in promulgating the rules required by subsection (1.5)(a) of this section.

(1.7) Notwithstanding the provisions of subsection (1) of this section, on and after July 1, 2010, the amount of the late fee payable by the owner of a vehicle without motive power that weighs sixteen thousand pounds or less or a camper trailer or a multipurpose trailer regardless of its weight, that is subject to taxation under this article, and that is not registered when required by law shall be ten dollars. Each authorized agent shall remit to the department no less frequently than once a month, but otherwise at the time and in the manner required by the executive director of the department, the remainder of the late registration fees

collected by the authorized agent. The executive director shall forward all late registration fees remitted by authorized agents plus the remainder of the late registration fees collected directly by the department to the state treasurer, who shall credit the fees to the highway users tax fund in accordance with section 43-4-804 (1)(e), C.R.S.

(3) The late fee described in subsection (1) of this section shall not be imposed on a vehicle subject to taxation under this article if:

(a) The person who owns the vehicle uses the vehicle in operating a commercial business and, as part of the normal operation of the business, idles the vehicle so that it is not operated on any public highway in this state for at least one full registration period. Nothing in this paragraph (a) shall be construed to exempt the owner of an idled vehicle from paying any fees imposed pursuant to this article other than the late fee before again operating the vehicle on a public highway in this state or from paying any taxes imposed pursuant to this article.

(b) The person who owns the vehicle is in the active military service of the United States and is serving outside the state when a registration period and grace period for renewal of registration for the vehicle end and the vehicle is not operated on any public highway of the state between the time the registration period and grace period end and the time the vehicle is reregistered. Nothing in this paragraph (b) shall be construed to exempt the owner of such a vehicle from paying any fees imposed pursuant to this article other than the late fee before again operating the vehicle on a public highway in this state or from paying any taxes imposed pursuant to this article.

(c) The vehicle registration expired during the period the vehicle was reported stolen.

(4) The department shall notify all registered owners of the provisions and requirements of subsections (2) and (3) of this section.

(5) The department shall not require the owner to sign the registration card.

The department shall make this information immediately available to a peace officer who queries information about the registered vehicle.

(b) (I) The department shall promulgate a rule creating an application and renewal form that is signed by a professional, under penalty of perjury, to affirm that the driver or regular passenger of a vehicle has a disability and the disability interferes with the person's ability to effectively communicate with a peace officer and setting out the penalties for affirming before verifying that the person has a disability that interferes with the person's ability to effectively communicate with a peace officer.

(d) An owner of a vehicle may choose to no longer have the information regarding a disability available to a peace officer who queries the vehicle registration. At an owner's request, the department shall remove the disability information attached to the owner's vehicle registration. The department shall not retain any disability information for an owner who chooses to remove disability information from the owner's vehicle registration.

(e) By January 15, 2023, and each year thereafter, the department shall report to the house of representatives health and insurance committee and transportation and local government committee and the senate health and human services committee and transportation and energy committee, or their successor committees, on the percentage of persons registering a vehicle who have disclosed disability information in accordance with this subsection (9.5) in the previous calendar year.

The fees imposed by this subsection (3) are in addition to all other taxes and fees imposed for license plates in the previously retired style.

The additional fee shall be transmitted to the state treasurer, who shall credit it to the license plate cash fund created in section 42-3-301 (1)(b); except that twenty-five dollars of the fee shall be credited to the disability support fund created in section 24-30-2205.5.

(13) In addition to the annual registration fees prescribed in this section for vehicles with a seating capacity of more than fourteen and operated for the transportation of passengers for compensation, the owner or operator of every such vehicle operated over the public highways of this state shall pay a passenger-mile tax equal to one mill for each passenger transported for a distance of one mile. The tax shall be credited to the highway users tax fund created in section 43-4-201, C.R.S., as required by section 43-4-203 (1)(c), C.R.S., and allocated and expended as

specified in section 43-4-205 (5.5)(d), C.R.S. The tax assessed by this subsection (13) shall not apply to passenger service rendered within the boundaries of a city, city and county, or incorporated town by a company engaged in the mass transportation of persons by buses or trolley coaches.

(15) The owner of special mobile machinery, except that mentioned in sections 42-1-102 (44) and 42-3-104 (3), that is not registered for operation on the highway shall pay a fee of one dollar and fifty cents, which shall not be subject to any quarterly reduction.

(16) Nothing in this section shall be construed to prevent a farmer or rancher from occasionally exchanging transportation with another farmer or rancher when the sole consideration involved is the exchange of personal services and the use of vehicles.

(17) (a) At the time of registration of such vehicle, the owner of a truck subject to registration under section 42-3-306 (5) having a weight in excess of four thousand five hundred pounds, but not in excess of ten thousand pounds, including mounted equipment other than that of a recreational type, shall present to the authorized agent a copy of the manufacturer's statement or certificate of origin that specifies the shipping weight of such vehicle, or if such documentation is not available, a certified scale ticket showing the weight of such vehicle.

Such fee shall be transmitted to the state treasurer, who shall credit the same to a special account within the highway users tax fund, to be known as the AIR account, and such moneys shall be used, subject to appropriation by the general assembly, to cover the direct costs of the motor vehicle emissions activities of the department of public health and environment in the presently defined nonattainment area, and to pay for the costs of the commission in performing its duties under section 25-7-106.3, C.R.S. In the program areas within counties affected by this article, the authorized agent shall impose and retain an additional fee of up to seventy cents on every such registration to cover reasonable costs of administration of the emissions compliance aspect of vehicle registration. (b) In addition to any other fee imposed by this section, at the time of registration of any motor vehicle in the program area subject to inspection and not exempt from registration, the owner shall pay a fee of one dollar and fifty cents. Such fee shall be transmitted to the state treasurer, who shall credit the same to the AIR account within the highway users tax fund, and such moneys shall be expended only to cover the costs of administration and enforcement of the automobile inspection and readjustment program by the department of revenue and the

department of public health and environment, upon appropriation by the general assembly. For such purposes, the revenues attributable to one dollar of such fee shall be available for appropriation to the department of revenue, and the revenues attributable to the remaining fifty cents of such fee shall be available for appropriation to the department of public health and environment.

(c) There shall be established two separate subaccounts within the AIR account, one for the revenues available for appropriation to the department of public health and environment pursuant to paragraphs (a) and (b) of this subsection (18) and one for the revenues available for appropriation to the department of revenue pursuant to paragraph (b) of this subsection (18) and section 42-4-305. After the state treasurer transfers moneys in the department of revenue subaccount to the department of revenue equal to the amount appropriated to the department of revenue from the AIR account for the fiscal year, the state treasurer shall transfer from the balance in the department of revenue subaccount to the department of public health and environment subaccount any amount needed to cover appropriations made to the department of public health and environment from the AIR account for that fiscal year for the administration and enforcement of the automobile inspection and readjustment program. Transfers from the department of revenue subaccount to the department of public health and environment subaccount shall be made on a monthly basis after the transfers to the department of revenue equal to the department of revenue's appropriation for that fiscal year have been made. The state treasurer shall not transfer to the department of public health and environment an amount that exceeds the amount of the appropriation made to the department of public health and environment from the AIR account for the fiscal year. The department shall annually adjust the fee based upon appropriations made by the general assembly for the operation of the motorist insurance identification database program. The department shall transmit the fee to the state treasurer, who shall credit it to the Colorado DRIVES vehicle services account created in section 42-1-211 (2). This subsection (18)(d)(I)(B) takes effect July 1, 2019.

(II) (Deleted by amendment, L. 2009, (SB 09-274), ch. 210, p. 955, § 8, effective May 1, 2009; (HB 09-1026), ch. 281, p. 1268, § 30, effective July 1, 2010.)

(19) (a) If the air quality control commission determines pursuant to section 42-4-306 (23)(b) to implement an expanded clean screen program in the enhanced emissions program area, on and after the specific dates determined by the commission for each of the following subparagraphs:

(I) In addition to any other fee imposed by this section, authorized agents, acting as agents for the clean screen authority, shall collect at the time of registration an emissions inspection fee in an amount determined by section 42-4-311 (6)(a) on every motor vehicle that the department of revenue has determined from data provided by its contractor to have been clean screened; except that the motorist need not pay the emissions inspection fee if the authorized agent determines that a valid certification of emissions compliance has already been

issued for the vehicle being registered indicating that the vehicle passed the applicable emissions test at an enhanced inspection center, inspection and readjustment station, motor vehicle dealer test facility, or fleet inspection station.

(II) Authorized agents may retain three and one-third percent of the fee so collected to cover the agent's expenses in the collection and remittance of the fee. County treasurers shall, no later than ten days after the last business day of each month, remit the remainder of the fee to the clean screen authority created in section 42-4-307.5. The clean screen authority shall transmit the fee to the state treasurer, who shall deposit the remainder in the clean screen fund, which fund is hereby created. The clean screen fund is a pass-through trust account to be held in trust solely for the purposes and the beneficiaries specified in this subsection (19). Money in the clean screen fund is not fiscal year spending of the state for purposes of section 20 of article X of the state constitution and is a custodial fund that is not subject to appropriation by the general assembly. Interest earned from the deposit and investment of money in the clean screen fund shall be credited to the clean screen fund, and the clean screen authority may also expend interest earned on the deposit and investment of the clean screen fund to pay for its costs associated with the implementation of House Bill 01-1402, enacted at the first regular session of the sixty-third general assembly. The clean screen authority may also expend interest earned on the deposit and investment of the clean screen fund to pay for its costs associated with the implementation of House Bill 06-1302, enacted at the second regular session of the sixty-fifth general assembly.

(III) The clean screen authority shall transmit moneys from the clean screen fund monthly to the contractor in accordance with the fees determined by section 42-4-311 (6)(a) within one week after receipt by the authority from the department of revenue of a notification of the number of registrations of clean-screened vehicles during the previous month.

(IV) Repealed.

(b) In specifying dates for the implementation of the clean screen program pursuant to paragraph (a) of this subsection (19), the commission may specify different dates for the enhanced and basic emissions program areas.

(c) This subsection (19) shall not apply to El Paso county if the commission has excluded such county from the clean screen program pursuant to section 42-4-306 (23)(a).

(d) Any moneys remaining in the clean screen fund upon termination of the AIR program shall revert to the AIR account established in paragraph (a) of subsection (18) of this section.

(20) In addition to any other fee imposed by this section, there shall be collected, at the time of registration, a fee of ten dollars on every light- and heavy-duty diesel-powered motor vehicle in the program area registered pursuant to this article in Colorado. Such fee shall be transmitted to the state treasurer, who shall credit the same to the AIR account in the highway users tax fund, and such moneys shall be used, subject to appropriation by the general assembly, to cover the costs of the diesel-powered motor vehicle emissions control activities of the departments of public health and environment and revenue.

(21) In order to promote an effective emergency medical network and thus the maintenance and supervision of the highways throughout the state, in addition to any other fees imposed by this section, there shall be assessed an additional fee of two dollars at the time of registration of any motor vehicle. Such fee shall be transmitted to the state treasurer, who shall credit the same to the emergency medical services account created by section 25-3.5-603, C.R.S., within the highway users tax fund.

(22) In addition to any other fees imposed by this section, the authorized agent may collect and retain, and an applicant for registration shall pay at the time of registration, a reasonable fee, as determined from time to time by the authorized agent, that approximates the direct and indirect costs incurred, not to exceed five dollars, by the authorized agent in shipping and handling those license plates that the applicant has, pursuant to section 42-3-105 (1)(a), requested that the department mail to the owner.

(23) Repealed.

(24) In addition to any other fee imposed by this section, at the time of registration, the owner shall pay a fee of one dollar on every item of Class A, B, or C personal property required to be registered by this article. Notwithstanding section 43-4-203, the department shall transmit the fee to the state treasurer, who shall credit it to the peace officers standards and training board cash fund, created in section 24-31-303 (2)(b); except that authorized agents may retain five percent of the fee collected to cover the agents' expenses in the collection and remittance of the fee. All of the money in the fund that is collected under this subsection (24) shall be used by the peace officers standards and training board for the purposes specified in section 24-31-310.

(25) (a) In addition to any other fee imposed by this section, for registration periods beginning during state fiscal years prior to state fiscal year 2022-23, each authorized agent shall annually collect a fee of fifty dollars at the time of registration on every electric motor vehicle. For registration periods beginning during state fiscal year 2022-23 or during any subsequent state fiscal year, each authorized agent shall continue to collect the fee, and the amount of the fee for registration periods beginning during any given state fiscal year is the amount of the fee collected for registration periods beginning during the prior state fiscal year, adjusted for inflation; except that an adjustment shall be made only if the rate of inflation is positive and the adjustment must be the lesser of the actual rate of inflation or five percent. The department of revenue shall annually calculate the inflation-adjusted amount of the fee for registration periods beginning during each state fiscal year and shall publish the amount no later than April 15 of the calendar year in which the state fiscal year begins. The authorized agent shall transmit the fee to the state treasurer, who shall credit thirty dollars, adjusted for inflation, of each fee to the highway users tax fund created in section 43-4-201, and twenty dollars, adjusted for inflation, of each fee to the electric vehicle grant fund created in section 24-38.5-103.

(a.5) (I) In addition to any other fee imposed by this section, including the fee imposed by subsection (25)(a) of this section, for registration periods beginning during state fiscal year 2022-23 or during any subsequent state fiscal year, each authorized agent shall annually collect an electric motor vehicle road usage equalization fee at the time of registration on every battery electric motor vehicle as specified in subsections (25)(a.5)(II) and (25)(a.5)(III) of this section and on every plug-in hybrid electric motor vehicle as specified in subsections (25)(a.5)(IV) and (25)(a.5)(V) of this section. The authorized agent shall transmit the fee to the state treasurer, who shall credit it to the highway users tax fund for allocation and expenditure as specified in section 43-4-205 (6.8).

(II) For registration periods beginning during state fiscal years 2022-23 through 2031-32, the amount of the electric motor vehicle road usage equalization fee for a battery electric motor vehicle is as follows:

Fiscal Year	Fee
2022-23	\$4

2023-24	\$8
2024-25	\$12
2025-26	\$16
2026-27	\$26
2027-28	\$36
2028-29	\$51
2029-30	\$66
2030-31	\$81
2031-32	\$96

(III) For registration periods beginning during state fiscal year 2032-33 or during any subsequent state fiscal year, the amount of the electric motor vehicle road usage equalization fee for a battery electric motor vehicle is the amount of the fee for registration periods beginning during the prior state fiscal year, adjusted for inflation; except that an adjustment shall be made only if the rate of inflation is positive and the adjustment must be the lesser of the actual rate of inflation or five percent. The department of revenue shall annually calculate the inflation adjusted amount of the electric motor vehicle road usage equalization fee for a battery electric motor vehicle for registration periods beginning during each state fiscal year and shall notify authorized agents of the amount no later than the May 1 of the calendar year in which the state fiscal year begins.

(IV) For registration periods beginning during state fiscal years 2022-23 through 2031-32, the amount of the electric motor vehicle road usage equalization fee for a plug-in hybrid electric motor vehicle is:

Fiscal Year	Fee
2022-23	\$3
2023-24	\$5
2024-25	\$8
2025-26	\$11
2026-27	\$13
2027-28	\$16
2028-29	\$19
2029-30	\$21
2030-31	\$24
2031-32	\$27

(V) For registration periods beginning during state fiscal year 2032-33 or during any subsequent state fiscal year, the amount of the electric motor vehicle road usage equalization fee for a plug-in hybrid electric motor vehicle is the amount of the fee for registration periods commencing during the prior state fiscal year, adjusted for inflation; except that an adjustment shall be made only if the rate of inflation is positive and the adjustment must be the lesser of the actual rate of inflation or five percent. The department of revenue shall calculate the inflation adjusted amount of the electric motor vehicle road usage equalization fee for a plug-in hybrid electric motor vehicle for registration periods beginning during each state fiscal year and shall notify authorized agents of the amount no later than the May 1 of the calendar year in which the state fiscal year begins.

(a.6) Because the electric motor vehicle fee imposed pursuant to subsection (25)(a) of this section and the electric motor vehicle road usage equalization fee imposed pursuant to subsection (25)(a.5) of this section are intended to equalize the average aggregate amount of registration fees and motor fuel charges annually paid by owners of electric motor vehicles and owners of motor vehicles powered exclusively by internal combustion engines, and because motor fuel charges are paid throughout the year rather than at the time of annual motor vehicle registration, the department shall implement a pilot program to allow fees imposed pursuant to this subsection (25) to be paid on an automated prorated quarterly basis. After evaluating the success of the pilot program after the second year of implementation, the department shall make the pilot program permanent unless there is compelling evidence that the pilot program has not been successful. The department may promulgate rules to implement this subsection (25)(a.6).

(a.7) (I) In lieu of any other fee imposed by this subsection (25), for registration periods beginning during state fiscal year 2022-23 or during any subsequent state fiscal year, each authorized agent shall annually collect a commercial electric motor vehicle road usage equalization fee in the amount specified in subsection (25)(a.7)(II) or (25)(a.7)(III) of this section. The authorized agent shall transmit the fee to the state treasurer, who shall credit it as specified in subsection (25)(a.7)(IV) of this section.

(II) For registration periods beginning during state fiscal year 2022-23, the amount of the commercial electric motor vehicle road usage equalization fee is:

(A) Fifty dollars for a commercial electric motor vehicle that weighs more than ten thousand pounds but not more than sixteen thousand pounds;

(B) One hundred dollars for a commercial electric motor vehicle that weighs more than sixteen thousand pounds but not more than twenty-six thousand pounds; and

(C) One hundred fifty dollars for a commercial electric motor vehicle that weighs more than twenty-six thousand pounds.

(III) For registration periods beginning during state fiscal year 2023-24 or during any subsequent state fiscal year, the amount of the commercial electric motor vehicle road usage equalization fee is the amount of the fee for registration periods commencing during the prior state fiscal year, adjusted for inflation; except that an adjustment shall be made only if the rate of inflation is positive and the adjustment must be the lesser of the actual rate of inflation or five percent. The department of revenue shall calculate the inflation adjusted amount of the commercial electric motor vehicle road usage equalization fee for a commercial electric motor vehicle for registration periods beginning during each state fiscal year and shall notify authorized agents of the amount no later than the May 1 of the calendar year in which the state fiscal year begins.

(IV) The state treasurer shall credit fee revenue collected pursuant to this subsection (25)(a.7) as follows:

(A) Seventy percent to the highway users tax fund for allocation and expenditure as specified in section 43-4-205 (6.8); and

(B) Thirty percent to the state highway fund created in section 43-1-219 for the purpose of funding freight-related projects that ease effective, efficient, and safe freight transport.

(a.8) During the 2026 legislative interim, the Colorado energy office, the department of transportation, and the department of public health and environment, after consulting with the community access enterprise created in section 24-38.5-303 (1), the clean fleet enterprise created in section 25-7.5-103 (1)(a), the clean transit enterprise created in section 43-4-1203 (1)(a), and

the nonattainment area air pollution mitigation enterprise created in section 43-4-1303 (1)(a), shall jointly complete a written report and present the report at a hearing of the transportation legislation review committee created in section 43-2-145 (1)(a). The report shall detail progress on all projects completed or undertaken using funding provided pursuant to Senate Bill 21-260, enacted in 2021, identify other projects expected to be completed in the next five years, specifically document the use of general fund money provided pursuant to Senate Bill 21-260, enacted in 2021, and make recommendations as to whether additional general fund money should be provided for similar uses in light of current economic conditions, inflation, and other project completion cost factors, and available state revenue. The report shall also include the joint recommendations of the office and the departments as to whether, beginning in state fiscal year 2027-28 or a later state fiscal year, the amount of any or all of the fees imposed by this subsection (25) should be adjusted or, due to increased use of such motor vehicles, fees should also be imposed on hydrogen fuel cell motor vehicles that are powered by electricity produced from a fuel cell that uses hydrogen gas as fuel to ensure that the goal of equalizing the average aggregate amount of registration fees and motor fuel charges annually paid by owners of electric motor vehicles and owners of motor vehicles powered exclusively by internal combustion engines continues to be realized. When developing their recommendations regarding the fees, the office and the departments shall take into account, at a minimum, the most recent available reliable data on current average fuel efficiency and current fuel efficiency for the most fuel-efficient motor vehicles for the Colorado light-duty and commercial motor vehicle fleets or, if Colorado data is not available, the United States light-duty and commercial motor vehicle fleets, and the most recent available reliable projections of future average fuel efficiency and future fuel efficiency for the most fuel-efficient motor vehicles for the Colorado light-duty and commercial motor vehicle fleets or, if Colorado data is not available, for the United States light-duty and commercial motor vehicle fleets. To the extent feasible based on the data available, analysis of commercial motor vehicle fleet data shall account separately for different categories or weight classes of commercial motor vehicles.

(a.9) As used in this subsection (25), unless the context otherwise requires:

(I) "Battery electric motor vehicle" means a motor vehicle that is powered exclusively by a rechargeable battery pack that can be recharged by being plugged into an external source of electricity and that has no secondary source of propulsion.

(II) "Commercial electric motor vehicle" means an electric motor vehicle that is a commercial vehicle.

(III) "Electric motor vehicle" means a battery electric motor vehicle and a plug-in hybrid electric motor vehicle.

(IV) "Inflation" means the average annual percentage change in the United States department of transportation, federal highway administration, national highway construction cost index or its applicable predecessor or successor index for the five-year period ending on the last December 31 before a state fiscal year for which an annual inflation adjustment to the amount of any fee imposed pursuant to this subsection (25) is to be made begins.

(V) "Plug-in hybrid electric motor vehicle" means a motor vehicle that is powered by both a rechargeable battery pack that can be recharged by being plugged into an external source of electricity and a secondary source of propulsion such as an internal combustion engine.

(b) The department of revenue shall create an electric vehicle decal, which an authorized agent shall give to each person that pays the fees charged under subsections (25)(a), (25)(a.5),

and (25)(a.7) of this section and that is not issued an electric vehicle license plate under section 42-3-259 for the electric motor vehicle. The decal must be attached to the upper right-hand corner of the front windshield on the motor vehicle for which it was issued. If there is a change of vehicle ownership, the decal is transferable to the new owner.

42-3-308. Taxpayer statements - payment of tax - estimates - penalties - deposits - delinquency proceedings. (1) (a) Every owner or operator of a motor vehicle operated on a public highway of this state and required to pay the passenger-mile tax imposed by sections 42-3-304 and 42-3-306 shall, on or before the twenty-fifth day of each month, file with the department, on forms prescribed by the department and the public utilities commission, a statement, subject to the penalties for perjury in the second degree, showing the name and address of the owner of the motor vehicle, total miles traveled, and total number of passengers carried in this state during the preceding month and such other information as required by the department and the commission and shall compute and pay such tax; except that the executive director of the department may authorize the filing of statements and the payment of tax for periods in excess of one month but not to exceed a period of twelve months.

(b) If payment of the tax so computed is not made on or before the due date, there shall be added a penalty of three percent per month until such time as the full amount has been paid; but the executive director of the department may waive all or any portion of the penalty for good cause.

(2) If the owner or operator of a motor vehicle, required to file a statement as provided in subsection (1) of this section, fails, neglects, or refuses to file the statement and to pay the tax due, the department may estimate the amount of tax due for the period for which no statement was filed, add a penalty of ten percent plus one-half of one percent per month after the date when due, not to exceed eighteen percent in the aggregate, and mail the estimate to the last-known address of such owner or operator. The amount so estimated, together with the penalty, shall become fixed, due, and payable ten days after the date of mailing, unless such owner or operator, within the ten days, files and pays a true and correct statement of the tax due for the period.

(3) (a) If an owner or operator of a vehicle knowingly makes and files with the department a false or fraudulent statement with intent to evade payment of any passenger-mile tax due, the department shall, as soon as it discovers the false or fraudulent nature of such

statement, make an investigation and determine the correct amount of tax due, add a penalty of one hundred percent, and proceed to collect the total amount by distraint and sale as provided in section 39-21-114, C.R.S. If an owner or operator disputes the amount asserted to be due and payable, that owner or operator shall be entitled to a hearing before the executive director of the department, and the decision of the executive director shall be subject to judicial review.

(b) ***[Editor's note: This version of subsection (3)(b) is effective until March 1, 2022.]*** A person who willfully fails or refuses to make the report required by this section, or who makes a false or fraudulent return, or who willfully fails to pay any tax owed by such person, shall be punished as provided by section 39-21-118, C.R.S.

(b) ***[Editor's note: This version of subsection (3)(b) is effective March 1, 2022.]*** A person who willfully fails or refuses to make the report required by this section, or who makes a false or fraudulent return, or who willfully fails to pay any tax owed by such person commits a class A traffic infraction.

(4) All passenger-mile taxes and penalties determined to be due from an owner or operator of a motor vehicle and not paid on the date when the same are due and payable shall become and remain a prior and perpetual lien upon all the personal property of such owner or operator until the full amount of the tax determined to be due, together with all penalties, has been paid. Nothing in this section shall be construed to abrogate or diminish the rights of bona fide purchasers, lienors, or pledgees for value and without notice.

(5) Taxes collected pursuant to this section and any penalties or interest charges imposed pursuant to this section shall be credited to the highway users tax fund created in section 43-4-201, C.R.S., as required by section 43-4-203 (1)(c), C.R.S., and allocated and expended as specified in section 43-4-205 (5.5)(d), C.R.S.

42-3-309. Permit to be secured - records kept - penalties. (1) Every owner or operator of a motor vehicle operated over any public highway of this state who is required to pay the passenger-mile tax imposed by sections 42-3-304 and 42-3-306 shall apply to the department and secure a passenger-mile tax permit and shall keep and maintain true and correct records of the operations of such motor vehicles, including the number of miles operated and the number of passengers carried, in such form as to reflect the actual activity of all such motor vehicles and as may be prescribed by the department and the public utilities commission. Such owner or operator shall preserve all such records for a period of four years. The passenger-mile tax permit

shall remain effective until the owner advises the department of a change in ownership or a discontinuance of business or until such owner has failed to file tax reports and pay any applicable passenger-mile tax for four successive tax periods.

(2) For failure to apply for and secure a permit, the executive director of the department may impose a penalty in an amount equal to twenty-five percent of any tax found to be due and payable or twenty-five dollars, whichever is greater.

(3) Failure or refusal of an owner or operator to keep and maintain such records shall, upon certification by the department to the public utilities commission, be cause for suspension or revocation of a certificate of public convenience and necessity or a contract carrier permit.

(4) (a) If an examination of the financial responsibility of an owner or operator of a motor vehicle subject to the payment of the passenger-mile tax indicates that a financial guarantee in the form of cash, a certified check, a bank money order, a bond, or a negotiable certificate of deposit issued by a commercial bank doing business in this state and acceptable to the executive director is necessary to guarantee payment of the tax, the owner or operator may be required to deposit such guarantee with the department in an amount no greater than twice the amount of tax estimated by the executive director to become due and payable each tax period. If the deposit is in cash or a negotiable certificate of deposit, it shall be subject to forfeiture upon failure of the owner or operator to comply with sections 42-3-304 to 42-3-308, this section, article 10.1 of title 40, or the rules of the department or the public utilities commission; if it is a surety bond, it shall be conditioned upon the insured's faithful compliance with all applicable statutes and rules.

(b) Failure or refusal of an owner or operator to provide or to continue in effect the guarantee when required in paragraph (a) of this subsection (4) shall, upon certification by the department to the public utilities commission, be cause for denial, suspension, or revocation of a certificate of public convenience and necessity or a contract carrier permit.

(c) All cash, certified checks, bank money orders, negotiable certificates of deposit, and surety bonds deposited in compliance with this section shall be delivered into the custody of the state treasurer and held by the state treasurer subject to further order of the department. If an owner or operator ceases operations, the deposit or any balance thereof shall be returned to the owner or operator after all taxes, penalties, fees, and charges owed by such owner or operator pursuant to this article have been paid.

(5) The following penalties shall be imposed if a person negligently or knowingly includes an error in records required by subsection (1) of this section and such error is contained in a previously filed statement under section 42-3-308:

(a) Twenty-five percent of the deficiency assessed; and

(b) Interest of one-half of one percent per month on the deficiency assessed, which shall be in addition to the interest due under section 39-21-109, C.R.S.

(3) The owner of a vehicle specified in subsection (1) of this section who is required to pay an annual registration fee for such vehicle to the department shall also pay the additional annual registration fee provided for in this section to the department, and the department shall transmit such additional fee to the proper county treasurer, as indicated by the place of residence of such owner, and such county treasurer shall allocate such fee in the manner prescribed in subsection (2) of this section.

(4) Two dollars and fifty cents of each annual vehicle registration fee imposed by sections 42-3-304 to 42-3-306, exclusive of the annual registration fees prescribed for motorcycles, trailer coaches, special mobile machinery, and trailers having an empty weight of two thousand pounds or less and exclusive of a registration fee paid for a fractional part of a year, shall not be transmitted to the department but shall be paid over by the authorized agent, as collected, to the county treasurer, who shall credit the same to an account entitled "apportioned vehicle registration fees". On the tenth day of each month, the county treasurer shall apportion the balance in the account existing on the last day of the immediately preceding month between the county and the cities and incorporated towns located within the boundaries of the county on the basis of the record of rural and urban registrations that indicates the place of residence of each vehicle owner.

(5) All amounts allocated to the county shall be credited to the county road and bridge fund, and all amounts allocated to a city or incorporated town shall be credited to an appropriate fund and expended by such city or incorporated town only for the construction and maintenance of highways, roads, and streets located within its boundaries.

42-4-102. Legislative declaration. The general assembly recognizes the many conflicts which presently exist between the state's traffic laws and many of the municipal traffic codes, which conflicts lead to uncertainty in the movement of traffic on the state's highways and streets. These conflicts are compounded by the fact that today's Americans are extremely mobile and that while this state enjoys a large influx of traffic from many areas, there is some lack of uniformity existing between the "rules of the road" of this state and those of other states of the nation. The general assembly, therefore, declares it the purpose of this article to alleviate these conflicts and lack of uniformity by conforming, as nearly as possible, certain of the traffic laws of this state with the recommendations of the national committee of uniform traffic laws and ordinances as set forth in the committee's "Uniform Vehicle Code".

Such uniform system shall correlate with and insofar as possible conform to the system set forth in the most recent edition of the "Manual on Uniform Traffic Control Devices for Streets and Highways" and other related standards issued or endorsed by the federal highway administrator. For compliance with this section, the said department shall either publish and distribute a state manual and specifications approved by the transportation commission or shall, by the issuance of a traffic control manual supplement approved by the transportation commission, adopt the said national manual and other related standards subject to such exceptions, additions, and adaptations as are necessary for lawful and uniform application in this state. Said state manual or supplement shall be made available to all municipal and county road authorities and to other concerned agencies in the state.

(c) Repealed.

(5) (a) (I) (A) The department of transportation may close any portion of a state highway for public use during dangerous driving conditions, during construction or maintenance operations, or when necessary for the protection and safety of the public.

(II) Any person who operates a motor vehicle in violation of restrictions imposed by the department of transportation or the state patrol under subparagraph (I) of this paragraph (a), where the result of the violation is an incident that causes the closure of a travel lane in one or both directions, shall be subject to an enhanced penalty as set forth in section 42-4-1701 (4)(a)(I)(F).

(III) A person who violates subparagraph (I) of this paragraph (a) while operating a commercial vehicle shall be subject to an enhanced penalty as set forth in section 42-4-1701 (4)(a)(I)(F).

(6) (a) The department of transportation and local authorities, within their respective jurisdictions, may, for the purpose of road construction and maintenance, temporarily close to through traffic or to all vehicular traffic any highway or portion thereof for a period not to exceed a specified number of workdays for project completion and shall, in conjunction with any such road closure, establish appropriate detours or provide for an alternative routing of the traffic affected when, in the opinion of said department or concerned local authorities, as evidenced by resolution or ordinance, such temporary closing of the highway or portion thereof and such rerouting of traffic is necessary for traffic safety and for the protection of work crews and road equipment. Such temporary closing of the highway or portion thereof and the routing of traffic

along other roads shall not become effective until official traffic control devices are erected giving notice of the restrictions, and, when such devices are in place, no driver shall disobey the instructions or directions thereof.

(b) Local authorities, within their respective jurisdictions, may provide for the temporary closing to vehicular traffic of any portion of a highway during a specified period of the day for the purpose of celebrations, parades, and special local events or civic functions when in the opinion of said authorities such temporary closing is necessary for the safety and protection of persons who are to use that portion of the highway during the temporary closing.

(c) The department of transportation, local municipal authorities, and local county authorities shall enter into agreements with one another for the establishment, signing, and marking of appropriate detours and alternative routes which jointly affect state and local road systems and which are necessary to carry out the provisions of paragraphs (a) and (b) of this subsection (6). (1) The provisions of this article applicable to the drivers of vehicles upon the highways shall apply to the drivers of all vehicles owned or operated by the United States, this state, or any county, city, town, district, or other political subdivision of the state, subject to such specific exceptions as are set forth in this article with reference to authorized emergency vehicles.

(2) The driver of an authorized emergency vehicle, when responding to an emergency call, or when in pursuit of an actual or suspected violator of the law, or when responding to but not upon returning from a fire alarm, may exercise the privileges set forth in this section, but subject to the conditions stated in this article. The driver of an authorized emergency vehicle may:

- (a) Park or stand, irrespective of the provisions of this title;
- (b) Proceed past a red or stop signal or stop sign, but only after slowing down as may be necessary for safe operation;
- (c) Exceed the lawful speeds set forth in section 42-4-1101 (2) or exceed the maximum lawful speed limits set forth in section 42-4-1101 (8) so long as said driver does not endanger life or property;

For the purpose of this section, the "rules of the road" shall be construed to mean any of the regulations on the operation of vehicles set forth in this article which drivers throughout the state are required to

obey without the benefit or necessity of official traffic control devices as declared in section 42-4-603 (2).

(d) In no event shall local authorities have the power to enact by ordinance regulations governing the driving of vehicles by persons under the influence of alcohol or of a controlled substance, as defined in section 18-18-102 (5), C.R.S., or under the influence of any other drug to a degree that renders any such person incapable of safely operating a vehicle, or whose ability to operate a vehicle is impaired by the consumption of alcohol or by the use of a controlled substance, as defined in section 18-18-102 (5), C.R.S., or any other drug, the registration of vehicles and the licensing of drivers, the duties and obligations of persons involved in traffic accidents, and vehicle equipment requirements in conflict with the provisions of this article; but said local authorities within their respective jurisdictions shall enforce the state laws pertaining to these subjects, and in every charge of violation the complaint shall specify the section of state law under which the charge is made and the state court having jurisdiction.

(e) Pursuant to section 43-2-135 (1)(g), C.R.S., no regulation of a local authority shall apply to or become effective for any streets which are state highways, including any part of the national system of interstate and defense highways, until such regulation has been presented to and approved in writing by the department of transportation; except that such regulations shall become effective on such streets sixty days after receipt for review by the department of transportation if not disapproved in writing by said department during that sixty-day period.

(2) The municipal courts have jurisdiction over violations of traffic regulations enacted or adopted by municipalities. However, the provisions of sections 42-4-1701, 42-4-1705, and 42-4-1707 shall not be applicable to municipalities.

(3) No person convicted of or pleading guilty to a violation of a municipal traffic ordinance shall be charged or tried in a state court for the same or a similar offense.

(4) (a) Any municipality, city, county, or city and county located within the program area of the AIR program area as defined in section 42-4-304 may adopt ordinances or resolutions pertaining to the enforcement of the emissions control inspection requirements set forth in section 42-4-310.

(b) An officer coming upon an unattended vehicle in the program area which is in apparent violation of an ordinance or resolution adopted as authorized in paragraph (a) of this subsection (4) may place upon such vehicle a penalty assessment notice indicating the offense and directing the owner or operator of such vehicle to remit the penalty assessment as set forth in such ordinance to the local jurisdiction in whose name the penalty assessment notice was issued.

(c) The aggregate amount of fines, penalties, or forfeitures collected pursuant to ordinances or resolutions adopted as authorized in paragraph (a) of this subsection (4) shall be retained by the local jurisdiction in whose name such penalty notice was issued.

(5) The general assembly declares that the adjudication of class A and class B traffic infractions through the county court magistrate system was not intended to create a conflict between the provisions of this article and municipal ordinances covering the same subject matter as this article nor was it intended to require or prohibit the decriminalization of municipal ordinances covering the same subject matter as this article. Municipalities may continue to enforce violations of such ordinances through municipal court even though similar state offenses are enforced through the magistrate system established under this article.

(6) (a) The general assembly hereby finds that the use of automated driving systems will help people who may have difficulty driving, including people who are elderly and people with

disabilities, gain access to goods and services essential to daily life. This access requires traveling across and in multiple jurisdictions. Therefore, the regulation of automated driving systems is a matter of statewide concern.

(b) A state agency or a political subdivision of the state shall not adopt or enforce a policy, rule, or ordinance that sets standards for an automated driving system that are different from the standards set for a human driver.

42-4-110.5. Automated vehicle identification systems - legislative declaration - definitions. (1) The general assembly hereby finds and declares that the enforcement of traffic laws through the use of automated vehicle identification systems under this section is a matter of statewide concern and is an area in which uniform state standards are necessary.

(1.5) Except for the authorization contained in subsection (1.7) of this section, nothing in this section shall apply to a violation detected by an automated vehicle identification device for driving twenty-five miles per hour or more in excess of the reasonable and prudent speed or twenty-five miles per hour or more in excess of the maximum speed limit of seventy-five miles per hour detected by the use of an automated vehicle identification device.

(1.7) (a) Upon request from the department of transportation, the department of public safety shall utilize an automated vehicle identification system to detect speeding violations under part 11 of this article within a highway maintenance, repair, or construction zone designated pursuant to section 42-4-614 (1)(a), if the department of public safety complies with subsections (2) to (6) of this section. An automated vehicle identification system shall not be used under this subsection (1.7) unless maintenance, repair, or construction is occurring at the time the system is being used. The department of public safety may contract with a vendor to implement this subsection (1.7). If the department of public safety contracts with a vendor, the contract shall incorporate the processing elements specified by the department of public safety. The department of public safety may contract with the vendor to notify violators, collect and remit the penalties and surcharges to the state treasury less the vendor's expenses, reconcile payments against outstanding violations, implement collection efforts, and notify the department of public safety of unpaid violations for possible referral to the judicial system. No penalty assessment or summons and complaint or a penalty or surcharge for a violation detected by an automated

vehicle identification system under this subsection (1.7) shall be forwarded to the department for processing.

(b) The department of transportation shall reimburse the department of public safety for the direct and indirect costs of complying with this subsection (1.7).

(2) A municipality may adopt an ordinance authorizing the use of an automated vehicle identification system to detect violations of traffic regulations adopted by the municipality, or the state, a county, a city and county, or a municipality may utilize an automated vehicle identification system to detect traffic violations under state law, subject to the following conditions and limitations:

(a) (I) (Deleted by amendment, L. 2002, p. 570, § 1, effective May 24, 2002.)

(II) If the state, a county, a city and county, or a municipality detects any alleged violation of a municipal traffic regulation or a traffic violation under state law through the use of an automated vehicle identification system, then the state, county, city and county, or municipality shall serve the penalty assessment notice or summons and complaint for the alleged violation on the defendant no later than ninety days after the alleged violation occurred. If a penalty assessment notice or summons and complaint for a violation detected using an automated vehicle identification system is personally served, the state, a county, a city and county, or a municipality may only charge the actual costs of service of process that shall be no more than the amount usually charged for civil service of process.

(b) Notwithstanding any other provision of the statutes to the contrary, the state, a county, a city and county, or a municipality may not report to the department any conviction or entry of judgment against a defendant for violation of a municipal traffic regulation or a traffic violation under state law if the violation was detected through the use of an automated vehicle identification system.

(c) ***[Editor's note: This version of subsection (2)(c) is effective until January 1, 2022.]***
The state, a county, a city and county, or a municipality may not report to the department any outstanding judgment or warrant for purposes of section 42-2-107 (5) or 42-2-118 (3) based upon any violation or alleged violation of a municipal traffic regulation or traffic violation under state law detected through the use of an automated vehicle identification system.

(c) ***[Editor's note: This version of subsection (2)(c) is effective January 1, 2022.]***
Repealed.

(d) (I) The state, a county, a city and county, or a municipality may not use an automated vehicle identification system to detect a violation of part 11 of this article or a local speed ordinance unless there is posted an appropriate temporary sign in a conspicuous place not fewer than three hundred feet before the area in which the automated vehicle identification device is to be used notifying the public that an automated vehicle identification device is in use immediately ahead. The requirement of this subparagraph (I) shall not be deemed satisfied by the posting of a permanent sign or signs at the borders of a county, city and county, or municipality, nor by the posting of a permanent sign in an area in which an automated vehicle identification device is to be used, but this subparagraph (I) shall not be deemed a prohibition against the posting of such permanent signs.

(II) Except as provided in subparagraph (I) of this paragraph (d), an automated vehicle identification system designed to detect disobedience to a traffic control signal or another violation of this article or a local traffic ordinance shall not be used unless the state, county, city

and county, or municipality using such system conspicuously posts a sign notifying the public that an automated vehicle identification device is in use immediately ahead. The sign shall:

(A) Be placed in a conspicuous place not fewer than two hundred feet nor more than five hundred feet before the automated vehicle identification system; and

(B) Use lettering that is at least four inches high for upper case letters and two and nine-tenths inches high for lower case letters.

(e) The state, a county, a city and county, or a municipality may not require a registered owner of a vehicle to disclose the identity of a driver of the vehicle who is detected through the use of an automated vehicle identification system. However, the registered owner may be required to submit evidence that the owner was not the driver at the time of the alleged violation.

(f) The state, a county, a city and county, or a municipality shall not issue a penalty assessment notice or summons for a violation detected using an automated vehicle identification system unless, at the time the violation is alleged to have occurred, an officer or employee of the state, the county, the city and county, or the municipality is present during the operation of the automated vehicle identification device; except that this paragraph (f) shall not apply to an automated vehicle identification system designed to detect violations for disobedience to a traffic control signal.

(g) (I) The state, a county, a city and county, or a municipality shall not issue a penalty assessment notice or summons for a violation detected using an automated vehicle identification system unless the violation occurred within a school zone, as defined in section 42-4-615; within a residential neighborhood; within a maintenance, construction, or repair zone designated pursuant to section 42-4-614; or along a street that borders a municipal park.

(II) For purposes of this paragraph (g), unless the context otherwise requires, "residential neighborhood" means any block on which a majority of the improvements along both sides of the street are residential dwellings and the speed limit is thirty-five miles per hour or less.

(III) This paragraph (g) shall not apply to an automated vehicle identification system designed to detect disobedience to a traffic control signal.

(3) The department has no authority to assess any points against a license under section 42-2-127 upon entry of a conviction or judgment for a violation of a municipal traffic regulation or a traffic violation under state law if the violation was detected through the use of an automated vehicle identification system. The department may not keep any record of such violation in the official records maintained by the department under section 42-2-121.

(4) (a) If the state, a county, a city and county, or a municipality detects a speeding violation of less than ten miles per hour over the reasonable and prudent speed under a municipal traffic regulation or under state law through the use of an automated vehicle identification system and the violation is the first violation by such driver that the state, county, city and county, or municipality has detected using an automated vehicle identification system, then the state, county, city and county, or municipality shall mail such driver a warning regarding the violation and the state, county, city and county, or municipality may not impose any penalty or surcharge for such first violation.

(b) (I) If the state, a county, a city and county, or a municipality detects a second or subsequent speeding violation under a municipal traffic regulation or under state law by a driver, or a first such violation by the driver if the provisions of paragraph (a) of this subsection (4) do not apply, through the use of an automated vehicle identification system, then, except as may be permitted in subparagraph (II) of this paragraph (b), the maximum penalty that the state, county,

city and county, or municipality may impose for such violation, including any surcharge, is forty dollars.

(II) If any violation described in subparagraph (I) of this paragraph (b) occurs within a school zone, as defined in section 42-4-615, the maximum penalty that may be imposed shall be doubled.

(III) Subparagraph (I) of this paragraph (b) shall not apply within a maintenance, construction, or repair zone designated pursuant to section 42-4-614.

(4.5) If the state, a county, a city and county, or a municipality detects a violation under a municipal traffic regulation or under state law for disobedience to a traffic control signal through the use of an automated vehicle identification system, the maximum penalty that the state, a county, a city and county, or a municipality may impose for such violation, including any surcharge, is seventy-five dollars.

(4.7) If a driver fails to pay a penalty imposed for a violation detected using an automated vehicle identification device, the state, a county, a city and county, or a municipality shall not attempt to enforce such a penalty by immobilizing the driver's vehicle.

(5) If the state, a county, a city and county, or a municipality has established an automated vehicle identification system for the enforcement of municipal traffic regulations or state traffic laws, then no portion of any fine collected through the use of such system may be paid to the manufacturer or vendor of the automated vehicle identification system equipment. The compensation paid by the state, county, city and county, or municipality for such equipment shall be based upon the value of such equipment and may not be based upon the number of traffic citations issued or the revenue generated by such equipment.

(6) As used in this section, the term "automated vehicle identification system" means a system whereby:

(a) A machine is used to automatically detect a violation of a traffic regulation and simultaneously record a photograph of the vehicle, the operator of the vehicle, and the license plate of the vehicle; and

(b) A penalty assessment notice or summons and complaint is issued to the registered owner of the motor vehicle.

(II) If the driver submits to the court of competent jurisdiction within thirty days after the issuance of the summons proof that the driver was not the owner of the car at the time the summons was issued and that the driver mailed, within five days of issuance thereof, a copy of the notice and summons by certified mail to the owner of the vehicle at the address on the registration, the driver shall be punished by a fine of five dollars.

If these two separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two wheels.

(b) Every motorcycle and low-power scooter, when operated upon a highway, shall be equipped with at least one brake, which may be operated by hand or foot.

(c) Every trailer or semitrailer of a gross weight of three thousand pounds or more, when operated upon a highway, shall be equipped with brakes adequate to control the movement of and to stop and to hold such vehicle and so designed as to be applied by the driver of the towing motor vehicle from the cab, and said brakes shall be so designed and connected that in case of an accidental breakaway of the towed vehicle the brakes shall be automatically applied. The provisions of this paragraph (c) shall not be applicable to any trailer which does not meet the definition of "commercial vehicle" as that term is defined in section 42-4-235 (1)(a) and which is owned by a farmer when transporting agricultural products produced on the owner's farm or supplies back to the farm of the owner of the trailer, tank trailers not exceeding ten thousand pounds gross weight used solely for transporting liquid fertilizer or gaseous fertilizer under pressure, or distributor trailers not exceeding ten thousand pounds gross weight used solely for transporting and distributing dry fertilizer when hauled by a truck capable of stopping within the distance specified in subsection (2) of this section.

(d) Every motor vehicle, trailer, or semitrailer constructed or sold in this state or operated upon the highways shall be equipped with service brakes upon all wheels of every such vehicle; except that:

(I) Any trailer or semitrailer of less than three thousand pounds gross weight, or any horse trailer of a capacity of two horses or less, or any trailer which does not meet the definition of "commercial vehicle" as that term is defined in section 42-4-235 (1)(a) and which is owned by a farmer when transporting agricultural products produced on the owner's farm or supplies back to the farm of the owner of the trailer, or tank trailers not exceeding ten thousand pounds gross weight used solely for transporting liquid fertilizer or gaseous fertilizer under pressure, or distributor trailers not exceeding ten thousand pounds gross weight used solely for transporting and distributing dry fertilizer when hauled by a truck capable of stopping with loaded trailer attached in the distance specified by subsection (2) of this section need not be equipped with brakes, and any two-wheel motor vehicle need have brakes on only one wheel.

(II) Any truck or truck tractor, manufactured before July 25, 1980, and having three or more axles, need not have brakes on the wheels of the front or tandem steering axles if the brakes on the other wheels meet the performance requirements of subsection (2) of this section.

(III) Every trailer or semitrailer of three thousand pounds or more gross weight must have brakes on all wheels.

(e) Provisions of this subsection (1) shall not apply to manufactured homes.

(2) Performance ability of brakes:

(d) All braking distances specified in this section shall apply to all vehicles mentioned, whether such vehicles are not loaded or are loaded to the maximum capacity permitted under this title.

(e) All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as possible with respect to the wheels on opposite sides of the vehicle.

(2.5) The department of public safety is specifically authorized to adopt rules relating to the use of surge brakes.

The driver of a motor vehicle, when reasonably necessary to ensure safe operation, shall give audible warning with the horn but shall not otherwise use such horn when upon a highway.

(2) No vehicle shall be equipped with nor shall any person use upon a vehicle any audible device except as otherwise permitted in this section. It is permissible but not required that any vehicle be equipped with a theft alarm signal device which is so arranged that it cannot be used by the driver as a warning signal unless the alarm device is a required part of the vehicle. Nothing in this section is meant to preclude the use of audible warning devices that are activated when the vehicle is backing. Any authorized emergency vehicle may be equipped with an audible signal device under section 42-4-213 (1), but such device shall not be used except when such vehicle is operated in response to an emergency call or in the actual pursuit of a suspected violator of the law or for other special purposes, including, but not limited to, funerals, parades, and the escorting of dignitaries. These exemptions shall not relieve the driver of a snowplow from the duty to drive with due regard for the safety of all persons, nor shall these exemptions protect the driver of a snowplow from the consequences of a reckless or careless disregard for the safety of others.

(6) (a) Any person who violates any provision of this section commits a class B traffic infraction; except that a person commits a class A traffic infraction if the person passes an authorized service vehicle snowplow that is operated by a state, county, or local government, displaying lights as authorized in section 42-4-214, and performing its service function in echelon formation with one or more other such snowplows.

(3) No tire on a vehicle moved on a highway shall have on its periphery any block, stud, flange, cleat, or spike or any other protuberances of any material other than rubber which projects beyond the tread on the traction surface of the tire; except that, on single-tired passenger vehicles and on other single-tired vehicles with rated capacities up to and including three-fourths ton, it shall be permissible to use tires containing studs or other protuberances which do not project more than one-sixteenth of an inch beyond the tread of the traction surface of the tire; and except that it shall be permissible to use farm machinery with tires having protuberances which will not injure the highway; and except also that it shall be permissible to use tire chains of reasonable proportions upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid.

(4) The department of transportation and local authorities in their respective jurisdictions, in their discretion, may issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of such movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this article.

This section shall apply to all passenger-type motor vehicles, including passenger buses and school vehicles, but, in respect to camper coaches and trucks, including truck tractors, the requirements as to safety glazing material shall apply only to all glazing material used in required front windshields and that used in doors and windows in the drivers' compartments and such other compartments as are lawfully occupied by passengers in said vehicles.

(2) The term "safety glazing materials" means such glazing materials as will reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(3) The department shall compile and publish a list of types of glazing material by name approved by it as meeting the requirements of this section, and the department shall not, after January 1, 1958, register any motor vehicle which is subject to the provisions of this section unless it is equipped with an approved type of safety glazing material, and the department shall suspend the registration of any motor vehicle subject to this section which is found to be not so equipped until it is made to conform to the requirements of this section.

Any person who violates the rules, including any intrastate motor carrier, shall be subject to the civil penalties authorized pursuant to 49 CFR part 386, subpart G, as such subpart existed on October 1, 2001. Persons who utilize an independent contractor shall not be liable for penalties imposed on the independent contractor for equipment, acts, and omissions within the independent contractor's control or supervision. All civil penalties collected pursuant to this article by a state agency or by a court shall be transmitted to the state treasurer, who shall credit them to the highway users tax fund created in section 43-4-201, C.R.S., for allocation and expenditure as specified in section 43-4-205 (5.5)(a), C.R.S.

(b) Notwithstanding paragraph (a) of this subsection (2):

(I) Intrastate motor carriers shall not be subject to any provisions in 49 CFR, part 386, subpart G that relate the amount of a penalty to a violator's ability to pay, and such penalties shall be based upon the nature and gravity of the violation, the degree of culpability, and such other matters as justice and public safety may require;

(II) When determining the assessment of a civil penalty for safety violations, the period of a motor carrier's safety compliance history that a compliance review officer may consider shall not exceed three years;

In adopting the rules, the chief shall use as general guidelines the standards contained in the current rules and regulations of the United States department of transportation relating to safety regulations, qualifications of drivers, driving of motor vehicles, parts and accessories, notification and reporting of accidents, hours of service of drivers, inspection, repair and maintenance of motor vehicles, financial responsibility, insurance, and employee safety and health standards; except that rules regarding financial responsibility and insurance do not apply to a commercial vehicle as defined in subsection (1) of this section that is also subject to regulation by the public utilities commission under article 10.1 of title 40. (II) With respect to the operation of all vehicles that would be commercial vehicles but for the fact that they have a manufacturer's gross vehicle weight rating or gross combination rating of ten thousand one pounds or more but not more than sixteen thousand pounds, the chief of the Colorado state patrol may adopt rules that authorize the Colorado state patrol to:

(A) Annually inspect these vehicles;

(B) Enforce with respect to these vehicles all requirements for the securing of loads that apply to commercial vehicles; and

The fund consists of moneys transferred from the public utilities commission motor carrier fund pursuant to section 40-2-110.5 (9)(a), C.R.S. Moneys in the fund are subject to appropriation by the general assembly for the direct and indirect costs of the advancement of highway safety relating to commercial carrier operations pursuant to this section. All interest derived from the deposit and investment of moneys in the fund are credited to the fund, and any moneys not appropriated remain in the fund and do not transfer or revert to the general fund or any other fund.

PART 3

EMISSIONS INSPECTION

42-4-301. Legislative declarations - enactment of enhanced emissions program not waiver of state right to challenge authority to require specific loaded mode transient dynamometer technology in automobile emissions testing. (1) The general assembly hereby finds and declares that sections 42-4-301 to 42-4-316 are enacted pursuant to, and that the program created by said sections is designed to meet, the requirements of the federal "Clean Air Act", as amended by the federal "Clean Air Act Amendments of 1990", 42 U.S.C. sec. 7401 et seq., as the same is in effect on November 15, 1990.

(2) (a) The general assembly further finds and declares that:

(I) The provisions of sections 42-4-301 to 42-4-316 related to the enhanced emissions program are enacted to comply with administrative requirements of rules and regulations of the federal environmental protection agency;

(II) Insofar as such rules and regulations require the use of loaded mode transient dynamometer technology utilizing a system commonly known as the IM 240 in motor vehicle emissions testing, the general assembly finds that reliable scientific data questions the effectiveness of such technology to measure motor vehicle emissions at the high altitude of the Denver metropolitan area;

(III) Less costly automobile emission testing systems may be available which are as effective or more effective at a lower cost to consumers than the loaded mode transient dynamometer test required by the federal environmental protection agency.

(b) (I) The general assembly, therefore, declares that the enactment of sections 42-4-301 to 42-4-316 in no way forecloses or limits the rights of the general assembly or any other appropriate entity of the state of Colorado to retain legal counsel as provided by law to request the federal environmental protection agency to consider alternative automobile emission inspection technology which may relieve Colorado of the requirements of the federal rules and regulations or change such rules and regulations to require a different technology in automobile

emissions testing at a substantial savings in cost to consumers and jobs for Coloradans employed in the testing of motor vehicles for emissions compliance.

(II) If the federal agency refuses to alter its policies related to this issue, the general assembly hereby declares that it or any other appropriate entity of the state of Colorado does not waive the right to bring appropriate legal action in a court of competent jurisdiction to determine the validity of the federal environmental protection agency's authority to require the use of the loaded mode transient dynamometer test for automobile emissions inspection commonly known as the IM 240 when such requirement may be in excess of the federal agency's authority under the federal "Clean Air Act Amendments of 1990".

Until such date, emission inspection activity in El Paso, Larimer, and Weld counties shall comply with the requirements applicable to inspection and readjustment stations in sections 42-4-301 to 42-4-316, and El Paso, Larimer, and Weld counties shall be deemed to continue to be included in the inspection and readjustment program until implementation of the basic emissions program by the commission pursuant to this section.

thereto. In any such actions affecting licenses, the executive director may conduct hearings as a result of which such action is to be taken. Any such hearing may be conducted by a hearing officer appointed at the request of the executive director in accordance with the "State Administrative Procedure Act", article 4 of title 24, C.R.S., which shall govern the conduct of such hearings and action on said licenses, except as provided in section 42-4-312 (4).

(4) The executive director shall promulgate rules and regulations consistent with those of the commission for the administration and operation of inspection and readjustment stations, inspection-only facilities, fleet inspection stations, motor vehicle dealer test facilities, and enhanced inspection centers and for the issuance, identification, and use of certifications of emissions control and shall promulgate such rules and regulations as may be necessary to the effectiveness of the automobile inspection and readjustment program.

(5) The executive director shall promulgate rules and regulations which require that each licensed inspection and readjustment station, inspection-only facility, or enhanced inspection center post in a clearly legible fashion in a conspicuous place in such station, facility, or center the fee charged by such station, facility, or center for performing an emissions inspection and, within the basic program area, the fee charged by any such inspection and readjustment station for performing the adjustments and any repairs required for the issuance of a certification of emissions waiver.

(6) (a) The executive director shall promulgate such rules and regulations as may be necessary to implement an ongoing quality assurance program to discover, correct, and prevent fraud, waste, and abuse and to determine whether proper procedures are being followed, whether the emissions test equipment is calibrated as specified, and whether other problems exist which would impede the success of the program.

(b) (I) The department shall conduct overt performance audits as follows:

(A) At least twice per year at each inspection and readjustment station, inspection-only facility, and motor vehicle dealer test facility;

(B) At least twice per year at each fleet inspection station;

(B) Specifications adopted by the commission for exhaust gas measuring instrumentation in the program areas shall conform to the federal act and federal requirements, including electronic data transfer, and may include bar code capabilities.

(C) Upon the adoption of specifications for measuring instruments and test analyzer systems, the division in consultation with the executive director may let bids for the procurement of instruments that meet federal requirements or guidelines and the standards of the federal act. The invitation for bids for test analyzer systems for the basic program and the inspection-only facilities in the enhanced program shall include, but shall not be limited to, the requirements for data collection and electronic transfer of data as established by the commission, service and maintenance requirements for such instruments for the period of the contract, requirements for replacement or loan instruments in the event that the purchased or leased instruments do not

function, and the initial purchase or lease price. On and after June 5, 2001, each contract for the purchase of such instruments shall have a term of no more than four years.

(II) Points of no greater than five percent shall be assigned to those respondents that make the greatest use of Colorado goods, services, and the participation of small business. Licensed inspection and readjustment stations, inspection-only facilities, fleet inspection stations, and motor vehicle dealer test facilities, if applicable, which are required to purchase commission-approved test analyzer systems shall purchase them pursuant to the bid procedure of the department of personnel.

(III) Mobile test analyzer systems for motor vehicle dealer test facilities shall comply with commission specifications developed pursuant to subparagraph (I) of this paragraph (a).

(b) (I) For the enhanced emissions program, the commission shall develop system design standards, performance standards, and contractor requirements. Upon the adoption of such criteria, the division in consultation with the executive director may, according to procedures and protocol established in the "Procurement Code", articles 101 to 112 of title 24, C.R.S., enter into a contract for the design, construction, equipment, maintenance, and operation of enhanced inspection centers to serve affected motorists. The criteria for the award of such contract shall include, but shall not be limited to, such criteria as the contractor's qualifications and experience in providing emissions inspection services, financial and personnel resources available for start-up, technical or management expertise, and capacity to satisfy such requirements for the life of the contract.

(II) Inspection procedures, equipment calibration and maintenance, and data storage and transfer shall comply with federal requirements and may include bar code capability. The system shall provide reasonable convenience to the public.

(III) Points of no greater than five percent shall be assigned to those respondents who make the greatest use of Colorado goods, services, and participation of small businesses.

(IV) On and after May 26, 1998, any contract for inspection services shall have a term of no more than five years and shall be subject to rebidding under the provisions of this paragraph (b).

(V) (A) Notwithstanding any contrary provision in the "Procurement Code", articles 101 to 112 of title 24, C.R.S., or this article, any contract for inspection services may be renewed for a term not to exceed two years, after which the contract may be renewed for a single term of up to four years or rebid; except that inspection fees during any such four-year renewal contract shall be as determined under section 42-4-311 (6).

(B) The commission shall have rule-making authority to implement any environmental protection agency-approved alternative emissions inspection services or technologies, including on-board diagnostics, so long as such inspection technologies provide SIP credits equal to or greater than those currently in the SIP.

(4) (a) The commission shall develop a program to train and examine all applicants for an emissions inspector or emissions mechanic license. Training of emissions inspectors who are employed at enhanced inspection centers within the enhanced emissions program area shall be administered by the contractor subject to the commission's oversight. Emissions mechanic training shall be performed by instructors certified in accordance with commission requirements. Training classes shall be funded by tuition charged to the participants unless private or federal funds are available for such training. The qualifications and licensing examination for emissions inspectors, excluding such inspectors at enhanced inspection centers, who shall be authorized by

and under the direction of the contractor, shall include a test of the applicant's knowledge of the technical and legal requirements for emissions testing, knowledge of data and emissions testing systems, and an actual demonstration of the applicant's ability to perform emissions inspection procedures.

(b) Emissions inspector and emissions mechanic licenses shall expire two years after issuance. The commission shall establish technical standards for renewing emissions inspector and emissions mechanic licenses to include requirements for retraining on a biennial schedule.

(c) The commission shall establish minimum performance criteria for licensed emissions inspectors and emissions mechanics.

(5) The commission shall perform its duties, as provided in sections 42-4-301 to 42-4-316, with the cooperation and aid of the division.

(6) (a) The commission shall develop and adopt, and may from time to time revise, regulations providing inspection procedures for detection of tampering with emissions-related equipment and on-board diagnostic systems and emissions standards for vehicle exhaust and evaporative gases, the detection of chlorofluorocarbons, and smoke opacity, as prescribed in section 42-4-412, with which emissions standards vehicles inspected in accordance with section 42-4-310 would be required to comply prior to issuance of certification of emissions compliance. Such inspection procedures and emissions standards shall be proven cost-effective and air pollution control-effective on the basis of detailed research conducted by the department of public health and environment in accordance with section 25-7-130, C.R.S., and shall be designed to assure compliance with the federal act, federal requirements, and the state implementation plan. Emissions standards shall be established for carbon monoxide, exhaust and evaporative hydrocarbons, oxides of nitrogen, and chlorofluorocarbons.

(b) (I) The commission shall adopt regulations which provide standards for motor vehicles and shall adopt by December 1 of each subsequent year standards for motor vehicles of one additional model year.

(II) Standards for carbon monoxide, exhaust and evaporative hydrocarbons, and oxides of nitrogen shall be no more stringent than those established pursuant to the federal act and federal requirements. The cut-points established for such standards prior to December 1, 1998, shall not be increased until on or after January 1, 2000.

(c) Repealed.

(d) Test procedures may authorize emissions inspectors or emissions mechanics to refuse testing of a vehicle that would be unsafe to test or that cannot physically be inspected, as specified by the commission; except that refusal to test a vehicle for such reasons shall not excuse or exempt such vehicle from compliance with all applicable requirements of this part 3.

(7) (a) The commission shall by regulation require the owner of a motor vehicle for which a certification of emissions control is required to obtain such certification. Such regulation shall provide:

(I) That a certification of emissions compliance be issued for the vehicle if, at the time of inspection or, after completion of required adjustments or repairs, the exhaust and evaporative gases and visible emissions from said vehicle comply with the applicable emissions standards adopted pursuant to subsection (6) of this section, and that applicable emissions control equipment and diagnostic systems are intact and operable, and, for model year 1995 and later vehicles, compliance with each applicable emissions-related recall campaign, or remedial action, as defined by the federal act, has been demonstrated.

(II) (A) That a certification of emissions waiver be issued for the motor vehicle if, at the time of inspection, the exhaust gas or evaporative emissions from said vehicle do not comply with the applicable emissions standards but said vehicle is adjusted or repaired by a registered repair technician or at a registered repair facility within the enhanced program area, or at a licensed inspection and repair station within the basic program area, whichever is appropriate, to motor vehicle manufacturer specifications and repair procedures as provided by regulation of the commission.

(B) Such specifications shall require that such motor vehicles be retested for exhaust gas emissions and evaporative emissions, if applicable, after such adjustments or repairs are performed, but, except as provided in section 42-4-310 (1)(d), no motor vehicle shall be required to receive additional repairs, maintenance, or adjustments beyond such specifications or repairs following such retest as a condition for issuance of a certification of emissions waiver.

(C) A time extension not to exceed the period of one inspection cycle may be granted in accordance with commission regulation to obtain needed repairs on a vehicle in the case of economic hardship when waiver requirements pursuant to commission regulation have not been met, but such extension may be granted only once per vehicle.

(D) Notwithstanding any provisions of this section, a temporary certificate of emissions control may be issued by state AIR program personnel for vehicles required to be repaired, if such repairs are delayed due to unavailability of needed parts.

(E) The results of the initial test, retests, and final test shall be given to the owner of the motor vehicle.

(F) The issuance of temporary certificates shall be entered into the main computer database for the AIR program through the use of electronic records.

(G) The commission is authorized to reduce the emissions-related repair expenditure limit established in section 42-4-310 (1)(d)(III) for hydrocarbons and oxides of nitrogen if applicable federal requirements are met, and the environmental protection agency has approved a maintenance plan submitted by the state to ensure continued compliance with such federal requirements.

(b) (I) The commission shall by regulation provide that no vehicle shall be issued a certificate of emissions compliance or waiver if emissions control equipment and diagnostic or malfunction indicator systems, including microprocessor control systems, are not present, intact, and operational, if repairs were not appropriate and did not address the reason for the emissions failure, or if the vehicle emits visible smoke.

(II) The commission shall provide by regulation that no model year 1995 or later vehicle shall be issued a certificate of emissions control unless compliance with each applicable emissions-related recall campaign or remedial action, as defined in the federal act, has been demonstrated.

(8) (a) The commission may exempt motor vehicles of any make, model, or model year from the periodic inspection requirements of section 42-4-310.

(b) Pursuant to section 42-4-310 (1), the commission may increase the effective duration of certifications of emissions compliance issued for new motor vehicles without inspection.

(9) (a) (I) The commission shall continuously evaluate the entire AIR program to ensure compliance with the state implementation plan and federal law. Such evaluation shall be based on continuing research conducted by the department of public health and environment in

accordance with section 25-7-130, C.R.S. Such evaluation shall include assessments of the cost-effectiveness and air pollution control-effectiveness of the program.

(II) The commission shall establish on a case-by-case basis and pursuant to final order any area of a county included in the basic emissions program area pursuant to section 42-4-304 (2) which shall be incorporated into the enhanced emissions program because it violates national ambient air quality standards on or after January 1, 1996, as established by the environmental protection agency.

(b) Such evaluation shall include a determination of the number of motor vehicles that fail to meet the applicable emissions standards after the adjustments and repairs required by subsection (7) of this section are made. If the commission finds that a significant number of motor vehicles do not meet the applicable emissions standards after such adjustments or repairs are made, the commission shall develop recommendations designed to improve the air pollution control-effectiveness of the program in a cost-effective manner.

(c) The evaluation shall also include an assessment of the methods of controlling or reducing exhaust gas emissions from motor vehicles of the model year 1981 or a later model year that are equipped with microprocessor-based emissions control systems and on-board diagnostic systems. Such evaluation shall include, if necessary for such motor vehicles, the development of more accurate alternative procedures to include the adjustments and repairs specified in subparagraph (II) of paragraph (a) of subsection (7) of this section, and such alternative procedures may require the replacement of inoperative or malfunctioning emissions control components. Such alternative procedures shall be designed to achieve control of emissions from such motor vehicles which is equivalent to or greater than the control performance level provided by performance standards established pursuant to the federal act.

(d) Such evaluation shall also include an annual assessment of in-use vehicle emissions performance levels by random testing of a representative sample of at least one-tenth of one percent of the vehicles subject to the enhanced emissions program requirements.

(10) The commission shall develop and implement, and shall revise as necessary, inspection procedures to detect tampering, poor maintenance, mis-fueling, and contamination of emissions control systems to include proper operation of on-board diagnostic systems.

(11) (a) The commission, with the cooperation of the department of public health and environment, the department of revenue, the contractor, and the owners or operators of the inspection and readjustment stations, inspection-only facilities, and motor vehicle dealer test facilities, shall implement an ongoing project designed to inform the public concerning the operation of the program and the benefits to be derived from such program.

(b) (I) The commission shall, as part of such project and with the cooperation of the department of public health and environment, the department of revenue, the contractor, and the owners or operators of the inspection and readjustment stations and inspection-only facilities prepare and cause the distribution of consumer protection information for the benefit of the owners of vehicles required to be inspected pursuant to section 42-4-310.

(II) This information shall include an explanation of the program, the owner's responsibilities under the program, the procedures to be followed in performing the inspection, the adjustments and repairs required for vehicles to pass inspection, cost expenditure limits pursuant to section 42-4-310 (1)(d) for such adjustments or repairs, the availability of diagnostic information to aid repairs, and a listing of registered repair facilities and technicians, and the

package may include information on other aspects of the program as the commission determines to be appropriate.

(c) In addition to distribution of such information, the commission shall actively seek the assistance of the electronic and print media in communicating such information to the public and shall utilize such other means and manners of disseminating the information as are likely to effectuate the purpose of the program.

(12) (a) The commission, with the cooperation of the executive director of the department of public health and environment, shall conduct or cause to be conducted research concerning the presence of pollutants in the ambient air, which research shall include continuous monitoring of ambient air quality and modeling of sources concerning their impacts on air quality. Such research shall identify pollutants in the ambient air which originate from motor vehicle exhaust gas emissions and shall identify, quantify, and evaluate the ambient air quality benefit derived from the automobile inspection and readjustment program, from the federal new motor vehicle exhaust emissions standards, and from changes in vehicle miles traveled due to economic or other factors. Each such evaluation shall be reported separately to assess the air pollution control-effectiveness and cost-effectiveness of the pollution control strategy.

(b) Repealed.

(13) The commission shall identify vehicle populations contributing significantly to ambient pollution inventories utilizing mobile source computer models approved by the environmental protection agency. The commission shall develop and implement more stringent or frequent, or both, inspection criteria for those vehicles with such significant pollution contributions.

(14) (a) Consistent with section 42-4-305, the commission shall promulgate technical rules and regulations governing quality control and audit procedures to be performed by the department of revenue as provided in section 42-4-305. Such regulations shall address all technical aspects of program oversight and quality assurance to include covert and overt performance audits and state implementation plan compliance.

(b) To ensure compliance with the state implementation plan and federal requirements the commission shall promulgate technical rules and regulations to address motor vehicle fleet and motor vehicle dealer inspection protocol and quality control and audit procedures.

(15) The commission shall provide for additional enforcement of the inspection programs by encouraging the adoption of local ordinances and active participation by local law enforcement personnel, parking control, and code enforcement officers against vehicles suspected to be out of compliance with inspection requirements.

(16) (a) (I) The commission shall promulgate rules and regulations governing the issuance of emissions-related repair waivers consistent with section 42-4-310.

(II) Within the enhanced program area waivers shall only be issued by authorized state personnel and enhanced inspection center personnel specifically authorized by the executive director.

(b) The issuance of all waivers shall be controlled and accountable to the main computer database for the AIR program by electronic record to ensure that maximum allowable waiver rate limits for both program types, as defined by the federal act, are not exceeded.

(17) For the enhanced emissions program, the commission shall promulgate rules and regulations establishing a network of enhanced inspection centers and inspection-only facilities within the enhanced emissions program area consistent with the following:

(a) (I) Owners, operators, and employees of enhanced inspection centers and independent inspection-only facilities within the enhanced program area are prohibited from engaging in any motor vehicle repair, service, parts sales, or the sale or leasing of motor vehicles and are prohibited from referring vehicle owners to particular providers of motor vehicle repair services; except that minor repair of components damaged by center or facility personnel during inspection at the center or facility, such as the reconnection of hoses, vacuum lines, or other measures pursuant to commission regulation that require no more than five minutes to complete, may be undertaken at no charge to the vehicle owner or operator if authorized.

(II) The operation of a motor vehicle dealer test facility shall not be considered to be engaging in any motor vehicle repair service, parts sales, or the sale or leasing of motor vehicles by a member of the state trade association operating such motor vehicle dealer test facility.

(b) Owners, operators, and employees of enhanced inspection centers shall ensure motorists and other affected parties reasonable convenience. Inspection services shall be available prior to, during, and after normal business hours on weekdays, and at least five hours on a weekend day.

(c) Owners, operators, and employees of enhanced inspection centers shall take appropriate actions, such as opening additional lanes, to avoid exceeding average motorist wait times of greater than fifteen minutes by designing optimized single- or multi-lane high-volume throughput systems.

(d) Owners or operators of enhanced inspection centers may develop, and are encouraged to develop, and implement alternate strategies including but not limited to off-peak pricing to reduce end-of-the-month wait times.

(e) The network of enhanced inspection centers shall be located to provide adequate coverage and convenience. At a minimum, the number of enhanced inspection centers shall be equivalent to the network that existed on January 1, 2000, and the hours of operation shall be determined by the contract.

(f) Within the enhanced emissions program area the commission shall provide for the operation of licensed inspection-only facilities. Applicable facility and inspector licensing, inspection procedures, and criteria shall be pursuant to rule and regulation of the commission and compliance with federal requirements. Inspection-only facilities shall be authorized to provide inspection services for all classes of motor vehicles as defined in section 42-4-304 (18) of the model year 1981 and older. Inspection-only owners or operators, or both, shall comply with paragraph (a) of this subsection (17).

(18) For the basic emissions program, inspection stations within the basic emissions program area which are licensed in accordance with section 42-4-308 may conduct inspections or provide motor vehicle repairs as well as offer emissions inspection services.

(19) The commission shall give at least sixty days' notice to the executive director prior to conducting any rule-making hearing pursuant to this article, except where the commission finds that an emergency exists under section 24-4-103 (6), C.R.S. The executive director shall participate as a party in any such hearing. Prior to promulgating any rule under this article, the commission shall consider the potential budgetary and personnel impacts any such rule may have on the department of revenue.

(20) (a) The commission shall develop and maintain a small business technical assistance program through the automobile inspection and repair program to provide information and to aid automotive businesses and technicians. As an element of this program, the

commission shall develop a voluntary program for the training of registered repair technicians, to be funded by tuition charged to the participants, unless federal or private funds are made available for such training.

(b) For the enhanced emissions program, the commission shall provide for the voluntary registration of repair facilities and repair technicians within the enhanced emissions program area. Emissions-related repair effectiveness shall be monitored and periodically reported to participating facilities and technicians. Technical assistance shall be provided to those repair technicians and repair facilities needing improvement in repair effectiveness. The commission shall require that emissions-related repair effectiveness information regarding registered repair facilities be made available to the public.

(21) (a) The commission shall investigate and develop other supplemental or alternative motor vehicle related emissions reduction strategies, including but not limited to "cash for clunkers", which may complement or enhance the performance of the AIR program. Such strategies must be creditable under the state implementation plan and be proven cost-effective.

(b) (Deleted by amendment, L. 2002, p. 870, § 5, effective August 7, 2002.)

(22) The commission shall develop rules and regulations with respect to emissions inspection procedures and standards of motor vehicles which operate on alternative motor fuels including but not limited to compressed natural gas, liquid petroleum gas, methanol, and ethanol. Such rules and regulations shall be developed for both the basic emissions program and the enhanced emissions program. The commission shall evaluate whether dual fuel motor vehicles should be inspected on both fuels and whether such vehicles shall be charged for one or two inspections.

(23) (a) The commission shall promulgate rules governing the operation of the clean screen program. Such rules shall authorize the division to commence the clean screen program in the basic emissions program area commencing as expeditiously as possible. Such rules shall authorize the division to extend, if feasible, the clean screen program to other parts of the state upon request of the lead air quality planning agencies for each respective area. Such rules shall govern operation of the clean screen program pursuant to the contract or service agreement entered into under section 42-4-307 (10.5). Such rules shall determine the percentage of the vehicle fleet targeted for the clean screen program, which percentage shall develop a target of the eligible vehicle fleet that meets air quality needs. Such rules shall specify emission levels for vehicles in the same manner as for other vehicles in the emissions program. The commission may, upon written request of the Pikes Peak area council of governments, exclude the El Paso county portion of the basic emissions program area from the clean screen program if the department of public health and environment receives written notification from the Pikes Peak area council of governments to such effect by June 1, 2001.

(b) The rules promulgated pursuant to paragraph (a) of this subsection (23) may also authorize the division to commence the clean screen program in the enhanced emissions program area commencing January 1, 2002, or as soon thereafter as is practical. The clean screen program may be implemented in the enhanced emissions program area only if the commission makes such a determination on or after July 1, 2001.

(8) (a) Except as otherwise provided in the resolution authorizing the bonds, all bonds of the same issue under this section shall have a prior and paramount lien on the net revenues pledged therefor. The authority may provide for preferential security for any bonds, both principal and interest, to be issued under this section to the extent deemed feasible and desirable by such authority over any bonds that may be issued thereafter.

(b) Bonds of the same issue or series issued under this section shall be equally and ratably secured, without priority by reason of number, date, sale, execution, or delivery, by a lien on the net revenue pledged in accordance with the terms of the resolution authorizing the bonds.

(3) No inspection and readjustment station license, inspection-only facility license, fleet inspection station license, motor vehicle dealer test facility license, or contractor's contract shall be issued or executed unless the station or contractor has proper equipment to meet licensing, facility, or contractor approval requirements. Such equipment shall include all test equipment approved by the commission to perform emissions inspections corresponding to the type of licensed or approved facility together with such auxiliary tools, equipment, and testing devices as are required by the commission by rule.

(4) (a) No emissions inspector license or emissions mechanic license shall be issued to any applicant unless said applicant has completed the required training, has demonstrated necessary skills and competence in the inspection of motor vehicles by passing the written certification test developed by the commission and administered by the department of public

health and environment, and has demonstrated such skill and competence as a prerequisite to initial licensing by the department of revenue.

(b) The department of revenue shall monitor emissions inspector and emissions mechanic activities at inspection and readjustment stations, inspection-only facilities, fleet inspection stations, motor vehicle dealer test facilities, and enhanced inspection centers during periodic performance audits conducted as prescribed by section 42-4-305.

(c) An emissions inspector or emissions mechanic license may be revoked in accordance with section 42-4-305 if the licensee is not in compliance with the minimum performance criteria set forth by the commission or the department of revenue.

(d) Licenses shall be valid for two years.

(e) Emissions inspector and emissions mechanic license renewal shall be subject to the requirements set forth by the commission through rule and regulation.

42-4-309. Vehicle fleet owners - motor vehicle dealers - authority to conduct inspections - fleet inspection stations - motor vehicle dealer test facilities - contracts with licensed inspection-only entities. (1) (a) Any person in whose name twenty or more motor vehicles, required to be inspected, are registered in this state or to whom said number of vehicles are leased for a period of not less than six continuous months and who operates a motor vehicle repair garage or shop adequately equipped and manned, as required by section 42-4-308 and the rules and regulations issued pursuant thereto, may be licensed to perform said inspections as a fleet inspection station. Said inspections shall be made by licensed emissions inspectors or emissions mechanics. Such stations shall be subject to all licensing regulations and supervision applicable to inspection and readjustment stations. Fleet inspection stations shall inspect fleet vehicles in accordance with applicable requirements pursuant to rules and regulations promulgated by the commission. No person licensed pursuant to this section may conduct emissions inspections on motor vehicles owned by employees of such person or the general public, but only on those vehicles owned or operated by the person subject to the fleet inspection requirements. Any such motor vehicles are not eligible for a certificate of emissions waiver and shall be inspected annually. The commission shall promulgate such rules as may be necessary to establish non-loaded mode static idle inspection procedures, standards, and criteria under this section.

(b) Each fleet operator licensed or operating within the enhanced program area who is also licensed to operate a fleet inspection station shall assure that a representative sample of one-half of one percent or one vehicle, whichever is greater, of such operator's vehicle fleet is inspected annually at an inspection-only facility or enhanced inspection center. An analysis of the data gathered from any such inspection shall be performed by the department of public health and environment and provided to the department of revenue to determine compliance by such

fleet with the self-inspection requirements of this section. An inspection is not required prior to the sale of a motor vehicle with at least twelve months remaining before the vehicle's certification of emissions compliance expires if such certification was issued when the vehicle was new.

(2) (a) As an alternative to subsection (1) of this section, any person having twenty or more vehicles registered in this state that are required to be inspected pursuant to section 42-4-310 may contract for periodic inspection services with a contractor or an inspection-only facility. Such inspections shall be in compliance with non-fleet vehicle requirements as specified in this part 3 and shall be performed by an authorized or licensed emissions inspector who shall be subject to all requirements and oversight as applicable.

(b) Upon retail sale of any vehicle subject to fleet inspection to a party other than a fleet operator, such vehicle shall be inspected at an authorized enhanced inspection center, licensed inspection-only facility, or licensed inspection and readjustment station, as applicable. A certificate of emissions compliance shall be required as a condition of the retail sale of any such vehicle.

(3) (a) Any person licensed as a motor vehicle dealer pursuant to part 1 of article 20 of title 44 in whose name twenty or more motor vehicles are registered or inventoried or consigned for retail sale in this state that are required to be inspected shall comply with the requirements of section 42-4-310 for the issuance of a certificate of emissions compliance at the time of the retail sale of the vehicle.

(b) Within the enhanced emissions program, motor vehicle dealers licensed pursuant to part 1 of article 20 of title 44 may contract for used motor vehicle inspection services by a licensed motor vehicle dealer test facility. Pursuant to rules of the commission, inspection procedures shall include a loaded mode transient dynamometer test cycle in combination with appropriate idle short tests.

(c) 1981 and older model vehicles held in inventory and offered for retail sale by a used vehicle dealer may be inspected by a licensed inspection-only facility.

(d) Within the basic emissions program, any person licensed as a motor vehicle dealer pursuant to part 1 of article 20 of title 44 may be licensed to conduct inspections pursuant to subsections (1) and (2) of this section.

(4) Nothing in this section shall preclude a fleet or motor vehicle dealer test facility from participating in the basic or enhanced emissions program pursuant to this part 3 with the requirements of such program being determined by the county of residence or operation.

(5) (a) Motor vehicle dealers selling any vehicle to be registered in the enhanced program area shall comply with the enhanced program requirements.

(b) Motor vehicle dealers selling any vehicle to be registered in the basic program area shall comply with the basic program requirements.

(c) If used motor vehicles for sale have been inspected by a motor vehicle dealer test facility, the motor vehicle dealer shall comply with the standards and requirements established for motor vehicle dealer test facilities.

(6) (a) On and after June 1, 1996, a motor vehicle dealer or a used motor vehicle dealer licensed pursuant to part 1 of article 20 of title 44 that sells any vehicle subject to the enhanced emissions program may comply with sections 42-4-304 (3)(d) and 42-4-310 by providing the consumer of the vehicle a voucher purchased by the dealer from the contractor for the centralized enhanced emissions program, with or without charge to the consumer, up to the

maximum amount charged for an emissions inspection at an enhanced inspection center. The voucher shall cover the cost of an emissions inspection of the vehicle at an enhanced inspection center and shall entitle the consumer to such an emissions inspection.

(b) If a vehicle inspected with a voucher as authorized in this paragraph (b) fails a test at an enhanced inspection center and is returned within three business days after its purchase, the dealer, at its option, shall repair the motor vehicle to pass the emissions test, pay the consumer to obtain such repairs to pass the emissions test from a third party, or repurchase the vehicle at the vehicle's purchase price. After such payment, repair, or repurchase, a dealer shall have no further liability to the consumer for compliance with the requirements of the enhanced emissions program.

(c) The voucher to be delivered at time of sale shall set forth the conditions described in paragraph (b) of this subsection (6) on a form prescribed by the department of revenue.

(7) A motor vehicle dealer shall have a motor vehicle inspected annually pursuant to section 42-4-310, but shall not be required to have such vehicle inspected more than once a year.

(3) Amendments to subsection (3)(b) by HB 18-1375 and SB 18-030 were harmonized.

42-4-310. Periodic emissions control inspection required. (1) (a) (I) Subject to subsection (4) of this section, a motor vehicle that is required to be registered in the program area shall not be sold, registered for the first time without a certification of emissions compliance, or reregistered unless the vehicle has passed a clean screen test or has a valid certification of emissions control as required by the appropriate county. The provisions of this subsection (1)(a) do not apply to motor vehicle transactions at wholesale between motor vehicle dealers licensed pursuant to part 1 of article 20 of title 44. An inspection is not required prior to the sale of a motor vehicle with at least twelve months remaining before the vehicle's certification of emissions compliance expires if the certification was issued when the vehicle was new.

(II) (A) If title to a roadworthy motor vehicle, as defined in section 42-6-102 (15), for which a certification of emissions compliance or emissions waiver must be obtained pursuant to this paragraph (a) is being transferred to a new owner, the new owner may require at the time of sale that the prior owner provide said certification as required for the county of residence of the new owner.

(B) The new owner shall submit such certification to the department of revenue or an authorized agent thereof with application for registration of the motor vehicle.

(C) If such vehicle is being registered in the program area for the first time, the owner shall obtain any certification required for the county where registration is sought and shall submit such certification to the department of revenue or an authorized agent thereof with such owner's application for the registration of the motor vehicle. A motor vehicle being registered in the program area for the first time may be registered without an inspection or certification if the vehicle has not yet reached its fourth model year or a later model year established by the commission pursuant to section 42-4-306 (8)(b).

(D) Except for a motor vehicle that was registered as a collector's item before September 1, 2009, and meets the requirements of sections 42-12-101 (2)(b) and 42-12-404 (2), to be sold or transferred or to renew the registration, a 1976 or newer model motor vehicle registered as a collector's item under article 12 of this title must be inspected and have a certification of emissions control. The certification of emissions control is valid for sixty months.

(b) (I) (A) Repealed.

(B) New motor vehicles owned by the United States government or an agency thereof or by the state of Colorado or any agency or political subdivision thereof that would be registered in the program area shall be issued a certification of emissions compliance without inspection that shall expire on the anniversary of the day of the issuance of such certification when such vehicle has reached its fourth model year or a later model year established by the commission pursuant to section 42-4-306 (8)(b). Prior to the expiration of such certification such vehicle shall be inspected and a certification of emissions control shall be obtained therefor.

(C) Effective May 28, 1999, 1982 and newer model motor vehicles that are owned by the United States government or an agency thereof or by the state of Colorado or any agency or political subdivision thereof that would be registered in the program area shall be inspected every two years, and shall be issued a certification of emissions compliance that shall be valid for twenty-four months; except that vehicles owned or operated by any agency or political subdivision that is authorized and licensed pursuant to section 42-4-309 to inspect fleet vehicles shall be inspected annually.

(D) Effective May 28, 1999, 1981 and older model motor vehicles that are owned by the United States government or an agency thereof or by the state of Colorado or any agency or political subdivision thereof that would be registered in the program area shall be inspected once each year, and shall be issued a certification of emissions compliance that shall be valid for twelve months.

(E) Any vehicle subject to this subparagraph (I) that is suspected of having an emissions problem may undergo a voluntary inspection as provided in subparagraph (IV) of paragraph (c) of this subsection (1).

(II) (A) Motor vehicle dealers shall purchase verification of emissions test forms for the sum of twenty-five cents per form from the department or persons authorized by the department to make such sales to be used only on new motor vehicles. No refund or credit shall be allowed for any unused verification of emissions test forms. New motor vehicles required under this section to have a verification of emissions test form shall be issued a certification of emissions compliance without inspection, which shall expire on the anniversary of the day of the issuance of such certification when such vehicle has reached its fourth model year or a later model year established by the commission pursuant to section 42-4-306 (8)(b). Prior to the expiration of such certification such vehicle shall pass a clean screen test or be inspected and a certification of emissions control shall be obtained therefor.

(B) 1982 and newer model motor vehicles required pursuant to this section to have a certification of emissions control shall be inspected at the time of the sale or transfer of any such vehicle and, prior to registration renewal, shall be issued a certification of emissions control that shall be valid for twenty-four months except as provided under section 42-4-309. An inspection is not required prior to the sale of a motor vehicle with at least twelve months remaining before the vehicle's certification of emissions compliance expires if such certification was issued when the vehicle was new. This sub-subparagraph (B) does not apply to the sale of a motor vehicle that is inoperable or otherwise cannot be tested in accordance with regulations promulgated by the department of revenue if the seller of the motor vehicle provides a written notice to the purchaser pursuant to the requirements of subsection (4) of this section.

(C) 1981 and older model motor vehicles required pursuant to this section to have a certification of emissions control shall be inspected at the time of the sale or transfer of any such vehicle and, prior to registration renewal, shall be issued a certification of emissions control that shall be valid for twelve months. This sub-subparagraph (C) does not apply to the sale of a motor vehicle which is inoperable or otherwise cannot be tested in accordance with regulations promulgated by the department of revenue if the seller of the motor vehicle provides a written notice to the purchaser pursuant to the requirements of subsection (4) of this section.

(III) Upon registration or renewal of registration of a motor vehicle required to have a certification of emissions control, the department shall issue a tab identifying the vehicle as requiring certification of emissions control. The tab shall be displayed from the time of registration. The verification of emissions test shall also be displayed on the motor vehicle in a location prescribed by the department of revenue consistent with federal regulations.

(c) (I) Effective October 1, 1989, those motor vehicles owned by nonresidents who reside in either the basic or enhanced emissions program areas or by residents who reside outside the program area who are employed for at least ninety days in any twelve-month period in a program area or who are attending school in a program area, and are operated in either the basic or enhanced emissions program areas for at least ninety days, shall be inspected as required by this section and a valid certification of emissions compliance or emissions waiver shall be obtained as required for the county where said person is employed or attends school. Such nonresidents include, but are not limited to, all military personnel, temporarily assigned employees of business enterprises, and persons engaged in activities at the Olympic training center.

(II) Any person owning or operating a business and any postsecondary educational institution located in a program area shall inform all persons employed by such business or attending classes at such institution that they are employed or attending classes in a program area and are required to comply with the provisions of subparagraph (I) of this paragraph (c).

(III) Vehicles that are registered in a program area and are being operated outside such area but within another program area shall comply with all program requirements of the area where such vehicles are being operated. Vehicles registered in a program area that are being temporarily operated outside the state at the time of registration or registration renewal may apply to the department of revenue for a temporary exemption from program requirements. Upon return to the program area, such vehicles must be in compliance with all requirements within fifteen days. A temporary exemption shall not be granted if the vehicle will be operated in an emissions testing area in another state unless proof of emissions from that area is submitted.

(IV) Nothing in this section shall be deemed to prevent or shall be interpreted so as to hinder the voluntary inspection of any motor vehicle in the enhanced emissions program. A certificate of emissions control issued under the provisions of the enhanced emissions program shall be acceptable as a demonstration of compliance within the basic program for vehicle registration purposes. In order to provide motorist protection, those vehicles voluntarily inspected and that fail said inspection but that are warrantable under manufacturers' emissions control warranties pursuant to section 207 (A) and (B) of the federal act shall comply with the emissions-related repair requirements of this part 3.

(V) Motor vehicles operated in the enhanced emissions program area, and required to be inspected pursuant to subparagraph (I) of this paragraph (c), shall comply with the inspection requirements of the enhanced emissions program area and are not required to comply with the inspection requirements of the basic emissions program area.

(d) (I) Repealed.

(II) (A) For the basic emissions program, effective January 1, 1994, for businesses which operate nineteen or fewer motor vehicles and for 1981 or older private motor vehicles required to be registered in the basic emissions program area, after any adjustments or repairs required pursuant to section 42-4-306, if total expenditures of at least seventy-five dollars have been made to bring the vehicle into compliance with applicable emissions standards and the vehicle still does not meet such standards, a certification of emissions waiver shall be issued for such vehicle.

(B) (Deleted by amendment, L. 2011, (SB 11-031), ch. 86, p. 246, § 11, effective August 10, 2011.)

(III) Repealed.

(IV) For the basic emissions program, effective January 1, 1994, for businesses that operate nineteen or fewer vehicles and for private motor vehicles only of a model year 1982 or later required to be registered in the basic emissions program area, after any adjustments or repairs required pursuant to section 42-4-306, if total expenditures of at least two hundred dollars have been made to bring the vehicle into compliance with the applicable emissions standards and the vehicle still does not meet such standards, a certification of emissions waiver shall be issued for such vehicle. For vehicles not older than two years or that have not more than twenty-four thousand miles, or such period of time and mileage as established for warranty protection by amendments to federal regulations, no emissions-related repair waivers shall be issued due to the provisions and enforcement of section 207 (A) and (B) of the federal act relating to emissions control systems components and performance warranties. Vehicles that are owned by the state of Colorado or any agency or political subdivision thereof are not eligible for emissions-related repair waivers under this subparagraph (IV).

(V) Repealed.

(VI) For the enhanced emissions program, effective January 1, 1995, for businesses that operate nineteen or fewer vehicles and for private motor vehicles only of a model year 1968 and later required to be registered in the enhanced emissions program area, after any adjustments or repairs required pursuant to section 42-4-306, if total expenditures of at least four hundred fifty dollars have been made to bring the vehicle into compliance with applicable emissions standards and the vehicle does not meet such standards, a certification of emissions waiver shall be issued for such vehicle except as prescribed in subparagraph (XII) of this paragraph (d) pertaining to vehicle warranty. The four-hundred-fifty-dollar minimum expenditure may be adjusted annually

by an amount not to exceed the percentage, if any, by which the consumer price index for all urban consumers (CPIU) for the Denver-Boulder metropolitan statistical area for the preceding year differs from such index for 1989. Vehicles that are owned by the state of Colorado or any agency or political subdivision thereof are not eligible for emissions-related repair waivers under this subparagraph (VI).

(VII) Repealed.

(VIII) (A) For the enhanced emissions program except as provided in sub-subparagraph (B) of this subparagraph (VIII), for businesses that operate nineteen or fewer vehicles and for private motor vehicles only of a model year 1967 or earlier required to be registered in the enhanced emissions program area, after any adjustments or repairs required under section 42-4-306, if total expenditures of at least seventy-five dollars have been made to bring the vehicle into compliance with applicable emissions standards and the vehicle still does not meet the standards, a certification of emissions waiver shall be issued for the vehicle.

(B) This subparagraph (VIII) shall apply in Boulder county, effective July 1, 1995.

(IX) (A) For the enhanced emissions program except as provided in sub-subparagraph (B) of this subparagraph (IX) effective January 1, 1995, for vehicles subject to a transient, loaded mode dynamometer inspection procedure under the enhanced program as determined by the commission, a certificate of waiver may be issued by an authorized state representative, if after failing a retest, at which point the minimum repair cost limit of four hundred fifty dollars has not been met, a complete and documented physical and functional diagnosis of the vehicle performed at an emissions technical center indicates that no additional emissions-related repairs would be effective or needed.

(B) This subparagraph (IX) shall apply in Boulder county, effective July 1, 1995.

(X) Subject to the provisions of subparagraph (V) of this paragraph (d), a certificate of emissions control shall not be issued for vehicles in the program area exhibiting smoke or indications of tampering with or poor maintenance of emissions control systems including on-board diagnostic systems.

(XI) As used in this paragraph (d), "total expenditures" means those expenditures directly related to adjustment or repair of a motor vehicle to reduce exhaust or evaporative emissions to a level which complies with applicable emissions standards. The term does not include an inspection fee, or any costs of adjustment, repair, or replacement necessitated by the disconnection of, tampering with, or abuse of air pollution control equipment, improper fuel use, or visible smoke.

(XII) No certification of emissions waiver shall be issued for vehicles not older than two years or which have not more than twenty-four thousand miles, or are of such other age and mileage as established for warranty protection under the federal act in accordance with the provisions and enforcement of section 207 (A) and (B) of the federal act relating to emissions control component and systems performance warranties.

(2) (a) The emissions inspection required under this section shall include an analysis of tail pipe and evaporative emissions. After January 1, 1994, such inspection shall include an analysis of emissions control equipment including on-board diagnostic systems, chlorofluorocarbons, and visible smoke emissions for the basic emissions program area and the enhanced emissions program area and emissions testing that meets the performance standards set by federal requirements for the enhanced emissions program area by means of procedures specified by regulation of the commission to determine whether the motor vehicle qualifies for

issuance of a certification of emissions compliance. For motor vehicles of the model year 1975 or later, not tested under a transient load on a dynamometer, said inspection shall also include a visual inspection of emissions control equipment pursuant to rules of the commission.

(b) and (c) Repealed.

(d) (I) In the basic emissions program area, effective January 1, 1994, in order to be issued a certificate of emissions waiver, appropriate adjustments and repairs must have been performed at a licensed inspection and readjustment station by a licensed emissions mechanic.

(II) In the enhanced emissions program area, effective January 1, 1995, in order to be issued a certificate of emissions waiver, appropriate adjustments and repairs must have been performed by a technician at a registered repair facility within the enhanced emissions program area.

(III) Adjustments and repairs performed by a registered repair facility and technician within the enhanced emissions program area shall be sufficient for compliance with the provisions of this paragraph (d) in the basic program area.

(3) (a) Effective July 1, 1993, any home rule city, city, town, or county shall, after holding a public hearing and receiving public comment and upon request by the governing body of such local government to the department of public health and environment and the department of revenue and after approval by the general assembly acting by bill pursuant to paragraph (e) of this subsection (3), be included in the program area established pursuant to sections 42-4-301 to 42-4-316. When such a request is made, said departments and governing body shall agree to a start-up date for the program in such area, and, on or after such date, all motor vehicles, as defined in section 42-4-304 (18), which are registered in the area shall be inspected and required to comply with the provisions of sections 42-4-301 to 42-4-316 and rules and regulations adopted pursuant thereto as if such area was included in the program area. Except as provided in paragraph (c) of this subsection (3), the department of public health and environment and the department of revenue, the executive director, and the commission shall perform all functions and exercise all powers related to the program in areas included in the program pursuant to this subsection (3) that they are otherwise required to perform under sections 42-4-301 to 42-4-316.

(b) Effective July 1, 1993, notwithstanding the provisions of section 42-4-304 (20), a local government with jurisdiction over an area excluded from the program area pursuant to section 42-4-304 (20) may request inclusion in the program area, and the exclusion under section 42-4-304 (20) shall not apply to vehicles registered within such area.

(c) Effective July 1, 1993, the inclusion pursuant to paragraph (a) or (b) of this subsection (3) of any home rule city, city, town, or county in the program area shall not be submitted to the United States environmental protection agency as a revision to the state implementation plan or otherwise included in such plan. Any governing body which requests inclusion of an area pursuant to paragraph (a) or (b) of this subsection (3) in the program area may, after a minimum period of five years, request termination of the program in such area, and the program in such area shall be terminated thirty days after the receipt by the department of revenue of such a request.

(d) Effective January 1, 1994, except for those entities included within the program area pursuant to section 42-4-304 (20), for inclusion in the program area, any home rule city, city, town, or county shall have the basic emissions program test requirements and standards implemented as its emissions inspection program.

(e) Unless a home rule city, city, town, or county violates national ambient air quality standards as established by the environmental protection agency, the inclusion pursuant to paragraph (a) or (b) of this subsection (3) of any home rule city, city, town, or county in the program area shall be contingent upon approval by the general assembly acting by bill to include any such home rule city, city, town, or county in the program area.

(4) (a) The seller of a motor vehicle that is inoperable or otherwise cannot be tested in accordance with rules promulgated by the department of revenue or that is being sold pursuant to part 18 or part 21 of this article is not required to obtain a certification of emissions control prior to the sale of the vehicle if the seller provides a written notice to the purchaser prior to completion of the sale that clearly indicates the following:

(I) The vehicle does not currently comply with the emissions requirements for the program area;

(II) The seller does not warrant that the vehicle will comply with emissions requirements; and

(III) The purchaser is responsible for complying with emissions requirements prior to registering the vehicle in the emissions program area.

(b) The department shall prepare a form to comply with the provisions of paragraph (a) of this subsection (4) and shall make such form available to dealers and other persons who are selling motor vehicles which are inoperable or otherwise cannot be tested in accordance with regulations promulgated by the department of revenue.

(c) If a motor vehicle is exempted from the requirement for obtaining a certification of emissions control prior to sale pursuant to this subsection (4), the new owner of the motor vehicle is required to obtain a certification of emissions control for such motor vehicle before registering it in the program area.

(5) (a) Notwithstanding any other provision of this section, any eligible motor vehicle registered in a clean screen program county that complies with the requirements of the clean screen program under the provisions of sections 42-4-305 (12), 42-4-306 (23), and 42-4-307 (10.5)(a), by passing the requirements of such program and applicable rules shall be deemed to have complied with the inspection requirements of this section for the applicable emissions inspection cycle. For purposes of this subsection (5), "eligible motor vehicle" means a motor vehicle, including trucks, for model years 1978 and earlier having a gross vehicle weight rating of six thousand pounds or less and for model years 1979 and newer having a gross vehicle weight rating of eight thousand five hundred pounds or less.

(b) (I) If the commission does not specify a date for authorized agents in the basic emissions program area to begin collecting emissions inspection fees at the time of registration pursuant to section 42-3-304 (19)(a), or if the contractor determines that a motor vehicle required to be registered in the basic program area has complied with the inspection requirements pursuant to this subsection (5), a notice shall be sent to the owner of the vehicle identifying the owner of the vehicle, the license plate number, and other pertinent registration information, and stating that the vehicle has successfully complied with the applicable emission requirements. The notice must also include a notification that the registered owner of the vehicle may return the notice to the authorized agent with the payment as set forth on the notice to pay for the clean screen program. The receipt of the payment from the motor vehicle owner is notice that the motor vehicle has complied with the inspection requirements pursuant to this subsection (5).

(II) For vehicles with registration renewals coming due on or after the dates specified by the commission for authorized agents to collect emissions inspection fees at the time of registration, if the contractor determines that a motor vehicle required to be registered in the program area has complied with the inspection requirements pursuant to this subsection (5), the contractor shall send a notice to the department of revenue identifying the owner of the vehicle, the license plate number, and any other pertinent registration information, stating that the vehicle has successfully complied with the applicable emission requirements.

(c) The department shall, by contract with a private vendor or by rule, establish a procedure for a vehicle owner to obtain the necessary emissions-related documents for the registration and operation of a vehicle that has complied with the inspection requirements pursuant to this subsection (5).

(1) (a) No inspection and readjustment station license, inspection-only facility license, fleet inspection station license, motor vehicle dealer test facility license, or enhanced inspection center contract may be assigned or transferred or used at any other than the station, facility, or center therein designated, and every such license or authorization for an enhanced inspection center shall be posted in a conspicuous place at the facility designated.

(b) Beginning January 1, 1995, no emissions inspector license or authorization shall be assigned or transferred except to a licensed inspection-only facility, fleet inspection station, or enhanced inspection center.

(c) No emissions inspector or emissions mechanic license or authorization may be assigned or transferred, nor shall the inspection and adjustment be made by such emissions inspector or emissions mechanic except at a licensed inspection and readjustment station, inspection-only facility, fleet inspection station, or motor vehicle dealer test facility or authorized enhanced inspection center.

(2) A licensed inspection and readjustment station, inspection-only facility, fleet inspection station, motor vehicle dealer test facility, or authorized enhanced inspection center shall not issue a certification of emissions control to a motor vehicle except upon forms prescribed by the executive director. Such station, facility, or center shall not issue a certification of emissions compliance or emission waiver unless the licensed or authorized emissions inspector or emissions mechanic performing the inspection determines that:

(a) The exhaust gas and, if applicable, evaporative emissions from the motor vehicle comply with the applicable emissions standards and there is no evidence of emissions system tampering nor visible smoke, in which case a certification of emissions compliance shall be issued;

(b) The exhaust gas and, if applicable, evaporative emissions from the motor vehicle do not comply with the applicable emissions standards after the adjustments and repairs required by section 42-4-306 have been performed and there is no evidence of emissions system tampering or visible smoke, in which case a certification of emissions waiver shall be issued. A fleet emission inspector shall not issue a certification of emissions waiver within the enhanced program area.

(3) (a) (I) A verification of emissions test shall be issued to a motor vehicle by a licensed inspection and readjustment station, inspection-only facility, fleet inspection station, or motor vehicle dealer test facility or authorized enhanced inspection center at the time such vehicle is issued a certification of emissions control.

(II) Except as required by section 42-12-404, no verification of emissions test is required to be issued to or required for any motor vehicle that is registered as a collector's item under section 42-12-401.

(III) (A) Repealed.

(B) Commencing July 1, 2001, every inspection and readjustment station, fleet inspection station, and inspection-only facility shall monthly transmit to the department the sum of twenty-five cents per motor vehicle inspection performed by such entity pursuant to this part 3

if the motor vehicle passes such inspection or is granted a waiver. No refund or credit shall be allowed for any unused verification of emissions test forms.

(C) The contractor shall monthly transmit to the department the sum of twenty-five cents per motor vehicle inspection performed by the contractor pursuant to this part 3 if the motor vehicle passes such inspection or is granted a waiver. No refund or credit shall be allowed for any unused verification of emissions test forms.

(b) The moneys collected by the department from the sale of verification forms shall be transmitted to the state treasurer, who shall credit such moneys to the AIR account, which account is created within the highway users tax fund. Moneys from the AIR account, upon appropriation by the general assembly, shall be expended only to pay the costs of administration and enforcement of the automobile inspection and readjustment program by the department and the department of public health and environment.

(4) (a) (I) A licensed inspection and readjustment station, inspection-only facility, or motor vehicle dealer test facility shall charge a fee not to exceed fifteen dollars for the inspection of vehicles, model year 1981 and older, at facilities licensed or authorized within either the basic or enhanced emissions program; except that for 1982 model and newer vehicles a test facility may charge a fee not to exceed twenty-five dollars.

(II) In no case shall any such fee exceed the maximum fee established by and posted by the station or facility pursuant to section 42-4-305 (5) for the inspection of any motor vehicle required to be inspected under section 42-4-310.

(b) A licensed emissions inspection and readjustment station shall charge a fee for performing the adjustments or repairs required for issuance of a certification of emissions waiver not to exceed the maximum charge established in section 42-4-310 and posted by the station pursuant to section 42-4-305.

(6) (a) The fee charged for enhanced emissions inspections performed within the enhanced emissions program area on 1982 and later motor vehicles shall not be any greater than that determined by the contract and in no case greater than twenty-five dollars. The fee charged for clean screen inspections performed on vehicles registered in the basic area shall not be any greater than that determined by the contract and in no case greater than fifteen dollars. Such fee shall not exceed the maximum fee required to be posted by the enhanced inspection center pursuant to section 42-4-305 for the inspection of any motor vehicle required to be inspected under section 42-4-310.

(b) During the two-year renewal of the contract entered into pursuant to section 42-4-307 (10), the commission shall hold a hearing to determine the maximum fee that may be charged pursuant to the contract for inspections during any subsequent renewal term. The maximum fee must be based on estimated actual operating costs during the life of the contract, determined pursuant to the proceeding, plus a percentage to be determined by the commission, not to exceed ten percent and not to exceed twenty-five dollars.

42-4-312. Improper representation as emissions inspection and readjustment station - inspection-only facility - fleet inspection station - motor vehicle dealer test facility - enhanced inspection center. (1) No person shall in any manner represent any place as an inspection and readjustment station, inspection-only facility, fleet inspection station, motor vehicle dealer test facility, or enhanced inspection center or shall claim to be a licensed emissions inspector or licensed emissions mechanic unless such station, facility, center, or person has been issued and operates under a valid license issued by the department or contract with the state. If the license or contract is canceled, suspended, or revoked, all evidence designating the station, facility, or center as a licensed inspection and readjustment station, inspection-only facility, fleet inspection station, or motor vehicle dealer test facility or authorized enhanced inspection center and indicative of licensed status of the station, facility, or center or emissions inspector or emissions mechanic shall be removed within five days after receipt of notice of such action.

(2) (a) The department shall have authority to suspend or revoke the inspection and readjustment station license, inspection-only facility license, fleet inspection license, or motor vehicle dealer test facility license or to seek termination of the contractor's contract and require surrender of said license and unused certification of emissions control forms and verification of emissions test forms held by such licensee or contractor when such station, facility, or center is not equipped as required, when such station, facility, or center is not operating from a location for which the license or contract was issued, when the approved location has been altered so that it will no longer qualify as a licensed station or facility or authorized center, or when inspections,

repairs, or adjustments are not being made in accordance with applicable laws and the rules and regulations of the department or commission.

(b) The department shall also have authority to suspend or revoke the license of an emissions inspector or emissions mechanic and require surrender of said license when it determines that said inspector or mechanic is not qualified to perform the inspections, repairs, or adjustments or when inspections, repairs, or adjustments are not being made in accordance with applicable laws and the rules and regulations of the department or the commission.

(3) In addition to any other grounds for revocation or suspension, authority to suspend and revoke inspection and readjustment station licenses, inspection-only facility licenses, fleet inspection station licenses, motor vehicle dealer test facility licenses, or enhanced inspection center contracts, or to seek termination of a contractor's contract or an emissions inspector's or emissions mechanic's license and to require surrender of said licenses and unused certification of inspection forms and records of said station shall also exist upon a showing that:

(a) A vehicle which had been inspected and issued a certification of emissions compliance by said station, facility, or center or by said inspector or mechanic was in such condition that it did not, at the time of such inspection, comply with the law or the rules and regulations for issuance of such a certification; or

(b) An inspection and readjustment station, or emissions mechanic has demonstrated a pattern of issuing certifications of emissions waivers to vehicles which, at the time of issuance of such certifications, did not comply with the law or the rules and regulations for issuance of such certifications.

(4) Upon suspending the license of an inspection and readjustment station, inspection-only facility, fleet inspection station, or motor vehicle dealer test facility or an enhanced inspection center contract or of an emissions inspector or emissions mechanic as authorized in this section, the executive director shall immediately notify the licensee or contractor in writing and, upon request therefor, shall grant the licensee or contractor a hearing within thirty days after receipt of such request, such hearing to be held in the county wherein the licensee or contractor resides, unless the executive director and the licensee or contractor agree that such hearing may be held in some other county. The executive director may request a hearing officer to act in the executive director's behalf. Upon such hearing, the executive director or the hearing officer may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books, records, and papers. Upon such hearing, the order of suspension or revocation may be rescinded, or, for good cause shown, the suspension may be extended for such period of time as the hearing person or body may determine, not exceeding one year, or the revocation order may be affirmed or reversed. The licensee shall not perform under the license pending the hearing and decision.

(5) Upon the final cancellation or termination of a contractor's contract, the executive director shall invoke the provisions of such contract to continue service until a new contract can be secured with qualified persons as supervised by the department of revenue.

 - (I) Testing and licensing of diesel emissions inspectors;
 - (II) Licensure of diesel emission inspection stations;
 - (III) Standards and specifications for the approval, operation, calibration, and certification of exhaust smoke opacity meters;
 - (IV) Proper performance of diesel opacity inspections and emissions system control inspections;
- (b) Issuance of the following types of certifications of emissions control by licensed diesel emission inspectors:
 - (I) A certification of diesel smoke opacity compliance if, at the time of inspection, the smoke opacity from a diesel vehicle is in compliance with the applicable smoke opacity limits;

(II) A certification of diesel smoke opacity waiver if, at the time of inspection, the smoke opacity from a diesel vehicle does not comply with the applicable smoke opacity limits but such vehicle is adjusted or repaired to specifications as provided by regulation of the commission;

(III) A temporary certification of diesel smoke opacity compliance for diesel vehicles required to be repaired, if such repairs are delayed due to the unavailability of needed parts. The results of the initial smoke opacity test and final test shall be given to the owner of the diesel vehicle and reported to the department of public health and environment.

(2) (a) The commission shall promulgate and from time to time revise regulations on inspection procedures and smoke opacity limits when such procedures and limits have been proven cost-effective and air pollution control-effective on the basis of best available scientific research.

(b) Smoke limits shall not require unreasonable levels of emissions performance for a properly operated and maintained diesel vehicle of a given model year and technology, and such smoke limits shall be no less than twenty percent for five seconds minimum.

(c) The commission may also develop peak smoke opacity limits, but such limits shall not be less than forty percent for less than one second.

(d) Notwithstanding any other provisions of this subsection (2), for inspections conducted between January 1, 1990, and December 31, 1990, the smoke opacity limits shall be forty percent for five seconds minimum, and no diesel vehicle shall fail the smoke opacity inspection for peak limits.

(3) (a) The commission shall annually evaluate the diesel inspection program to determine but not limit the number of diesel vehicles which fail to meet the applicable smoke opacity limits after adjustments and repairs.

(b) If the commission finds that a significant number of diesel vehicles do not meet the applicable smoke opacity limits after adjustments or repairs are made, the commission shall develop recommendations designed to improve the air pollution control-effectiveness of the diesel inspection program in a cost-effective manner and shall submit such recommendations to the general assembly.

(4) In addition to any other authority granted under this section, the commission shall adopt regulations requiring each licensed diesel emissions inspection station to post, at the station, in a clearly legible manner and in a conspicuous place, the fee which shall be charged for performing a diesel emission-opacity inspection.

(5) The commission may exempt diesel vehicles of any make, model, or model year from the provisions of the diesel inspection program when inspection would be inappropriate for such vehicles. The exemption may include diesel vehicles which are required to be registered and inspected January, 1990.

(6) (a) Notwithstanding any other provisions to the contrary, the commission shall not have authority to adopt emission standards or implement an inspection and maintenance program that would result in emission requirements or an in-use testing or compliance demonstration that would be more stringent than the emission standards and test procedures adopted by the United States environmental protection agency for the corresponding model year and class of vehicle or engine.

(b) The commission shall determine by accepted scientific analysis that any emission standards and in-use test procedures it may adopt shall be designed so that any engine or vehicle

which would pass the appropriate federal certification test shall also pass the inspection and maintenance test adopted by the commission for that engine or vehicle.

(2) The executive director shall instruct the department of revenue to issue a license as a diesel inspection station to one or more parties with either new or existing diesel emissions inspection facilities. Such instruction shall be based on, among other factors:

(a) Any requirements for licensure set by the commission by rule and regulation pursuant to section 42-4-403;

(b) The requirements set forth in section 42-4-407;

(c) The geographical coverage which would result for licensing the station.

(d) Repealed.

(3) (a) The executive director shall continuously evaluate the diesel emissions inspection program. Such evaluation shall be based on continuing research conducted by the department of public health and environment and other engineering data and shall include assessments of the cost-effectiveness and air pollution control effectiveness of the program.

(b) The executive director shall submit such evaluation and any recommendations for program changes to the general assembly by December 1 of each year, in order that the general assembly may annually review the diesel emissions inspection program.

(1) (a) [*Editor's note: This version of the introductory portion to subsection (1)(a) is effective until March 1, 2022.*] A person commits a class 2 petty offense, as specified in section 18-1.3-503, C.R.S., if the person causes or permits the emission into the atmosphere from:

(1) (a) [*Editor's note: This version of the introductory portion to subsection (1)(a) is effective March 1, 2022.*] A person commits a class A traffic infraction if the person causes or permits the emission into the atmosphere from:

(I) Any motor vehicle, including a motorcycle, powered by gasoline or any fuel except diesel of any visible air pollutant as defined in section 25-7-103 (1.5), C.R.S.;

(II) Any diesel-powered motor vehicle, of any visible air pollutant, as defined in section 25-7-103 (1.5), C.R.S., which creates an unreasonable nuisance or danger to the public health, safety, or welfare.

(b) Violations of this section may be determined by visual observations, including the snap acceleration opacity test, or by test procedures using opacity measurements.

(c) The provisions of paragraph (a) of this subsection (1) shall not apply to emissions caused by cold engine start-up.

(2) (a) The air quality control commission shall determine the minimum emission level of visible air pollutants from diesels which shall be considered to create an unreasonable nuisance or danger to the public health, safety, and welfare. Such minimum emission level shall be based on smoke levels attainable by correctly operated and maintained in-use diesel vehicles, considering altitude and other reasonable factors affecting visible smoke levels. In no case shall such level be less than twenty percent opacity when observed for five seconds or more. On interstate highways, opacity may be observed for ten seconds. Standards for transient conditions with no time limit shall also be established. Not later than December 1, 1979, the division shall develop a training course and qualification test designed to enable peace officers and environmental officers to ascertain violations of such standards without reference to opacity levels and to distinguish between air pollutants as defined in section 25-7-103 (1.5), C.R.S., and steam or water vapor.

(b) Subsequent offenses involving the same motor vehicle within one year of a conviction under the provisions of paragraph (a) of this subsection (4), upon conviction, shall be punishable by a fine of one hundred dollars.

(c) Any owner who receives a citation under the provisions of this section may continue to use the vehicle for which the offense is alleged, without restriction, until such owner's conviction.

(d) Any fines collected pursuant to the provisions of this subsection (4) shall be divided in equal amounts and transmitted to the treasurer of the local jurisdiction in whose name the penalty was assessed and to the state treasurer for credit to the general fund.

42-4-413. Visible emissions from diesel-powered motor vehicles unlawful - penalty.

(1) (a) Effective January 1, 1987, no owner or operator of a diesel-powered vehicle shall cause or knowingly permit the emission from the vehicle of any visible air contaminants that exceed the emission level as described in section 42-4-412 (2)(a) within the program area.

(b) As used in this section:

(I) "Air contaminant" means any fume, odor, smoke, particulate matter, vapor, gas, or combination thereof, except water vapor or steam condensate.

(II) "Emission" means a discharge or release of one or more air contaminants into the atmosphere.

(III) "Opacity" means the degree to which an air contaminant emission obscures the view of a trained observer, expressed in percentage of the obscuration or the percentage to which transmittance of light is reduced by an air contaminant emission.

(IV) "Trained observer" means a person who is certified by the department of public health and environment as trained in the determination of opacity.

(2) (a) A police officer or other peace officer who is a trained observer, or an environmental officer employed by a local government and certified by the department of public health and environment to determine opacity, at any time upon reasonable cause, may issue a summons personally to the operator of a motor vehicle emitting visible air contaminants in violation of paragraph (a) of subsection (1) of this section.

(b) (I) Any owner or operator of a diesel-powered motor vehicle receiving the summons issued pursuant to paragraph (a) of this subsection (2) or mailed pursuant to subparagraph (II) of paragraph (d) of this subsection (2) shall comply therewith and shall secure a certification of opacity compliance from a state emissions technical center that such vehicle conforms to the requirements of this section. Said certification shall be returned to the owner or operator for presentation in court as provided in paragraph (c) of this subsection (2).

(II) A fee of not more than six dollars and fifty cents shall be charged by emission technical centers for a certification of opacity compliance inspection and the certificate of no-smoke. Such fee shall be transmitted to the state treasurer, who shall credit the same to the AIR account established in section 42-4-311 (3)(b).

(c) (I) Any owner who violates any provision of this section is guilty of a misdemeanor traffic offense and, upon conviction thereof, except as provided in subparagraph (II) of this paragraph (c), shall be punished by a fine of one hundred dollars, payable within thirty days after conviction.

(II) If the owner submits to the court of competent jurisdiction within thirty days after the issuance of the summons proof that the owner has disposed of the vehicle for junk parts or immobilized the vehicle and if the owner also submits to the court within such time the

registration and license plates for the vehicle, the owner shall be punished by a fine of twenty-five dollars. If the owner wishes to relicense the vehicle in the future, the owner shall obtain the certification required in paragraph (b) of this subsection (2).

(d) (I) Any nonowner operator who violates any provision of this section is guilty of a misdemeanor traffic offense and, upon conviction thereof, except as provided in subparagraph (II) of this paragraph (d), shall be punished by a fine of one hundred dollars, payable within thirty days after conviction.

(II) If the operator submits to the court of competent jurisdiction within thirty days after the issuance of the summons proof that the operator was not the owner of the vehicle at the time the summons was issued and that the operator mailed, within five days after issuance thereof, a copy of the notice and summons by certified mail to the owner of the vehicle at the address on the registration, the operator shall be punished by a fine of twenty-five dollars.

(e) Upon a showing of good cause that compliance with this section cannot be made within thirty days after issuance of the notice and summons, the court of competent jurisdiction may extend the period of time for compliance as may appear justified.

(f) The owner or operator, in lieu of appearance, may submit to the court of competent jurisdiction, within thirty days after the issuance of the notice and summons, the certification or proof of mailing specified in this subsection (2) together with the fine of twenty-five dollars.

(3) Any fine collected pursuant to the provisions of this section shall be transmitted to the treasurer of the local jurisdiction in which the violation occurred.

42-4-414. Heavy-duty diesel fleet inspection and maintenance program - penalty - rules. (1) The commission shall develop and implement, effective January 1, 1987, a fleet inspection and maintenance program for diesel-powered motor vehicles of more than fourteen thousand pounds gross vehicle weight rating. Regional transportation district buses, state, county, and municipal vehicles, and private diesel fleets shall participate in the program through self-certification inspection procedures as developed by the commission.

(2) (a) The commission shall promulgate rules that:

(I) Require owners of diesel-powered motor vehicles, registered in the program area, routinely operated in the program area, or principally operated from a terminal, maintenance facility, branch, or division located within the program area, and subject to the provisions of this section, to bring the vehicles into compliance with existing opacity standards set forth in section 42-4-412;

(II) Are strictly construed;

(III) Except as provided in paragraph (b.5) of this subsection (2), do not require more than normal and reasonable maintenance practices; and

(IV) Do not require additional fees or loaded mode testing equipment.

(b) Fleet owners shall test opacity standards on a periodic basis. Fleet owners shall use an opacity meter to test vehicles that are greater than ten model years old, but may use an automated opacity metering protocol to test vehicles that are less than or equal to ten model years old.

(b.5) As an alternative to automated or visual opacity testing, the commission may promulgate rules that establish an alternative method for operators of heavy-duty diesel vehicles to demonstrate compliance with opacity standards by following and submitting proof of exemplary maintenance practices. Any commission rules promulgated under this paragraph (b.5) must contain eligibility requirements for enrollment of heavy-duty diesel vehicles in the alternative method, including when vehicles or fleets should be discontinued from enrollment.

(c) (I) Except as provided in subparagraph (II) of this paragraph (c), the commission shall exempt a new diesel vehicle enrolled in the fleet inspection and maintenance program from testing until the vehicle has reached its fourth model year or, if ownership of the vehicle is transferred after the vehicle has reached its third model year, until the date of the transfer of ownership.

(II) If a new diesel vehicle has a gross vehicle weight rating of at least twenty-six thousand pounds and is of a model year of 2014 or newer, the commission shall exempt the vehicle from testing until the vehicle has reached its sixth model year or, if ownership of the vehicle is transferred after the vehicle has reached its fifth model year, until the date of the transfer of ownership.

(d) The commission shall promulgate rules providing for the testing of diesel vehicles every:

(I) Twelve months unless subparagraph (II) of this paragraph (d) applies; or

(II) Twenty-four months if the vehicle is equal to or less than ten model years old.

(2.5) An owner of a fleet registered in the program area may certify to the executive director or the executive director's designee, in a form and manner required by the executive director, that a diesel vehicle registered in the program area is physically based and principally operated from a terminal, division, or maintenance facility outside the program area. Any diesel vehicle registered in the program area, but certified to be physically based and principally operated from a terminal, division, or maintenance facility outside the program area, is exempt from this section. The commission shall promulgate rules to administer this subsection (2.5).

(3) (a) and (b) (Deleted by amendment, L. 2003, p. 1023, § 1, effective August 6, 2003.)

(c) On or after January 1, 1990, in addition to any other penalty set forth in this subsection (3), any owner who is subject to the provisions of this section and who commits an excessive violation of this section twice in a twelve-month period shall be subject to the provisions of this part 4. For purposes of this paragraph (c), "excessive violation" shall be that definition recommended by the governor's blue ribbon diesel task force in 1988 and thereafter adopted by the air quality control commission, or, if such task force does not make a recommendation, "excessive violation" shall be that definition adopted by the air quality control commission.

(4) As used in this section, "fleet" means nine or more diesel-powered motor vehicles.

42-4-505. Longer vehicle combinations - rules. (1) (a) Notwithstanding any other provision of this article to the contrary, the department of transportation, in the exercise of its discretion, may issue permits for the use of longer vehicle combinations. An annual permit for such use may be issued to each qualified carrier company. The carrier company shall maintain a copy of such annual permit in each vehicle operating as a longer vehicle combination; except that, if a peace officer, as described in section 16-2.5-101, C.R.S., or an authorized agent of the department of transportation may determine that the permit can be electronically verified at the time of contact, a copy of the permit need not be in each vehicle. The fee for the permit shall be two hundred fifty dollars per year.

(b) Notwithstanding the amount specified for the fee in paragraph (a) of this subsection (1), the executive director of the department by rule or as otherwise provided by law may reduce the amount of the fee if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of the fee is credited. After the uncommitted reserves of the fund are sufficiently reduced, the executive director of the department by rule or as otherwise provided by law may increase the amount of the fee as provided in section 24-75-402 (4), C.R.S.

(c) The department shall provide the option to a company filing for a permit under this section to file an express consent waiver that enables the company to designate a company representative to be a party of interest for a violation of this section. The appearance of the company representative in a court hearing without the operator when the operator has signed such waiver shall not be deemed the practice of law in violation of article 93 of title 13.

(2) The permits shall allow operation, over designated highways, of the following vehicle combinations of not more than three cargo units and neither fewer than six axles nor more than nine axles:

(a) An unladen truck tractor, a semitrailer, and two trailers. A semitrailer used with a converter dolly shall be considered a trailer. Semitrailers and trailers shall be of approximately equal lengths not to exceed twenty-eight feet six inches in length.

(b) An unladen truck tractor, a semitrailer, and a single trailer. A semitrailer used with a converter dolly shall be considered a trailer. Semitrailers and trailers shall be of approximately equal lengths not to exceed forty-eight feet in length. Notwithstanding any other restriction set forth in this section, such combination may have up to eleven axles when used to transport empty trailers.

(c) An unladen truck tractor, a semitrailer, and a single trailer, one trailer of which is not more than forty-eight feet long, the other trailer of which is not more than twenty-eight feet six inches long. A semitrailer used with a converter dolly shall be considered a trailer. The shorter trailer shall be operated as the rear trailer.

(d) A truck and single trailer, having an overall length of not more than eighty-five feet, the truck of which is not more than thirty-five feet long and the trailer of which is not more than forty feet long. For the purposes of this paragraph (d), a semitrailer used with a converter dolly shall be considered a trailer.

(3) (a) The long combinations are limited to interstate highway 25, interstate highway 76, interstate highway 70 west of its intersection with state highway 13 in Garfield county, interstate highway 70 east of its intersection with U.S. 40 and state highway 26, the circumferential highways designated I-225 and I-270, and state highway 133 in Delta county from mile marker 8.9 to mile marker 9.7. The department of transportation shall promulgate rules to provide carriers with reasonable ingress to and egress from such designated highway segments.

(b) Upon action by the congress of the United States to lift the freeze imposed by the federal "Intermodal Surface Transportation Efficiency Act of 1991", Pub.L. 102-240, as amended, concerning the use of longer vehicle combinations, either by the total freeze being lifted by congress or by the approval of pilot projects to expand the use of longer vehicle combinations by the states, the department of transportation shall undertake a process to evaluate both interstate and state highways for possible authorization by the department of additional highway segments for inclusion by the general assembly in paragraph (a) of this subsection (3). During the review process, the department shall solicit input from all relevant stakeholders and shall work within existing statutory and regulatory guidelines. The department shall commence the review process within ninety days after action by congress that would allow expansion of the longer vehicle combination route network in Colorado.

(4) The department of transportation shall promulgate rules and regulations governing the issuance of the permits, including, but not limited to, selection of carriers, driver qualifications, equipment selection, hours of operation, and safety considerations; except that they shall not include hazardous materials subject to regulation by the provisions of article 20 of this title.

(5) Any person who violates any provision of this section commits a class B traffic infraction.

(2) When one vehicle is towing another and the connection consists of a chain, rope, or cable, there shall be displayed upon such connection a white flag or cloth not less than twelve inches square.

(3) Whenever one vehicle is towing another, in addition to the drawbar or other connection, except a fifth wheel connection meeting the requirements of the department of transportation, safety chains or cables arranged in such a way that it will be impossible for the vehicle being towed to break loose from the vehicle towing in the event the drawbar or other connection were to be broken, loosened, or otherwise damaged shall be used. (a) When the wheel is equipped with a solid rubber or cushion tire, eight thousand pounds;

(b) When the wheel is equipped with a pneumatic tire, nine thousand pounds.

(2) The gross weight upon any single axle or tandem axle of a vehicle shall not exceed the following:

(b) Except as provided in paragraph (b.5) of this subsection (2), when the wheels attached to a single axle are equipped with pneumatic tires, twenty thousand pounds;

(b.5) When the wheels attached to a single axle are equipped with pneumatic tires and the vehicle or vehicle combination is a digger derrick or bucket boom truck operated by an electric utility on a highway that is not on the interstate system as defined in section 43-2-101 (2), C.R.S., twenty-one thousand pounds;

(c) When the wheels attached to a tandem axle are equipped with pneumatic tires, thirty-six thousand pounds for highways on the interstate system and forty thousand pounds for highways not on the interstate system.

(3) (a) Vehicles equipped with a self-compactor and used solely for the transporting of trash are exempted from the provisions of paragraph (b) of subsection (2) of this section.

(b) After January 1, 1987, the provisions of this subsection (3) shall be reviewed at a joint meeting of the senate transportation committee and the house transportation and energy committee in order to determine the effects of such provisions.

(c) A vehicle contracted by or owned and operated by a city, county, municipal utility, or special district is exempt from paragraph (c) of subsection (2) of this section if the vehicle:

(I) Is equipped with a vacuum or jet equipment to load or unload solid, semisolid, or liquid waste for water or wastewater treatment or transportation systems or for the removal of storm water; and

(II) Is not operated on the interstate system as defined by section 43-2-101, C.R.S.

(4) For the purposes of this section:

(a) A single axle is defined as all wheels, whose centers may be included within two parallel transverse vertical planes not more than forty inches apart, extending across the full width of the vehicle.

42-4-508. Gross weight of vehicles and loads - definition. (1) (a) Except as provided in subsection (1.5) of this section, a person shall not move or operate a vehicle or combination of vehicles on any highway or bridge when the gross weight upon any one axle of a vehicle exceeds the limits prescribed in section 42-4-507.

(b) Subject to the limitations prescribed in section 42-4-507, the maximum gross weight of any vehicle or combination of vehicles shall not exceed that determined by the formula $W = 1,000 (L + 40)$, where W represents the gross weight in pounds and L represents the length in feet between the centers of the first and last axles of such vehicle or combination of vehicles; except that, in computation of this formula, the gross vehicle weight must not exceed eighty-five thousand pounds. For the purposes of this section, where a combination of vehicles is used, a vehicle must not carry a gross weight of less than ten percent of the overall gross weight of the combination of vehicles; except that these limitations shall not apply to specialized trailers of fixed public utilities whose axles may carry less than ten percent of the weight of the combination. The limitations provided in this section must be strictly construed and enforced.

(c) Notwithstanding any other provisions of this section, except as may be authorized under section 42-4-510, a person shall not move or operate a vehicle or combination of vehicles on any highway or bridge that is part of the national system of interstate and defense highways, also known as the interstate system, when the gross weight of such vehicle or combination of vehicles exceeds the amount determined by the formula $W = 500 [(LN/N-1) + 12N + 36]$, up to a maximum of eighty thousand pounds, where W represents the overall gross weight on any group of two or more consecutive axles to the nearest five hundred pounds, L represents the distance in feet between the extreme of any group of two or more consecutive axles, and N represents the number of axles in the group.

(d) For the purposes of this subsection (1), where a combination of vehicles is used, a vehicle must not carry a gross weight of less than ten percent of the overall gross weight of the combination of vehicles; except that this limitation does not apply to specialized trailers whose specific use is to haul poles and whose axles may carry less than ten percent of the weight of the combination.

(1.5) The gross weight limits provided in subsection (1) of this section increase, but by no more than two thousand pounds, for any vehicle or combination of vehicles if the vehicle or combination of vehicles contains an alternative fuel system and operates on alternative fuel or both alternative and conventional fuel. For the purposes of this subsection (1.5), "alternative fuel" has the same meaning provided in section 24-30-1104 (2)(c)(III)(A).

(2) The department upon registering any vehicle under the laws of this state, which vehicle is designed and used primarily for the transportation of property or for the transportation of ten or more persons, may acquire such information and may make such investigation or tests as necessary to enable it to determine whether such vehicle may safely be operated upon the highways in compliance with all the provisions of this article. The department shall not register any such vehicle for a permissible gross weight exceeding the limitations set forth in sections 42-4-501 to 42-4-512 and 42-4-1407. Every such vehicle shall meet the following requirements:

(a) It shall be equipped with brakes as required in section 42-4-223;

(b) Every motor vehicle to be operated outside of business and residence districts shall have motive power adequate to propel at a reasonable speed such vehicle and any load thereon or to be drawn thereby.

(3) If the federal highway administration or the United States congress prescribes or adopts vehicle size or weight limits greater than those now prescribed by the "Federal-Aid Highway Act of 1956", which limits exceed in full or in part the provisions of section 42-4-504 or paragraph (b) or (c) of subsection (1) of this section, the transportation commission, upon determining that Colorado highways have been constructed to standards which will

accommodate such additional size or weight and that the adoption of said size and weight limitations will not jeopardize any distribution of federal highway funds to the state, may adopt size and weight limits comparable to those prescribed or adopted by the federal highway administration or the United States congress and may authorize said limits to be used by owners or operators of vehicles while said vehicles are using highways within this state; but no vehicle size or weight limit so adopted by the commission shall be less in any respect than those now provided for in section 42-4-504 or paragraph (b) or (c) of subsection (1) of this section.

(4) Any person who drives a vehicle or owns a vehicle in violation of any provision of this section commits a class 2 misdemeanor traffic offense.

(2) Amendments to subsection (1)(c)(III)(B) by House Bill 94-1012 were harmonized with Senate Bill 94-001.

(3) Subsection (1)(b) was amended by Senate Bill 09-108 and was further amended by House Bill 09-1318. The amendments made by House Bill 09-1318 reversed the changes made by Senate Bill 09-108 and returned subsection (1)(b) to its original form. Both bills had an effective date of January 1, 2010, therefore, no changes are being shown in subsection (1)(b).

42-4-509. Vehicles weighed - excess removed. (1) Any police or peace officer, as described in section 16-2.5-101, C.R.S., having reason to believe that the weight of a vehicle and load is unlawful is authorized to require the driver to stop and submit to a weighing of the same by means of either portable or stationary scales or shall require that such vehicle be driven to the nearest public scales in the event such scales are within five miles.

(2) (a) Except as provided in paragraph (b) of this subsection (2), whenever an officer upon weighing a vehicle and load as provided in subsection (1) of this section determines that the weight is unlawful, such officer shall require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of such vehicle to such limit as permitted under sections 42-4-501 to 42-4-512 and 42-4-1407. All material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator.

(b) Whenever an officer upon weighing a vehicle and load as provided in subsection (1) of this section determines that the weight is unlawful and the load consists solely of either

explosives or hazardous materials as defined in section 42-1-102 (32), such officer shall permit the driver of such vehicle to proceed to the driver's destination without requiring the driver to unload the excess portion of such load.

(3) Any driver of a vehicle who fails or refuses to stop and submit the vehicle and load to a weighing or who fails or refuses when directed by an officer upon a weighing of the vehicle to stop the vehicle and otherwise comply with the provisions of this section commits a class 2 misdemeanor traffic offense.

42-4-510. Permits for excess size and weight and for manufactured homes - rules - definitions. (1) (a) The department of transportation, the Colorado state patrol with respect to highways under its jurisdiction, or any local authority with respect to highways under its jurisdiction may, upon application in writing and good cause being shown therefor, issue a single trip, a special, or an annual permit in writing authorizing the applicant to operate or move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in this article or otherwise not in conformity with the provisions of this article upon any highway under the jurisdiction of the party granting such permit and for the maintenance of which said party is responsible; except that permits for the movement of any manufactured home shall be issued as provided in subsection (2) of this section.

(b) (I) The application for any permit shall specifically describe the vehicle and load to be operated or moved and the particular highways for which the permit to operate is requested, and whether such permit is for a single trip, a special, or an annual operation, and the time of such movement. All state permits shall be issued in the discretion of the department of transportation, subject to rules adopted by the transportation commission in accordance with this section and section 42-4-511. All local permits shall be issued in the discretion of the local authority pursuant to ordinances or resolutions adopted in accordance with section 42-4-511. Any ordinances or resolutions of local authorities shall not conflict with this section.

(II) An overweight permit issued pursuant to this section shall be available for overweight divisible loads if:

(A) The vehicle has a quad axle grouping and the maximum gross weight of the vehicle does not exceed one hundred ten thousand pounds; or

(B) The vehicle is operated in combination with a trailer or semitrailer, the trailer has two or three axles, and the maximum gross weight of the vehicle does not exceed ninety-seven thousand pounds; and

(C) The owner and operator of the motor vehicle are in compliance with the federal "Motor Carrier Safety Improvement Act of 1999", Pub.L. 106-159, as amended, as applicable to commercial vehicles; and

(D) The vehicle complies with rules promulgated by the department of transportation concerning the distribution of the load upon the vehicle's axles.

(III) A permit issued pursuant to this paragraph (b) shall not authorize the operation or movement of a motor vehicle on the interstate highway in violation of federal law.

(c) (I) A single trip or annual permit shall be issued pursuant to this section for a self-propelled fixed load crane that exceeds legal weight limits if it does not exceed the weight limits authorized by the department of transportation. A boom trailer or boom dolly shall not be permitted unless the boom trailer or boom dolly is attached to the crane in a manner and for the purpose of distributing load to meet the weight requirements established by the department. A self-propelled fixed load crane may be permitted with counterweights when a boom trailer or boom dolly is used if the counterweights do not exceed the manufacturer's rated capacity of the self-propelled fixed load crane and do not cause the vehicle to exceed permitted axle or gross weight limits. A permit issued pursuant to this paragraph (c) shall not authorize movement on interstate highways if not approved by federal law.

(II) For the purposes of this paragraph (c), "self-propelled fixed load crane" means a self-powered mobile crane designed with equipment or parts permanently attached to the body of the crane. A self-propelled fixed load crane includes, without limitation, the crane's shackles and slings.

(1.5) (a) The department of transportation may, upon application in writing or electronically made and good cause being shown therefor, issue an annual fleet permit authorizing the applicant to operate or move any two or more vehicles owned by the applicant of a size or weight of vehicle or load exceeding the maximum specified in this article or otherwise not in conformity with the provisions of this article upon any highway.

(b) The application for any annual fleet permit shall specifically describe the vehicles, loads, and estimated number of loads to be operated or moved and the particular highways for which the permit to operate is requested, as defined by rules of the department of transportation. Permits issued pursuant to this subsection (1.5) shall not authorize the operation of vehicles that exceed the maximum dimensions allowed for vehicles operating under annual permits issued pursuant to the rules of the department pertaining to transport permits for the movement of extra-legal vehicles or loads.

(c) The department shall provide the option to a company filing for a permit under this subsection (1.5) to file an express consent waiver that enables the company to designate a company representative to be a party of interest for a violation of this section. The appearance of the company representative in a court hearing without the operator when the operator has signed such waiver shall not be deemed the practice of law in violation of article 93 of title 13.

(1.7) (a) The department of transportation may issue super-load permits for:

(I) A combination vehicle with a weight of five hundred thousand pounds or more that occupies two lanes to haul the load; or

(II) An unladen combination vehicle with an expandable dual-lane transport trailer that occupies two lanes.

(b) (I) The department of transportation may place restrictions on the use of a permit. A person shall obey the restrictions contained in a permit.

(II) (A) The department of transportation may refuse to issue a permit to a person who has been held by an administrative law judge to have disobeyed permit restrictions or to have violated this section or rules promulgated under this section in a hearing held in accordance with article 4 of title 24, C.R.S.

(B) The department shall create a system that tracks the compliance of permit holders and use the system to determine if a permit holder has a pattern of noncompliance. The department shall promulgate rules establishing standards to deny permits to persons who show a pattern of noncompliance, which standards include the length of time a permit is denied based upon the number and type of noncomplying events.

(III) The department of transportation shall include in a super-load permit a speed restriction, not to exceed twenty-five miles per hour on the highway and ten miles per hour on structures; except that the department of transportation may modify the speed restriction when necessary for safety or to prevent structural damage.

(c) When filing an application, an applicant for a super-load permit shall provide the department of transportation with documentation, acceptable to the department of transportation, from a third party establishing the gross weight of the load. The driver shall carry the documentation in the vehicle during the permitted move and produce, upon request, the documentation for any state agency or law enforcement personnel.

(d) The department of transportation may refuse to issue a super-load permit under this section for an unladen combination vehicle unless the applicant breaks the load down to the smallest dimensions possible. The department of transportation may refuse to issue a super-load permit under this section for an unladen vehicle unless the applicant renders the dual lane trailer into legal loads.

(e) The department of transportation, Colorado state patrol, or port of entry shall inspect the load of a super-load permit holder, at the permit holder's expense, at the nearest point where the shipment enters the state, at a location specified by the department of transportation, or at the load's point of origin to ensure compliance with the permit requirements and safety statutes and rules, including:

- (I) Height, width, and length;
- (II) Number of axles;
- (III) Date of move;
- (IV) Correct route;
- (V) Documentation of load weight;
- (VI) Use of signs and pilot cars; and
- (VII) Weight, if the vehicle can be weighed within two hours.

(f) The department of transportation shall notify the port of entry of the permit's issuance and the location and date of the move.

(g) Repealed.

(2) (a) An authentication of paid ad valorem taxes, after notification of such movement to the county treasurer, may serve as a permit for movement of manufactured homes on public streets or highways under the county's jurisdiction. An authentication of paid ad valorem taxes from the county treasurer of the county from which the manufactured home is to be moved, after notification of such movement has been provided to the county assessor of the county to which the manufactured home is to be moved, pursuant to section 39-5-205, C.R.S., may also serve as a permit for the movement of manufactured homes from one adjoining county to an adjoining county on streets and highways under local jurisdiction. The treasurer shall issue along with the authentication of paid ad valorem taxes a transportable manufactured home permit. The treasurer may establish and collect a fee, which shall not exceed ten dollars, for issuing the authentication of paid ad valorem taxes and the transportable manufactured home permit. Such transportable

manufactured home permit shall be printed on an eleven inch by six inch fluorescent orange card and shall contain the following information: The name and address of the owner of the mobile home; the name and address of the mover; the transport number of the mover, a description of the mobile home including the make, year, and identification or serial number; the county authentication number; and an expiration date. The expiration date shall be set by the treasurer, but in no event shall the expiration date be more than thirty days after the date of issue of the permit. Such transportable manufactured home permit shall be valid for a single trip only. The transportable manufactured home permit shall be prominently displayed on the rear of the mobile home during transit of the mobile home. Peace officers and local tax and assessment officials may request, and upon demand shall be shown, all moving permits, tax receipts, or certificates required by this subsection (2). Nothing in this section shall require a permit from a county treasurer for the movement of a new manufactured home. For the purposes of this section, a new manufactured home is one in transit under invoice or manufacturer's statement of origin which has not been previously occupied for residential purposes.

(b) All applications for permits to move manufactured homes over state highways shall comply with the following special provisions:

(I) Each such application shall be for a single trip, a special permit, an annual permit, or, subject to the requirements of paragraph (a) of subsection (1.5) of this section, an annual fleet permit. The application shall be accompanied by a certificate or other proof of public liability insurance in amounts of not less than one hundred thousand dollars per person and three hundred thousand dollars per accident for all manufactured homes moved within this state by the permit holder during the effective term of the permit. Each application for a single trip permit shall be accompanied by an authentication of paid ad valorem taxes on the used manufactured home.

(II) Holders of permits shall keep and maintain, for not less than three calendar years, records of all manufactured homes moved in whole or in part within this state, which records shall include the plate number of the towing vehicle; the year, make, serial number, and size of the unit moved, together with date of the move; the place of pickup; and the exact address of the final destination and the county of final destination and the name and address of the landowner of the final destination. These records shall be available upon request within this state for inspection by the state of Colorado or any of its ad valorem taxing governmental subdivisions.

(III) Holders of permits shall obtain an authentication of paid ad valorem taxes through the date of the move from the owner of a used manufactured home or from the county treasurer of the county from which the used manufactured home is being moved. Permit holders shall notify the county treasurer of the county from which the manufactured home is being moved of the new exact address of the final destination and the county of final destination of the manufactured home and the name and address of the landowner of the final destination, and, if within the state, the county treasurer shall forward copies of the used manufactured home tax certificate to the county assessor of the destination county. County treasurers may compute ad valorem manufactured home taxes due based upon the next preceding year's assessment prorated through the date of the move and accept payment of such as payment in full.

(IV) No owner of a manufactured home shall move the manufactured home or provide for the movement of the manufactured home without being the holder of a paid ad valorem tax certificate and a transportable manufactured home permit thereon, and no person shall assist such an owner in the movement of such owner's manufactured home, including a manufactured home dealer. Except as otherwise provided in this paragraph (b), a permit holder who moves any

manufactured home within this state shall be liable for all unpaid ad valorem taxes thereon through the date of such move if movement is made prior to payment of the ad valorem taxes due on the manufactured home moved.

(V) In the event of an imminent natural or man-made disaster or emergency, including, but not limited to, rising waters, flood, or fire, the owner, owner's representative or agent, occupant, or tenant of a manufactured home or the mobile home park owner or manager, lienholder, or manufactured home dealer is specifically exempted from the need to obtain a permit pursuant to this section and may move the endangered manufactured home out of the danger area to a temporary or new permanent location and may move such manufactured home back to its original location without a permit or penalty or fee requirement. Upon any such move to a temporary location as a result of a disaster or emergency, the person making the move or such person's agent or representative shall notify the county assessor in the county to which the manufactured home has been moved, within twenty days after such move, of the date and circumstances pertaining to the move and the temporary or permanent new location of the manufactured home. If the manufactured home is moved to a new permanent location from a temporary location as a result of a disaster or emergency, a permit for such move shall be issued but no fee shall be assessed.

(3) The department of transportation, the Colorado state patrol, or any local authority is authorized to issue or withhold a permit, as provided in this section, and, if such permit is issued, to limit the number of trips, or to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or otherwise to limit or prescribe conditions of operation of such vehicles, when necessary to protect the safety of highway users, to protect the efficient movement of traffic from unreasonable interference, or to protect the highways from undue damage to the road foundations, surfaces, or structures and may require such undertaking or other security as may be deemed necessary to compensate for any injury to any highway or highway structure.

(4) The original or a copy of every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer or authorized agent of any authority granting such permit; except that, if a peace officer, as described in section 16-2.5-101, C.R.S., or an authorized agent of the authority that granted a permit may determine that the permit can be electronically verified at the time of contact, a copy of the permit need not be carried in the vehicle or combination of vehicles to which it refers. No person shall violate any of the terms or conditions of such permit.

(5) The department of transportation or the Colorado state patrol shall, unless such action will jeopardize distribution of federal highway funds to the state, authorize the operation or movement of a vehicle or combination of vehicles on the interstate highway system of Colorado at a maximum weight of eighty-five thousand pounds.

(6) No vehicle having a permit under this section shall be remodeled, rebuilt, altered, or changed except in such a way as to conform to those specifications and limitations established in sections 42-4-501 to 42-4-507 and 42-4-1407.

(7) Any person who has obtained a valid permit for the movement of any oversize vehicle or load may attach to such vehicle or load or to any vehicle accompanying the same not more than three illuminated flashing yellow signals as warning devices.

(8) (a) The department of transportation shall have a procedure to allow those persons who are transporting loads from another state into Colorado and who would require a permit

under the provisions of this section to make advance arrangements by telephone or other means of communication for the issuance of a permit if the load otherwise complies with the requirements of this section.

(b) The Colorado state patrol shall have available for issuance at each fixed port of entry weigh station permits for extralegal vehicles or loads; except that special permits for extralegal vehicles or loads that are considered extraordinary in dimensions or weight, or both, and that require additional safety precautions while in transit shall be issued only by the department of transportation. A port of entry may issue such special permits if authorized to do so by the department of transportation and under such rules as the department of transportation may establish, and may deliver from a fixed port of entry weigh station any permit issued by the department of transportation.

(2) (a) Any permits which may be required by local authorities shall be issued in accordance with ordinances and resolutions adopted by the respective local authorities after a public hearing at which testimony is received from affected motor vehicle owners and operators. Notice of such public hearing shall be published in a newspaper having general circulation within the local authority's jurisdiction. The publication shall not be placed in that portion of the newspaper in which legal notices or classified advertisements appear. 42-4-511.2. Authority for cooperative agreements with regional states on excess size or weight vehicles - regulations. (1) **Purpose.** The purpose of this section is to authorize the negotiation and execution of agreements in cooperation with other states to:

(a) Establish a regional permit system to allow nondivisible oversize or overweight vehicles to operate between and among two or more states under one single trip permit, instead of requiring such vehicles to stop and obtain a separate permit before entering each state;

(b) Promote uniformity concerning administrative and enforcement procedures for applicable vehicle size and weight standards to facilitate regional movement of such vehicles, to eliminate unnecessary bureaucratic barriers, and to improve the highway operating environment and vehicle safety under the applicable laws of the respective states; and

(c) Encourage and utilize research that will facilitate the achievement of the purposes described in this subsection (1).

(2) **Authority.** (a) In addition to any other powers granted by law, the executive director of the department of transportation, or the executive director's designee, is hereby authorized to negotiate and enter into appropriate agreements with other states concerning the regional operation or movement of nondivisible oversize or overweight vehicles and to facilitate the uniform application, administration, and enforcement of applicable laws concerning such vehicles.

(b) A cooperative agreement under this section may include, but shall not be limited to, the establishment of a regional permit system authorizing the operation or movement of nondivisible oversize or overweight vehicles from one state in the region to or through another state or states in the region under a single trip permit in accordance with the applicable requirements of each of the states.

(c) For the purposes of a regional permit agreement, the department of transportation is authorized to:

(I) Delegate to other states its authority under section 42-4-510 (1) to issue permits for nondivisible oversize or overweight vehicles to operate on Colorado state highways; except that any such issuance by another state shall conform, at a minimum, to the applicable Colorado permit standards and legal requirements as described in this part 5 and to the regulations implementing this part 5. The department of transportation may also impose additional standards concerning such regional permits as it deems appropriate.

(II) Accept a delegation of authority from other states to issue permits for the operation of vehicles on the highways of such states in accordance with the applicable standards and requirements of such states, pursuant to the terms of the regional permit agreement; and

(III) Collect any fees, taxes, and penalties on behalf of other states that are parties to the regional permit agreement and to remit such fees, taxes, and penalties to such states. Such fees, taxes, and penalties shall not be considered taxes or funds of the state of Colorado for any purpose.

(d) For the purposes of a regional permit agreement, the Colorado state patrol, ports of entry, and local law enforcement authorities are authorized to enforce the terms of any regional permit concerning the operation of the permitted vehicle on state highways in Colorado. The Colorado state patrol, ports of entry, and local law enforcement authorities are also permitted to take necessary actions in Colorado to enforce the applicable requirements of the permitting state or states which shall include, but shall not be limited to, monitoring licenses and other credential usage; enforcing tax restraint, distraint, or levy orders; issuing civil citations; and conducting necessary safety and equipment inspections.

(e) The executive director of the department of transportation, or the executive director's designee, is hereby authorized to appoint employees and officials of other states as agents of the department for the limited purpose of enforcing the laws of Colorado under the terms of the cooperative agreements entered into under the provisions of this section. The executive director or the designee may promulgate such regulations as are necessary for the implementation of the provisions of this section.

(f) Any agreement entered into under the provisions of this section shall contain provisions that express the understanding that any employees and officials of any other state who enforce the laws of Colorado under the terms of such agreement, or who otherwise act under the terms of such agreement, shall not be eligible for compensation, employee rights, or benefits from the state of Colorado and shall not be considered to be employees or officials of the state of Colorado.

(g) A cooperative agreement under this section may also provide for uniformity concerning enforcement procedures, safety inspection standards, operational standards, permit and application form procedures, driver qualifications, and such other matters that may be pertinent to said matters.

(h) Notwithstanding any provision of this section to the contrary, all existing statutes and rules and regulations prescribing size or weight vehicle requirements, or relating to permits for such vehicles, shall continue to be in full force and effect until amended or repealed by law, and any cooperative agreement must comply with such statutes and rules and regulations. The transportation commission shall ratify any cooperative agreement entered into under the provisions of this section.

42-4-512. Liability for damage to highway. (1) No person shall drive, operate, or move upon or over any highway or highway structure any vehicle, object, or contrivance in such a manner so as to cause damage to said highway or highway structure. When the damage sustained to said highway or highway structure is the result of the operating, driving, or moving of such vehicle, object, or contrivance weighing in excess of the maximum weight authorized by sections 42-4-501 to 42-4-512 and 42-4-1407, it shall be no defense to any action, either civil or

criminal, brought against such person that the weight of the vehicle was authorized by special permit issued in accordance with sections 42-4-501 to 42-4-512 and 42-4-1407.

(2) Every person violating the provisions of subsection (1) of this section shall be liable for all damage which said highway or highway structure may sustain as a result thereof. Whenever the driver of such vehicle, object, or contrivance is not the owner thereof but is operating, driving, or moving such vehicle, object, or contrivance with the express or implied consent of the owner thereof, then said owner or driver shall be jointly and severally liable for any such damage. The liability for damage sustained by any such highway or highway structure may be enforced by a civil action by the authorities in control of such highway or highway structure. No satisfaction of such civil liability, however, shall be deemed to be a release or satisfaction of any criminal liability for violation of the provisions of subsection (1) of this section.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

(2) Where practical no local authority shall maintain three traffic control signals located on a roadway so as to be within one minute's driving time (to be determined by the speed limit) from any one of the signals to the other without synchronizing the lights to enhance the flow of traffic and thereby reduce air pollution.

(2) No provision of this article for which official traffic control devices are required shall be enforced against an alleged violator if at the time and place of the alleged violation an official device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. (3) Whenever official traffic control devices are placed in position approximately conforming to the requirements of this article, such devices shall be presumed to have been so placed by the official act or direction of lawful authority unless the contrary is established by competent evidence.

(4) Any official traffic control device placed pursuant to the provisions of this article and purporting to conform to the lawful requirements pertaining to such devices shall be presumed to comply with the requirements of this article unless the contrary is established by competent evidence.

42-4-604. Traffic control signal legend. (1) If traffic is controlled by traffic control signals exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination as declared in the traffic control manual adopted by the department of transportation, only the colors green, yellow, and red shall be used, except for special pedestrian-control signals carrying a word or symbol legend as provided in section 42-4-802, and said

lights, arrows, and combinations thereof shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green indication:

(I) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn; but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection and to pedestrians lawfully within an adjacent crosswalk at the time such signal is exhibited.

(II) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(III) Unless otherwise directed by a pedestrian-control signal as provided in section 42-4-802, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady yellow indication:

(I) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter.

(II) Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian-control signal as provided in section 42-4-802, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown, and no pedestrian shall then start to cross the roadway.

(c) Steady red indication:

(I) Vehicular traffic facing a steady circular red signal alone shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to proceed is shown; except that:

(A) Such vehicular traffic, after coming to a stop and yielding the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection, may make a right turn, unless state or local road authorities within their respective jurisdictions have by ordinance or resolution prohibited any such right turn and have erected an official sign at each intersection where such right turn is prohibited.

(B) Such vehicular traffic, when proceeding on a one-way street and after coming to a stop, may make a left turn onto a one-way street upon which traffic is moving to the left of the driver. Such turn shall be made only after yielding the right-of-way to pedestrians and other traffic proceeding as directed. No turn shall be made pursuant to this sub-subparagraph (B) if local authorities have by ordinance prohibited any such left turn and erected a sign giving notice of any such prohibition at each intersection where such left turn is prohibited.

(C) To promote uniformity in traffic regulation throughout the state and to protect the public peace, health, and safety, the general assembly declares that no local authority shall have any discretion other than is expressly provided in this subparagraph (I).

(II) Pedestrians facing a steady circular red signal alone shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 42-4-802.

(III) Vehicular traffic facing a steady red arrow signal may not enter the intersection to make the movement indicated by such arrow and, unless entering the intersection to make such other movement as is permitted by other indications shown at the same time, shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until an indication to make the movement indicated by such arrow is shown.

(IV) Pedestrians facing a steady red arrow signal shall not enter the roadway, unless otherwise directed by a pedestrian-control signal as provided in section 42-4-802.

(d) Nonintersection signal: In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or pavement marking indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

(e) Lane-use-control signals: Whenever lane-use-control signals are placed over the individual lanes of a street or highway, as declared in the traffic control manual adopted by the department of transportation, such signals shall indicate and apply to drivers of vehicles as follows:

(I) Downward-pointing green arrow (steady): A driver facing such signal may drive in any lane over which said green arrow signal is located.

(II) Yellow "X" (steady): A driver facing such signal is warned that the related green arrow movement is being terminated and shall vacate in a safe manner the lane over which said steady yellow signal is located to avoid if possible occupying that lane when the steady red "X" signal is exhibited.

(III) Yellow "X" (flashing): A driver facing such signal may use the lane over which said flashing yellow signal is located for the purpose of making a left turn or a passing maneuver, using proper caution, but for no other purpose.

(IV) Red "X" (steady): A driver facing such signal shall not drive in any lane over which said red signal is exhibited.

(2) Any person who violates any provision of this section commits a class A traffic infraction.

42-4-605. Flashing signals. (1) Whenever an illuminated flashing red or yellow signal is used in conjunction with a traffic sign or a traffic signal or as a traffic beacon, it shall require obedience by vehicular traffic as follows:

(a) When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line but, if none, before entering the crosswalk on the near side of the intersection or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the

intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(a) **Right turns.** Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) **Left turns.** The driver of a vehicle intending to turn left shall approach the turn in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. Whenever practicable, the left turn shall be made to the left of the center of the intersection so as to leave the intersection or other location in the extreme left-hand lane lawfully available to traffic moving in the same direction as such vehicle on the roadway being entered.

(c) **Two-way left-turn lanes.** Where a special lane for making left turns by drivers proceeding in opposite directions has been indicated by official traffic control devices in the manner prescribed in the state traffic control manual, a left turn shall not be made from any other lane, and a vehicle shall not be driven in said special lane except when preparing for or making a left turn from or into the roadway or when preparing for or making a U-turn when otherwise permitted by law.

(2) The department of transportation and local authorities in their respective jurisdictions may cause official traffic control devices to be placed and thereby require and direct that a different course from that specified in this section be traveled by turning vehicles, and, when such devices are so placed, no driver shall turn a vehicle other than as directed and required by such devices. In the case of streets which are a part of the state highway system, the local regulation shall be subject to the approval of the department of transportation as provided in section 43-2-135 (1)(g), C.R.S.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

42-4-902. Limitations on turning around. (1) No vehicle shall be turned so as to proceed in the opposite direction upon any curve or upon the approach to or near the crest of a grade where such vehicle cannot be seen by the driver of any other vehicle approaching from either direction within such distance as is necessary to avoid interfering with or endangering approaching traffic.

(2) The driver of any vehicle shall not turn such vehicle at an intersection or any other location so as to proceed in the opposite direction unless such movement can be made in safety and without interfering with or endangering other traffic.

(3) Local and state authorities, within their respective jurisdictions, subject to the provisions of section 43-2-135 (1)(g), C.R.S., in the case of streets which are state highways,

may erect "U-turn" prohibition or restriction signs at intersections or other locations where such movements are deemed to be hazardous, and, whenever official signs are so erected, no driver of a vehicle shall disobey the instructions thereof.

42-4-903. Turning movements and required signals. (1) No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required in section 42-4-901, or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety and then only after giving an appropriate signal in the manner provided in sections 42-4-608 and 42-4-609.

(2) A signal of intention to turn right or left shall be given continuously during not less than the last one hundred feet traveled by the vehicle before turning in urban or metropolitan areas and shall be given continuously for at least two hundred feet on all four-lane highways and other highways where the prima facie or posted speed limit is more than forty miles per hour. Such signals shall be given regardless of existing weather conditions.

(3) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided in sections 42-4-608 and 42-4-609 to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

(4) The signals provided for in section 42-4-608 (2) shall be used to indicate an intention to turn, change lanes, or start from a parked position and shall not be flashed on one side only on a parked or disabled vehicle or flashed as a courtesy or "do pass" signal to operators of other vehicles approaching from the rear.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

DRIVING - OVERTAKING - PASSING

Cross references: For penalties for class A traffic infractions, see § 42-4-1701 (3)(a)(I).

42-4-1001. Drive on right side - exceptions. (1) Upon all roadways of sufficient width, a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When an obstruction exists making it necessary to drive to the left of the center of the highway; but any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(c) Upon a roadway divided into three lanes for traffic under the rules applicable thereon; or

(d) Upon a roadway restricted to one-way traffic as indicated by official traffic control devices.

(2) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(3) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes or except as permitted under subsection (1)(b) of this section. However, this subsection (3) does not prohibit the crossing of the center line in making a left turn into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

(2) A driver shall not pass a bicyclist moving in the same direction and in the same lane when there is oncoming traffic unless the driver can simultaneously:

(a) Allow oncoming vehicles at least one-half of the main-traveled portion of the roadway in accordance with subsection (1) of this section; and

(b) Allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left of the vehicle at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(b) The driver of a motor vehicle overtaking a bicyclist proceeding in the same direction shall allow the bicyclist at least a three-foot separation between the right side of the driver's vehicle, including all mirrors or other projections, and the left side of the bicyclist at all times.

(c) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of the driver's vehicle until completely passed by the overtaking vehicle.

(2) Any person who violates any provision of this section commits a class A traffic infraction.

42-4-1004. When overtaking on the right is permitted. (1) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) When the vehicle overtaken is making or giving indication of making a left turn;

(b) Upon a street or highway with unobstructed pavement not occupied by parked vehicles and marked for two or more lanes of moving vehicles in each direction; or

(c) Upon a one-way street or upon any roadway on which traffic is restricted to one direction of movement where the roadway is free from obstructions and marked for two or more lanes of moving vehicles.

(1.5) The driver of a motor vehicle upon a one-way roadway with two or more marked traffic lanes, when overtaking a bicyclist proceeding in the same direction and riding on the left-hand side of the road, shall allow the bicyclist at least a three-foot separation between the left side of the driver's vehicle, including all mirrors or other projections, and the right side of the bicyclist at all times.

(2) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

Editor's note: This section is similar to former § 42-4-904 as it existed prior to 1994, and the former § 42-4-1004 was relocated to § 42-4-1104.

42-4-1005. Limitations on overtaking on the left. (1) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this article and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completed without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and, in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching vehicle.

(2) No vehicle shall be driven on the left side of the roadway under the following conditions:

(a) When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(b) When approaching within one hundred feet of or traversing any intersection or railroad grade crossing; or

(c) When the view is obstructed upon approaching within one hundred feet of any bridge, viaduct, or tunnel.

(3) The department of transportation and local authorities are authorized to determine those portions of any highway under their respective jurisdictions where overtaking and passing or driving on the left side of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones. Where such signs or markings are in place to define a no-passing zone and such signs or markings are clearly visible to an ordinarily observant person, no driver shall drive on the left side of the roadway within such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

(4) The provisions of this section shall not apply:

(a) Upon a one-way roadway;

(b) Under the conditions described in section 42-4-1001 (1)(b);

(c) To the driver of a vehicle turning left into or from an alley, private road, or driveway when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway; or

(d) To the driver of a vehicle passing a bicyclist moving the same direction and in the same lane when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

42-4-1006. One-way roadways and rotary traffic islands. (1) Upon a roadway restricted to one-way traffic, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by official traffic control devices.

(2) A vehicle passing around a rotary traffic island shall be driven only to the right of such island.

(3) The department of transportation and local authorities with respect to highways under their respective jurisdictions may designate any roadway, part of a roadway, or specific lanes upon which vehicular traffic shall proceed in one direction at all or such times as shall be indicated by official traffic control devices. In the case of streets which are a part of the state highway system, the regulation shall be subject to the approval of the department of transportation pursuant to section 43-2-135 (1)(g), C.R.S.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

42-4-1007. Driving on roadways laned for traffic. (1) Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following rules in addition to all others consistent with this section shall apply:

(a) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction where the roadway is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn, or where such center lane is at the time allocated exclusively to the traffic moving in the direction the vehicle is proceeding and is designated by official traffic control devices to give notice of such allocation. Under no condition shall an attempt be made to pass upon the shoulder or any portion of the roadway remaining to the right of the indicated right-hand traffic lane.

(c) Official traffic control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway, and drivers of vehicles shall obey the directions of every such device.

(d) Official traffic control devices may be installed prohibiting the changing of lanes on sections of roadway, and drivers of vehicles shall obey the directions of every such device.

(2) (a) The department of transportation may designate with signage an area on a roadway not otherwise laned for traffic for use by commercial vehicles, as defined in section 42-4-235 (1)(a), that are designed to transport sixteen or more passengers, including the driver, and that are operated by a governmental entity or government-owned business that transports the general public or by a contractor on behalf of such an entity or government-owned business. Use of such an area is limited to vehicles authorized by the department operating under conditions of use established by the department but, subject to the conditions of use, the driver of an authorized vehicle has sole discretion to decide whether or not to drive on such an area based on the driver's assessment of the safety of doing so. The department shall consult with the Colorado state patrol before granting authorization for use of the area and establishing conditions of use. The department shall impose and each authorized user shall acknowledge the conditions of use by written agreement, and the department need not note the conditions of use in roadway signage. An authorized user does not violate this section or section 42-4-1004 when operating in accordance with the conditions of use for an area imposed by the department and acknowledged by the user in a written agreement.

(b) The department of transportation shall work with local governmental agencies in implementing the provisions of this subsection (2).

42-4-1008. Following too closely. (1) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(2) The driver of any motor truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another motor truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger; except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

(3) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade, whether or not towing other vehicles, shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions.

42-4-1008.5. Crowding or threatening bicyclist. (1) The driver of a motor vehicle shall not, in a careless and imprudent manner, drive the vehicle unnecessarily close to, toward, or near a bicyclist.

(2) Any person who violates subsection (1) of this section commits careless driving as described in section 42-4-1402.

42-4-1010. Driving on divided or controlled-access highways. (1) Whenever any highway has been divided into separate roadways by leaving an intervening space or by a physical barrier or clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle shall be driven only upon the right-hand roadway, unless directed or permitted to use another roadway by official traffic control devices. No vehicle shall be driven over, across, or within any such dividing space, barrier, or section, except through an opening in such physical barrier or dividing section or space or at a crossover or intersection as established, unless specifically prohibited by official signs and markings or by the provisions of section 42-4-902. However, this subsection (1) does not prohibit a left turn across a median island formed by standard pavement markings or other mountable or traversable devices as prescribed in the state traffic control manual when such movement can be made in safety and without interfering with, impeding, or endangering other traffic lawfully using the highway.

(2) (a) No person shall drive a vehicle onto or from any controlled-access roadway except at such entrances and exits as are established by public authority.

(b) Wherever an acceleration lane has been provided in conjunction with a ramp entering a controlled-access highway and the ramp intersection is not designated or signed as a stop or

yield intersection as provided in section 42-4-703 (1), drivers may use the acceleration lane to attain a safe speed for merging with through traffic when conditions permit such acceleration with safety. Traffic so merging shall be subject to the rule governing the changing of lanes as set forth in section 42-4-1007 (1)(a).

(c) Wherever a deceleration lane has been provided in conjunction with a ramp leaving a controlled-access highway, drivers shall use such lane to slow to a safe speed for making an exit turn after leaving the mainstream of faster-moving traffic.

(3) The department of transportation may by resolution or order entered in its minutes and local authorities may by ordinance consistent with the provisions of section 43-2-135 (1)(g), C.R.S., with respect to any controlled-access highway under their respective jurisdictions, prohibit the use of any such highway by any class or kind of traffic which is found to be incompatible with the normal and safe movement of traffic. The department of transportation or the local authority adopting such prohibitory regulations shall install official traffic control devices in conformity with the standards established by sections 42-4-601 and 42-4-602 at entrance points or along the highway on which such regulations are applicable. When such devices are so in place, giving notice thereof, no person shall disobey the restrictions made known by such devices. This subsection (3) shall not be construed to give the department authority to regulate pedestrian use of highways in a manner contrary to the provisions of section 42-4-805.

42-4-1011. Use of runaway vehicle ramps. (1) No person shall use a runaway vehicle ramp unless such person is in an emergency situation requiring use of the ramp to stop such person's vehicle.

(2) No person shall stop, stand, or park a vehicle on a runaway vehicle ramp or in the pathway of the ramp.

(3) Any person who violates any provision of this section commits a class A traffic infraction.

Editor's note: This section is similar to former § 42-4-911 as it existed prior to 1994.

42-4-1012. High occupancy vehicle (HOV) and high occupancy toll (HOT) lanes. (1) (a) The department of transportation and local authorities, with respect to streets and highways under their respective jurisdictions, may designate exclusive or preferential lanes for vehicles that carry a specified number of persons. The occupancy level of vehicles and the time of day

when lane usage is restricted to high occupancy vehicles, if applicable, shall be designated by official traffic control devices.

(b) (I) On or before July 1, 2001, the department shall issue a request for proposals to private entities for the purpose of entering into a contract with such an entity for the conversion of an existing high occupancy vehicle lane described in paragraph (a) of this subsection (1) to a high occupancy toll lane and for the purpose of entering into a contract for the operation of the high occupancy toll lane by a private entity; except that the department may convert or operate the high occupancy toll lane, or both, in the event that no proposal by a private entity for such conversion or operation, or both, is acceptable.

(II) The high occupancy toll lane shall be a lane for use by vehicles carrying less than the specified number of persons for such high occupancy vehicle lane that pay a specified toll or fee.

(III) Any contract entered into between the department and a private entity pursuant to subparagraph (I) of this paragraph (b) shall:

(A) Authorize the private entity to impose tolls for use of the high occupancy toll lane;

(B) Require that over the term of such contract only toll revenues be applied to payment of the private entity's capital outlay costs for the project, the costs associated with operations, toll collection, administration of the high occupancy toll lane, if any, and a reasonable return on investment to the private entity, as evidenced by and consistent with the returns on investment to private entities on similar public and private projects;

(C) Require that any excess toll revenue either be applied to any indebtedness incurred by the private entity with respect to the project or be paid into the state highway fund created pursuant to section 43-1-219, C.R.S., for exclusive use in the corridor where the high occupancy toll lane is located including for maintenance and enforcement purposes in the high occupancy toll lane and for other traffic congestion relieving options including transit. Such contract shall define or provide a method for calculating excess toll revenues and shall specify the amount of indebtedness that the private entity may incur and apply excess toll revenues to before such revenues must be paid into the state highway fund. It is not the intent of the general assembly that the conversion of a high occupancy vehicle lane to a high occupancy toll lane shall detract in any way from the possible provision of mass transit options by the regional transportation district or any other agency in the corridor where the high occupancy toll lane is located.

(IV) The department shall structure a variable toll or fee to ensure a level of service C and unrestricted access to the lanes at all times by eligible vehicles, including buses, carpools, and EPA certified low-emitting vehicles with a gross vehicle weight rating over ten thousand pounds.

(V) The department shall not enter into a contract for the conversion of a high occupancy vehicle lane to a high occupancy toll lane if such a conversion will result in the loss or refund of federal funds payable, available, or paid to the state for construction, reconstruction, repairs, improvement, planning, supervision, and maintenance of the state highway system and other public highways.

(VI) The department shall require the private entity entering into a contract pursuant to this section to provide such performance bond or other surety for the project as the department may reasonably require.

(c) Whenever practicable, a high occupancy toll lane described in paragraph (b) of this subsection (1) shall be physically separated from the other lanes of a street or highway so as to minimize the interference between traffic in the designated lanes and traffic in the other lanes.

(d) The department shall develop and adopt functional specifications and standards for an automatic vehicle identification system for use on high occupancy vehicle lanes, high occupancy toll lanes, any public highway constructed and operated under the provisions of part 5 of article 4 of title 43, C.R.S., and any other street or highway where tolls or charges are imposed for the privilege of traveling upon such street or highway. The specifications and standards shall ensure that:

(I) Automatic vehicle identification systems utilized by the state, municipality, or other entity having jurisdiction over the street or highway are compatible with one another;

(II) A vehicle owner shall not be required to purchase or install more than one device to use on all toll facilities;

(III) Toll facility operators have the ability to select from different manufacturers and vendors of automatic vehicle identification systems; and

(IV) There is compatibility between any automatic vehicle identification system in operation on August 4, 1999, and any automatic vehicle identification system designed and installed on and after said date; except that the operator of an automatic vehicle identification system in operation on August 4, 1999, may replace such system with a different system that is not compatible with the system in operation on August 4, 1999, subject to the approval of the department. After the department approves such replacement, the specifications and standards developed pursuant to this paragraph (d) shall be amended to require compatibility with the replacement system.

(2) A motorcycle may be operated upon high occupancy vehicle lanes pursuant to section 163 of Public Law 97-424 or upon high occupancy toll lanes, unless prohibited by official traffic control devices.

(2.5) (a) (I) Except as otherwise provided in paragraph (d) of this subsection (2.5), a motor vehicle with a gross vehicle weight of twenty-six thousand pounds or less that is either an inherently low-emission vehicle or a hybrid vehicle may be operated upon high occupancy vehicle lanes without regard to the number of persons in the vehicle and without payment of a special toll or fee. The exemption relating to hybrid vehicles shall apply only if such exemption does not affect the receipt of federal funds and does not violate any federal laws or regulations.

(II) As used in this subsection (2.5), "inherently low-emission vehicle" or "ILEV" means:

(A) A light-duty vehicle or light-duty truck, regardless of whether such vehicle or truck is part of a motor vehicle fleet, that has been certified by the federal environmental protection agency as conforming to the ILEV guidelines, procedures, and standards as published in the federal register at 58 FR 11888 (March 1, 1993) and 59 FR 50042 (September 30, 1994), as amended from time to time; and

(B) A heavy-duty vehicle powered by an engine that has been certified as set forth in sub-subparagraph (A) of this subparagraph (II).

(III) As used in this subsection (2.5), "hybrid vehicle" means a motor vehicle with a hybrid propulsion system that uses an alternative fuel by operating on both an alternative fuel, including electricity, and a traditional fuel.

(b) No person shall operate a vehicle upon a high occupancy vehicle lane pursuant to this subsection (2.5) unless the vehicle:

(I) Meets all applicable federal emission standards set forth in 40 CFR sec. 88.311-93, as amended from time to time, or, subject to subparagraph (I) of paragraph (a) of this subsection (2.5), is a hybrid vehicle; and

(II) Is identified by means of a circular sticker or decal at least four inches in diameter, made of bright orange reflective material, and affixed either to the windshield, to the front of the side-view mirror on the driver's side, or to the front bumper of the vehicle. Said sticker or decal shall be approved by the Colorado department of transportation.

(c) The department of transportation and local authorities, with respect to streets and highways under their respective jurisdictions, shall provide information via official traffic control devices to indicate that ILEVs and, subject to subparagraph (I) of paragraph (a) of this subsection (2.5), hybrid vehicles may be operated upon high occupancy vehicle lanes pursuant to this section. Such information may, but need not, be added to existing printed signs, but as existing printed signs related to high occupancy vehicle lane use are replaced or new ones are erected, such information shall be added. In addition, whenever existing electronic signs are capable of being reprogrammed to carry such information, they shall be so reprogrammed by September 1, 2003.

(d) (I) In consultation with the regional transportation district, the department of transportation and local authorities, with respect to streets and highways under their respective jurisdictions, shall, in connection with their periodic level-of-service evaluation of high occupancy vehicle lanes, perform a level-of-service evaluation of the use of high occupancy vehicle lanes by ILEVs and hybrid vehicles. If the use of high occupancy vehicle lanes by ILEVs or hybrid vehicles is determined to cause a significant decrease in the level of service for other bona fide users of such lanes, then the department of transportation or a local authority may restrict or eliminate use of such lanes by ILEVs or hybrid vehicles.

(II) If the United States secretary of transportation makes a formal determination that, by giving effect to paragraph (a) of this subsection (2.5) on a particular highway or lane, the state of Colorado would disqualify itself from receiving federal highway funds the state would otherwise qualify to receive or would be required to refund federal transportation grant funds it has already received, then said paragraph (a) shall not be effective as to such highway or lane.

(3) (a) Any person who uses a high occupancy vehicle lane in violation of restrictions imposed by the department of transportation or local authorities commits a class A traffic infraction.

(b) Any person convicted of a third or subsequent offense of paragraph (a) of this subsection (3) committed within a twelve-month period shall be subject to an increased penalty pursuant to section 42-4-1701 (4)(a)(I)(K).

42-4-1013. Passing lane - definitions - penalty. (1) A person shall not drive a motor vehicle in the passing lane of a highway if the speed limit is sixty-five miles per hour or more unless such person is passing other motor vehicles that are in a nonpassing lane or turning left, or unless the volume of traffic does not permit the motor vehicle to safely merge into a nonpassing lane.

(2) For the purposes of this section:

(a) "Nonpassing lane" means any lane that is to the right of the passing lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway.

(b) "Passing lane" means the farthest to the left lane if there are two or more adjacent lanes of traffic moving in the same direction in one roadway; except that, if such left lane is restricted to high occupancy vehicle use or is designed for left turns only, the passing lane shall be the lane immediately to the right of such high occupancy lane or left-turn lane.

(3) A person who violates this section commits a class A traffic infraction.

PART 11

SPEED REGULATIONS

Cross references: For the penalties for class 2 misdemeanor traffic offenses and class A traffic infractions, see § 42-4-1701 (3).

42-4-1101. Speed limits. (1) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions then existing.

(2) Except when a special hazard exists that requires a lower speed, the following speeds shall be lawful:

(a) Twenty miles per hour on narrow, winding mountain highways or on blind curves;

(b) Twenty-five miles per hour in any business district, as defined in section 42-1-102 (11);

(c) Thirty miles per hour in any residence district, as defined in section 42-1-102 (80);

(d) Forty miles per hour on open mountain highways;

(e) Forty-five miles per hour for all single rear axle vehicles in the business of transporting trash that exceed twenty thousand pounds, where higher speeds are posted, when said vehicle is loaded as an exempted vehicle pursuant to section 42-4-507 (3);

(f) Fifty-five miles per hour on other open highways which are not on the interstate system, as defined in section 43-2-101 (2), C.R.S., and are not surfaced, four-lane freeways or expressways;

(g) Sixty-five miles per hour on surfaced, four-lane highways which are on the interstate system, as defined in section 43-2-101 (2), C.R.S., or are freeways or expressways;

(h) Any speed not in excess of a speed limit designated by an official traffic control device.

(3) No driver of a vehicle shall fail to decrease the speed of such vehicle from an otherwise lawful speed to a reasonable and prudent speed when a special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions.

(4) Except as otherwise provided in paragraph (c) of subsection (8) of this section, any speed in excess of the lawful speeds set forth in subsection (2) of this section shall be prima facie evidence that such speed was not reasonable or prudent under the conditions then existing. As used in this subsection (4), "prima facie evidence" means evidence which is sufficient proof that the speed was not reasonable or prudent under the conditions then existing, and which will remain sufficient proof of such fact, unless contradicted and overcome by evidence bearing upon the question of whether or not the speed was reasonable and prudent under the conditions then existing.

(5) In every charge of violating subsection (1) of this section, the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the alleged reasonable and prudent speed applicable at the specified time and location of the alleged violation.

(6) The provisions of this section shall not be construed to relieve the party alleging negligence under this section in any civil action for damages from the burden of proving that such negligence was the proximate cause of an accident.

(7) Notwithstanding paragraphs (a), (b), and (c) of subsection (2) of this section, any city or town may by ordinance adopt absolute speed limits as the maximum lawful speed limits in its jurisdiction, and such speed limits shall not be subject to the provisions of subsection (4) of this section.

(8) (a) (Deleted by amendment, L. 96, p. 578, § 2, effective May 25, 1996.)

(b) Notwithstanding any other provisions of this section, no person shall drive a vehicle on a highway at a speed in excess of a maximum lawful speed limit of seventy-five miles per hour.

(c) The speed limit set forth in paragraph (b) of this subsection (8) is the maximum lawful speed limit and is not subject to the provisions of subsection (4) of this section.

(d) State and local authorities within their respective jurisdictions shall not authorize any speed limit which exceeds seventy-five miles per hour on any highway.

(e) The provisions of this subsection (8) are declared to be matters of both local and statewide concern requiring uniform compliance throughout the state.

(f) In every charge of a violation of paragraph (b) of this subsection (8), the complaint, summons and complaint, or penalty assessment notice shall specify the speed at which the defendant is alleged to have driven and also the maximum lawful speed limit of seventy-five miles per hour.

(g) Notwithstanding any other provision of this section, no person shall drive a low-power scooter on a roadway at a speed in excess of forty miles per hour. State and local authorities shall not authorize low-power scooters to exceed forty miles per hour on a roadway.

(9) The conduct of a driver of a vehicle which would otherwise constitute a violation of this section is justifiable and not unlawful when:

(a) It is necessary as an emergency measure to avoid an imminent public or private injury which is about to occur by reason of a situation occasioned or developed through no conduct of said driver and which is of sufficient gravity that, according to ordinary standards of intelligence and morality, the desirability and urgency of avoiding the injury clearly outweigh the desirability of avoiding the consequences sought to be prevented by this section; or

(b) With respect to authorized emergency vehicles, the applicable conditions for exemption, as set forth in section 42-4-108, exist.

(10) The minimum requirement for commission of a traffic infraction or misdemeanor traffic offense under this section is the performance by a driver of prohibited conduct, which includes a voluntary act or the omission to perform an act which said driver is physically capable of performing.

(11) It shall not be a defense to prosecution for a violation of this section that:

(a) The defendant's conduct was not performed intentionally, knowingly, recklessly, or with criminal negligence; or

(b) The defendant's conduct was performed under a mistaken belief of fact, including, but not limited to, a mistaken belief of the defendant regarding the speed of the defendant's vehicle; or

(c) The defendant's vehicle has a greater operating or fuel-conserving efficiency at speeds greater than the reasonable and prudent speed under the conditions then existing or at speeds greater than the maximum lawful speed limit.

(12) (a) A violation of driving one to twenty-four miles per hour in excess of the reasonable and prudent speed or in excess of the maximum lawful speed limit of seventy-five miles per hour is a class A traffic infraction.

(b) A violation of driving twenty-five or more miles per hour in excess of the reasonable and prudent speed or in excess of the maximum lawful speed limit of seventy-five miles per hour is a class 2 misdemeanor traffic offense; except that such violation within a maintenance, repair, or construction zone, designated pursuant to section 42-4-614, is a class 1 misdemeanor traffic offense.

(c) A violation under subsection (3) of this section is a class A traffic infraction.

42-4-1102. Altering of speed limits - department to study rural state highways and increase speed limits - definitions - repeal. (1) (a) Whenever the department of transportation

determines upon the basis of a traffic investigation or survey or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof that any speed specified or established as authorized under sections 42-4-1101 to 42-4-1104 is greater or less than is reasonable or safe under the road and traffic conditions at any intersection or other place or upon any part of a state highway under its jurisdiction, said department shall determine and declare a reasonable and safe speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected at such intersection or other place or upon the approaches thereto; except that no speed limit in excess of seventy-five miles per hour shall be authorized by said department.

(b) Repealed.

(2) Whenever county or municipal authorities, within their respective jurisdictions, determine upon the basis of a traffic investigation or survey and, for residential neighborhoods, after additional optional consideration of road characteristics, current and future development, environmental factors, parking practices, pedestrian and bicycle activity in the vicinity, and crash statistics from the most recent year, or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed highways or segments thereof, that any speed specified or established as authorized under sections 42-4-1101 to 42-4-1104 is greater or less than is reasonable or safe under the road and traffic conditions at an intersection or other place or upon any part of a street or highway in its jurisdiction, the local authority shall determine and declare a reasonable and safe speed limit that is effective when appropriate signs giving notice thereof are erected at the intersection or other place or upon the approaches thereto. A local authority shall not alter the basic rules set forth in section 42-4-1101 (1) or authorize by resolution or ordinance a speed in excess of seventy-five miles per hour.

(3) Local municipal authorities within their respective jurisdictions shall determine upon the basis of a traffic investigation or survey the proper speed for all arterial streets and shall declare a reasonable and safe speed limit thereon which may be greater or less than the speed specified under section 42-4-1101 (2)(b) or (2)(c). Such speed limit shall not exceed seventy-five miles per hour and shall become effective when appropriate signs are erected giving notice thereof. For purposes of this subsection (3), an "arterial street" means any United States or state-numbered route, controlled-access highway, or other major radial or circumferential street or highway designated by local authorities within their respective jurisdictions as part of a major arterial system of streets or highways.

(3.5) (a) The department of transportation, referred to in this subsection (3.5) as the "department", shall study relevant and appropriate state highways in rural areas of the state for the purpose of identifying portions of rural state highways where the speed limit can be raised as described in section 42-4-1101 without endangering public safety. In identifying these portions of rural state highways, the department shall consider:

- (I) Whether the portion of highway is predominantly straight;
- (II) The quality of the surface of the portion of highway, including whether the portion of highway has been resurfaced recently;
- (III) The presence or absence of adequate space along both sides of the portion of highway to allow a vehicle to safely pull over to the side of the highway;
- (IV) The safety of vulnerable road users who use the portion of highway; and
- (V) Any other safety concerns that the department, in its discretion, includes in the report.

(b) In identifying portions of rural state highways where the speed limit can be raised pursuant to subsection (3.5)(a) of this section, the department shall give preference to portions of rural state highways that:

- (I) Connect rural towns to one or more cities;
- (II) Provide access to one or more public or private schools; and
- (III) Are relatively heavily traveled.

(c) On or before March 1, 2021, the department shall complete the study described in subsection (3.5)(a) of this section. The department shall include a summary of the study in the department's next annual report to the legislative committees of reference pursuant to section 2-7-203. The summary must indicate the conclusions of the study and the portions of rural highways for which the department will increase the speed limit.

(d) As used in this subsection (3.5), unless the context otherwise requires, "vulnerable road user" means:

- (I) A pedestrian;
- (II) A person engaged in work upon a roadway or upon utility facilities along a roadway;
- (III) A person providing emergency services within a right-of-way;
- (IV) A peace officer who is outside a motor vehicle and performing the peace officer's duties in a right-of-way;
- (V) A person riding or leading an animal; or
- (VI) A person lawfully using any of the following on a public right-of-way, crosswalk, or shoulder of the roadway:

- (A) A bicycle, electrical assisted bicycle, tricycle, or other pedal-powered vehicle;
- (B) A farm tractor or similar vehicle designed primarily for farm use;
- (C) A skateboard;
- (D) Roller skates;
- (E) In-line skates;
- (F) A scooter;
- (G) A moped;
- (H) A motorcycle;
- (I) An off-highway vehicle;
- (J) An animal-drawn, wheeled vehicle;
- (K) Farm equipment;
- (L) A sled;
- (M) An electric personal assistive mobility device;
- (N) A wheelchair;
- (O) A baby stroller; or
- (P) A nonmotorized pull wagon.

(e) This subsection (3.5) is repealed, effective July 1, 2022.

(4) No alteration of speed limits on state highways within cities, cities and counties, and incorporated towns is effective until it has been approved in writing by the department of transportation. Upon the request of any incorporated city or town, the department of transportation shall conduct any traffic investigation or survey that is deemed to be warranted for determination of a safe and reasonable speed limit on any street or portion thereof that is a state highway. In conducting such a traffic investigation, the department may receive and consider traffic and engineering data provided by the city or county engineer of any requesting local

government that will be impacted by a proposed alteration of speed limits. Any speed limit so determined by the department becomes effective when declared by the local authority and made known by official signs conforming to the state traffic control manual.

(5) Whenever the department of transportation or local authorities, within their respective jurisdictions, determine upon the basis of a traffic investigation or survey that a reduced speed limit is warranted in a school or construction area or other place during certain hours or periods of the day when special or temporary hazards exist, the department or the concerned local authority may erect or display official signs of a type prescribed in the state traffic control manual giving notice of the appropriate speed limit for such conditions and stating the time or period the regulation is effective. When such signs are erected or displayed, the lawful speed limit at the particular time and place shall be that which is then indicated upon such signs; except that no such speed limit shall be less than twenty miles per hour on a state highway or other arterial street as defined in subsection (3) of this section nor less than fifteen miles per hour on any other road or street, nor shall any such reduced speed limit be made applicable at times when the special conditions for which it is imposed cease to exist. Such reduced speed limits on streets which are state highways shall be subject to the written approval of the department of transportation before becoming effective.

(6) In its discretion, a municipality, by ordinance, or a county, by resolution of the board of county commissioners, may impose and enforce stop sign regulations and speed limits, not inconsistent with the provisions of sections 42-4-1101 to 42-4-1104, upon any way which is open to travel by motor vehicles and which is privately maintained in mobile home parks, when appropriate signs giving notice of such enforcement are erected at the entrances to such ways. Unless there is an agreement to the contrary, the jurisdiction ordering the regulations shall be responsible for the erection and maintenance of the signs.

(7) Any powers granted in this section to county or municipal authorities may be exercised by such authorities or by any municipal officer or employee who is designated by ordinance to exercise such powers.

(8) The department of transportation shall not set a speed limit on interstate 70 for commercial vehicles or any other motor vehicle that differs from the highest authorized speed for any other type of motor vehicle on the same portion of a highway by more than twenty-five miles per hour.

(9) For purposes of this section, "residential neighborhood" has the same meaning as set forth in section 42-4-110.5 (2)(g)(II).

(2) Subsection (1)(b)(II) provided for the repeal of subsection (1)(b), effective July 1, 1998. (See L. 96, p. 579.)

42-4-1103. Minimum speed regulation. (1) No person shall drive a motor vehicle on any highway at such a slow speed as to impede or block the normal and reasonable forward movement of traffic, except when a reduced speed is necessary for safe operation of such vehicle or in compliance with law.

(2) Whenever the department of transportation or local authorities within their respective jurisdictions determine, on the basis of an engineering and traffic investigation as described in the state traffic control manual, that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, said department or such local authority may determine and declare a minimum speed limit below which no person shall drive a vehicle, except when necessary for safe operation or in compliance with law.

(3) Notwithstanding any minimum speed that may be authorized and posted pursuant to this section, if any person drives a motor vehicle on a highway outside an incorporated area or on any controlled-access highway at a speed less than the normal and reasonable speed of traffic under the conditions then and there existing and by so driving at such slower speed impedes or retards the normal and reasonable movement of vehicular traffic following immediately behind, then such driver shall:

(a) Where the width of the traveled way permits, drive in the right-hand lane available to traffic or on the extreme right side of the roadway consistent with the provisions of section 42-4-1001 (2) until such impeded traffic has passed by; or

(b) Pull off the roadway at the first available place where such movement can safely and lawfully be made until such impeded traffic has passed by.

(4) Wherever special uphill traffic lanes or roadside turnouts are provided and posted, drivers of all vehicles proceeding at less than the normal and reasonable speed of traffic shall use such lanes or turnouts to allow other vehicles to pass or maintain normal traffic flow.

(5) Any person who violates any provision of this section commits a class A traffic infraction.

Editor's note: This section is similar to former § 42-4-1003 as it existed prior to 1994.

42-4-1104. Speed limits on elevated structures. (1) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is signposted as provided in this section.

(2) The department of transportation upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and, if it finds that such structure cannot with safety to itself withstand vehicles traveling at the speed otherwise permissible under sections 42-4-1101 to 42-4-1104, said department shall determine and declare the maximum speed of vehicles which such structure can withstand and shall cause or permit suitable standard signs stating such maximum speed to be erected and maintained before each end of such structure in conformity with the state traffic control manual.

(3) Upon the trial of any person charged with a violation of this section, proof of said determination of the maximum speed by said department and the existence of said signs shall constitute conclusive evidence of the maximum speed which can be maintained with safety to such bridge or structure.

(4) Any person who violates any provision of this section commits a class A traffic infraction.

Source: L. 94: Entire title amended with relocations, p. 2368, § 1, effective January 1, 1995.

Editor's note: This section is similar to former § 42-4-1004 as it existed prior to 1994, and the former § 42-4-1104 was relocated to § 42-4-1204.

42-4-1105. Speed contests - speed exhibitions - aiding and facilitating - immobilization of motor vehicle - definitions. (1) (a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed contest on a highway.

(b) For purposes of this section, "speed contest" means the operation of one or more motor vehicles to conduct a race or a time trial, including but not limited to rapid acceleration, exceeding reasonable and prudent speeds for highways and existing traffic conditions, vying for position, or performing one or more lane changes in an attempt to gain advantage over one or more of the other race participants.

(c) A person who violates any provision of this subsection (1) commits a class 1 misdemeanor traffic offense.

(2) (a) Except as otherwise provided in subsection (4) of this section, it is unlawful for a person to knowingly engage in a speed exhibition on a highway.

(b) For purposes of this section, "speed exhibition" means the operation of a motor vehicle to present a display of speed or power. "Speed exhibition" includes, but is not limited to, squealing the tires of a motor vehicle while it is stationary or in motion, rapid acceleration, rapid swerving or weaving in and out of traffic, producing smoke from tire slippage, or leaving visible tire acceleration marks on the surface of the highway or ground.

(c) A person who violates any provision of this subsection (2) commits a class 2 misdemeanor traffic offense.

(3) (a) Except as otherwise provided in subsection (4) of this section, a person shall not, for the purpose of facilitating or aiding or as an incident to any speed contest or speed exhibition upon a highway, in any manner obstruct or place a barricade or obstruction, or assist or participate in placing any such barricade or obstruction, upon a highway.

(b) A person who violates any provision of this subsection (3) commits, pursuant to section 42-4-1703, the offense that the person aided in or facilitated the commission of. Nothing in this subsection (3) shall be construed to preclude charging a person under section 42-4-1703 for otherwise being a party to the crime of engaging in a speed contest or engaging in a speed exhibition.

(4) The provisions of this section shall not apply to the operation of a motor vehicle in an organized competition according to accepted rules on a designated and duly authorized race track, race course, or drag strip.

(5) (a) In addition to a sentence imposed pursuant to this section or pursuant to any other provision of law:

(I) Upon the second conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to fourteen days.

(II) Upon the third or subsequent conviction for an offense specified in subsection (1) or (2) of this section, or any other crime, the underlying factual basis of which has been found by the court to include an act of operating a motor vehicle in violation of subsection (1) or (2) of this section, the court may, in its discretion, order the primary law enforcement agency involved with the case to place an immobilization device on the motor vehicle or motor vehicles so operated for a period of up to thirty days but more than fourteen days.

(b) The period during which a motor vehicle may be fitted with an immobilization device pursuant to paragraph (a) of this subsection (5) shall be in addition to any period during which the motor vehicle was impounded prior to sentencing.

(c) An order issued under this subsection (5) shall state the requirements included in subsections (7) and (8) of this section.

(d) For purposes of this section, "immobilization device" means a device locked into place over a wheel of a motor vehicle that prevents the motor vehicle from being moved. "Immobilization device" includes but is not limited to a device commonly referred to as a "traffic boot" or "boot".

(6) (a) Except as otherwise provided in subsection (9) of this section, a law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall attempt to locate the motor vehicle within its jurisdiction. The law enforcement agency may, in its discretion, attempt to locate the motor vehicle outside of its jurisdiction.

(b) Nothing in this subsection (6) shall be construed to:

(I) Prohibit a law enforcement agency from seeking the assistance of another law enforcement agency for the purpose of placing an immobilization device on a motor vehicle or removing the device in accordance with this section; or

(II) Require a law enforcement agency to expend excessive time or commit excessive staff to the task of locating a motor vehicle subject to immobilization under this section.

(c) The time spent by a law enforcement agency in locating a motor vehicle in accordance with this subsection (6) shall not alter the immobilization period ordered by the court under subsection (5) of this section.

(d) A law enforcement agency that places an immobilization device on a motor vehicle pursuant to this section shall affix a notice to the immobilized motor vehicle stating the information described in subsections (7) and (8) of this section.

(e) A peace officer who locates or attempts to locate a motor vehicle, or who places or removes, or assists with the placement or removal of, an immobilization device in accordance with the provisions of this section shall be immune from civil liability for damages, except for damages arising from willful and wanton conduct.

(7) (a) The owner of a motor vehicle immobilized under this section shall be assessed a fee of thirty-five dollars for each day the motor vehicle is ordered immobilized and, except as otherwise provided in paragraph (d) of this subsection (7), thirty-five dollars for each day up to fourteen days after the immobilization period that the fee for the immobilization period is not paid. The owner shall pay the fee to the law enforcement agency that places the immobilization device on the motor vehicle.

(b) The owner, within fourteen days after the end of the immobilization period ordered by the court, may obtain removal of the immobilization device by the law enforcement agency that placed it by requesting the removal and paying the fee required under paragraph (a) of this subsection (7).

(c) The failure of the owner of the immobilized motor vehicle to request removal of the immobilization device and pay the fee within fourteen days after the end of the immobilization period ordered by the court or within the additional time granted by the court pursuant to paragraph (d) of this subsection (7), whichever is applicable, shall result in the motor vehicle being deemed an "abandoned motor vehicle", as defined in sections 42-4-1802 (1)(d) and 42-4-2102 (1)(d), and subject to the provisions of part 18 or 21 of this article, whichever is applicable. The law enforcement agency entitled to payment of the fee under this subsection (7) shall be eligible to recover the fee if the abandoned motor vehicle is sold, pursuant to section 42-4-1809 (2)(b.5) or 42-4-2108 (2)(a.5).

(d) Upon application of the owner of an immobilized motor vehicle, the court that ordered the immobilization may, in its discretion, grant additional time to pay the immobilization fee required under paragraph (a) of this subsection (7). If additional time is granted, the court shall notify the law enforcement agency that placed the immobilization device.

(8) (a) A person may not remove an immobilization device that is placed on a motor vehicle pursuant to this section during the immobilization period ordered by the court.

(b) No person may remove the immobilization device after the end of the immobilization period except the law enforcement agency that placed the immobilization device and that has been requested by the owner to remove the device and to which the owner has properly paid the fee required by subsection (7) of this section. Nothing in this subsection (8) shall be construed to prevent the removal of an immobilization device in order to comply with the provisions of part 18 or 21 of this article.

(c) A person who violates any provision of this subsection (8) commits a class 2 misdemeanor traffic offense.

(9) (a) A law enforcement agency that is ordered to place an immobilization device on a motor vehicle pursuant to subsection (5) of this section shall inform the court at sentencing if it is unable to comply with the court's order either because the law enforcement agency is not yet equipped with an immobilization device or because it does not have a sufficient number of immobilization devices. The court, upon being so informed, shall, in lieu of ordering immobilization, order the law enforcement agency to impound the motor vehicle for the same time period that the court initially ordered the motor vehicle to be immobilized.

(b) If a motor vehicle is ordered to be impounded pursuant to paragraph (a) of this subsection (9), the provisions of subsections (6) to (8) of this section shall not apply.

42-4-1208. Reserved parking for persons with disabilities - applicability - rules. (1)

(a) "Disability" or "disabled" has the same meaning as set forth in section 42-3-204.

(b) "Holder" means a person with a disability who has lawfully obtained an identifying plate or placard.

(c) "Identifying figure" has the same meaning as set forth in section 42-3-204.

(d) "Identifying placard" has the same meaning as set forth in section 42-3-204.

(e) "Identifying plate" has the same meaning as set forth in section 42-3-204.

(f) "Professional" has the same meaning as set forth in section 42-3-204.

(f.5) "Remuneration-exempt identifying placard" has the same meaning as set forth in section 42-3-204.

(g) "Reserved parking" means a parking space reserved for a person with a disability.

(2) **Use of plate or placard.** (a) A person with a disability may use reserved parking on public property or private property if the person displays an identifying plate or placard while using reserved parking.

(b) When an identifying placard is used for reserved parking, the driver of the parked motor vehicle shall ensure that the front of the identifying placard is legible and visible through the windshield when viewed from outside the vehicle. The driver shall hang the placard from the rear-view mirror unless a rear-view mirror is not available or the individual is physically unable to hang the placard from the rear-view mirror. If the tag is not hung from the rear-view mirror, the driver shall display it on the dashboard.

(c) A person with a disability who is a resident of a state other than Colorado may use reserved parking in Colorado if the motor vehicle displays an identifying plate or placard issued by a state other than Colorado, and if:

(I) The identifying plate or placard is currently valid in the state of issuance and meets the requirements of 23 CFR 1235; and

(II) The holder has not been a resident in Colorado for more than ninety days.

(d) A motor vehicle with an identifying plate or a placard may be parked in public parking areas along public streets or in private parking lots regardless of any time limitation imposed upon parking in the area; except that a jurisdiction may specifically limit reserved parking on any public street to no less than four hours. To limit reserved parking, the jurisdiction must clearly post the appropriate time limits in the area. The ability to park notwithstanding parking limitations does not apply to areas in which:

(I) Stopping, standing, or parking of all vehicles is prohibited;

(II) Only special vehicles may be parked; or

(III) Parking is not allowed during specific periods of the day in order to accommodate heavy traffic.

(e) (I) The owner of public or private property may request the installation of official signs or pavement markings identifying reserved parking spaces. The request operates as a waiver of any objection the owner may assert concerning enforcement of this section by a peace officer. An officer may enforce this section on private property notwithstanding any provision of law to the contrary.

(II) (A) The number and placement of accessible parking spaces should meet or exceed section 1106 of chapter 11 of the 2012 (second printing) version of the international building code, or any succeeding standard, published by the international code council.

(B) The technical standards for accessible parking spaces should meet or exceed section 502, or any successor section, of the "Accessible and Usable Buildings and Facilities" standard, or any succeeding standard, promulgated and amended from time to time by the international code council (commonly cited as ICC/ANSI A117.1).

(C) Access aisles should post a "Wheelchair Access Aisle Absolutely No Parking" sign, which blocks neither the access aisle nor accessible routes.

(D) The technical standards for post- or wall-mounted signs indicating accessible parking spaces and van-accessible parking spaces should meet or exceed section 2B.46

concerning parking, standing, and stopping signs and section 2B.47 concerning design of parking, standing, and stopping of the 2009 version of the manual on uniform traffic control devices, or any succeeding standard, published by the United States federal highway administration.

(III) The owner of real property with multiple-family dwellings affixed and with reserved parking shall retain the reserved parking as commonly owned for the tenants, owners, or visitors of the individual units within the dwellings. This subparagraph (III) does not prohibit the sale of all commonly owned property so long as the reserved parking is not severed from the other elements.

(IV) A person shall not impose restrictions on the use of disabled parking unless specifically authorized by a statute of Colorado and a resolution of or ordinance of a political subdivision of Colorado and notice of the restriction is prominently posted by a sign clearly visible at the parking space.

(3) **Misuse of reserved parking.** (a) A person without a disability shall not park in a parking space on public or private property that is clearly identified by an official sign or by visible pavement markings as being reserved parking or as being a passenger loading zone unless:

(I) The person is parking the vehicle for the direct benefit of a person with a disability to enter or exit the vehicle while it is parked in the reserved parking space; and

(II) An identifying plate or placard obtained under or authorized by section 42-3-204 is displayed in or on the vehicle if the license plate or placard is currently valid or has expired less than one month before the day the person used the reserved parking.

(a.5) A person shall not, while parked in a parking space that requires remuneration, display a remuneration-exempt identifying placard that is not issued to the person. A person who possesses a remuneration-exempt identifying placard shall not allow another person to use the placard to park in a parking space that requires remuneration.

(b) (I) A person, after using a reserved parking space that has a time limit, shall not switch motor vehicles or move the motor vehicle to another reserved parking space within one hundred yards of the original parking space within the same eight hours in order to exceed the time limit.

(II) (A) Parking in a time-limited reserved parking space for more than three hours for at least three days a week for at least two weeks creates a rebuttable presumption that the person is violating this paragraph (b).

(B) This subparagraph (II) does not apply to privately owned parking spaces.

(c) A person shall not use reserved parking for a commercial purpose unless:

(I) The purpose relates to transacting business with a business the reserved parking is intended to serve; or

(II) The owner of private property consents to allow the use.

(d) (I) An employee of an entity shall not use an identifying placard issued to the entity unless the employee is transporting persons with disabilities.

(II) For a violation of this paragraph (d), the chief operations officer within Colorado of the entity to whom the placard or plate was issued and the offending employee are each subject to the penalties in section 42-4-1701 (4)(a)(I)(M).

(III) (A) It is an affirmative defense to a violation of this paragraph (d) for the chief operations officer within Colorado that the entity enforces an internal policy controlling access to and use of identifying placards issued to the entity.

(B) If the placard used is expired by operation of section 42-3-204 (6)(f), it is an affirmative defense to a violation of this paragraph (d) that the person did not know the placard was expired if the person who used the placard was the person to whom it was issued.

(e) (I) A person who violates subsection (3)(a) or (3)(a.5) of this section is subject to the penalties in section 42-4-1701 (4)(a)(VIII) and (4)(a)(IX).

(II) A person who violates paragraphs (b) to (d) of this subsection (3) is subject to the penalties in section 42-4-1701 (4)(a)(I)(M).

(4) **Blocking access.** (a) Regardless of whether a person displays an identifying plate or placard, a person shall not park a vehicle so as to block reasonable access to curb ramps, passenger loading zones, or accessible routes, as identified in 28 CFR part 36 appendix A, that are clearly identified unless the person is actively loading or unloading a person with a disability.

(b) A person who violates this subsection (4) is subject to the penalties in section 42-4-1701 (4)(a)(VIII).

(5) **Fraud and trafficking.** A person is subject to the penalties in section 42-4-1701 (4)(a)(X) if the person:

(a) Knowingly and fraudulently obtains, possesses, uses, or transfers an identifying placard issued to a person with a disability;

(b) Knowingly makes, possesses, uses, alters, or transfers what purports to be, but is not, an identifying placard; or

(c) Knowingly creates or uses a device intended to give the impression that it is an identifying placard when viewed from outside the vehicle.

(6) **Enforcement of reserved parking.** (a) A peace officer or authorized and uniformed parking enforcement official may check the identification of a person using an identifying plate or placard in order to determine whether the use is authorized.

(b) (I) A peace officer or authorized and uniformed parking enforcement official may confiscate an identifying placard that is being used in violation of this section.

(II) The peace officer or parking enforcement official shall send a confiscated placard to the department unless it is being held as evidence for prosecution of a violation of this section. If the tag is being held as evidence, the peace officer or parking enforcement official shall notify the department of the confiscation and pending charges.

(III) The department shall hold a confiscated placard for thirty days and may dispose of the placard after thirty days. The department shall release the placard to the person with a disability to whom it was issued when the person signs a statement under penalty of perjury that he or she was unaware that the violator used, or intended to use, the placard in violation of this section.

(c) A peace officer and the department may investigate an allegation that a person is violating this section.

(d) A person who observes a violation of this section may submit evidence, including a sworn statement, concerning the violation to any law enforcement agency.

(e) (I) A peace officer may issue a penalty assessment notice for a violation of paragraph (b), (c), or (d) of subsection (3) of this section by sending it by certified mail to the registered owner of the motor vehicle. The peace officer shall include in the penalty assessment notice the

offense or infraction, the time and place where it occurred, and a statement that the payment of the penalty assessment and a surcharge is due within twenty days after the issuance of the notice. The department receives payment of the penalty assessment by the due date if the payment is received or postmarked by the twentieth day after the vehicle owner received the penalty assessment notice.

(II) If the penalty assessment and surcharge are not paid within twenty days after the date the vehicle owner receives the assessment notice specified in subparagraph (I) of this paragraph (e), the peace officer who issued the original penalty assessment notice shall file a complaint with a court having jurisdiction and issue and serve upon the registered owner of the vehicle a summons to appear in court at the time and place specified.

(f) (I) The entering court shall send certification of the entry of judgment for each violation of paragraph (b), (c), or (d) of subsection (3) of this section to the department.

(II) Upon receipt of certification of an entry of judgment for a violation of paragraph (b), (c), or (d) of subsection (3) of this section, the department shall not register the person's vehicle until all fines imposed for the violations have been paid.

(III) Upon receipt of certification or independent verification of an entry of judgment, the department shall revoke an identifying plate or placard as provided in section 42-3-204 (7)(d).

(g) (I) Notwithstanding any other provision of this section to the contrary, a holder is liable for any penalty or fine as set forth in this section or section 42-3-204 or for any misuse of an identifying plate or placard, including the use of such plate or placard by any person other than a holder, unless the holder furnishes sufficient evidence that the identifying plate or placard was, at the time of the violation, in the care, custody, or control of another person without the holder's knowledge or consent.

(II) A holder may avoid the liability described in subparagraph (I) of this paragraph (g) if, within a reasonable time after notification of the violation, the holder furnishes to the prosecutorial division of the appropriate jurisdiction the name and address of the person who had the care, custody, or control of the identifying plate or placard at the time of the violation or the holder reports the license plate or placard lost or stolen to both the appropriate local law enforcement agency and the department.

(h) An employer shall not forbid an employee from reporting violations of this section. A person shall not initiate or administer any disciplinary action against an employee because the employee notified the authorities of a possible violation of this section if the employee has a good-faith belief that a violation has occurred.

(i) A landlord shall not retaliate against a tenant because the tenant notified the authorities of a possible violation of this section if the tenant has a good-faith belief that a violation has occurred.

(j) In order to stop a vehicle from blocking access or illegally using reserved parking, a peace officer may order a vehicle that is used to violate subsection (4) of this section to be towed to an impound lot or a vehicle storage location. The peace officer shall verify that the vehicle has not been stolen and report the tow to the department of revenue in accordance with section 42-4-1804.

(k) The state or local authority issuing a citation under this section, or under any local ordinance defining a substantially equivalent offense, shall transfer one-half of the fine to the

state treasurer, who shall credit the fine to the disabled parking education and enforcement fund created in section 42-1-226.

(7) **Statewide concern.** (a) The general assembly finds that access to reserved parking by persons with disabilities ensures that those persons have equal access to goods and services essential for daily life.

(b) The general assembly determines that:

(I) Reserved parking for persons with disabilities is a state-administered program and that identifying license plates and placards are issued under state law;

(II) Because local regulations regarding reserved parking for persons with disabilities vary significantly across jurisdictions, they are inconsistent and confusing for persons with disabilities, medical professionals, peace officers, and members of the general public;

(III) Modern life requires travel across multiple local jurisdictions. Inconsistent local marking and enforcement of reserved parking for persons with disabilities confuses people, which prevents them from fully obeying disabled parking regulations.

(IV) A message disseminated by one political subdivision of the state using modern communication methods will be received by individuals from multiple political subdivisions. Any attempt to use modern communication methods to educate the public on local regulations governing reserved parking for persons with disabilities will result in public exposure to multiple inconsistent, confusing regulations, so education requires uniform regulation across the state, and a statewide effort is needed to educate the public about disabled parking. This effort is funded by fines that are typically issued by local authorities.

(c) The general assembly therefore declares that access to reserved parking by persons with disabilities is a matter of statewide concern and that the provisions set forth in this section preempt any action contrary to this section if the action is adopted by a political subdivision of the state.

42-4-1209. Owner liability for parking violations. (1) In addition to any other liability provided for in this article, the owner of a motor vehicle who is engaged in the business of leasing or renting motor vehicles is liable for payment of a parking violation fine unless the owner of the leased or rented motor vehicle can furnish sufficient evidence that the vehicle was, at the time of the parking violation, in the care, custody, or control of another person. To avoid liability for payment the owner of the motor vehicle is required, within a reasonable time after notification of the parking violation, to furnish to the prosecutorial division of the appropriate jurisdiction the name and address of the person or company who leased, rented, or otherwise had the care, custody, or control of such vehicle. As a condition to avoid liability for payment of a parking violation, any person or company who leases or rents motor vehicles to another person shall attach to the leasing or rental agreement a notice stating that, pursuant to the requirements of this section, the operator of the vehicle is liable for payment of a parking violation fine incurred when the operator has the care, custody, or control of the motor vehicle. The notice shall inform the operator that the operator's name and address shall be furnished to the prosecutorial division of the appropriate jurisdiction when a parking violation fine is incurred by the operator.

42-4-1210. Designated areas on private property for authorized vehicles. (1) The owner or lessee of any private property available for public use in the unincorporated areas of a county may request in writing that specified areas on such property be designated by the board of county commissioners for use only by authorized vehicles and that said areas, upon acceptance in writing by the board of county commissioners, shall be clearly marked by the owner or lessee with official traffic control devices, as defined in section 42-1-102 (64). Such a request shall be a waiver of any objection the owner or lessee may assert concerning enforcement of this section by peace officers of this state, and such officers are hereby authorized and empowered to so enforce this section, provisions of law to the contrary notwithstanding. When the owner or lessee gives written notice to the board of county commissioners that said request is withdrawn, and the owner or lessee removes all traffic control devices, the provisions of this section shall no longer be applicable.

(2) It is unlawful for any person to park any vehicle other than an authorized vehicle in any area designated and marked for such use as provided in this section.

(3) **[Editor's note: This version of subsection (3) is effective until March 1, 2022.]** Any person who violates the provisions of subsection (2) of this section is guilty of a class 2 petty offense and, upon conviction thereof, shall be punished by a fine of twenty-five dollars. The disposition of fines and forfeitures shall be paid into the treasury of the county at such times and in such manner as may be prescribed by the board of county commissioners.

(3) **[Editor's note: This version of subsection (3) is effective March 1, 2022.]** Any person who violates the provisions of subsection (2) of this section commits a class A traffic

infraction. The disposition of fines and forfeitures shall be paid into the treasury of the county at such times and in such manner as may be prescribed by the board of county commissioners.

42-4-1211. Limitations on backing. (1) (a) The driver of a vehicle, whether on public property or private property which is used by the general public for parking purposes, shall not back the same unless such movement can be made with safety and without interfering with other traffic.

(2) Notwithstanding any statute, resolution, or ordinance of the state of Colorado, a political subdivision of Colorado, or a governing board of a state institution of higher education, parking in a space without paying the required remuneration is not a violation of the statute, resolution, or ordinance if the conditions specified in subsection (1) of this section are met.

(3) A law or parking enforcement agency shall withdraw any penalty assessment notice or summons and complaint that is deemed not to be a violation under subsection (2) of this section within five business days after being shown proof that the individual cited has a valid remuneration-exempt identifying placard.

42-4-1213. Parking in electric motor vehicle charging stations - definition. (1) (a) For the purposes of this section, "official sign" means a sign identifying a parking space for electric motor vehicle charging that cites this section or the equivalent local ordinance and that clearly displays the penalties for violating this section or the equivalent local ordinance.

(b) The owner of public or private property may install official signs that identify a parking space as a dedicated charging station. The installation operates as a waiver of any objection the owner may assert concerning enforcement of this section by a peace officer. A peace officer may enforce this section on private property.

(2) (a) A person shall not park a motor vehicle within a parking space designated for charging a plug-in electric motor vehicle unless the motor vehicle is a plug-in electric motor vehicle.

(b) Except as provided in subsection (3) of this section, a person shall not park a plug-in electric motor vehicle in a parking space with a dedicated charging connector for the parking space unless the person is parked in the charging station for the purpose of charging the plug-in electric motor vehicle.

(c) A plug-in electric motor vehicle is rebuttably presumed to not be charging if the motor vehicle is:

(I) Parked in a charging station parking space with a dedicated charging connector for the space; and

(II) Not continuously and electrically connected to the charger for longer than thirty minutes.

(3) (a) A person may park a plug-in electric motor vehicle at a charging station after the motor vehicle is fully charged in a parking lot:

(I) That serves a lodging business if the person is a client of the lodging business and has parked the plug-in electric motor vehicle in the lot to charge overnight;

(II) That serves an airport if the person is a client of the airport and has parked the plug-in electric motor vehicle in the lot to charge when traveling; or

(b) [*Editor's note: This version of subsection (1)(b) is effective March 1, 2022.*] A person who drives a motor vehicle or vehicle while impaired by alcohol or by one or more drugs, or by a combination of alcohol and one or more drugs, commits driving while ability impaired. (c) Repealed.

(d) As used in this section, one or more drugs means any drug, as defined in section 27-80-203 (13), C.R.S., any controlled substance, as defined in section 18-18-102 (5), C.R.S., and any inhaled glue, aerosol, or other toxic vapor or vapors, as defined in section 18-18-412, C.R.S.

(e) The fact that any person charged with a violation of this subsection (1) is or has been entitled to use one or more drugs under the laws of this state, including, but not limited to, the medical use of marijuana pursuant to section 18-18-406.3, C.R.S., shall not constitute a defense against any charge of violating this subsection (1).

(f) "Driving under the influence" means driving a motor vehicle or vehicle when a person has consumed alcohol or one or more drugs, or a combination of alcohol and one or more drugs, that affects the person to a degree that the person is substantially incapable, either mentally or physically, or both mentally and physically, to exercise clear judgment, sufficient physical control, or due care in the safe operation of a vehicle.

(g) "Driving while ability impaired" means driving a motor vehicle or vehicle when a person has consumed alcohol or one or more drugs, or a combination of both alcohol and one or more drugs, that affects the person to the slightest degree so that the person is less able than the person ordinarily would have been, either mentally or physically, or both mentally and physically, to exercise clear judgment, sufficient physical control, or due care in the safe operation of a vehicle.

(h) Pursuant to section 16-2-106, C.R.S., in charging the offense of DUI, it shall be sufficient to describe the offense charged as "drove a vehicle under the influence of alcohol or drugs or both".

(i) Pursuant to section 16-2-106, C.R.S., in charging the offense of DWAI, it shall be sufficient to describe the offense charged as "drove a vehicle while impaired by alcohol or drugs or both".

(j) For the purposes of this section, a person is deemed to have a prior conviction for DUI, DUI per se, or DWAI; vehicular homicide, as described in section 18-3-106 (1)(b), C.R.S.; or vehicular assault, as described in section 18-3-205 (1)(b), C.R.S., if the person has been convicted under the laws of this state or under the laws of any other state, the United States, or any territory subject to the jurisdiction of the United States, of an act that, if committed within this state, would constitute any of these offenses. The prosecution shall set forth such prior convictions in the indictment or information.

(k) Repealed.

(2) (a) **[Editor's note: This version of subsection (2)(a) is effective until March 1, 2022.]** A person who drives a motor vehicle or vehicle when the person's BAC is 0.08 or more at the time of driving or within two hours after driving commits DUI per se. During a trial, if the state's evidence raises the issue, or if a defendant presents some credible evidence, that the defendant consumed alcohol between the time that the defendant stopped driving and the time that testing occurred, such issue shall be an affirmative defense, and the prosecution must establish beyond a reasonable doubt that the minimum 0.08 blood or breath alcohol content required in this paragraph (a) was reached as a result of alcohol consumed by the defendant before the defendant stopped driving. DUI per se is a misdemeanor, but it is a class 4 felony if the violation occurred after three or more prior convictions, arising out of separate and distinct criminal episodes, for DUI, DUI per se, or DWAI; vehicular homicide, as described in section 18-3-106 (1)(b), C.R.S.; vehicular assault, as described in section 18-3-205 (1)(b), C.R.S.; or any combination thereof.

(2) (a) **[Editor's note: This version of subsection (2)(a) is effective March 1, 2022.]** A person who drives a motor vehicle or vehicle when the person's BAC is 0.08 or more at the time of driving or within two hours after driving commits DUI per se. During a trial, if the state's evidence raises the issue, or if a defendant presents some credible evidence, that the defendant consumed alcohol between the time that the defendant stopped driving and the time that testing occurred, such issue shall be an affirmative defense, and the prosecution must establish beyond a reasonable doubt that the minimum 0.08 blood or breath alcohol content required in this

subsection (2)(a) was reached as a result of alcohol consumed by the defendant before the defendant stopped driving. DUI per se is a traffic misdemeanor, but it is a class 4 felony if the violation occurred after three or more prior convictions, arising out of separate and distinct criminal episodes, for DUI, DUI per se, or DWAI; vehicular homicide, as described in section 18-3-106 (1)(b); vehicular assault, as described in section 18-3-205 (1)(b); or any combination thereof.

(a.5) Repealed.

(b) In any prosecution for the offense of DUI per se, the defendant shall be entitled to offer direct and circumstantial evidence to show that there is a disparity between what any tests show and other facts so that the trier of fact could infer that the tests were in some way defective or inaccurate. Such evidence may include testimony of nonexpert witnesses relating to the absence of any or all of the common symptoms or signs of intoxication for the purpose of impeachment of the accuracy of the analysis of the person's blood or breath.

(c) Pursuant to section 16-2-106, C.R.S., in charging the offense of DUI per se, it shall be sufficient to describe the offense charged as "drove a vehicle with excessive alcohol content".

(d) (I) It is a class A traffic infraction for any person under twenty-one years of age to drive a motor vehicle or vehicle when the person's BAC, as shown by analysis of the person's breath, is at least 0.02 but not more than 0.05 at the time of driving or within two hours after driving. The court, upon sentencing a defendant pursuant to this subparagraph (I), may order, in addition to any penalty imposed under a class A traffic infraction, that the defendant perform up to twenty-four hours of useful public service, subject to the conditions and restrictions of section 18-1.3-507, C.R.S., and may further order that the defendant submit to and complete an alcohol evaluation or assessment, an alcohol education program, or an alcohol treatment program at such defendant's own expense.

(II) A second or subsequent violation of this paragraph (d) is a class 2 traffic misdemeanor.

(3) The offenses described in subsections (1) and (2) of this section are strict liability offenses.

(4) No court shall accept a plea of guilty to a non-alcohol-related or non-drug-related traffic offense or guilty to the offense of UDD from a person charged with DUI or DUI per se; except that the court may accept a plea of guilty to a non-alcohol-related or non-drug-related traffic offense or to UDD upon a good faith representation by the prosecuting attorney that the attorney could not establish a prima facie case if the defendant were brought to trial on the original alcohol-related or drug-related offense.

(5) Notwithstanding the provisions of section 18-1-408, C.R.S., during a trial of any person accused of both DUI and DUI per se, the court shall not require the prosecution to elect between the two violations. The court or a jury may consider and convict the person of either DUI or DWAI, or DUI per se, or both DUI and DUI per se, or both DWAI and DUI per se. If the person is convicted of more than one violation, the sentences imposed shall run concurrently.

(6) (a) In any prosecution for DUI or DWAI, the defendant's BAC or drug content at the time of the commission of the alleged offense or within a reasonable time thereafter gives rise to the following presumptions or inferences:

(I) If at such time the defendant's BAC was 0.05 or less, it shall be presumed that the defendant was not under the influence of alcohol and that the defendant's ability to operate a motor vehicle or vehicle was not impaired by the consumption of alcohol.

(II) If at such time the defendant's BAC was in excess of 0.05 but less than 0.08, such fact gives rise to the permissible inference that the defendant's ability to operate a motor vehicle or vehicle was impaired by the consumption of alcohol, and such fact may also be considered with other competent evidence in determining whether or not the defendant was under the influence of alcohol.

(III) If at such time the defendant's BAC was 0.08 or more, such fact gives rise to the permissible inference that the defendant was under the influence of alcohol.

(IV) If at such time the driver's blood contained five nanograms or more of delta 9-tetrahydrocannabinol per milliliter in whole blood, as shown by analysis of the defendant's blood, such fact gives rise to a permissible inference that the defendant was under the influence of one or more drugs.

(b) The limitations of this subsection (6) shall not be construed as limiting the introduction, reception, or consideration of any other competent evidence bearing upon the question of whether or not the defendant was under the influence of alcohol or whether or not the defendant's ability to operate a motor vehicle or vehicle was impaired by the consumption of alcohol.

(c) (I) In all actions, suits, and judicial proceedings in any court of this state concerning alcohol-related or drug-related traffic offenses, the court shall take judicial notice of methods of testing a person's alcohol or drug level and of the design and operation of devices, as certified by the department of public health and environment, for testing a person's blood, breath, saliva, or urine to determine such person's alcohol or drug level. The department of public health and environment may, by rule, determine that, because of the reliability of the results from certain devices, the collection or preservation of a second sample of a person's blood, saliva, or urine or the collection and preservation of a delayed breath alcohol specimen is not required.

(II) Nothing in this paragraph (c) prevents the necessity of establishing during a trial that the testing devices used were working properly and were properly operated. Nothing in this paragraph (c) precludes a defendant from offering evidence concerning the accuracy of testing devices.

(III) The database compiled by the department of public health and environment containing personal identifying information relating to the results of tests of persons' breath alcohol content, and all personal identifying information thereof, are not public information. The department of public health and environment shall disclose such information only to:

(A) The individual who is the subject of the test, or to his or her legal representative;

(B) A named interested party in a civil or criminal action in which the test results are directly related, or to his or her legal representative;

(C) Any prosecuting attorney, law enforcement officer, state agency, or state and local public official legally authorized to utilize such information to carry out his or her duties; or

(D) Any party who obtains an order in a pending civil or criminal case if the court finds the party has shown good cause to have the information. In determining whether there is good cause, the court shall consider whether the materials sought exist; whether the materials sought are evidentiary and relevant; whether the materials are not otherwise procurable reasonably in advance of the proceeding by the exercise of due diligence; whether the party cannot properly prepare for the proceeding without such production and inspection in advance of the proceeding, and the failure to obtain such inspection may tend to unreasonably delay the proceeding; and

whether the request for the information is made in good faith and is not for the purposes of general discovery.

(IV) The department of public health and environment may release nonpersonal identifying information from the database in accordance with sections 24-72-101 to 24-72-402, C.R.S.

(d) If a person refuses to take or to complete, or to cooperate with the completing of, any test or tests as provided in section 42-4-1301.1 and such person subsequently stands trial for DUI or DWAI, the refusal to take or to complete, or to cooperate with the completing of, any test or tests shall be admissible into evidence at the trial, and a person may not claim the privilege against self-incrimination with regard to admission of refusal to take or to complete, or to cooperate with the completing of, any test or tests.

(e) **Involuntary blood test - admissibility.** Evidence acquired through an involuntary blood test pursuant to section 42-4-1301.1 (3) shall be admissible in any prosecution for DUI, DUI per se, DWAI, or UDD, and in any prosecution for criminally negligent homicide pursuant to section 18-3-105, C.R.S., vehicular homicide pursuant to section 18-3-106 (1)(b), C.R.S., assault in the third degree pursuant to section 18-3-204, C.R.S., or vehicular assault pursuant to section 18-3-205 (1)(b), C.R.S.

(f) **Chemical test - admissibility.** Strict compliance with the rules and regulations prescribed by the department of public health and environment shall not be a prerequisite to the admissibility of test results at trial unless the court finds that the extent of noncompliance with a board of health rule has so impaired the validity and reliability of the testing method and the test results as to render the evidence inadmissible. In all other circumstances, failure to strictly comply with such rules and regulations shall only be considered in the weight to be given to the test results and not to the admissibility of such test results.

(g) It shall not be a prerequisite to the admissibility of test results at trial that the prosecution present testimony concerning the composition of any kit used to obtain blood, urine, saliva, or breath specimens. A sufficient evidentiary foundation concerning the compliance of such kits with the rules and regulations of the department of public health and environment shall be established by the introduction of a copy of the manufacturer's or supplier's certificate of compliance with such rules and regulations if such certificate specifies the contents, sterility, chemical makeup, and amounts of chemicals contained in such kit.

(h) In any trial for a violation of this section, the testimony of a law enforcement officer that he or she witnessed the taking of a blood specimen by a person who the law enforcement officer reasonably believed was authorized to withdraw blood specimens shall be sufficient evidence that such person was so authorized, and testimony from the person who obtained the blood specimens concerning such person's authorization to obtain blood specimens shall not be a prerequisite to the admissibility of test results concerning the blood specimens obtained.

(i) (I) Following the lawful contact with a person who has been driving a motor vehicle or vehicle and when a law enforcement officer reasonably suspects that a person was driving a motor vehicle or vehicle while under the influence of or while impaired by alcohol, the law enforcement officer may conduct a preliminary screening test using a device approved by the executive director of the department of public health and environment after first advising the driver that the driver may either refuse or agree to provide a sample of the driver's breath for such preliminary test; except that, if the driver is under twenty-one years of age, the law enforcement officer may, after providing such advisement to the person, conduct such

preliminary screening test if the officer reasonably suspects that the person has consumed any alcohol.

(II) The results of this preliminary screening test may be used by a law enforcement officer in determining whether probable cause exists to believe such person was driving a motor vehicle or vehicle in violation of this section and whether to administer a test pursuant to section 42-4-1301.1 (2).

(III) Neither the results of such preliminary screening test nor the fact that the person refused such test shall be used in any court action except in a hearing outside of the presence of a jury, when such hearing is held to determine if a law enforcement officer had probable cause to believe that the driver committed a violation of this section. The results of such preliminary screening test shall be made available to the driver or the driver's attorney on request.

(j) In any trial for a violation of this section, if, at the time of the alleged offense, the person possessed a valid medical marijuana registry identification card, as defined in section 25-1.5-106 (2)(e), C.R.S., issued to himself or herself, the prosecution shall not use such fact as part of the prosecution's case in chief.

(k) In any traffic stop, the driver's possession of a valid medical marijuana registry identification card, as defined in section 25-1.5-106 (2)(e), C.R.S., issued to himself or herself shall not, in the absence of other contributing factors, constitute probable cause for a peace officer to require the driver to submit to an analysis of his or her blood.

(7) Repealed.

(8) A second or subsequent violation of this section committed by a person under eighteen years of age may be filed in juvenile court.

42-4-1301.1. Expressed consent for the taking of blood, breath, urine, or saliva sample - testing - fund - rules - repeal. (1) Any person who drives any motor vehicle upon the streets and highways and elsewhere throughout this state shall be deemed to have expressed such person's consent to the provisions of this section.

(2) (a) (I) A person who drives a motor vehicle upon the streets and highways and elsewhere throughout this state shall be required to take and complete, and to cooperate in the taking and completing of, any test or tests of the person's breath or blood for the purpose of determining the alcoholic content of the person's blood or breath when so requested and directed

by a law enforcement officer having probable cause to believe that the person was driving a motor vehicle in violation of the prohibitions against DUI, DUI per se, DWAI, or UDD. Except as otherwise provided in this section, if a person who is twenty-one years of age or older requests that the test be a blood test, then the test shall be of his or her blood; but, if the person requests that a specimen of his or her blood not be drawn, then a specimen of the person's breath shall be obtained and tested. A person who is under twenty-one years of age shall be entitled to request a blood test unless the alleged violation is UDD, in which case a specimen of the person's breath shall be obtained and tested, except as provided in subparagraph (II) of this paragraph (a).

(II) Except as otherwise provided in paragraph (a.5) of this subsection (2), if a person elects either a blood test or a breath test, the person shall not be permitted to change the election, and, if the person fails to take and complete, and to cooperate in the completing of, the test elected, the failure shall be deemed to be a refusal to submit to testing. If the person is unable to take, or to complete, or to cooperate in the completing of a breath test because of injuries, illness, disease, physical infirmity, or physical incapacity, or if the person is receiving medical treatment at a location at which a breath testing instrument certified by the department of public health and environment is not available, the test shall be of the person's blood.

(III) If a law enforcement officer requests a test under this paragraph (a), the person must cooperate with the request such that the sample of blood or breath can be obtained within two hours of the person's driving.

(a.5) (I) If a law enforcement officer who requests a person to take a breath or blood test under paragraph (a) of this subsection (2) determines there are extraordinary circumstances that prevent the completion of the test elected by the person within the two-hour time period required by subparagraph (III) of paragraph (a) of this subsection (2), the officer shall inform the person of the extraordinary circumstances and request and direct the person to take and complete the other test described in paragraph (a) of this subsection (2). The person shall then be required to take and complete, and to cooperate in the completing of, the other test.

(II) A person who initially requests and elects to take a blood or breath test, but who is requested and directed by the law enforcement officer to take the other test because of the extraordinary circumstances described in subparagraph (I) of this paragraph (a.5), may change his or her election for the purpose of complying with the officer's request. The change in the election of which test to take shall not be deemed to be a refusal to submit to testing.

(III) If the person fails to take and complete, and to cooperate in the completing of, the other test requested by the law enforcement officer pursuant to subparagraph (I) of this paragraph (a.5), the failure shall be deemed to be a refusal to submit to testing.

(IV) (A) As used in this paragraph (a.5), "extraordinary circumstances" means circumstances beyond the control of, and not created by, the law enforcement officer who requests and directs a person to take a blood or breath test in accordance with this subsection (2) or the law enforcement authority with whom the officer is employed.

(B) "Extraordinary circumstances" includes, but shall not be limited to, weather-related delays, high call volume affecting medical personnel, power outages, malfunctioning breath test equipment, and other circumstances that preclude the timely collection and testing of a blood or breath sample by a qualified person in accordance with law.

(C) "Extraordinary circumstances" does not include inconvenience, a busy workload on the part of the law enforcement officer or law enforcement authority, minor delay that does not

compromise the two-hour test period specified in subparagraph (III) of paragraph (a) of this subsection (2), or routine circumstances that are subject to the control of the law enforcement officer or law enforcement authority.

(b) (I) Any person who drives any motor vehicle upon the streets and highways and elsewhere throughout this state shall be required to submit to and to complete, and to cooperate in the completing of, a test or tests of such person's blood, saliva, and urine for the purpose of determining the drug content within the person's system when so requested and directed by a law enforcement officer having probable cause to believe that the person was driving a motor vehicle in violation of the prohibitions against DUI or DWAI and when it is reasonable to require such testing of blood, saliva, and urine to determine whether such person was under the influence of, or impaired by, one or more drugs, or one or more controlled substances, or a combination of both alcohol and one or more drugs, or a combination of both alcohol and one or more controlled substances.

(II) If a law enforcement officer requests a test under this paragraph (b), the person must cooperate with the request such that the sample of blood, saliva, or urine can be obtained within two hours of the person's driving.

(3) Any person who is required to take and to complete, and to cooperate in the completing of, any test or tests shall cooperate with the person authorized to obtain specimens of such person's blood, breath, saliva, or urine, including the signing of any release or consent forms required by any person, hospital, clinic, or association authorized to obtain such specimens. If such person does not cooperate with the person, hospital, clinic, or association authorized to obtain such specimens, including the signing of any release or consent forms, such noncooperation shall be considered a refusal to submit to testing. No law enforcement officer shall physically restrain any person for the purpose of obtaining a specimen of such person's blood, breath, saliva, or urine for testing except when the officer has probable cause to believe that the person has committed criminally negligent homicide pursuant to section 18-3-105, C.R.S., vehicular homicide pursuant to section 18-3-106 (1)(b), C.R.S., assault in the third degree pursuant to section 18-3-204, C.R.S., or vehicular assault pursuant to section 18-3-205 (1)(b), C.R.S., and the person is refusing to take or to complete, or to cooperate in the completing of, any test or tests, then, in such event, the law enforcement officer may require a blood test.

(4) Any driver of a commercial motor vehicle requested to submit to a test as provided in paragraph (a) or (b) of subsection (2) of this section shall be warned by the law enforcement officer requesting the test that a refusal to submit to the test shall result in an out-of-service order as defined under section 42-2-402 (8) for a period of twenty-four hours and a revocation of the privilege to operate a commercial motor vehicle for one year as provided under section 42-2-126.

(5) The tests shall be administered at the direction of a law enforcement officer having probable cause to believe that the person had been driving a motor vehicle in violation of section 42-4-1301 and in accordance with rules and regulations prescribed by the department of public health and environment concerning the health of the person being tested and the accuracy of such testing.

(6) (a) No person except a physician, a registered nurse, an emergency medical service provider certified or licensed under part 2 of article 3.5 of title 25 who is authorized within his or her scope of practice to draw blood, or a person whose normal duties include withdrawing blood

samples under the supervision of a physician or registered nurse shall withdraw blood to determine the alcohol or drug content of the blood for purposes of this section.

(b) No civil liability shall attach to any person authorized to obtain blood, breath, saliva, or urine specimens or to any hospital, clinic, or association in or for which such specimens are obtained as provided in this section as a result of the act of obtaining such specimens from any person submitting thereto if such specimens were obtained according to the rules and regulations prescribed by the department of public health and environment; except that this provision shall not relieve any such person from liability for negligence in the obtaining of any specimen sample.

(7) A preliminary screening test conducted by a law enforcement officer pursuant to section 42-4-1301 (6)(i) shall not substitute for or qualify as the test or tests required by subsection (2) of this section.

(8) Any person who is dead or unconscious shall be tested to determine the alcohol or drug content of the person's blood or any drug content within such person's system as provided in this section. If a test cannot be administered to a person who is unconscious, hospitalized, or undergoing medical treatment because the test would endanger the person's life or health, the law enforcement agency shall be allowed to test any blood, urine, or saliva that was obtained and not utilized by a health-care provider and shall have access to that portion of the analysis and results of any tests administered by such provider that shows the alcohol or drug content of the person's blood, urine, or saliva or any drug content within the person's system. Such test results shall not be considered privileged communications, and the provisions of section 13-90-107, C.R.S., relating to the physician-patient privilege shall not apply. Any person who is dead, in addition to the tests prescribed, shall also have the person's blood checked for carbon monoxide content and for the presence of drugs, as prescribed by the department of public health and environment. Such information obtained shall be made a part of the accident report.

(9) (a) There is created in the state treasury the evidential breath-testing cash fund, referred to in this section as the "fund", for the collection of moneys to purchase breath-testing devices for law enforcement agencies. The fund includes any moneys appropriated to the fund by the general assembly and any moneys credited to the fund pursuant to paragraph (c) of this subsection (9). The moneys in the fund are subject to annual appropriation by the general assembly to the department of public health and environment created in section 25-1-102, C.R.S., for the purposes described in this subsection (9).

(b) All interest derived from the deposit and investment of moneys in the fund must remain in the fund. Any unexpended or unencumbered moneys remaining in the fund at the end of a fiscal year must remain in the fund and not be transferred or credited to the general fund or another fund; except that any such unexpended and unencumbered moneys in excess of two million dollars must be credited to the general fund.

(c) The department of public health and environment is authorized to accept any gifts, grants, or donations from any private or public source on behalf of the state for the purposes described in this section. The department of public health and environment shall transmit all such gifts, grants, and donations to the state treasurer, who shall credit the same to the fund.

(d) The state board of health created in section 25-1-103, C.R.S., may promulgate rules for the administration of the fund for the purposes described in this subsection (9).

(e) This subsection (9) is repealed, effective September 1, 2024. Before repeal, the department of regulatory agencies, pursuant to 24-34-104, shall review the use of the fund by the department of public health and environment for the purposes described in this subsection (9).

42-4-1301.3. Alcohol and drug driving safety program - definition. (1) (a) Upon conviction of a violation of section 42-4-1301, the court shall sentence the defendant in accordance with the provisions of this section and other applicable provisions of this part 13. The court shall consider the alcohol and drug evaluation required pursuant to this section prior to sentencing; except that the court may proceed to immediate sentencing without considering such alcohol and drug evaluation:

(I) (A) If the defendant has no prior convictions or pending charges under this section; or
(B) If the defendant has one or more prior convictions, the prosecuting attorney and the defendant have stipulated to such conviction or convictions; and

(II) If neither the defendant nor the prosecuting attorney objects.

(b) If the court proceeds to immediate sentencing, without considering an alcohol and drug evaluation, the alcohol and drug evaluation shall be conducted after sentencing, and the court shall order the defendant to complete the education and treatment program recommended in the alcohol and drug evaluation. If the defendant disagrees with the education and treatment program recommended in the alcohol and drug evaluation, the defendant may request the court to hold a hearing to determine which education and treatment program should be completed by the defendant.

(2) (Deleted by amendment, L. 2011, (HB 11-1268), ch. 267, p. 1217, § 1, effective June 2, 2011.)

(3) (a) The judicial department shall administer in each judicial district an alcohol and drug driving safety program that provides presentence and postsentence alcohol and drug evaluations on all persons convicted of a violation of section 42-4-1301. The alcohol and drug driving safety program shall further provide supervision and monitoring of all such persons whose sentences or terms of probation require completion of a program of alcohol and drug driving safety education or treatment.

(b) The presentence and postsentence alcohol and drug evaluations shall be conducted by such persons determined by the judicial department to be qualified to provide evaluation and supervision services as described in this section.

(c) (I) An alcohol and drug evaluation shall be conducted on all persons convicted of a violation of section 42-4-1301, and a copy of the report of the evaluation shall be provided to such person. The report shall be made available to and shall be considered by the court prior to sentencing unless the court proceeds to immediate sentencing pursuant to the provisions of subsection (1) of this section.

(II) The report shall contain the defendant's prior traffic record, characteristics and history of alcohol or drug problems, and amenability to rehabilitation. The report shall include a recommendation as to alcohol and drug driving safety education or treatment for the defendant.

(III) The alcohol evaluation shall be conducted and the report prepared by a person who is trained and knowledgeable in the diagnosis of chemical dependency. Such person's duties may also include appearing at sentencing and probation hearings as required, referring defendants to education and treatment agencies in accordance with orders of the court, monitoring defendants in education and treatment programs, notifying the probation department and the court of any defendant failing to meet the conditions of probation or referral to education or treatment, appearing at revocation hearings as required, and providing assistance in data reporting and program evaluation.

(IV) For the purpose of this section, "alcohol and drug driving safety education or treatment" means either level I or level II education or treatment programs approved by the office of behavioral health in the department of human services. Level I programs are short-term, didactic education programs. Level II programs are therapeutically oriented education, long-term outpatient, and comprehensive residential programs. The court shall instruct a defendant sentenced to level I or level II programs to meet all financial obligations of the programs. If the financial obligations are not met, the program shall notify the sentencing court for the purpose of collection or review and further action on the defendant's sentence. Nothing in this section prohibits treatment agencies from applying to the state for money to recover the costs of level II treatment for defendants determined indigent by the court.

(4) (a) There is created an alcohol and drug driving safety program fund in the office of the state treasurer, referred to in this subsection (4) as the "fund". The fund consists of money deposited in it as directed by this subsection (4)(a). The assessment in effect on July 1, 1998, remains in effect unless the judicial department and the office of behavioral health in the department of human services have provided the general assembly with a statement of the cost of the program, including costs of administration for the past and current fiscal year to include a proposed change in the assessment. The general assembly shall then consider the proposed new assessment and approve the amount to be assessed against each person during the following fiscal year in order to ensure that the alcohol and drug driving safety program established in this section is financially self-supporting. Any adjustment in the amount to be assessed must be noted in the appropriation to the judicial department and the office of behavioral health in the department of human services as a footnote or line item related to this program in the general appropriation bill. The state auditor shall periodically audit the costs of the programs to determine that they are reasonable and that the rate charged is accurate based on these costs. Any other fines, fees, or costs levied against a person are not part of the program fund. The court shall transmit to the state treasurer the amount assessed for the alcohol and drug evaluation to be

credited to the fund. Fees charged pursuant to section 27-81-106 (1) to approved alcohol and drug treatment facilities that provide level I and level II programs as provided in subsection (3)(c) of this section must be transmitted to the state treasurer, who shall credit the fees to the fund. Upon appropriation by the general assembly, the money must be expended by the judicial department and the office of behavioral health in the department of human services for the administration of the alcohol and drug driving safety program. In administering the alcohol and drug driving safety program, the judicial department is authorized to contract with any agency for any services the judicial department deems necessary. Money deposited in the fund remains in the fund to be used for the purposes set forth in this section and must not revert or transfer to the general fund except by further act of the general assembly.

(b) The judicial department shall ensure that qualified personnel are placed in the judicial districts. The judicial department and the office of behavioral health in the department of human services shall jointly develop and maintain criteria for evaluation techniques, treatment referral, data reporting, and program evaluation.

(c) The alcohol and drug driving safety program shall cooperate in providing services to a defendant who resides in a judicial district other than the one in which the arrest was made. Alcohol and drug driving safety programs may cooperate in providing services to any defendant who resides at a location closer to another judicial district's program. The requirements of this section shall not apply to persons who are not residents of Colorado at the time of sentencing.

(d) Notwithstanding any provision of paragraph (a) of this subsection (4) to the contrary, on March 5, 2003, the state treasurer shall deduct one million dollars from the alcohol and drug driving safety program fund and transfer such sum to the general fund.

(5) The provisions of this section are also applicable to any defendant who receives a diversion in accordance with section 18-1.3-101, C.R.S., or who receives a deferred sentence in accordance with section 18-1.3-102, C.R.S., and the completion of any stipulated alcohol evaluation, level I or level II education program, or level I or level II treatment program to be completed by the defendant shall be ordered by the court in accordance with the conditions of such deferred prosecution or deferred sentence as stipulated to by the prosecution and the defendant.

(6) An approved alcohol or drug treatment facility that provides level I or level II programs as provided in paragraph (c) of subsection (3) of this section shall not require a person to repeat any portion of an alcohol and drug driving safety education or treatment program that he or she has successfully completed while he or she was imprisoned for the current offense.

Additionally, the court shall consider whether all other reasonable and appropriate sanctions and responses to the violation that are available to the court have been exhausted, do not appear likely to be successful if tried, or present an unacceptable risk to public safety.

(6.7) *[Editor's note: Subsection (6.7) is effective March 1, 2022.]* Notwithstanding any other provisions of this section, if a judge finds there are exceptional circumstances which would make incarceration in a jail a substantial and imminent risk to the health or safety of an offender, or, when so advised by the sheriff, to the health, safety, or security of the jail operations or persons in the jail, the court shall make findings on the record of the exceptional circumstances and may employ any alternative sentences, including home detention. If an offender requests the court find exceptional circumstances based on the risk to the offender's health or safety, the offender shall expressly waive any confidentiality as to the medical or other health information that establishes the basis for the exceptional circumstances.

(II) Any imprisonment imposed upon a person by the court pursuant to paragraph (a) of this subsection (7) must be imposed in a manner that promotes the person's compliance with the conditions of his or her probation and not merely as a punitive measure.

(d) The prosecution, the person, the person's counsel, or the person's probation officer may petition the court at any time for an early termination of the period of probation, which the court may grant upon a finding of the court that:

(I) The person has successfully completed a level II alcohol and drug driving safety education or treatment program pursuant to subparagraph (I) of paragraph (b) of this subsection (7);

(a) A person riding a bicycle, electrical assisted bicycle, or electric scooter and approaching an intersection of a roadway with a stop sign shall slow down and, if required for safety, stop before entering the intersection. If a stop is not required for safety, the person shall slow to a reasonable speed and yield the right-of-way to any traffic or pedestrian in or approaching the intersection. After the person has slowed to a reasonable speed and yielded the right-of-way if required, the person may cautiously make a turn or proceed through the intersection without stopping.

(b) For purposes of this subsection (1), a reasonable speed is fifteen miles per hour or less. A municipality, by ordinance, or a county, by resolution, may reduce the maximum reasonable speed at any individual intersection to ten miles per hour or raise the maximum

(c) (I) The penalty and surcharge schedules of subsection (4) of this section and the penalty assessment notice provisions of paragraphs (a) and (b) of this subsection (5) shall not apply to violations constituting misdemeanors, petty offenses, or misdemeanor traffic offenses not specified in said subsection (4) of this section, nor shall they apply to the violations constituting misdemeanors, petty offenses, misdemeanor traffic offenses, or traffic infractions specified in said subsection (4) of this section when it appears that:

(A) (Deleted by amendment, L. 96, p. 580, § 4, effective May 25, 1996.)

(B) In a violation of section 42-4-1101 (1) or (8)(b), the defendant exceeded the reasonable and prudent speed or the maximum lawful speed of seventy-five miles per hour by more than twenty-four miles per hour;

(C) The alleged violation has caused, or contributed to the cause of, an accident resulting in appreciable damage to property of another or in injury or death to any person;

(D) The defendant has, in the course of the same transaction, violated one of the provisions of this title specified in the penalty and surcharge schedules in subsection (4) of this section and has also violated one or more provisions of this title not so specified, and the peace officer charges such defendant with two or more violations, any one of which is not specified in the penalty and surcharge schedules in subsection (4) of this section.

(II) In all cases where this paragraph (c) prohibits the issuance of a penalty assessment notice, the penalty and surcharge schedule contained in subparagraph (I) of paragraph (a) of subsection (4) of this section shall be inapplicable; except that the penalty and surcharge provided in the schedule contained in sub-subparagraph (B) of subparagraph (I) of paragraph (a) of subsection (4) of this section for any violation of section 42-3-121 (1)(a) shall always apply to such a violation. In all cases where the penalty and surcharge schedule contained in subparagraph (I) of paragraph (a) of subsection (4) of this section is inapplicable, the provisions of subsection (3) of this section shall apply.

(d) In addition to any other cases governed by this section, the penalty and surcharge schedule contained in subparagraph (I) of paragraph (a) of subsection (4) of this section shall apply in the following cases:

(I) In all cases in which a peace officer was authorized by the provisions of this subsection (5) to offer a penalty assessment notice for the commission of a misdemeanor, petty offense, or misdemeanor traffic offense but such peace officer chose not to offer such penalty assessment notice;

(II) In all cases involving the commission of a misdemeanor, petty offense, or misdemeanor traffic offense in which a penalty assessment notice was offered by a peace officer but such penalty assessment notice was refused by the defendant.

(6) An officer coming upon an unattended vehicle that is in apparent violation of any provision of the state motor vehicle law may place upon the vehicle a penalty assessment notice indicating the offense or infraction and directing the owner or operator of the vehicle to remit the penalty assessment provided for by subsection (4) of this section and the surcharges thereon pursuant to sections 24-4.1-119 (1)(f) and 24-4.2-104 (1), C.R.S., to the Colorado department of revenue within ten days. If the penalty assessment and surcharge thereon is not paid within ten days of the issuance of the notice, the department shall mail a notice to the registered owner of the vehicle, setting forth the offense or infraction and the time and place where it occurred and directing the payment of the penalty assessment and surcharge thereon within twenty days from the issuance of the notice. If the penalty assessment and surcharge thereon is not paid within the twenty days from the date of mailing of such notice, the department shall request the police officer who issued the original penalty assessment notice to file a complaint with a court having jurisdiction and issue and serve upon the registered owner of the vehicle a summons to appear in court at a time and place specified therein as in the case of other offenses or infractions.

(7) Notwithstanding the provisions of paragraph (b) of subsection (5) of this section, receipt of payment by mail by the department or postmarking such payment on or prior to the

twentieth day after the receipt of the penalty assessment notice by the defendant shall be deemed to constitute receipt on or before the date the payment was due.

(8) The surcharges described in subsections (4) to (6) of this section are separate and distinct from a surcharge levied pursuant to section 24-33.5-415.6, C.R.S.

(a) Whenever a person commits a violation of this title punishable as a misdemeanor, petty offense, or misdemeanor traffic offense, other than a violation for which a penalty assessment notice may be issued in accordance with the provisions of section 42-4-1701 (5)(a), and such person is not required by the provisions of section 42-4-1705 to be arrested and taken without unnecessary delay before a county judge, the peace officer may issue and serve upon the defendant a summons and complaint which must contain the name and address of the defendant, the license number of the vehicle involved, if any, the number of the defendant's driver's license, if any, a citation of the statute alleged to have been violated, a brief description of the offense, the date and approximate location thereof, and the date the summons and complaint is served on the defendant; direct the defendant to appear in a specified county court at a specified time and

place; and be signed by the peace officer. The summons and complaint submitted to the department of revenue and the county court before which appearance is required, either by paper or electronic submission, must contain the name and address of the defendant, the license of the vehicle involved, if any, and the number of the defendant's driver's license, if any.

(b) A summons and complaint issued and served pursuant to paragraph (a) of this subsection (1) on a minor under the age of eighteen years shall also contain or be accompanied by a document containing an advisement to the minor that the minor's parent or legal guardian, if known, shall be notified by the court from which the summons is issued and be required to appear with the minor at the minor's court hearing or hearings.

(2) If a peace officer issues and serves a summons and complaint to appear in any court upon the defendant as described in subsection (1) of this section, any defect in form in such summons and complaint regarding the name and address of the defendant, the license number of the vehicle involved, if any, the number of the defendant's driver's license, if any, the date and approximate location thereof, and the date the summons and complaint is served on the defendant may be cured by amendment at any time prior to trial or any time before verdict or findings upon an oral motion by the prosecuting attorney after notice to the defendant and an opportunity for a hearing. No such amendment shall be permitted if substantial rights of the defendant are prejudiced. No summons and complaint shall be considered defective so as to be cause for dismissal solely because of a defect in form in such summons and complaint as described in this subsection (2).

(3) (a) Whenever a penalty assessment notice for a misdemeanor, petty offense, or misdemeanor traffic offense is issued pursuant to section 42-4-1701 (5)(a), the penalty assessment notice that shall be served upon the defendant by the peace officer shall contain the name and address of the defendant, the license number of the vehicle involved, if any, the number of the defendant's driver's license, if any, a citation of the statute alleged to have been violated, a brief description of the offense, the date and approximate location thereof, the amount of the penalty prescribed for the offense, the amount of the surcharges thereon pursuant to sections 24-4.1-119 (1)(f), 24-4.2-104 (1), and 24-33.5-415.6, C.R.S., the number of points, if any, prescribed for the offense pursuant to section 42-2-127, and the date the penalty assessment notice is served on the defendant; shall direct the defendant to appear in a specified county court at a specified time and place in the event the penalty and surcharges thereon are not paid; shall be signed by the peace officer; and shall contain a place for the defendant to elect to execute a signed acknowledgment of guilt and an agreement to pay the penalty prescribed and surcharges thereon within twenty days, as well as such other information as may be required by law to constitute the penalty assessment notice to be a summons and complaint, should the prescribed penalty and surcharges thereon not be paid within the time allowed in section 42-4-1701.

(a.5) A penalty assessment notice issued and served pursuant to paragraph (a) of this subsection (3) on a minor under the age of eighteen years shall also contain or be accompanied by a document containing:

(I) A preprinted declaration stating that the minor's parent or legal guardian has reviewed the contents of the penalty assessment notice with the minor;

(III) An advisement to the minor that:

(A) The minor shall, within seventy-two hours after service of the penalty assessment notice, inform his or her parent or legal guardian that the minor has received a penalty assessment notice;

(B) The parent or legal guardian of the minor is required by law to review and sign the penalty assessment notice and to have his or her signature duly acknowledged by a notary public; and

(C) Noncompliance with the requirement set forth in sub-subparagraph (B) of this subparagraph (III) shall result in the minor and the parent or legal guardian of the minor being required to appear in court pursuant to sections 42-4-1710 (1)(b), 42-4-1710 (1.5), and 42-4-1716 (4).

(b) One copy of said penalty assessment notice shall be served upon the defendant by the peace officer and one copy sent to the supervisor within the department and such other copies sent as may be required by rule of the department to govern the internal administration of this article between the department and the Colorado state patrol.

(b) The time specified in the summons portion of said penalty assessment notice shall be at least thirty days but not more than ninety days after the date such penalty assessment notice is served, unless the defendant shall demand an earlier court appearance date.

(5) The place specified in the summons portion of said summons and complaint or of the penalty assessment notice must be a county court within the county in which the offense is alleged to have been committed.

(6) If the defendant is otherwise eligible to be issued a summons and complaint or a penalty assessment notice for a violation of this title punishable as a misdemeanor, petty offense, or misdemeanor traffic offense and if the defendant does not possess a valid Colorado driver's license, the defendant, in order to secure release, as provided in this section, must either consent to be taken by the officer to the nearest mailbox and to mail the amount of the penalty and surcharges thereon to the department or must execute a promise to appear in court on the penalty assessment notice or on the summons and complaint. If the defendant does possess a valid Colorado driver's license, the defendant shall not be required to execute a promise to appear on the penalty assessment notice or on the summons and complaint. The peace officer shall not require any person who is eligible to be issued a summons and complaint or a penalty assessment notice for a violation of this title to produce or divulge such person's social security number.

(7) Any officer violating any of the provisions of this section is guilty of misconduct in office and shall be subject to removal from office.

42-4-1708. Traffic infractions - proper court for hearing, burden of proof - appeal - collateral attack. (1) Every hearing in county court for the adjudication of a traffic infraction, as provided by this article, shall be held before a county court magistrate appointed pursuant to part 5 of article 6 of title 13, C.R.S., or before a county judge acting as a magistrate; except that, whenever a crime and a class A or class B traffic infraction or a crime and both such class A and class B traffic infractions are charged in the same summons and complaint, all charges shall be made returnable before a judge or magistrate having jurisdiction over the crime and the rules of criminal procedure shall apply. Nothing in this part 17 or in part 5 of article 6 of title 13, C.R.S., shall be construed to prevent a court having jurisdiction over a criminal charge relating to traffic law violations from lawfully entering a judgment on a case dealing with a class A or class B traffic infraction.

(2) When a court of competent jurisdiction determines that a person charged with a class 1 or class 2 misdemeanor traffic offense is guilty of a lesser-included offense which is a class A or class B traffic infraction, the court may enter a judgment as to such lesser charge.

(3) The burden of proof shall be upon the people, and the traffic magistrate shall enter judgment in favor of the defendant unless the people prove the liability of the defendant beyond a reasonable doubt. The district attorney or the district attorney's deputy may, in the district attorney's discretion, enter traffic infraction cases for the purpose of attempting a negotiated plea or a stipulation to deferred prosecution or deferred judgment and sentence but shall not be required to so enter by any person, court, or law, nor shall the district attorney represent the state at hearings conducted by a magistrate or a county judge acting as a magistrate on class A or class B traffic infraction matters. The magistrate or county judge acting as a magistrate shall be permitted to call and question any witness and shall also act as the fact finder at hearings on traffic infraction matters.

(4) Appeal from final judgment on a traffic infraction matter shall be taken to the district court for the county in which the magistrate or judge acting as magistrate is located.

(5) (a) Except as otherwise provided in paragraph (b) of this subsection (5), no person against whom a judgment has been entered for a traffic infraction as defined in section 42-4-1701 (3)(a) shall collaterally attack the validity of that judgment unless such attack is commenced within six months after the date of entry of the judgment.

(b) In recognition of the difficulties attending the litigation of stale claims and the potential for frustrating various statutory provisions directed at repeat offenders, former offenders, and habitual offenders, the only exceptions to the time limitations specified in subsection (5)(a) of this section are:

(I) A case in which the court entering judgment did not have jurisdiction over the subject matter of the alleged infraction;

(II) A case in which the court entering judgment did not have jurisdiction over the person of the violator;

(III) Where the court hearing the collateral attack finds by a preponderance of the evidence that the failure to seek relief within the applicable time period was caused by an adjudication of incompetence or by commitment or certification of the violator to an institution for treatment as a person with a mental health disorder; or

(IV) Where the court hearing the collateral attack finds that the failure to seek relief within the applicable time period was the result of circumstances amounting to justifiable excuse or excusable neglect.

42-4-1708.5. Civil infractions - proper court for hearing, burden of proof - appeal - collateral attack. [*Editor's note: This section is effective March 1, 2022.*] (1) Every hearing in county court for the adjudication of a civil infraction must be held before a county court magistrate appointed pursuant to part 5 of article 6 of title 13, or before a county judge acting as a magistrate; except that, if the charge includes a crime and civil infraction in the same summons and complaint, all charges must be made returnable before a judge or magistrate having jurisdiction over the crime and the rules of criminal procedure shall apply.

(2) When a court of competent jurisdiction determines that a person charged with a misdemeanor or petty offense is guilty of a lesser-included offense that is a civil infraction, the court may enter a judgment as to the lesser included offense.

(3) The burden of proof is on the people, and the magistrate shall enter judgment in favor of the defendant unless the people prove the liability of the defendant beyond a reasonable doubt. The district attorney or the district attorney's deputy may, in the district attorney's discretion, enter civil infraction cases for the purpose of attempting to negotiate a plea or a stipulation to pretrial diversion or deferred judgment and sentence but shall not be required to so enter by any person, court, or law. The district attorney shall not represent the state at hearings conducted by a magistrate or a county judge acting as a magistrate on civil infraction matters. The magistrate or county judge acting as a magistrate may call and question any witness and shall act as the fact finder at hearings on civil infraction matters.

(4) Appeal from final judgment on a civil infraction matter must be taken to the district court for the county in which the magistrate or judge acting as magistrate is located.

(5) (a) Except as otherwise provided in subsection (5)(b) of this section, a person against whom a judgment is entered for a civil infraction may not collaterally attack the validity of that judgment unless the person commences the attack within six months after the date of entry of the judgment.

(b) In recognition of the difficulties attending the litigation of stale claims and the potential for frustrating various statutory provisions directed at repeat offenders, former offenders, and habitual offenders, the only exceptions to the time limitation specified in subsection (5)(a) of this section are cases in which the court hearing the collateral attack finds:

(I) That the court entering judgment did not have jurisdiction over the subject matter of the alleged infraction;

(II) That the court entering judgment did not have jurisdiction over the person of the violator;

(III) By a preponderance of the evidence that the failure to seek relief within the time limitation specified in subsection (5)(a) of this section was the result of an adjudication of incompetence or by commitment or certification of the violator to an institution for treatment as a person with a mental health disorder; or

(IV) That the failure to seek relief within the time limitation specified in subsection (5)(a) of this section was the result of circumstances amounting to justifiable excuse or excusable neglect.

Any sheriff, undersheriff, deputy sheriff, police officer, marshal, Colorado state patrol officer, or agent of the Colorado bureau of investigation who finds a motor vehicle that such officer has reasonable grounds to believe has been abandoned shall require such motor vehicle to be removed or cause the same to be removed and placed in storage in any impound lot designated or maintained by the law enforcement agency employing such officer.

The removal process is intended to clear the obstruction, but such activity should create as little damage as possible to the vehicle, or cargo, or both. No agency employee shall cause any motor vehicle to be moved unless such employee has obtained approval from a local law enforcement agency of a municipality, county, or city and county, the Colorado bureau of investigation, or the Colorado state patrol.

42-4-1804. Report of abandoned motor vehicles - owner's opportunity to request hearing. (1) (a) Upon having an abandoned motor vehicle towed, the responsible law enforcement agency shall ascertain, if possible, whether or not the motor vehicle has been reported stolen, and, if so reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 18. The responsible law enforcement agency and the towing carrier shall have the right to recover from the owner their reasonable costs and fees for recovering and securing the motor vehicle. Nothing in this section shall be construed to authorize fees for services that were not provided or that were provided by another person or entity.

(b) As soon as possible, but in no event later than ten working days after having an abandoned motor vehicle towed, the responsible law enforcement agency shall report the same to the department by first-class or certified mail, by personal delivery, or by internet communication. The report shall be on a form prescribed and supplied by the department.

(c) The report shall contain the following information:

(I) The fact of possession, including the date possession was taken, the location of storage of the abandoned motor vehicle and the location from which it was towed, the identity of the responsible law enforcement agency, and the business address, telephone number, and name and signature of a representative from the responsible law enforcement agency;

(II) If applicable, the identity of the operator possessing the abandoned motor vehicle, together with the operator's business address and telephone number and the carrier number assigned by the public utilities commission; and

(III) A description of the abandoned motor vehicle, including the make, model, color, and year, the number, issuing state, and expiration date of the license plate, and the vehicle identification number.

(2) (a) Upon receipt of a report made under subsection (1) or (6) of this section, the department shall search its records to ascertain the last-known owner of record for the abandoned motor vehicle and any lienholder as those persons are represented in department records.

(b) If the vehicle is not registered with the department, the department shall conduct a title search with an entity that:

(I) Has a national database;

(II) May retrieve records based on both the vehicle identification number and vehicle registration number (license plate number); and

(III) Provides the following information: The vehicle identification number, the vehicle registration number, the owner's name and contact information, and the lienholder's name and contact information.

(c) Within ten working days after receipt of a report made under subsection (1) or (6) of this section, the department shall complete its search and shall transmit the report, together with all relevant information, to the responsible law enforcement agency or tow operator.

(3) The responsible law enforcement agency, upon its receipt of the report required under subsection (2) of this section, shall determine, from all available information and after reasonable inquiry, whether the abandoned motor vehicle has been reported stolen, and, if so

reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 18. The responsible law enforcement agency and the operator shall have the right to recover from the owner their reasonable costs to recover and secure the motor vehicle.

(4) (a) If the responsible law enforcement agency does not use an operator to store the motor vehicle, the responsible law enforcement agency, within ten working days after the receipt of the report from the department required in subsection (2) of this section, shall notify by certified mail the owner of record, if ascertained, and any lienholder, if ascertained, of the fact of such report and the claim of any lien under section 42-4-1806. The notice shall contain information that the identified motor vehicle has been reported abandoned to the department, the location of the motor vehicle and the location from where it was towed, and that, unless claimed within thirty calendar days after the date the notice was sent as determined from the postmark on the notice, the motor vehicle is subject to sale.

(b) If the responsible law enforcement agency uses an operator to store the motor vehicle, the responsible law enforcement agency, within ten working days after the receipt of the report from the department required in subsection (2) of this section, shall notify by first-class mail the owner of record, if ascertained, and any lienholder, if ascertained, of the fact of the report and the claim of any lien under section 42-4-1806. The notice shall contain information that the identified motor vehicle has been reported abandoned to the department, the location of the motor vehicle and the location from where it was towed, and that, unless claimed within thirty calendar days after the date the notice was sent as determined from the postmark on the notice, the motor vehicle is subject to sale.

(c) The responsible law enforcement agency shall include in the notices sent pursuant to either paragraph (a) or (b) of this subsection (4) a statement informing the owner of record of the opportunity to request a hearing concerning the legality of the towing of the abandoned motor vehicle, and the responsible law enforcement agency to contact for that purpose.

(d) If an owner or lienholder requests a hearing, the owner or lienholder shall make the request in writing to the responsible law enforcement agency within ten days after the notice was sent, as determined by the postmark. Such hearing, if requested, shall be conducted pursuant to section 24-4-105, C.R.S., if the responsible law enforcement agency is the Colorado state patrol. If a local political subdivision is the responsible law enforcement agency, such hearing shall be conducted pursuant to local hearing procedures. If it is determined at the hearing that the motor vehicle was illegally towed upon request from a law enforcement agency, all towing charges and storage fees assessed against the vehicle shall be paid by such law enforcement agency.

(5) The department shall maintain department-approved notice forms satisfying the requirements of subsection (4) of this section and shall make them available for use by local law enforcement agencies.

(6) (a) (I) Except as provided in subparagraph (II) of this paragraph (a), an operator or its agent shall, no less than two days, but no more than ten days after a motor vehicle has been towed, determine who the owner is and if there is a lienholder and send a notice by certified mail, return receipt requested, to the last address of the owner and any lienholder as determined from records of the department or from a national search performed by the department.

(II) If the department conducts a national title search in accordance with paragraph (b) of subsection (2) of this section, each day elapsing between the department being notified and the department returning information on the motor vehicle as a result of the search does not count

against the tow operator's ten-day deadline to contact the motor vehicle's owner or any lienholder. This subparagraph (II) does not affect daily storage fees.

(III) The cost of complying with this paragraph (a) is a cost of towing; except that the total of all costs of complying with this section shall not exceed one hundred fifty dollars. To comply with this subsection (6), the notice to the owner and lienholder must be sent within five days after the operator receives the information from the department and must contain the following information:

(A) The fact of possession, including the date possession was taken, the location of storage of the motor vehicle, and the location from which it was towed;

(B) The identity of the operator possessing the abandoned motor vehicle, together with the operator's business address and telephone number and the carrier number assigned by the public utilities commission; and

(C) A description of the motor vehicle, including the make, model, color, and year and the number, issuing state, and expiration date of the license plate, or any other indicia of the motor vehicle's state of origin.

(b) The operator shall not be entitled to recover any daily storage fees from the day the vehicle is towed until the day the owner and lienholder are notified, unless the operator reasonably attempts to notify the owner and lienholder by the date specified in paragraph (a) of this subsection (6). Sending a notice by certified mail, return receipt requested, to the owner and the lienholder as represented in department records shall be deemed a reasonable attempt to notify the owner and the lienholder. Failure to notify the owner and the lienholder due to the receipt of erroneous information from the department or a failure of the law enforcement agency to comply with this section shall not cause the loss of such storage fees accrued from the date the vehicle is towed until the owner and the lienholder receive such notice.

(1) (a) Abandoned motor vehicles or motor vehicles abandoned in an impound lot subsequent to a tow from public property shall be appraised by a law enforcement officer or an independent motor vehicle dealer and sold by the responsible law enforcement agency at a public or private sale held not less than thirty days nor more than sixty days after the date the notice required by section 42-4-1804 (4) was mailed.

(2) If the appraised value of an abandoned motor vehicle sold pursuant to this section is three hundred fifty dollars or less, the sale shall be made only for the purpose of junking, scrapping, or dismantling such motor vehicle, and the purchaser thereof shall not, under any circumstances, be entitled to a Colorado certificate of title. The responsible law enforcement agency making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 42-4-1804 (2), to the person purchasing such motor

vehicle. The bill of sale shall state that the purchaser acquires no right to a certificate of title for such vehicle. The responsible law enforcement agency making the sale shall promptly submit a report of sale, with a copy of the bill of sale, to the department and shall deliver a copy of such report of sale to the purchaser of the motor vehicle. Upon receipt of any report of sale with supporting documents on any sale made pursuant to this subsection (2), the department shall purge the records for such vehicle as provided in section 42-4-1810 (1)(b) and shall not issue a new certificate of title for such vehicle. Any certificate of title issued in violation of this subsection (2) shall be void.

42-4-1806. Liens upon towed motor vehicles. (1) Whenever an operator who is registered with the department in accordance with subsection (2) of this section recovers, removes, or stores a motor vehicle upon instructions from any duly authorized law enforcement agency or peace officer who has determined that such motor vehicle is an abandoned motor vehicle, such operator shall have a possessory lien, subject to the provisions of section 42-4-1804 (6), upon such motor vehicle and its attached accessories or equipment for all fees for recovering, towing, and storage as authorized in section 42-4-1809 (2)(a). Such lien shall be a first and prior lien on the motor vehicle, and such lien shall be satisfied before all other charges against such motor vehicle.

(2) (a) No operator shall have a possessory lien upon a motor vehicle described in subsection (1) of this section unless said operator is registered with the department. Such registration shall include the following information:

- (I) The location of the operator's tow business;
- (II) The hours of operation of the operator's tow business;
- (III) The location of the impound lot where vehicles may be claimed by the owner of record; and

The lien provided for in section 42-4-1806 shall be perfected by taking physical possession of the motor vehicle and its attached accessories or equipment and by sending to the department within ten working days after the time possession was taken a notice containing the information required in the report to be made under the provisions of section 42-4-1804. In addition, such report shall contain a declaration by the operator that a possessory lien is claimed for all past, present, and future charges, up to the date of redemption, and that the lien is enforceable and may be foreclosed pursuant to the provisions of this part 18.

42-4-1809. Proceeds of sale. (1) If the sale of any motor vehicle, personal property, and its attached accessories or equipment under the provisions of section 42-4-1805 produces an

amount less than or equal to the sum of all charges of the operator who has perfected his or her lien, then the operator shall have a valid claim against the owner for the full amount of such charges, less the amount received upon the sale of such motor vehicle. Failure to register such vehicle in accordance with this title shall constitute a waiver of such owner's right to be notified pursuant to this part 18 for the purposes of foreclosure of the lien pursuant to section 42-4-1808. Such charges shall be assessed in the manner provided for in paragraph (a) of subsection (2) of this section.

(2) If the sale of any motor vehicle and its attached accessories or equipment under section 42-4-1805 produces an amount greater than the sum of all charges of the operator who has perfected his or her lien:

(a) The entity receiving the proceeds shall first satisfy the operator's reasonable fee arising from the sale of the motor vehicle and the cost and fees of towing and storing the abandoned motor vehicle, subject to a maximum charge specified in rules promulgated by the public utilities commission that govern nonconsensual tows by towing carriers.

(b.5) In the case of the sale of an abandoned motor vehicle described in section 42-4-1802 (1)(d), any balance remaining after payment pursuant to paragraph (b) of this subsection (2) shall be paid to the law enforcement agency that is owed a fee for the court-ordered placement of an immobilization device on the motor vehicle pursuant to section 42-4-1105.

(c) Any balance remaining after payment pursuant to paragraphs (b) and (b.5) of this subsection (2) shall be forwarded to the department, and the department may recover from such balance any taxes, fees, and penalties due and payable to it with respect to such motor vehicle.

(d) Any balance remaining after payment pursuant to paragraph (c) of this subsection (2) shall be paid by the department: First, to any lienholder of record as the lienholder's interest may appear upon the records of the department; second, to any owner of record as the owner's interest may so appear; and then to any person submitting proof of such person's interest in such motor vehicle upon the application of such lienholder, owner, or person. If such payments are not requested and made within one hundred twenty days after the sale of the abandoned motor vehicle, the balance shall be transmitted to the state treasurer, who shall credit the same to the highway users tax fund for allocation and expenditure as specified in section 43-4-205 (5.5)(e), C.R.S.

(3) The provisions of paragraphs (a) and (b) of subsection (2) of this section shall not apply to a responsible law enforcement agency operating under a towing contract.

(1) (a) The driver of a motor vehicle upon any highway, road, or street, upon meeting or overtaking from either direction any school bus that has stopped, shall stop the vehicle at least twenty feet before reaching the school bus if visual signal lights as specified in subsection (2) of this section have been actuated on the school bus. The driver shall not proceed until the visual signal lights are no longer being actuated. The driver of a motor vehicle shall stop when a school bus that is not required to be equipped with visual signal lights by subsection (2) of this section stops to receive or discharge schoolchildren.

(b) (I) A driver of any school bus who observes a violation of paragraph (a) of this subsection (1) shall notify the driver's school district transportation dispatcher. The school bus driver shall provide the school district transportation dispatcher with the color, basic description, and license plate number of the vehicle involved in the violation, information pertaining to the identity of the alleged violator, and the time and the approximate location at which the violation occurred. Any school district transportation dispatcher who has received information by a school bus driver concerning a violation of paragraph (a) of this subsection (1) shall provide such information to the appropriate law enforcement agency or agencies.

(II) Display eight visual signal lights meeting the requirements of 49 CFR 571.108 or its successor regulation.

(II) A school bus shall be exempt from the provisions of subparagraph (I) of this paragraph (b) when stopped for the purpose of discharging or loading passengers who require the assistance of a lift device only when no passenger is required to cross the roadway. When possible, a school bus shall not stop where the visibility is obscured for a distance of two hundred feet either way from the bus. The driver of a school bus that has stopped shall allow time for any vehicles that have stopped behind the school bus to pass the school bus, if such passing is legally permissible where the school bus is stopped, after the visual signal lights, if any, are no longer being displayed or actuated and after all children who have embarked or disembarked from the bus are safe from traffic.

Such regulations shall prohibit the driver of any school bus used for the transportation of schoolchildren from discharging any passenger from the school bus which will result in the passenger's immediately crossing a major thoroughfare, except for two-lane highways when such crossing can be done in a safe manner, as determined by the local school board in consultation with the local traffic regulatory authority, and shall prohibit the discharging or loading of

42-4-2103. Abandonment of motor vehicles - private property - rules. (1) (a) Motor vehicles abandoned at repair shops shall be removed as set forth in section 38-20-116 (2.5), C.R.S.

(b) No person shall abandon any motor vehicle upon private property other than his or her own. Any owner or lessee, or the owner's or lessee's agent authorized in writing, may have an abandoned motor vehicle removed from his or her property by having it towed and impounded by an operator. Motor vehicles abandoned upon the property of a motor vehicle recycler may be recycled in accordance with part 22 of this article if the vehicle's appraisal value is less than three hundred fifty dollars.

(2) Any operator having in his or her possession any motor vehicle that was abandoned on private property shall notify, within thirty minutes, the department, the sheriff, or the sheriff's designee, of the county in which the motor vehicle is located or the chief of police, or the chief's designee, of the municipality in which the motor vehicle is located as to the name of the operator and the location of the impound lot where the vehicle is located and a description of the abandoned motor vehicle, including the make, model, color, and year, the number, issuing state, and expiration date of the license plate, and the vehicle identification number. Upon such notification, the law enforcement agency that receives such notice shall assign the vehicle a tow report number immediately, shall enter the vehicle and the fact that it has been towed in the Colorado crime information center computer system, and shall ascertain, if possible, whether or not the vehicle has been reported stolen and, if so reported, such agency shall recover and secure the motor vehicle and notify its rightful owner and terminate the abandonment proceedings under this part 21. Upon the release of the vehicle to the owner or lienholder, the operator shall notify the responsible law enforcement agent who shall adjust or delete the entry in the Colorado crime information center computer system. The responsible law enforcement agency and operator shall have the right to recover from the owner their reasonable fees for recovering and securing the vehicle. Nothing in this section shall be construed to authorize fees for services that were not provided or that were provided by another person or entity.

(3) (a) An operator shall, no less than two days, but no more than ten days after a motor vehicle has been towed or abandoned, report such motor vehicle tow to the department by first-class or certified mail, by personal delivery, or by internet communication, which report shall be on a form prescribed and supplied by the department.

(b) The report shall contain the following information:

(I) The fact of possession, including the date possession was taken, the location of storage of the abandoned motor vehicle and the location from which it was towed, the tow report number, and the identity of the law enforcement agency determining that the vehicle was not reported stolen;

(II) The identity of the operator possessing the abandoned motor vehicle, together with the operator's business address and telephone number and the carrier number assigned by the public utilities commission; and

(III) A description of the abandoned motor vehicle, including the make, model, color, and year, the number, issuing state, and expiration date of the license plate, or any other indicia of the motor vehicle's state of origin, and the vehicle identification number.

(c) (I) (A) An operator or its agent shall, no less than two days, but no more than ten days after a motor vehicle has been towed or abandoned, determine who the owner is and if there is a lienholder and send a notice by certified mail, return receipt requested, to the address of the owner and any lienholder as determined from records of the department or from the national search performed by the department.

(B) If the department conducts a national title search in accordance with subparagraph (IV) of this paragraph (c), each day elapsing between the department being notified and the department returning information on the motor vehicle as a result of the search does not count against the tow operator's ten-day deadline to contact the motor vehicle's owner or any lienholder. This sub-subparagraph (B) does not affect daily storage fees.

(C) The notice must include the information required by the report set forth in paragraph (b) of this subsection (3).

(D) The cost of complying with this paragraph (c) is a cost of towing; except that the total of all costs of complying with this section shall not exceed one hundred fifty dollars. The tow operator shall send the notice to the owner and lienholder within five days after receiving the information from the department.

(II) The operator shall not be entitled to recover any daily storage fees from the day the vehicle is towed until the day the owner and lienholder are notified, unless the operator reasonably attempts to notify the owner and lienholder by the date specified in subparagraph (I) of this paragraph (c). Sending a notice by certified mail, return receipt requested, to the owner and the lienholder as represented in department records shall be deemed a reasonable attempt to notify the owner and the lienholder. Failure to notify the owner and the lienholder due to the receipt of erroneous information from the department shall not cause the loss of such storage fees accrued from the date the vehicle is towed until the owner and the lienholder receive such notice.

(III) The department shall implement an electronic system whereby an operator registered under section 42-4-1806 (2) or the agent of such operator shall have access to correct information relating to any owner and lienholder of a vehicle towed by the operator as represented in the department records. The department shall ensure that the information available

to an operator or its agent is correct and is limited solely to that information necessary to contact the owner and lienholder of such vehicle.

(IV) If the tow operator determines in accordance with this subsection (3) that the department does not have a current record for a motor vehicle, the tow operator shall notify the department in writing, including electronically. Upon receiving the notice, the department shall conduct a title search with an entity that:

(A) Has a national database;

(B) May retrieve records based on both the vehicle identification number and vehicle registration number on the license plate; and

(C) Provides the following information: The vehicle identification number, the vehicle registration number, the owner's name and contact information, and the lienholder's name and contact information.

(V) Within ten working days after receiving the written notice that no record exists under subparagraph (IV) of this paragraph (c), the department shall complete its search and shall transmit all relevant information to the responsible law enforcement agency or tow operator. This ten-day period does not decrease the number of days a tow operator has to notify the owner or lienholder in accordance with this paragraph (c).

(VI) The department may charge the tow operator a fee in an amount not to exceed the lesser of five dollars or the direct and indirect costs of implementing this paragraph (c).

(4) Within three days after the receipt of the records set forth in subsection (3)(c) of this section from the department, the operator shall notify by certified mail the owner of record, including an out-of-state owner of record. The operator shall make a reasonable effort to ascertain the address of the owner of record. The notice must contain the following information:

(a) That the identified motor vehicle has been reported abandoned to the department;

(b) The claim of any lien under section 42-4-2105;

(c) The location of the motor vehicle and the location from which it was towed; and

(d) That, unless claimed within thirty calendar days after the date the notice was sent, as determined from the postmark on the notice, the motor vehicle is subject to sale.

(5) The department shall maintain department-approved notice forms satisfying the requirements of subsection (4) of this section and shall make them available for use by operators and local law enforcement agencies.

42-4-2104. Appraisal of abandoned motor vehicles - sale. (1) (a) Motor vehicles that are abandoned on private property shall be appraised and sold by the operator in a commercially reasonable manner at a public or private sale held not less than thirty days nor more than sixty days after the postmarked date the notice was mailed pursuant to section 42-4-2103 (4) or the

date the operator receives notice that no record exists for such vehicle. Such sale shall be made to a licensed motor vehicle dealer or wholesaler, or wholesale motor vehicle auction dealer, or through a classified newspaper advertisement published in Colorado. For purposes of this section, a sale shall not be considered commercially reasonable if the vehicle's appraisal value is more than three hundred fifty dollars and the vehicle is sold to an officer or partner of the operator that has possession of the vehicle or to any other person with a proprietary interest in such operator.

(b) Nothing in this section requires that an operator must be a licensed dealer pursuant to part 1 of article 20 of title 44 for purposes of selling a motor vehicle pursuant to this part 21.

(c) Subject to section 42-4-2103 and if an operator conducts a commercially reasonable sale but fails to sell the motor vehicle, the operator may continue to collect daily storage fees for such vehicle actually accrued for up to one hundred twenty days.

(2) If the appraised value of an abandoned motor vehicle sold pursuant to this section is three hundred fifty dollars or less, the sale shall be made only for the purpose of junking, scrapping, or dismantling such motor vehicle, and the purchaser thereof shall not, under any circumstances, be entitled to a Colorado certificate of title. The operator making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 42-4-2103 (3), to the person purchasing such motor vehicle. The bill of sale shall state that the purchaser acquires no right to a certificate of title for such vehicle. The operator making the sale shall promptly submit a report of sale, with a copy of the bill of sale, to the department and shall deliver a copy of such report of sale to the purchaser of the motor vehicle. Upon receipt of any report of sale with supporting documents on any sale made pursuant to this subsection (2), the department shall purge the records for such vehicle as provided in section 42-4-2109 (1)(b) and shall not issue a new certificate of title for such vehicle. Any certificate of title issued in violation of this subsection (2) shall be void.

(3) If the appraised value of an abandoned motor vehicle sold pursuant to this section is more than three hundred fifty dollars, the sale may be made for any intended use by the purchaser. The operator making the sale shall cause to be executed and delivered a bill of sale, together with a copy of the report described in section 42-4-2103 (3), and an application for a Colorado certificate of title signed by a legally authorized representative of the operator conducting the sale, to the person purchasing such motor vehicle. The purchaser of the abandoned motor vehicle shall be entitled to a Colorado certificate of title upon application and proof of compliance with the applicable provisions of the "Certificate of Title Act", part 1 of article 6 of this title; except that, if such vehicle is less than five years old, including the current year models, and if the department does not provide the name of an owner of record to the operator, the buyer shall apply for a bonded title and the department shall issue such bonded title upon the applicant meeting the qualifications for such title pursuant to rules promulgated by the department.

(4) Transferring the title of a motor vehicle to an operator to satisfy a debt covered by a lien created pursuant to this part 21 shall not be deemed to be the sale of a motor vehicle.

42-4-2105. Liens upon towed motor vehicles. (1) Whenever an operator who is registered with the department in accordance with subsection (2) of this section recovers, removes, or stores a motor vehicle upon instructions from the owner of record, any other legally authorized person in control of such motor vehicle, or from the owner or lessee of real property upon which a motor vehicle is illegally parked or such owner's or lessee's agent authorized in writing, such operator shall have a possessory lien, subject to the provisions of section 42-4-2103 (3), upon such motor vehicle and its attached accessories, equipment, and personal property for all the costs and fees for recovering, towing, and storage as authorized in section 42-4-2108. Such lien shall be a first and prior lien on the motor vehicle, and such lien shall be satisfied before all other charges against such motor vehicle. This subsection (1) shall not apply to personal property if subsection (3) of this section applies to such personal property.

(2) (a) No operator shall have a possessory lien upon a motor vehicle described in subsection (1) of this section unless said operator is registered with the department. Such registration shall include the following information:

- (I) The location of the operator's tow business;
- (II) The hours of operation of the operator's tow business;
- (III) The location of the impound lot where vehicles may be claimed by the owner of record; and
- (IV) Any information relating to a violation of any provision contained in this part 21 or of any other state law or rule relating to the operation, theft, or transfer of motor vehicles.

(b) The executive director of the department may cancel the registration of any operator if an administrative law judge finds, after affording the operator due notice and an opportunity to be heard, that the operator has violated any of the provisions set forth in this part 21.

(3) If the operator obtains personal property from an abandoned vehicle that has been towed pursuant to this part 21 and if the serial or identification number of such property has been visibly altered or removed, the operator shall not have a lien upon such property and shall destroy or discard such property within five days after disposing of such vehicle pursuant to sections 42-4-2104 and 42-4-2107.

42-4-2106. Perfection of lien. The lien provided for in section 42-4-2105 shall be perfected by taking physical possession of the motor vehicle and its attached accessories, equipment, or personal property and by sending to the department, within ten working days after the time possession was taken, a notice containing the information required in the report to be made under the provisions of section 42-4-2103. In addition, such report shall contain a declaration by the operator that a possessory lien is claimed for all past, present, and future charges, up to the date of redemption, and that the lien is enforceable and may be foreclosed pursuant to the provisions of this part 21.

Source: L. 2002: Entire part added with relocated provisions, p. 482, § 2, effective July 1.

42-4-2107. Foreclosure of lien. (1) Any motor vehicle and its attached accessories and equipment or personal property within or attached to such vehicle that are not redeemed by the last-known owner of record or lienholder after such owner or lienholder has been sent notice of such lien by the operator shall be sold in accordance with the provisions of section 42-4-2104.

(2) Within five days after foreclosure of the lien pursuant to this section, the operator shall send a notice to the law enforcement agency having jurisdiction over the operator. Such notice shall contain a list of personal property found within the abandoned vehicle that has an intact serial or identification number and such serial or identification number. Such notification shall be made by certified mail, facsimile machine, or personal delivery.

Source: L. 2002: Entire part added with relocated provisions, p. 483, § 2, effective July 1.

42-4-2108. Proceeds of sale. (1) If the sale of any motor vehicle, personal property, and attached accessories or equipment under the provisions of section 42-4-2104 produces an amount less than or equal to the sum of all charges of the operator who has perfected his or her lien, then the operator shall have a valid claim against the owner for the full amount of such charges, less the amount received upon the sale of such motor vehicle. Failure to register such vehicle in accordance with this title shall constitute a waiver of such owner's right to be notified pursuant to this part 21 for the purposes of foreclosure of the lien pursuant to section 42-4-2107. Such charges shall be assessed in the manner provided for in paragraph (a) of subsection (2) of this section.

(2) If the sale of any motor vehicle and its attached accessories or equipment under the provisions of section 42-4-2104 produces an amount greater than the sum of all charges of the operator who has perfected his or her lien:

(a) The proceeds shall first satisfy the operator's reasonable costs and fees arising from the sale of the motor vehicle pursuant to section 42-4-2104 and the cost and fees of towing and storing the abandoned motor vehicle with a maximum charge that is specified in rules promulgated by the public utilities commission that govern nonconsensual tows by towing carriers.

(a.5) In the case of the sale of an abandoned motor vehicle described in section 42-4-2102 (1)(d), any balance remaining after payment pursuant to paragraph (a) of this subsection (2)

shall be paid to the law enforcement agency that is owed a fee for the court-ordered placement of an immobilization device on the motor vehicle pursuant to section 42-4-1105.

(b) Any balance remaining after payment pursuant to paragraphs (a) and (a.5) of this subsection (2) shall be forwarded to the department, and the department may recover from such balance any taxes, fees, and penalties due to it with respect to such motor vehicle. The department shall provide a receipt to the operator within seven days after receiving the money if the operator provides the department with a postage-paid, self-addressed envelope.

(c) Any balance remaining after payment pursuant to paragraph (b) of this subsection (2) shall be paid by the department: First, to any lienholder of record as the lienholder's interest may appear upon the records of the department; second, to any owner of record as the owner's interest may so appear; and then to any person submitting proof of such person's interest in such motor vehicle upon the application of such lienholder, owner, or person. If such payments are not requested and made within one hundred twenty days after the sale of the abandoned motor vehicle, the balance shall be transmitted to the state treasurer, who shall credit the same to the highway users tax fund for allocation and expenditure as specified in section 43-4-205 (5.5)(e), C.R.S.

42-4-2109. Transfer and purge of certificates of title. (1) Whenever any motor vehicle is abandoned and removed and sold in accordance with the procedures set forth in this part 21, the department shall transfer the certificate of title or issue a new certificate of title or shall purge such certificate of title in either of the following cases:

(a) Upon a person's submission to the department of the necessary documents indicating the abandonment, removal, and subsequent sale or transfer of a motor vehicle with an appraised value of more than two hundred dollars, the department shall transfer the certificate of title or issue a new certificate of title for such abandoned motor vehicle.

(b) Upon a person's submission of documents indicating the abandonment, removal, and subsequent wrecking or dismantling of a motor vehicle, including all sales of abandoned motor vehicles with an appraised value of three hundred fifty dollars or less that are conducted pursuant to section 42-4-2104 (2) and all sales of abandoned motor vehicles, as defined in section 38-20-116 (2.5)(b)(I), C.R.S., with a retail fair market value of three hundred fifty dollars or less that are conducted pursuant to section 38-20-116 (2.5)(d)(I), C.R.S., the department shall keep the records for one year and then purge the records for such abandoned motor vehicle; except that the department shall not be required to wait before purging the records if the purchaser is a licensed motor vehicle dealer.

42-5-110. Possession of removed, defaced, altered, or destroyed motor vehicle identification numbers. (1) No person shall knowingly buy, sell, offer for sale, receive, or possess any motor vehicle or component part thereof from which the vehicle identification number or any number placed on said vehicle or component part for its identification by the manufacturer has been removed, defaced, altered, or destroyed unless such vehicle or component part has attached thereto a special identification number assigned or approved by the department in lieu of the manufacturer's number.

(2) Whenever such motor vehicle or component part comes into the custody of a peace officer, it shall be destroyed, sold, or otherwise disposed of under the conditions provided in an order by the court having jurisdiction. No court order providing for disposition shall be issued unless the person from whom the property was seized and all claimants to the property whose interest or title is on the records in the department of revenue are provided a postseizure hearing by the court having jurisdiction within a reasonable period after the seizure. This postseizure hearing shall be held on those motor vehicles or component parts for which true ownership is in doubt, including, but not limited to, those motor vehicles or component parts that are altered to the extent that they cannot be identified, those motor vehicles or component parts that are composed of parts belonging to several different claimants, and those motor vehicles or component parts for which there are two or more existing titles. This subsection (2) shall not apply with respect to such motor vehicle or component part used as evidence in any criminal action or proceeding. Nothing in this section shall, however, preclude the return of such motor

vehicle or component part to the owner by the seizing agency following presentation of satisfactory evidence of ownership and, if it is determined to be necessary, upon assignment of an identification number to the vehicle or component part by the department of revenue. There shall be no special identification number issued for a component part unless it is a component part of a complete motor vehicle.

(3) Whenever such motor vehicle or component part comes into the custody of a peace officer, the person from whom the property was seized and all claimants to the property whose interest or title is noted on the records of the department of revenue shall be notified within ninety days of seizure of the seizing agency's intent to commence a postseizure hearing as described in subsection (2) of this section. Such notice shall contain the following information:

(a) The name and address of the person or persons from whom the motor vehicle or component part was seized;

(b) A statement that the motor vehicle or component part has been seized for investigation as provided in this section and that the property will be released upon a determination that the identification number has not been removed, defaced, altered, or destroyed or upon the presentation of satisfactory evidence of the ownership of such motor vehicle or component part if no other person claims an interest in the property within thirty days of the date the notice is mailed; otherwise, a hearing regarding the disposition of such motor vehicle or component part shall take place in the court having jurisdiction;

(c) A statement that the person from whom the property was seized and all claimants to the motor vehicle or component part whose interest or title is on the records in the department of revenue will have notification of the seizing agency's intention to commence a postseizure hearing, and such notice shall be sent to the last-known address by registered mail within ninety days of the date of seizure;

(d) The name and address of the law enforcement agency where the evidence of ownership of such motor vehicle or component part may be presented;

(e) A statement or copy of the text contained in this section.

(4) (a) A hearing on the disposition of the motor vehicle or component part shall be held by the court having jurisdiction within a reasonable time after the seizure. The hearing shall be before the court without a jury.

(b) If the evidence reveals either that the identification number has not been removed, altered, or destroyed or that the identification has been removed, altered, or destroyed but satisfactory evidence of ownership has been presented, then the motor vehicle or component part shall be released to the person entitled thereto. Nothing in this section shall preclude the return of such motor vehicle or component part to a good faith purchaser following the presentation of satisfactory evidence of ownership thereof, and, if necessary, said good faith purchaser may be required to obtain an assigned identification number from the motor vehicle group.

(c) If the evidence reveals that the identification number of the motor vehicle or the component part has been removed, altered, or destroyed and satisfactory evidence of ownership has not been presented, then the property shall be destroyed, sold, or converted to the use of the seizing agency or otherwise disposed of as provided by court order.

(d) At the hearing, the seizing agency shall have the burden of establishing that the identification number of the motor vehicle or the component part has been removed, defaced, altered, or destroyed.

(e) At the hearing, any claimant to the property shall have the burden of providing satisfactory evidence of ownership.

(4) (a) The department of public safety is authorized to accept gifts, grants, or donations from private or public sources for the purposes of this section. All private and public funds received through gifts, grants, or donations shall be transmitted to the state treasurer, who shall credit the same to the Colorado auto theft prevention cash fund, which fund is hereby created and referred to in this section as the "fund". 42-6-119. Certificates for vehicles registered in other states. (1) When a resident of the state acquires the ownership of a motor or off-highway vehicle for which a certificate of title has been issued by a state other than Colorado, the person acquiring the vehicle shall apply to the director or an authorized agent for the filing of a certificate of title as in other cases.

(2) If a dealer acquires the ownership of a motor or off-highway vehicle by lawful means and the vehicle is titled under the laws of a state other than Colorado, the dealer need not file a Colorado certificate of title for the vehicle so long as the vehicle remains in the dealer's possession and at the dealer's place of business solely for the purpose of sale.

(3) Upon the sale by a dealer of a motor or off-highway vehicle, the certificate of title to which was issued in a state other than Colorado, the dealer shall, within thirty days after the sale, deliver or facilitate the delivery to the purchaser the certificate of title, duly and properly endorsed or assigned to the purchaser, with a statement by the dealer containing or accompanied by a written declaration that it is made under the penalties of perjury in the second degree, as defined in section 18-8-503, C.R.S., and setting forth the following:

(a) That the dealer, by the execution of the affidavit, warrants to the purchaser and all persons who claim through the named purchaser that, at the time of the sale, transfer, and delivery by the dealer, the vehicle described was free and clear of all liens and mortgages except as might appear in the certificate of title;

(b) That the vehicle is not a stolen vehicle; and

(c) That the dealer had good, sure, and adequate title to, and full authority to sell and transfer, the vehicle.

(4) (a) Except as otherwise provided in subsection (4)(b) of this section, if the purchaser of the vehicle completes and includes the vehicle identification number inspection form as part of the application for filing of a Colorado certificate of title to the vehicle and accompanies the application with the affidavit required by subsection (3) of this section and the duly endorsed or assigned certificate of title from a state other than Colorado, a Colorado certificate of title may be filed in the same manner as upon the sale or transfer of a motor or off-highway vehicle for which a Colorado certificate of title has been issued or filed. (b) If an applicant for the filing of a Colorado certificate of title for a vehicle for which another state has issued a certificate of title presents either a copy of a manufacturer's certificate of origin or a purchase receipt from the dealer or the out-of-state seller from whom the applicant purchased the vehicle and either document indicates that the applicant purchased the vehicle as new, the applicant need not include a vehicle identification number inspection form as part of the application.

42-6-120. Security interests upon vehicles. (1) Except as provided in this section and sections 42-6-130 and 42-6-148, the provisions of the "Uniform Commercial Code", title 4, C.R.S., relating to the filing, recording, releasing, renewal, priority, and extension of chattel mortgages, as defined in section 42-6-102 (9), do not apply to motor or off-highway vehicles. A mortgage or refinancing of a mortgage intended by the parties to the mortgage or refinancing to encumber or create a lien on a motor vehicle, or to be perfected as a valid lien against the rights of third persons, purchasers for value without notice, mortgagees, or creditors of the owner, must be filed for public record. The department or authorized agent shall note the fact of filing on the owner's certificate of title or bill of sale substantially in the manner provided in section 42-6-121.

(2) This section and section 42-6-121 do not apply to a mortgage or security interest upon a vehicle or motor vehicle held for sale or lease that constitutes inventory as defined in section 4-9-102, C.R.S. The perfection of mortgages or security interests, and the rights of the parties, are governed by article 9 of title 4, C.R.S.

(3) Notwithstanding any provision of law to the contrary, in the case of motor vehicles, off-highway vehicles, or trailers, a lease transaction does not create a sale or security interest solely because it permits or requires the rental price to be adjusted either upward or downward under the agreement by reference to the amount realized upon sale or other disposition of the motor vehicle, off-highway vehicle, or trailer.

(4) The rights of a buyer, lessee, or lien creditor that arise after a mortgage attaches to a motor or off-highway vehicle and before perfection under this article are determined by section 4-9-317, C.R.S.

(4) For purposes of liens created pursuant to section 14-10-122 (1.5), C.R.S., the lien shall contain the information set forth in this section as well as any additional information required in section 14-10-122 (1.5)(f), C.R.S.

(5) The lien or mortgage shall be perfected pursuant to section 42-6-120 on the date all documents required by subsection (1) of this section, including, without limitation, the signed original or signed duplicate of the mortgage or a copy containing the information required by subsection (1) of this section, are received by the authorized agent and payment is tendered on the fee imposed by section 42-6-137 (2).

42-6-125. Release of mortgages - rules. (1) Upon the payment or discharge of the undertaking secured by a mortgage on a motor or off-highway vehicle that has been filed for record under section 42-6-121, the legal holder, on a form approved by the director, shall notify the director or authorized agent of the discharge of the obligation and release of the mortgage securing the obligation and set forth in the notice the facts concerning the right of the holder to release the mortgage as the director may require by rule. Thereupon, the holder of the released mortgage shall dispose of the certificate of title as follows:

(a) If the motor or off-highway vehicle is encumbered by a mortgage filed under section 42-6-121 after the date on which the released mortgage was filed for record, the holder of the certificate of title shall deliver the certificate to the person shown to be the holder of the mortgage noted on the title filed earliest after the filing of the released mortgage, or to the person or agent of the person shown to be the assignee or other legal holder of the mortgage, or shall mail the certificate to the mortgagee or holder at the address appearing on the mortgage. If the certificate is returned unclaimed, the holder shall mail the certificate to the director.

(b) If it appears from an examination of the certificate of title that there are no other outstanding mortgages against the motor or off-highway vehicle upon the release of the

mortgage as provided in this section, the holder of the mortgage shall deliver the certificate of title to the owner of the vehicle or shall mail the title to the owner at his or her address, and, if for any reason the certificate of title is not delivered to the owner or is returned unclaimed, the holder shall immediately mail the certificate to the director.

(c) The director's authorized agent shall note in the electronic record of the lien the satisfaction and release of the lien or mortgage and shall file a notice of the satisfaction and release in accordance with section 42-6-122.

(II) As used in this subsection (2), "extenuating circumstances" means a situation where access to the title is impaired, making good faith compliance with this subsection (2) impossible within the time frame required by this paragraph (a). "Extenuating circumstances" does not include intentional or negligent acts by a lienholder that result in delay beyond the time frame required in this subsection (2).

(b) Upon the receipt by the director of a statement of mortgage release, the director shall:

(I) Note on the records in the director's office to show the release of the lien of the mortgage;

(II) Issue a new certificate of title to the motor or off-highway vehicle, omitting all reference to the released mortgage; and

(III) Dispose of the new certificate of title in the manner prescribed in other cases unless directed otherwise.

42-6-127. Duration of lien of mortgage - extensions - rules. (1) The lien of a mortgage or refinancing of a mortgage filed in the manner prescribed in section 42-6-121 or 42-6-129 shall remain valid and enforceable for a period of ten years after the filing of the certificate in the office of the director's authorized agent or until the discharge of the mortgage on the vehicle, if the discharge occurs sooner, except in the case of trailer coaches; truck tractors; multipurpose trailers, if known when filed; and motor homes, that are subject to the provisions of subsection (3) of this section. During the ten-year period or any extension of such period, the lien of the mortgage may be extended for successive three-year periods upon the holder of the mortgage presenting to the director's authorized agent of the county where the mortgage is filed or in the county where the owner resides a certification of extension of chattel mortgage, subscribed by the holder of the mortgage and acknowledged by the holder before an officer authorized to acknowledge deeds to real property, in which shall appear a description of the mortgage on the vehicle, to what extent it has been discharged or remains unperformed, and such

other information respecting the mortgage as may be required by appropriate rule of the director to enable the director's authorized agent to properly record the extension.

(2) Upon receipt of a mortgage extension, the authorized agent shall make and complete the electronic record of the extension as the director by rule may require within the director's or the authorized agent's motor and off-highway vehicle database and shall note the fact of the extension of the mortgage on the certificate of title, which may be filed electronically. Thereafter, the authorized agent shall return the certificate to the person shown on the certificate to be entitled to the certificate. If any mortgage other than one on a trailer coach; truck tractor; multipurpose trailer, if known when filed; or motor home has been filed for record and noted on the certificate of title and has not been released or extended within ten years after the date when the mortgage was filed in the office of the authorized agent, the person shown by the records in the director's office to be the owner of the motor or off-highway vehicle described in the certificate of title, upon filing an application, may request that the authorized agent remove references to the mortgages shown on the records. The authorized agent shall remove all reference to mortgages shown in the authorized agent's records to have been of record in the office of the authorized agent for more than ten years without being released or extended.

(3) The duration of the lien of any mortgage on a trailer coach, as defined in section 42-1-102 (106)(a), a truck tractor, as defined in section 42-1-102 (109), a multipurpose trailer, as defined in section 42-1-102 (60.3), or a motor home, as defined in section 42-1-102 (57), shall be for the full term of the mortgage, but the lien of the mortgage may be extended beyond the original term of the mortgage for successive three-year periods by following the procedure prescribed in subsection (1) of this section during the term of the mortgage or any extension thereof.

42-6-128. Validity of mortgage between parties. Nothing in this part 1 impairs the validity of a mortgage on a motor or off-highway vehicle between the parties as long as no purchaser for value, mortgagee, or creditor without actual notice of the existence of a mortgage has acquired an interest in the motor or off-highway vehicle described in the mortgage, notwithstanding that the parties to the mortgage have failed to comply with this part 1.

42-6-129. Second or other junior mortgages. (1) On and after July 1, 1977, a person who takes a junior mortgage on a motor or off-highway vehicle for which a Colorado certificate of title has been issued or filed may file the mortgage for public record and have the existence of the mortgage noted or filed on the certificate of title with like effect as in other cases, as required by this section.

(2) The junior mortgagee or the holder of the mortgage shall file the mortgage as required by section 42-6-121 with the authorized agent of the county where the mortgagor of the motor or off-highway vehicle resides or where the vehicle is located with a written request to have the existence of the mortgage noted or filed on the certificate of title records of the authorized agent pertaining to the vehicle covered by the junior mortgage. Upon the filing of the mortgage, the authorized agent shall note in the record of the vehicle the day and hour when the mortgage was received by the agent, shall make and deliver a receipt for the mortgage to the person filing the mortgage, and shall file the mortgage as required under section 42-6-122. If there is more than one mortgage or lien on the motor or off-highway vehicle, the department's authorized agent may electronically transmit the mortgage or lien to the first mortgage or lienholder and notify the first mortgage or lienholder of any additional mortgages or liens.

(3) The director's authorized agent, by registered mail, return receipt requested, shall make a written demand on the holder of the certificate of title, addressed to such person at the person's address as the same may appear in said written request, that such certificate be delivered to the authorized agent for the purpose of having noted on the certificate such second or junior mortgage. Within fifteen days after the receipt of such demand, the person holding such certificate shall either mail or deliver the same to such director's authorized agent or, if the person no longer has possession of the certificate, shall so notify the agent and, if the person knows, shall likewise inform the agent where and from whom such certificate may be procured. Upon the receipt of such certificate, the director's authorized agent shall complete an application for a new title and record the number thereof on the mortgage, as in the case of a first mortgage, and shall, as in the case of a first mortgage, issue and file a new certificate of title on which record the existence of all mortgages on the motor vehicle, including such second or junior mortgage, have been noted.

(4) If a person lawfully in possession of a certificate of title to a motor or off-highway vehicle, upon whom demand is made for the delivery to the authorized agent, fails to deliver or mail the certificate of title to the authorized agent, the person is liable to the holder of the junior mortgage for all damage sustained by reason of the omission.

42-6-133. Foreign mortgages and liens. A mortgage or lien on a motor or off-highway vehicle filed for record in a state other than Colorado is not valid and enforceable against the rights of subsequent purchasers for value, creditors, lienholders, or mortgagees having no actual notice of the existence of the mortgage or lien. If the certificate of title for the vehicle bears any

notation adequate to apprise a purchaser, creditor, lienholder, or mortgagee of the existence of a mortgage or lien at the time a third party acquires a right in the motor vehicle, the mortgage or lien and the rights of the holder of the mortgage or lien are enforceable in this state as though the mortgage were filed in Colorado and noted on the certificate of title or noted in the record of the authorized agent for the vehicle under section 42-6-121.

(1) If data is lost transmitting an application for a certificate of title and accompanying documentation, which may be transmitted by the authorized agent to the director and upon an appropriate application of the owner or other person entitled to such certificate of title, such certificate of title may be reissued or recorded bearing such notations respecting existing unreleased mortgages or liens on the vehicle as indicated by the director's or authorized agent's records. Such certificate of title shall be issued without charge.

(2) If the title owner, lienholder, or mortgagee of a certificate of title loses, misplaces, or accidentally destroys a certificate of title to a motor or off-highway vehicle that the person holds as described in the certificate of title, upon application, the director or the authorized agent may issue a duplicate copy of the recorded certificate of title as in other cases.

(3) (a) Upon the issuance of a copy of the recorded certificate of title as provided for in this section, the director or the authorized agent shall note on the copy every mortgage shown to be unreleased and the lien that is in effect as disclosed by the records of the director or authorized agent and shall dispose of such certificate as in other cases.

(b) Upon the payment or discharge of the debt secured by a mortgage on a motor vehicle that has been filed for record in the manner prescribed in section 42-6-121, the lienholder shall notify the authorized agent of the satisfaction and release of the mortgage, setting forth any facts concerning the right of the holder to release the mortgage as the director may require. 42-6-136. Surrender and cancellation of certificate - penalty for violation. (1) (a) The owner of a motor or off-highway vehicle for which a Colorado certificate of title has been issued, upon the destruction or dismantling of the vehicle or upon its being changed so that it is no longer a motor or off-highway vehicle, shall surrender the certificate of title to the vehicle to the director or the authorized agent or notify the director or the authorized agent on director-approved forms indicating the loss, destruction, or dismantling. If a motor vehicle is nonrepairable, the director or authorized agent shall issue the vehicle a nonrepairable title.

If the additional fee of seven dollars and twenty cents is collected by a third-party provider, as defined in section 42-1-102, the provider shall collect and remit the fee to the department, who shall transmit the fee to the authorized agent.

(6) Upon filing with the director an application for a certificate of title, a motor or off-highway vehicle dealer who applies to receive a certificate of title within one working day after application shall pay to the director a fee of twenty-five dollars.

(b) A title issued for a new motor or off-highway vehicle upon filing of a manufacturer's statement of origin without liens; and

(c) Any other title issued or recorded by the director or the authorized agent. The director and authorized agents shall take into account the best service for citizens in the most cost-effective manner, the use of electronic issuance of titles, and consideration of the business plan for issuing titles at county offices.

(8) Notwithstanding the amount specified for any fee in this section, the director by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the director by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

MOTOR VEHICLE FINANCIAL RESPONSIBILITY LAW

ARTICLE 7

Motor Vehicle Financial Responsibility Law

PART 1

GENERAL PROVISIONS

42-7-101. Short title. This article shall be known and may be cited as the "Motor Vehicle Financial Responsibility Act".

Source: **L. 94:** Entire title amended with relocations, p. 2473, § 1, effective January 1, 1995.

42-7-102. Legislative declaration. (1) The general assembly is acutely aware of the toll in human suffering and loss of life, limb, and property caused by negligence in the operation of motor vehicles in our state. Although it recognizes that this basic problem can be and is being dealt with by direct measures designed to protect our people from the ravages of irresponsible drivers, the general assembly is also very much concerned with the financial loss visited upon innocent traffic accident victims by negligent motorists who are financially irresponsible. In prescribing the sanctions and requirements of this article, it is the policy of this state to induce and encourage all motorists to provide for their financial responsibility for the protection of others, and to assure the widespread availability to the insuring public of insurance protection against financial loss caused by negligent financially irresponsible motorists.

(2) (a) The general assembly hereby finds that motor vehicle accidents cause a substantial economic impact in lost wages, medical bills, and property destruction exacerbated by the following:

- (I) Some negligent motorists are uninsured or flee the scene of an accident.

(II) Negligent motorists often attempt to avoid financial responsibility by means such as fleeing the state, concealing their whereabouts, or failing to update the address on their driver's license with the department of revenue, thereby frustrating service of process and preventing the innocent victim from accessing either the negligent driver's liability insurance policy or the uninsured motorist coverage the victim has purchased.

(III) When innocent traffic accident victims cannot access either the negligent driver's automobile liability policy or their own uninsured motorist coverage, the burden of the uncompensated losses are borne by the taxpayer in the form of taxes for medicaid, by trauma facilities in the form of uncompensated hospital-related costs, and by the innocent victim.

(b) (I) The state of Colorado encourages the widespread availability of uninsured or underinsured motorist insurance by requiring every motor vehicle liability policy delivered or issued in this state to contain uninsured motorist coverage unless the named insured rejects such coverage in writing.

(II) Because insurance benefits have been paid for by either the negligent driver or the innocent victim for the purpose of compensating the innocent victim for injuries or losses, the general assembly declares that it is necessary to simplify the process for an innocent victim to access the negligent driver's liability insurance policy or his or her own uninsured motorist coverage in order to prevent the burden from being borne by the taxpayer or the health-care system.

(c) Therefore, the general assembly declares that the policy of Colorado is that all motor vehicle liability policies shall require policyholders of an automobile liability policy to appoint their insurance carrier as an agent for the purpose of service of process in certain limited instances in accordance with section 42-7-414 (3), and to deem a defendant to be uninsured for purposes of uninsured or underinsured motorist coverage if the court deems service on the defendant's insurance company to be ineffective or insufficient.

SECURITY AND PROOF OF FINANCIAL RESPONSIBILITY IN CONNECTION WITH ACCIDENTS

42-7-301. Security and proof of financial responsibility for the future required under certain circumstances. (1) Unless exempt under section 42-7-302, an operator or owner named in an accident report required to be filed pursuant to section 42-4-1606 shall file with the director, according to the procedure provided by this section, both:

(a) Security, in an amount specified after consideration of the accident report and written substantiation of such report as provided in paragraph (b) of subsection (3) of this section, which is sufficient to satisfy any judgments for damages or injuries resulting from the accident as may be recovered against such operator or owner but which in no event shall exceed the sum of thirty-five thousand dollars; and

(b) Proof of financial responsibility for the future.

(2) Based upon a report filed pursuant to section 42-4-1606, the director shall determine whether an operator or owner is required to comply with the provisions of this article and, if so, shall:

(a) Within fifteen days after receipt of the accident report, inform each such operator and each such owner of such requirement and that the operator or owner's license or nonresident's operating privilege will be suspended if the operator or owner fails to comply with the provisions of this article;

(b) Within sixty days after receipt of the accident report, send written notice of the requirement of filing security and proof of financial responsibility for the future to each such owner and each such operator at his or her last-known address, by first-class mail pursuant to section 42-2-119 (2).

(3) The notice specified in paragraph (b) of subsection (2) of this section shall state that:

(a) The license or nonresident's operating privilege of the person so notified is subject to suspension and shall be suspended unless such person, within twenty days after the mailing of such notice by the director, establishes that the requirements of this section are not applicable to such person or that such person previously filed or then files both security and proof of financial responsibility for the future as provided in paragraphs (a) and (b) of subsection (1) of this section.

(b) Any person having a claim for property damage or personal injury may be required by the director to substantiate such claim by written statement sworn to by a person experienced in estimating the cost of repairing the property damaged and a written report as to the personal injury sworn to by a licensed physician.

(c) The person notified is entitled to a hearing and judicial review as provided in section 42-7-201.

(d) The date on which such person's license or nonresident's operating privilege would otherwise be suspended shall be postponed during the pendency of such hearing if the request for a hearing is made within twenty days after the mailing of said notice and if the person files security and evidence of current liability insurance in the respondent's name.

(4) Upon expiration of such twenty-day period without a request for hearing or compliance with the contents of the notice as specified in subsection (3) of this section, such person's license or nonresident's operating privilege shall be suspended unless and until such person files security and proof of financial responsibility for the future as provided in paragraphs (a) and (b) of subsection (1) of this section.

(6) No policy or bond shall be effective under this section unless issued by an insurance company or surety company authorized to do business in this state, but the surety requirements of this section may be satisfied by evidence of a savings account, deposit, or certificate of deposit meeting the requirements of section 11-35-101, C.R.S. However, if a motor vehicle was not registered in this state, or if a motor vehicle was registered elsewhere than in this state at the effective date of the policy or bond, or the most recent renewal thereof, such policy or bond shall not be effective under this section unless the insurance company or surety company, if not authorized to do business in this state, executes a power of attorney authorizing the director to accept, on its behalf, service of notice or process in any action upon such policy or bond arising out of such accident.

(7) (a) (I) The security required pursuant to paragraph (a) of subsection (1) of this section may, in whole or in part, take the form of a contract between a person having a claim for property damage or personal injury and the operator or owner. Any such contract shall require notice by first-class mail to any obligor in default at the obligor's last-known address and allowing at least a ten-day period after mailing for the obligor to cure the default before remedies become available.

(II) The director shall prescribe the form of any contract authorized by subparagraph (I) of this paragraph (a).

(b) The director shall immediately suspend the license of a person obligated under a contract used as security pursuant to paragraph (a) of this subsection (7), upon receipt of evidence from the creditor in the form of an affidavit that:

(a) Prevent a suspension from occurring by filing future proof of liability insurance pursuant to section 42-7-408; or

42-7-304. Custody and disposition of security. (1) Security deposited in compliance with the requirements of section 42-7-301 shall be placed by the director in the custody of the state treasurer and shall be applied only to the payment of a judgment rendered against the person on whose behalf the deposit was made, for damages arising out of the accident in question in an action at law begun not later than one year after the date of such accident. Such deposit or any balance thereof shall be returned to the depositor or the depositor's personal representative, or the person designated by either of them, when evidence satisfactory to the director has been filed with the director that there has been a release from liability, or a final adjudication of nonliability, or a warrant for confession of judgment, or a duly acknowledged agreement, or whenever, after the expiration of one year from the date of the accident, or within one year after the date of deposit of any security, the director shall be given reasonable evidence that there is no such action pending and no judgment rendered in such action left unpaid.

(2) The director may reduce the amount of security ordered in any case within six months after the date of the accident if, in the director's judgment, the amount originally ordered is excessive. In case the security originally ordered has been deposited, the excess deposit over the reduced amount ordered shall be returned immediately to the depositor or the depositor's personal representative, regardless of any other provisions of this article.

(3) (a) It is the duty of any person having a claim against the security deposited under the provisions of section 42-7-301, on or before the expiration of one year from the date of the accident, to notify the director in writing under oath that there has been a release of liability, or a final adjudication of nonliability, or a warrant for confession of judgment, or a duly acknowledged agreement or that there is no action pending and no judgment rendered in any such action left unpaid or of any action taken on said claim which has not been finally determined.

(b) If any claimant fails to notify the director in writing under oath as provided in paragraph (a) of this subsection (3), the director shall notify the state treasurer to that effect and the state treasurer may, upon receipt of said notification, void the obligation provided for in section 42-7-301 and release and return the security to the depositor. The state treasurer shall then be fully and completely released from any further obligation or liability in relation thereto.

(c) Where said depositor cannot be located, the state treasurer shall notify the depositor by registered or certified mail, return receipt requested, addressed to the last-known address of said depositor, advising said depositor that the depositor must either appear and claim the security deposited within thirty days from the date of receipt of said letter, or said security will escheat to the general fund of the state of Colorado. If said depositor does not appear within the thirty-day period, the state treasurer shall void the obligation as provided in section 42-7-301, and the security shall escheat to the general fund of the state of Colorado, relieving the state treasurer of any further obligation or liability in relation thereto.

(I) Proof that a policy of liability insurance has been obtained and is in full force and effect or that a bond has been duly executed or that deposit has been made of money; or

(II) Securities as provided in section 42-7-418.

(b) Proof of financial responsibility for the future in the amounts provided in section 42-7-103 (14) shall be maintained for three years from the date last required and shall be furnished for each motor vehicle registered during that period; except that, if during such three-year period

the insured has not been licensed to drive pursuant to this title, the insured shall be credited with the nonlicensed time toward the three-year period.

(c) Notwithstanding the three-year requirement in paragraph (b) of this subsection (1):

(I) If an insured has been found guilty of DUI, DUI per se, or DWAI or if the insured's license has been revoked pursuant to section 42-2-126, other than a revocation under section 42-2-126 (3)(b) or (3)(e), only one time and no accident was involved in such offense, proof of financial responsibility for the future shall be required to be maintained only for as long as the insured's driving privilege is ordered to be under restraint, up to a maximum of three years. The time period for maintaining the future proof of liability insurance shall begin at the time the driver reinstates his or her driving privilege.

(II) If an insured has been found guilty of a second or subsequent offense of UDD with a BAC of at least 0.02 but not more than 0.05 or if the insured's driver's license has been revoked because of a second or subsequent offense pursuant to section 42-2-126 (3)(b) or (3)(e), proof of financial responsibility for the future shall be required to be maintained only for as long as the insured's driving privilege is ordered to be under restraint. The time period for maintaining the future proof of liability insurance shall begin at the time the driver reinstates his or her driving privilege.

(2) The term of the policy of liability insurance or the bond submitted as proof of financial responsibility for the future shall be for a minimum of three months.

(3) If an insured's driver's license is canceled pursuant to section 42-2-125 (4), and after such cancellation neither a court of competent jurisdiction nor an administrative hearing officer determines that the charges have been proved, the insured shall not be required to comply with the proof of financial responsibility requirements stated in this section.

(4) If at any time when insurance is required to be maintained in accordance with section 42-4-1409 or this article it is not so maintained or becomes invalid, the director shall suspend the driver's license of the person who has not maintained the required insurance and shall not reinstate the license of such person until future proof of financial responsibility is provided in accordance with section 42-7-406 (1).

42-7-409. Proof for member of family or chauffeur. Whenever the director determines that any person required to give proof by reason of a conviction is not the owner of a motor vehicle but was at the time of such conviction a chauffeur or motor vehicle operator, however designated, in the employ of an owner of a motor vehicle or a member of the immediate family or household of the owner of a motor vehicle, the director shall accept proof of financial responsibility given by such owner in lieu of proof given by such other person so long as such latter person is operating a motor vehicle for which the owner has given proof as provided in this article. No such license shall be reinstated and no new license issued until otherwise permitted under the laws of this state.

42-7-410. Certificate for insurance policy. (1) Proof of financial responsibility may be made by filing with the director the written certificate of any insurance carrier duly authorized to do business in this state, certifying that it has issued to or for the benefit of the person furnishing such proof and named as the insured a motor vehicle liability policy or in certain events an operator's policy, meeting the requirements of this article, and that said policy is then in full force and effect. Such certificate shall give the dates of issuance and expiration of such policy and shall explicitly describe all motor vehicles covered thereby, unless the policy is issued to a person who is not the owner of a motor vehicle.

(2) The director shall not accept any certificate unless the same covers all motor vehicles registered in the name of the person furnishing such proof as owner and an additional certificate shall be required as a condition precedent to the subsequent registration of any motor vehicle or motor vehicles in the name of the person giving such proof as owner.

42-7-411. Restrictions in certain type of policy. (1) When a certificate is filed showing that a policy has been issued covering all motor vehicles owned by the insured but not insuring such person when operating any motor vehicle not owned by that person, it is unlawful for such person to operate any motor vehicle not owned by that person or not covered by such certificate.

(2) In the event the owner of the motor vehicle desires to be relieved of the restriction stated in subsection (1) of this section and to be permitted to drive any other motor vehicle, the owner may have such restrictions removed upon filing a certificate showing that there has been issued to the owner a policy of insurance insuring the owner as insured against liability imposed by law upon such an insured for bodily injury to or death of any person or damage to property to the amounts and limits as provided under section 42-7-103 (14) with respect to any motor

vehicle operated by the insured and which otherwise complies with the requirements of this article with respect to such type of policy. Such policy is referred to in this article as an operator's policy.

(3) When the person required to give proof of financial responsibility is not the owner of a motor vehicle, then an operator's policy of the type and coverage described in subsection (2) of this section shall be sufficient under this article.

(1) The nonresident owner of a foreign vehicle may give proof of financial responsibility by filing with the director a written certificate of an insurance carrier authorized to transact business in the state in which the motor vehicle described in such certificate is registered or if such nonresident does not own a motor vehicle then in the state in which the insured resides and otherwise conforming to the provisions of this article, and the director shall accept the same upon condition that said insurance carrier complies with the following provisions of this section:

(a) Said insurance carrier shall execute a power of attorney authorizing the director to accept service on its behalf of notice or process in any action arising out of a motor vehicle accident in this state.

(b) Said insurance carrier shall duly adopt a resolution which shall be binding upon it, declaring that its policies shall be deemed to be varied to comply with the law of this state relating to the terms of motor vehicle liability policies issued in this article.

(c) Said insurance carrier shall also agree to accept as final and binding any final judgment of any court of competent jurisdiction in this state duly rendered in any action arising out of a motor vehicle accident.

(2) If any foreign insurance carrier which has qualified to furnish proof of financial responsibility defaults in any of said undertakings or agreements, the director shall not subsequently accept any certificate of said carrier, whether previously filed or subsequently tendered, as proof of financial responsibility so long as such default continues.

(a) The policy of liability insurance shall designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby intended to be granted.

(b) The policy of liability insurance shall insure the person named therein and any other person using or responsible for the use of said motor vehicle with the express or implied permission of said insured.

(c) The policy of liability insurance shall insure every such person on account of the maintenance, use, or operation of the motor vehicle within the continental limits of the United States or Canada against loss from the liability imposed by law; for damages, including damages for care and loss of services arising from such maintenance, use, or operation to the extent and aggregate amount, exclusive of interest and costs, with respect to each such motor vehicle, in the amounts specified in section 42-7-103 (2).

(2) When an operator's policy of liability insurance is required, it shall insure the person named therein as insured against the liability imposed by law upon the insured for bodily injury to or death of any person or damage to property to the amounts and limits set forth in paragraph (c) of subsection (1) of this section and growing out of the use or operation by the insured within the continental limits of the United States or Canada of any motor vehicle not owned by the insured.

(3) Any liability policy issued under this section need not cover any liability of the insured assumed by or imposed upon said insured under any workers' compensation law nor any liability for damage to property in charge of the insured or the insured's employees.

(4) Any such policy of liability insurance may grant any lawful coverage in excess of or in addition to the coverage specified in this section or contain any agreements, provisions, or stipulations not in conflict with the provisions of this article and not otherwise contrary to law.

(5) Any motor vehicle liability policy which by endorsement contains the provisions required under this section shall be sufficient proof of ability to respond in damages.

(6) The department may accept several policies of one or more such carriers which together meet the requirements of this section.

(7) Any binder pending the issuance of any policy of liability insurance, which binder contains or by reference includes the provisions under this section, shall be sufficient proof of ability to respond in damages.

42-7-414. Requirements to be complied with. (1) Except as provided in section 42-7-417, no motor vehicle liability policy or operator's policy of liability insurance shall be issued in this state unless and until all of the requirements of subsection (2) of this section are met.

(2) Every motor vehicle liability policy and every operator's policy of liability insurance accepted as proof under this article shall be subject to the following provisions whether or not contained therein:

(a) The liability of the insurance carrier under any such policy shall become absolute whenever loss or damage covered by such policy occurs, and the satisfaction by the insured of a final judgment for such loss or damage shall not be a condition precedent to the right or obligation of the carrier to make payment on account of such loss or damage. No fraud, misrepresentation, or other act of the insured in obtaining or retaining any such policy, or in adjusting a claim under any such policy, and no failure of the insured to give any notice, forward any paper, or otherwise cooperate with the insurance carrier shall constitute a defense as against the judgment creditor on any such judgment. The insurance carrier shall not be liable on any such judgment if it has not had reasonable notice of an opportunity to appear in and defend the

action in which such judgment was rendered or if the judgment was obtained through collusion between the judgment creditor and the insured.

(b) The insurance carrier shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in the policy.

(c) No such policy shall be canceled except as provided in this section and section 42-7-416. The notice of cancellation shall be delivered to the named insured in person or mailed by certified mail, post-office receipt secured, or by registered mail prior to such cancellation. Unless the contract or policy of insurance provides for a shorter period of notice, said notice shall be so delivered or mailed to the address shown in the policy not less than thirty days prior to the date of cancellation. Proof of such mailing shall be sufficient proof of cancellation. Failure by any insurer to comply with the provisions for cancellation in this section and section 42-7-416 shall render invalid any such cancellation.

(d) No such policy shall be canceled or annulled as respects any loss or damage by any agreement between the carrier and the insured after the said insured has become responsible for such loss or damage, and any such cancellation or annulment shall be void.

(e) The policy may provide that the insured, or any other person covered by the policy, shall reimburse the insurance carrier for payment made on account of any loss or damage claim or suit involving a breach of the terms, provisions, or conditions of the policy. If the policy provides for limits in excess of the limits specified in section 42-7-103 (14), the insurance carrier may plead against any plaintiff, with respect to the amount of such excess limits of liability, any defenses which it may be entitled to plead against the insured, and any such policy may further provide for the prorating of the insurance thereunder with other applicable valid and collectible insurance.

(f) The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this article shall constitute the entire contract between the parties.

(g) When any insurance carrier authorized to do business within the state of Colorado issues a policy of automobile insurance insuring against bodily injury, death, or injury to or destruction of property or showing financial responsibility, except a binder, a complete copy of the insurance policy shall be transmitted to the purchaser within thirty days of the purchase thereof; except that, when such policy is renewed, only a copy of the notice of renewal shall be required. Mailing of the copy of the policy to the address of the purchaser as given at the time of purchase shall be deemed to be a transmittal as required by this section.

(3) (a) The insurance carrier that issues a motor vehicle liability policy accepted as proof under this article shall include the following provision in the policy contract: "If the insured's whereabouts for service of process cannot be determined through reasonable effort, the insured agrees to designate and irrevocably appoint the insurance carrier as the agent of the insured for service of process, pleadings, or other filings in a civil action brought against the insured or to which the insured has been joined as a defendant or respondent in any Colorado court if the cause of action concerns an incident for which the insured can possibly claim coverage. Subsequent termination of the insurance policy does not affect the appointment for an incident that occurred when the policy was in effect. The insured agrees that any such civil action may be commenced against the insured by the service of process upon the insurance carrier as if personal service had been made directly on the insured. The insurance carrier agrees to forward

all communications related to service of process to the last-known e-mail and mailing address of the policyholder in order to coordinate any payment of claims or defense of claims that are required."

(b) If service of process is made on the insurance carrier under this subsection (3), the plaintiff shall cause the service of process to be made on the insurance carrier's registered agent.

(c) If service is obtained under this section, the venue for the underlying claim is the same as if the defendant is a nonresident.

(d) Except as expressly provided in this subsection (3), this subsection (3) does not alter or expand the terms and conditions of the insurance policy or liability coverage.

(e) In the contract provision required by this subsection (3), the name of the insurance carrier issuing the policy shall be substituted for the phrase "The insurance carrier."

(f) If service of process is made on the insurance carrier under this subsection (3) and the court enters judgment or the insurance carrier agrees to a settlement for the damages caused by the absent insured, the amount of the insurance carrier's liability shall not exceed the policy limits of the coverage. A judgment or settlement obtained using service of process on the carrier shall not bar the injured person from subsequently making personal service on the person who caused the injury and seeking additional remedies provided by law.

(g) Payment under the policy pursuant to this section shall not be deemed to be an admission of liability by the alleged tortfeasor and shall not prejudice the right of the alleged tortfeasor to contest his or her liability or the extent of damages owed to the injured party.

(h) As used in this subsection (3), "reasonable effort" means service at the defendant's last-known address, an address obtained from the insurance policy, an address obtained from a driver's license or motor vehicle registration, or any readily ascertainable successor address.

42-7-415. When insurance carrier to issue certificate. An insurance carrier which has issued a motor vehicle liability policy or an operator's policy of liability insurance meeting the requirements of this article shall upon request of the insured therein deliver to the insured for filing or at the request of the insured shall file directly with the director an appropriate certificate showing that such policy has been issued, which certificate shall meet the requirements of this article. (b) In the event of the death of the person on whose behalf such proof was filed, or the permanent incapacity of such person to operate a motor vehicle; or

(c) In the event the person who has given proof of financial responsibility surrenders the person's license to the director, but the director shall not release such proof in the event any action for damages upon a liability referred to in this article is then pending or any judgment upon any such liability is then outstanding and unsatisfied or in the event the director has received notice that such person has within the period of three months immediately preceding been involved as a driver in any motor vehicle accident. An affidavit of the applicant of the nonexistence of such facts shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the department.

PART 5

GENERAL

42-7-501. Self-insurers. (1) Any person in whose name more than twenty-five motor vehicles are registered may qualify as a self-insurer by obtaining a certificate of self-insurance issued by the commissioner of insurance.

(2) The commissioner of insurance may, in his or her discretion, upon the application of such person, issue a certificate of self-insurance when the commissioner of insurance is satisfied that such person is possessed and will continue to be possessed of ability to pay all judgments that may be obtained against such person. Upon not less than five days' notice and a hearing pursuant to such notice, the commissioner of insurance may, upon reasonable grounds, cancel a certificate of self-insurance. Failure to pay any judgment within thirty days after such judgment has become final shall constitute a reasonable ground for the cancellation of a certificate of self-insurance.

42-7-502. Action against nonresident - reciprocity with other states. (1) All of the provisions of this article shall apply to any person who is not a resident of this state, and if such nonresident has been convicted of an offense which would require the suspension or revocation of the license of a resident, or if such nonresident has failed to satisfy a judgment within thirty days after the same became final which would require suspension or revocation under this article in respect to a resident, then in either such event such nonresident shall not operate any motor vehicle in this state, and the director shall not issue to such nonresident any license unless and until such nonresident gives proof of financial responsibility and satisfies any such judgment as is required with respect to a resident of this state.

(2) The director shall transmit a certified copy of any record of any such conviction of a nonresident to the motor vehicle commissioner or state officer performing the functions of a commissioner in the state in which such nonresident resides and shall likewise forward to such officer a certified record of any unsatisfied judgment rendered against such nonresident which requires suspension of such nonresident's driving privileges in this state.

(3) When a nonresident's operating privilege is suspended pursuant to section 42-7-301, the director shall transmit a certified copy of the record of such action to the official in charge of the issuance of licenses in the state in which such nonresident resides, if the law of such other state provides for action in relation thereto similar to that provided for in subsection (4) of this section.

(4) Upon receipt of certification that the operating privilege of a resident of this state has been suspended or revoked in any such other state pursuant to a law providing for its suspension or revocation for failure to deposit security for the payment of judgments arising out of a motor vehicle accident or for failure to deposit security and furnish a statement evidencing that the resident is insured under an automobile liability insurance policy or bond or for failure to file and maintain proof of financial responsibility, under circumstances which would require the director to suspend a nonresident's operating privilege had the accident occurred in this state, the director shall suspend the license of such resident. Such suspension shall continue until such resident furnishes evidence of compliance with the law of such other state relating to the deposit of such security and until such resident furnishes the statement evidencing automobile liability insurance or a bond, or, as the case may be, files proof of financial responsibility, if required by such law.

Such records shall be public records and subject to the provisions of section 42-1-206. No information required to be confidential by the provisions of section 24-72-204 (3.5)(a), C.R.S., shall be released by the director except as provided by that section. The director shall collect for each such certificate the sum of seventy-five cents.

negligence or due care of either party of an action at law to recover damages or in a criminal proceeding arising out of a motor vehicle accident. This section shall not apply to an action brought by the director to enforce the provisions of this article.

(2) For the purposes of any civil trial, civil hearing, or arbitration held in relation to uninsured or underinsured motorist insurance coverage where the question of the existence of automobile liability insurance is an issue or when the amount of such insurance is an issue, the director shall issue, upon request, a certificate under seal. The certificate shall contain the motor vehicle operator's name, address, date of birth, and driver's license number; the date of the accident; and a statement indicating whether or not the records indicate that the owner or operator had in effect at the time of the accident an effective automobile liability policy and, if such a policy was in effect, the amount of coverage, the name of the insurer, and the number of the policy. Such certificate shall be prima facie evidence of the facts contained therein. The director shall collect for each such certificate an amount sufficient to defray the costs of administration of this section. Such amount shall be included as a cost of the action.

42-9-103. Applicability. The provisions of sections 42-9-104, 42-9-105, and 42-9-106 shall not apply where the total cost of the labor and parts is one hundred dollars or less.

Editor's note: This section is similar to former § 42-11-102.5 as it existed prior to 1994.

42-9-104. When consent and estimate required - original transaction - disassembly.

(1) (a) No repairs on a motor vehicle shall be performed by a motor vehicle repair facility unless the facility obtains the written consent of the customer.

(b) The required written consent is waived by the customer only when the motor vehicle has been towed to the motor vehicle repair facility or the customer has left the motor vehicle with the motor vehicle repair facility outside of normal business hours or when the customer has signed a waiver in compliance with paragraph (b) of subsection (2) of this section. The waiver established by this paragraph (b) for any vehicle that is towed to a motor vehicle repair facility or left with the motor vehicle repair facility outside of normal business hours is limited to a maximum of one hundred dollars for all labor and parts.

(c) When the customer has not given the motor vehicle repair facility written consent to perform repairs, no repairs shall be performed unless the facility first communicates orally to the customer the written estimate of the total cost of such repairs and the customer then consents to the required repairs. A record of such communication and consent shall be made on the work order by the motor vehicle repair facility and shall include the date, time, manner of consent, telephone number called, if any, and the names of the persons giving and receiving such consent. If more than one such communication occurs between the motor vehicle repair facility and the customer, a record of the telephone number need not be made for each subsequent communication if the telephone number is the same as on the initial consent.

(2) (a) (I) Except as provided in paragraph (b) of this subsection (2), no repairs shall be performed by a motor vehicle repair facility unless said facility first submits in writing or, where allowed by this section, orally communicates to the customer an estimate of the total cost of any such repairs. The written estimate shall include the expected completion date of such repairs. A copy of the completed written estimate of the total cost of repair shall be provided to the customer.

(II) (A) Except as provided in sub-subparagraph (B) of this subparagraph (II), storage charges may accrue, beginning on the fourth day, if the customer has not picked up the motor vehicle within three days, exclusive of Saturday, Sunday, any legal holiday, and any days the repair facility is closed for business, after notification of the completion of authorized repairs or if the customer failed to authorize repairs to be performed within three days, exclusive of Saturday, Sunday, any legal holiday, and any days the repair facility is closed for business, after the date of communication of an estimate.

(B) Storage charges shall be assessed in accordance with section 38-20-109, C.R.S., if the facility chooses to sell the customer's property in accordance with article 20 of title 38, C.R.S.

(C) The amounts that a customer may be charged for storage charges shall be conspicuously printed on the separate written authorization provided to the customer.

(III) The work order provided to the customer shall state conspicuously that, except for body shop repair parts and exchanged or warranty parts that shall only be presented to the customer for examination and not returned, and except for inflatable restraint system components, the customer is entitled to the return of the replaced parts if the customer so requests at the time of consenting to or authorizing the repairs.

(IV) The work order, or a legible copy thereof, shall be retained by the motor vehicle repair facility for at least three years.

(b) A customer may waive the right to receive any estimate, either written or oral, prior to authorizing repairs by signing the customer's name and the date below the following statement that shall be in bold type: **"I DO NOT WISH TO RECEIVE ANY ESTIMATE, EITHER WRITTEN OR ORAL, TO WHICH I AM ENTITLED BY LAW, BEFORE REPAIRS ARE AUTHORIZED."** The signing of such waiver does not constitute an authorization of repairs, which shall be a separate statement.

(c) (I) In the event that it is necessary to disassemble, or partially disassemble, a motor vehicle or a motor vehicle part in order to provide the customer with an estimate for required repairs, the written estimate required in paragraph (a) of this subsection (2) shall show the cost of reassembly in the event that the customer elects not to proceed with the repairs of the motor vehicle or motor vehicle part. The estimate shall also include the total cost of labor and parts to replace those expendable items that are normally destroyed by such disassembly. No act of disassembly that would prevent the restoration of the same unit to its former condition may be undertaken unless the motor vehicle repair facility has fully informed the customer of that fact in writing on the work order and the customer consents to the disassembly.

(II) Any estimate of required repairs given after a disassembly shall comply with the requirements of paragraph (a) of this subsection (2); except that such written estimate may then be communicated orally to the customer. A record of such communication shall be made on the work order by the motor vehicle repair facility, including the date, time, manner of communication, telephone number called, if any, and names of persons giving and receiving such consent. If more than one such communication occurs between the motor vehicle repair facility and the customer, a record of the telephone number need not be made for each subsequent communication if the telephone number is the same as on the initial consent.

(d) Towing charges are excluded from the written or oral estimate and consent requirements of this section.

(2) Amendments to subsection (2)(a)(III) by House Bill 97-1098 and House Bill 97-1105 were harmonized.

42-9-105. When consent and estimate required - additional repairs - changed completion date. (1) Except when an estimate has been waived pursuant to section 42-9-104

(2)(b), no charge shall be made for labor and parts in excess of the estimate, plus ten percent thereof or twenty-five dollars, whichever is less, without the consent of the customer to the additional charge before performance of the labor or installation of the parts not included in the estimate. Consent by the customer to additional charges may be written or oral. In either case, a record of such consent shall be made on the work order by the motor vehicle repair facility and shall include the date, time, manner of consent, telephone number called, if any, and names of the persons giving and receiving the consent. If more than one such communication occurs between the motor vehicle repair facility and the customer, a record of the telephone number need not be made for each subsequent communication if the telephone number is the same as on the initial consent.

(2) (a) The customer shall be notified in writing on the work order of any changes in the expected completion date of the repairs and of the new expected completion date. Such notification may be communicated to the customer orally, but such communication, written or oral, shall be made no more than twenty-four hours after the original completion date, exclusive of Saturday, Sunday, and any legal holiday. If communicated orally, a record of such communication shall be made on the work order by the motor vehicle repair facility and shall include the date, time, telephone number called, if any, and names of the persons giving and receiving such communication. If the name of the person receiving such communication is different than the original customer, the name and telephone number called, if any, shall be recorded on the work order.

(b) No additional changes in the completion date shall be made unless the consent of the customer to the additional change is obtained. If the required consent is given orally, the motor vehicle repair facility shall make a record of such consent on the work order and shall include the date, time, manner of consent, and the names of the persons giving and receiving such consent.

(c) If the motor vehicle repair facility fails to notify the customer of the change in the completion date or if the customer refuses to consent to an additional change in the completion date, the contract may be canceled at the option of either the customer or the motor vehicle repair facility. Once the contract has been canceled in this manner, the motor vehicle repair facility shall be required to reassemble the motor vehicle in substantially the same condition in which it was delivered to the motor vehicle repair facility without cost to the customer unless the customer has been previously notified as to the impracticality of such reassembly; except that the customer shall be required to pay for any repairs already completed as specified in section 42-9-106 (3)(a).

Editor's note: This section is similar to former § 42-11-103.1 as it existed prior to 1994.

42-9-106. Amounts over estimate - storage charges - cancellation of authorized repairs. (1) Except when an estimate has been waived pursuant to section 42-9-104 (2)(b), if the charge for labor and parts is over the original estimate or any subsequent estimate by ten percent thereof or twenty-five dollars, whichever is less, and unless further oral or written consent is

given by the customer pursuant to section 42-9-105 (1), the motor vehicle repair facility shall return the motor vehicle to the customer upon the payment of the amount of the original estimate or any subsequent estimate plus ten percent thereof or twenty-five dollars, whichever is less, and the motor vehicle repair facility shall not be entitled to a lien for said excess pursuant to section 38-20-106, C.R.S.

(2) No charge shall be made for storage of the motor vehicle unless the motor vehicle is not picked up by the customer within three days, exclusive of Saturday, Sunday, legal holidays, and any days the repair facility is closed for business, after the customer is notified that the repairs have been completed and the customer was notified, as required by section 42-9-104 (2)(a), that such storage charges would accrue. Storage charges may accrue pursuant to a written agreement, separate from any other repair document, between the motor vehicle repair facility and the customer. The written authorization, in bold type, shall state the following:

Storage Fee Policy

A storage fee may not be charged unless a written agreement, separate from any other repair document, for an amount is reached. A storage fee may be charged, beginning on the fourth day, if a motor vehicle is not removed within three days after the customer is notified that repairs have been completed, excluding Saturdays, Sundays, legal holidays, and any days the repair facility is closed for business.

The motor vehicle repair facility shall make a record of the notice of completion on the work order. The record shall include the date and time of the notice of completion, the manner of communication of the notice, the telephone number called, if any, and the name of the person receiving the notice.

(3) (a) If the customer cancels previously authorized repairs prior to their completion, the motor vehicle repair facility shall be entitled to charge the customer for repairs, including labor and parts, which have already been performed so long as said charge does not exceed the original estimate or any subsequent estimate for the repairs already performed.

(b) In requesting the return of the motor vehicle subsequent to the cancellation of previously authorized repairs, the customer shall specify whether it should be reassembled in substantially the same condition in which it was delivered to the motor vehicle repair facility or in such a lesser condition of assembly as the customer shall designate. Reassembly shall be completed by the motor vehicle repair facility within three days of the customer's request, excluding Saturday, Sunday, any legal holiday, and any days the repair facility is closed for business.

(c) All charges for reassembly, whether or not the requested repairs are completed, shall be included in the original estimate or in any subsequent estimate.

(4) Nothing in this section shall require a motor vehicle repair facility to give an estimate if such facility does not agree to perform the requested repairs.

(5) Payment by the customer of any amount in excess of those allowed by this article or for unauthorized repairs is not a waiver of any of the rights granted by this article to the customer, nor shall such payment be construed as consent to additional repairs or excess charges.

(6) All written estimates and other information required by this section shall be recorded on or attached to the invoice described in section 42-9-108.

42-9-107. Used, reconditioned, or rebuilt parts. The motor vehicle repair facility shall specify in the original estimate whether any parts to be installed are new original equipment manufacturer, new nonoriginal equipment manufacturer, used, reconditioned, or rebuilt and then shall obtain the consent of the customer before any new original equipment manufacturer, new nonoriginal equipment manufacturer, used, reconditioned, or rebuilt parts are installed in the motor vehicle. If such consent is oral, the motor vehicle repair facility shall make a record of such consent on the work order and shall include the date, time, and manner of consent. The telephone number called, if any, and the name of the person giving and receiving the consent, if different than the original customer, shall be recorded on the work order. The motor vehicle repair facility shall adjust the original estimate for new parts to reflect the altered cost if used, reconditioned, or rebuilt parts are authorized and installed.

42-9-108. Invoice. (1) All repairs done by a motor vehicle repair facility shall be recorded on a customer's invoice. A legible copy of the customer's invoice shall be given to the customer when the motor vehicle is returned to the customer. The original or a legible copy of the customer's invoice shall be retained for at least three years by the motor vehicle repair facility.

 - (h) The legible initials of the person filling out any portion of the invoice not specified in this subsection (2); and

(i) A copy of any warranty issued by the motor vehicle repair facility setting forth the terms and conditions of such warranty.

(3) Itemization of a particular part is not required on the customer's invoice if no charge is levied for that part.

(4) Miscellaneous designations such as "shop supplies", "paint and paint supplies", and "shop materials" may be used on the customer's invoice.

(5) Designation of mechanics, repairers, parts, or labor is not required on the customer's invoice if the customer has been given a flat-rate price, if such repairs are customarily done and billed on a flat-rate price basis and agreed upon by the customer, and if such flat rates are conspicuously posted by the motor vehicle repair garage or otherwise made available to the customer prior to rendering the estimate.

42-10-101. Definitions. As used in this article, unless the context otherwise requires:

(1) "Consumer" means the purchaser, other than for purposes of resale, of a motor vehicle normally used for personal, family, or household purposes, any person to whom such motor vehicle is transferred for the same purposes during the duration of a manufacturer's express warranty for such motor vehicle, and any other person entitled by the terms of such warranty to enforce the obligations of the warranty.

(2) "Motor vehicle" means a self-propelled private passenger vehicle, including pickup trucks and vans, designed primarily for travel on the public highways and used to carry not more than ten persons, which is sold to a consumer in this state; except that the term does not include motor homes as defined in section 42-1-102 (57) or vehicles designed to travel on three or fewer wheels in contact with the ground.

(3) "Warranty" means the written warranty, so labeled, of the manufacturer of a new motor vehicle, including any terms or conditions precedent to the enforcement of obligations under that warranty.

42-10-102. Repairs to conform vehicle to warranty. If a motor vehicle does not conform to a warranty and the consumer reports the nonconformity to the manufacturer, its agent, or its authorized dealer during the term of such warranty or during a period of one year following the date of the original delivery of the motor vehicle to a consumer, whichever is the earlier date, the manufacturer, its agent, or its authorized dealer shall make such repairs as are necessary to conform the vehicle to such warranty, notwithstanding the fact that such repairs are made after the expiration of such term or such one-year period.

42-10-103. Failure to conform vehicle to warranty - replacement or return of vehicle. (1) If the manufacturer, its agent, or its authorized dealer is unable to conform the motor vehicle to the warranty by repairing or correcting the defect or condition which substantially impairs the use and market value of such motor vehicle after a reasonable number of attempts, the manufacturer shall, at its option, replace the motor vehicle with a comparable motor vehicle or accept return of the motor vehicle from the consumer and refund to the consumer the full purchase price, including the sales tax, license fees, and registration fees and any similar governmental charges, less a reasonable allowance for the consumer's use of the motor vehicle. Refunds shall be made to the consumer and lienholder, if any, as their interests may appear. A reasonable allowance for use shall be that amount directly attributable to use by the consumer and any previous consumer prior to the consumer's first written report of the nonconformity to the manufacturer, agent, or dealer and during any subsequent period when the vehicle is not out of service by reason of repair.

(2) (a) It shall be presumed that a reasonable number of attempts have been undertaken to conform a motor vehicle to the warranty if:

(I) The same nonconformity has been subject to repair four or more times by the manufacturer, its agent, or its authorized dealer within the warranty term or during a period of one year following the date of the original delivery of the motor vehicle to the consumer, whichever is the earlier date, but such nonconformity continues to exist; or

(II) The motor vehicle is out of service by reason of repair for a cumulative total of thirty or more business days of the repairer during the term specified in subparagraph (I) of this paragraph (a) or during the period specified in said subparagraph (I), whichever is the earlier date.

(b) For the purposes of this subsection (2), the term of a warranty, the one-year period, and the thirty-day period shall be extended by any period of time during which repair services are not available to the consumer because of war, invasion, strike, or fire, flood, or other natural disaster.

(c) In no event shall a presumption under paragraph (a) of this subsection (2) apply against a manufacturer unless the manufacturer has received prior written notification by certified mail from or on behalf of the consumer and has been provided an opportunity to cure the defect alleged. Such defect shall count as one nonconformity subject to repair under subparagraph (I) of paragraph (a) of this subsection (2).

(d) Every authorized motor vehicle dealer shall include a form, containing the manufacturer's name and business address, with each motor vehicle owner's manual on which the consumer may give written notification of any defect, as such notification is required by paragraph (c) of this subsection (2), and the form shall clearly and conspicuously disclose that written notification by certified mail of the nonconformity is required, in order for the consumer to obtain remedies under this article.

(3) The court shall award reasonable attorney fees to the prevailing side in any action brought to enforce the provisions of this article.

(b) A nonconformity is the result of abuse, neglect, or unauthorized modifications or alterations of the motor vehicle by a consumer.

Nothing in this article shall affect the other rights and duties between the consumer and a seller, lessor, or lienholder of a motor vehicle or the rights between any of them. Nothing in this article shall be construed as imposing a liability on any authorized dealer with respect to a manufacturer or creating a cause of action by a manufacturer against its authorized dealer; except that failure by an authorized dealer to properly prepare a motor vehicle for sale, to properly install options on a motor vehicle, or to properly make repairs on a motor vehicle, when such preparation, installation, or repairs would have prevented or cured a nonconformity, shall be actionable by the manufacturer.

(1) (a) The department may specially register and issue a horseless carriage special license plate for motor vehicles valued principally because of the vehicles' early date of manufacture, design, or historical interest or valued as collector's items.

(b) For the purposes of this section, "early date of manufacture" means that a motor vehicle was manufactured at least fifty years before the current date of registration.

(2) The plates issued under subsection (1) of this section must be of a design, determined by the director, that is different from that used by the state for regular motor vehicle registration.

(3) (a) The director shall register the vehicles and issue plates for a period not exceeding five years, but all the registrations and plates shall expire on the same date regardless of the date of issue.

(b) Upon the expiration of the five-year period ending with the year 1959, and each five years thereafter, the registration plate originally issued for each vehicle must remain with the vehicle. The director shall issue a tab to be securely fastened to the plate showing the five years for which the motor vehicle is registered.

(c) A person who has registered a vehicle under this section shall renew the registration within thirty days prior to its expiration date. If the application for renewal, together with the fees, is not received by the director prior to the expiration date, the director shall notify the registered owner, at the owner's last-known address, by regular mail, to reregister the vehicle or surrender the registration plate within ten days after the expiration date of the registration. If the notice is not complied with, the director shall secure the return of the plate.

In addition to the five-dollar registration fee, the director shall collect the one-dollar-and-fifty-cent annual specific ownership fee provided by law for each year of registration, which additional fee shall be collected for the number of years remaining at the time of registration and issuance or renewal of the registration.

(5) A person may drive a motor vehicle with the special registration plates authorized by this section or section 42-12-302 on the streets and highways, but only:

(a) To and from assemblies, conventions, or other meetings where such vehicles and their ownership are the primary interest;

(b) On special occasions, for demonstrations and parades;

(c) On occasions when the operation of the vehicle on the streets and highways will not constitute a traffic hazard; and

(d) To, from, and during local, state, or national tours held primarily for the exhibition and enjoyment of such vehicles.

(6) Upon the sale or transfer of a motor vehicle bearing a special registration plate, the plate remains with the vehicle and is transferred to the new owner. The new owner shall title such motor vehicle as provided by law and give notice of the transfer of ownership to the department.

(7) Applications for special registration of motor vehicles are made directly to the department. The department shall administer all matters concerning such registration. The department shall transfer fees received from special registrations to the state treasurer, who shall credit the fees to the highway users tax fund.

(8) The director may prepare any special forms and issue any rules necessary to implement this section.

(9) When the director receives an application for a title to a vehicle under subsection (1) of this section, the director shall accept the original motor or serial number on the vehicle and shall not require or issue a special identification number for the vehicle.

Original plates must meet the following criteria in order to qualify for use under this section:

(a) The plates were made at least thirty years prior to registration under this section;

(b) The plates are embossed with the year of original issue;

PART 4

COLLECTOR'S ITEMS

42-12-401. Registration of collector's items - fees - definition. (1) Except for motor vehicles that are entitled to registration under section 42-12-301, owners of collector's items shall apply for a title, register, and pay a specific ownership tax in the same manner as provided in this title for other motor vehicles, with the following exceptions:

(a) Such collector's items are registered for periods of five years. The taxes and fees imposed for registration of a collector's item for each five-year registration period is equal to five times the annual taxes and fees that would otherwise be imposed for the registration of the motor vehicle under this title and under title 43, C.R.S.; except that the amount of a surcharge imposed pursuant to section 43-4-804 (1)(a) or 43-4-805 (5)(g), C.R.S., is the amount specified in the applicable section. In addition to any other taxes and fees, if a collector's item is registered in a county that is a member of a highway authority and the authority has imposed an annual motor vehicle registration fee pursuant to section 43-4-506 (1)(k), C.R.S., then five times such annual motor vehicle registration fee is imposed and remitted to the authority.

(b) The motor vehicle's compliance with emissions standards is governed by section 42-12-404.

(c) The annual registration fee for a truck or truck tractor that has an empty weight of six thousand one pounds or more, or a declared gross vehicle weight of sixteen thousand one pounds or more and is a collector's item, is sixty-five dollars if such vehicle is used exclusively for noncommercial transportation and only used to drive:

(I) To and from assemblies, conventions, or other meetings where such vehicles and their ownership are the primary interest;

(II) For special occasions, demonstrations, and parades and on occasions when their operation on the streets and highways will not constitute a traffic hazard; or

(III) Traveling to, from, and during local, state, or national tours held primarily for the exhibition and enjoyment of such vehicles by their owners.

(d) For purposes of paragraph (c) of this subsection (1), "noncommercial transportation" means a truck or truck tractor used exclusively for private transportation of passengers or cargo for purposes unrelated in any way to a business or commercial enterprise.

(2) (a) An owner of a collector's item that is not operated upon the highways of this state and that is kept on private property for the purpose of maintenance, repair, restoration, rebuilding, or any other similar purpose shall pay an annual specific ownership tax as provided in section 42-3-106 on any such motor vehicle owned by the owner, except owners of parts cars or licensed garages or licensed automobile dealers. The owner shall pay the specific ownership tax in the manner provided in section 42-12-301.

(b) Upon payment of the specific ownership tax as provided in this subsection (2), the department shall issue to the owner of the motor vehicle for which the tax has been paid a license, sticker, decal, or other device evidencing such payment, as may be prescribed by the director. When such device or license is affixed to the motor vehicle for which it is issued, the owner of that motor vehicle is permitted to keep such motor vehicle on private property for the purposes of maintenance, repair, restoration, rebuilding, or renovation.

(3) Notwithstanding the amount specified for any fee in subsection (1) of this section, the director by rule or as otherwise provided by law may reduce the amount of one or more of the fees if necessary pursuant to section 24-75-402 (3), C.R.S., to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the director by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4), C.R.S.

(4) An applicant may apply for personalized license plates issued for a motor vehicle registration issued pursuant to this section. If the applicant complies with section 42-3-211, the department may issue such plates upon payment of the additional fee required by section 42-3-211 (6) for personalized license plates. If the applicant has existing personalized license plates for a motor vehicle, the applicant may transfer the combination of letters or numbers to a new set of license plates for the vehicle upon paying the fee imposed by section 42-3-211 (6)(a) and upon turning in such existing plates to the department as required by the department. A person who has obtained personalized plates under this subsection (4) shall pay the annual fee imposed by section 42-3-211 (6)(b) to renew such plates. The fees imposed by this subsection (4) are in addition to all other taxes and fees imposed for collector's license plates.

(a) The address and telephone number of the Colorado state patrol;

- (b) The location of storage of the motor vehicle;
 - (c) A description of the motor vehicle, which shall include, if available, the make, model, license plate number, mileage, and vehicle identification number;
 - (d) The reason for which the motor vehicle was ordered held;

 - (f) That, if the owner fails to request a hearing or if the impoundment is determined to be valid and the owner does not comply with the appropriate statute within thirty days, the motor vehicle may be subject to sale; and
 - (g) That, in order to obtain a hearing concerning the validity of the impoundment, the owner must request such hearing in writing in the county court of the county in which the motor vehicle was impounded within ten days after the date appearing on the notice.
- (3) Any notice sent to the owner of a motor vehicle pursuant to this section shall also include a form that the owner shall use when requesting a hearing in the county court of the county in which the motor vehicle is impounded. Such form shall include at least the following:
- (a) The name and address of the owner of the impounded motor vehicle;

42-20-108. Rules and regulations for transportation of hazardous materials. (1) The chief shall promulgate rules and regulations pursuant to section 24-4-103, C.R.S., for the safe transportation of hazardous materials by motor vehicle, both in interstate and intrastate transportation. Such rules and regulations shall be applicable to any person who transports or ships, or who causes to be transported or shipped, a hazardous material by motor vehicle. Such rules and regulations may govern any safety aspect of the transportation of hazardous materials which the chief deems appropriate, including, but not limited to, the packaging, handling, labeling, marking, and placarding of hazardous materials and motor vehicles transporting hazardous materials, the qualifications of drivers of motor vehicles transporting hazardous materials, financial responsibility requirements, and the use of any package or container in the transportation of hazardous materials which is not manufactured, fabricated, marked, labeled, maintained, reconditioned, repaired, or tested in accordance with such rules and regulations.

42-20-108.5. Materials used for agricultural production - exemption - legislative declaration. (1) The general assembly hereby finds, determines, and declares that the federal government has extended federal hazardous materials rules to agricultural producers in 49 CFR 173.5 in a way that would be unduly burdensome to agriculture without contributing significantly to public safety. The general assembly further finds, determines, and declares that the federal rules give explicit authority to the states to exempt themselves from the federal rules, and that this section is intended to exempt Colorado agriculture from such rules. The general assembly further finds, determines, and declares that it is imperatively necessary for the chief to adopt the rules required by this section in time to meet the deadline imposed by the federal rules.

(2) As used in this section, unless the context otherwise requires:

(3) The transportation of an agricultural product other than a class 2 material, as such term is used in 49 CFR parts 172 and 173, over local roads between fields of the same farm, is excepted from the requirements of this part 1 when it is transported by a farmer who is an

intrastate private motor carrier and the movement of the agricultural product conforms to rules of the chief, in consultation with the department of agriculture regarding such movement. The chief shall, in consultation with the director of the department of agriculture, promulgate rules and regulations pursuant to section 24-4-103, C.R.S., for the intrastate transportation of agricultural products.

(4) The transportation of an agricultural product to or from a farm, within one hundred fifty miles of such farm, is excepted from the emergency response information and training requirements in subparts G and H of 49 CFR part 172, and this article when:

(a) It is transported by a farmer who is an intrastate private motor carrier;

(b) The total amount of agricultural product being transported on a single vehicle does not exceed:

(I) Seven thousand three hundred kilograms or sixteen thousand ninety-four pounds of ammonium nitrate fertilizer properly classed as division 5.1.PG III in a bulk packaging; or

(II) One thousand nine hundred liters or five hundred two gallons for liquids or gasses, or two thousand three hundred kilograms or five thousand seventy pounds for solids of any other agricultural product;

(c) The packaging conforms to rules adopted by the chief in consultation with the department of agriculture. Such rules shall be adopted by September 30, 1998. Such products are hereby authorized for transportation.

(d) Each person having any responsibility for transporting the agricultural product for shipment pursuant to this subsection (4) is instructed in the applicable requirements of this section.

PART 2

PERMIT SYSTEM FOR HAZARDOUS MATERIALS

42-20-201. Hazardous materials transportation permit required. Except as otherwise provided in this part 2, no transportation of hazardous materials by motor vehicle which requires placarding under 49 CFR 172 or 173 shall take place in, to, from, or through this state until the department of transportation issues a permit, in accordance with the provisions of this part 2, authorizing the applicant to operate or move upon the public roads of this state a motor vehicle or a combination of motor vehicles which carries hazardous materials. This part 2 does not apply to motor vehicles owned by the federal government, motor vehicles when used to transport to or from the farm or ranch site products used for agricultural production, or farm machinery which is exempted from registration requirements by section 42-3-103, unless such vehicles are used in furtherance of any commercial business other than agriculture. This part 2 applies to motor vehicles owned by the state or any political subdivision thereof; except that such vehicles are exempt from the fees provided in section 42-20-202. The requirements of this part 2 are in addition to, and not in substitution for, any other provisions of law.

Editor's note: This section is similar to former § 43-6-201 as it existed prior to 1994.

42-20-202. Transportation permit - application fee - rules. (1) (a) Except as otherwise provided in this section, each person desiring to transport hazardous materials which require placarding under 49 CFR 172 or 173 in, to, from, or through this state shall submit a permit application for an annual permit to the department of transportation before beginning such transportation. Permit applications must be in a form designated by the department, and the department shall maintain records of all such applications.

(b) Each annual permit is valid for one year following its issuance and shall be issued after the approval of the permit application by the department of transportation and upon the payment of a permit fee, which fee must be based on the number of motor vehicles the applicant operates within this state, as follows:

Number of Motor Vehicles	Permit Fee
1 - 5	\$ 10
6 - 10	25
11 - 50	125
51 - 100	200
101 - 300	350
over 300	400

(c) Single trip permits may be obtained at all port of entry weigh stations. Each person transporting hazardous materials in, to, from, or through this state who has not obtained an annual permit from the department of transportation shall apply at the closest possible port of entry weigh station or at a department of transportation office for a single trip permit. Each single trip permit is valid for a single continuous business venture, but in no event shall the permit be valid for more than seventy-two hours, unless extended by any enforcement official for any reason the official deems advisable, including mechanical difficulties and road and weather conditions. A single trip permit shall be issued upon the approval of the permit application and upon the payment of a twenty-five-dollar permit fee.

(d) The department of transportation shall provide the option to a company filing for a permit under this subsection (1) to file an express consent waiver that enables the company to designate a company representative to be a party of interest for a violation of this section. The appearance of the company representative in a court hearing without the operator when the operator has signed such waiver shall not be deemed the practice of law in violation of article 93 of title 13.

(2) No annual permit application shall be approved unless the applicant:

(a) Supplies proof of having obtained liability insurance as required by the United States department of transportation pursuant to 49 CFR 387. Proof of such liability insurance policy shall be filed with the department of transportation. The insurance carrier shall give thirty days' written notice for nonpayment of premium and ninety days' notice for nonrenewal of policy to the department before the cancellation of such policy. At any time that the insurance policy lapses, the permit shall be automatically revoked.

(b) Agrees to comply with the rules and regulations promulgated pursuant to section 42-20-108.

(3) No single trip permit application shall be approved unless the applicant:

(a) Supplies proof of having liability insurance as required by the United States department of transportation pursuant to 49 CFR 387 or signs a verification under the penalty of perjury as provided in section 42-3-122 that the applicant has the liability insurance as required by the United States department of transportation pursuant to 49 CFR 387;

(b) Agrees to comply with the rules and regulations promulgated pursuant to section 42-20-108.

(4) The chief is authorized to promulgate such reasonable rules and regulations as may be necessary or desirable in governing the issuance of permits, if such rules and regulations are not in conflict with other provisions of state law.

(5) Any fees collected pursuant to this section shall be transmitted to the state treasurer, who shall credit the same to the hazardous materials safety fund created in section 42-20-107.

The permit is open to inspection or electronic verification by any enforcement official.

(2) In the event of an accident involving hazardous materials, the operator of the motor vehicle shall provide the shipping papers to the emergency response authorities designated in or pursuant to article 22 of title 29, C.R.S., and immediately bring to their attention the fact that the motor vehicle is carrying hazardous materials.

PART 3

ROUTE DESIGNATION FOR HAZARDOUS MATERIALS

42-20-300.3. Definitions. As used in this part 3, unless the context otherwise requires:

(1) "Route designation" means a designation of a route by the state patrol under this part 3.

Source: L. 2011: Entire section added, (HB 11-1176), ch. 56, p. 149, § 1, effective August 10.

42-20-301. Route designation. (1) (a) The patrol, after consultation with local governmental authorities, has the sole authority to designate which public roads are to be used and which are not to be used by motor vehicles transporting hazardous materials. The patrol shall exercise its authority in accordance with section 42-20-302. Gasoline, diesel fuel, and liquefied petroleum gas are exempt from route designation unless the petitioning authority specified in section 42-20-302 requests their inclusion. The patrol may exempt crude oil from route designation after a request from the petitioning authority.

(b) The patrol may include, as part of designated route restrictions, the closing of streets and highways and other conditions or restrictions the patrol deems advisable, except for hours of operation and curfews.

(c) Routes designated by the patrol in accordance with this part 3 do not apply to motor vehicles when used to transport to or from the farm or ranch site products necessary for agricultural production.

(d) No city, county, or city and county may impose restrictions on hours of operation on designated routes; except that this paragraph (d) does not apply to any city, county, or city and county that, by resolution or ordinance, had routes or hours of operation restrictions in effect on July 1, 1985.

(2) The patrol may approve route designations only for those materials listed in table 1 of 49 CFR 172.504, in any quantities, and those materials listed in table 2 of 49 CFR 172.504, when carried in quantities of five hundred gallons or more; except that the patrol may not accept or approve route designations for those materials listed in table 2 when packaged in containers of five gallons or less or when packaged as consumer commodities as defined in 49 CFR 173.1200.

(3) Notwithstanding any other provision of this part 3 or part 1 or 2 of this article to the contrary, the transportation commission may regulate hours of operation of the Eisenhower-Johnson tunnels, structure numbers F13Y and F13X, respectively, on interstate 70.

Editor's note: This section is similar to former § 43-6-301 as it existed prior to 1994.

42-20-302. Application for route designation - procedure - approval. (1) Petitions for new route designations or for a change in an existing route designation may be submitted to the patrol no more than once a year:

(a) By a county, with respect to any public road maintained by the county, upon approval of the petition by the board of county commissioners of such county;

(b) By a town, city, or city and county, with respect to any public road located within such town, city, or city and county, including any portion of a county primary road designated pursuant to section 43-2-110 (1.5), C.R.S., that is subsequently annexed by a town or city, upon approval of the petition by the governing body of such town, city, or city and county;

(c) By the department of transportation, with respect to any public road maintained by the state, except for any public road located within a town, city, or city and county, upon approval of the petition by the transportation commission;

(d) By a public highway authority created pursuant to part 5 of article 4 of title 43 with respect to any public highway, as defined in section 43-4-503 (12), that it maintains, either directly or indirectly through a concession agreement or other agreement with a third party, upon approval of the petition by the board of directors of the public highway authority; or

(e) By any governmental entity that is a partner in a public-private partnership with respect to any highway, road, or street that it maintains, either directly or indirectly through a concession agreement or other agreement with a private partner, upon approval by the governing body of the governmental entity.

(2) A county, town, city, or city and county, with approval of the patrol, may adopt and enforce regulations or ordinances concerning the parking of motor vehicles, if such regulations and ordinances, as enforced or applied, do not prohibit or exclude motor vehicles carrying hazardous materials from the enforcing jurisdiction and do not unreasonably limit parking on or near the designated routes through the enforcing jurisdiction or for pickup and delivery.

(3) The petition shall describe specifically the designation sought, shall identify any local business or industry which is known to be significantly reliant on hazardous materials transportation and which would be affected by the designation, and shall include any other information which is necessary for the patrol to act upon the petition and which is required by rule and regulation of the patrol.

(4) Upon the filing of a complete petition with the patrol, the patrol shall give adequate public notice of such petition, including at least the following:

(a) Notification by certified mail to the governing body of any county, town, city, or city and county which would be affected by the route designation; and

(b) Publication in a newspaper having general circulation in each affected community once each week for three consecutive weeks.

(5) If the petitioner is not the department of transportation, the patrol shall provide a copy of the petition to the department of transportation for its review and comment.

(6) No sooner than thirty days after the requirements of subsections (3) and (4) of this section have been met and after reasonable notice to the petitioner, to the department of transportation, and to any persons requesting such notice, the patrol shall hold an informal public conference on the petition. At such conference, representatives of the petitioner and the department of transportation and any interested persons shall be afforded the opportunity to comment on the petition, and the petitioner shall have the opportunity to amend the petition. The patrol shall approve the designation if there is no opposition to the petition and if the requirements of subsection (8) of this section have been met.

(7) If there is opposition to the petition at the informal public conference and no agreement can be reached, the patrol shall hold a formal public hearing and act on the petition in accordance with the provisions of article 4 of title 24, C.R.S.

(8) No route designation shall be approved by the patrol unless it finds that:

- (a) The routes available for the transportation of hazardous materials by motor vehicle:
 - (I) Are feasible, practicable, and not unreasonably expensive for such transportation;
 - (II) Are continuous within a jurisdiction and from one jurisdiction to another;
 - (III) Provide greater safety to the public than other feasible routes; and
 - (IV) Do not unreasonably burden interstate or intrastate commerce;
 - (b) The designation is not arbitrary or intended by the petitioner merely to divert the transportation of hazardous materials to other communities;

PART 4

NUCLEAR MATERIALS - GENERAL PROVISIONS

42-20-401. Legislative declaration. It is hereby determined and declared that nuclear materials create a potential risk to the public health, safety, and welfare of the people of the state of Colorado. As an origination point of nuclear waste and a corridor state through which nuclear materials pass, the state has a duty to protect its citizens and environment from all hazards created by the transportation of nuclear materials within its borders. State and public participation in planning for the transport of nuclear materials and in the development of a plan to cope with all phases of the nuclear materials problem is essential in order to adequately prepare for potential nuclear incidents. To that end, it is the purpose of this part 4 and part 5 of this article to require safe and environmentally acceptable methods of transporting nuclear materials within this state in a manner consistent with the laws of the United States and the rules and regulations promulgated by agencies of the United States.
